GROWING PACE OF PACIFIC WAR KEEPS PRESSURE ON SPRAGUE WORKERS

Radio Industry to Provide Better Way of Life - Says Cosgrove
President of Radio Manufacturers Association Predicts Bright Future for Electronics and our Future — Sparks from "Sprague on Parade"

Need of Armed Services for Electric—Electronic Components Continues High

After the war the radio industry will provide "new things in radio, music, entertainment, new means of education, and a better way of life," according to R. C. Cosgrove, Radio Manufacturers Association President.

"Radio, as we know it today, started twenty-five years ago in Pittsburgh, Pennsylvania, when Station KDKA broadcast the Harding-Cox election returns to a limited number of nearby amateur radio operators. Interest spread quickly across the country, and radio broadcasting was born.

"In nineteen twenty-four, nine manufacturers of home radio receivers and other radio equipment organized the Radio Manufacturers Association. Today, there are two hundred and ten manufacturing members, representing eighty per cent of the nation's radio manufacturing industry.

Musical Therapy - Helpful in Reconditioning

"Music is fun," says the veteran at Lovell General Hospital. "Music is therapeutic," says Captain Sidney Licht. "Both are right. Musical Therapy has been in common use for sometime for patients who have long convalescence or who are mentally disturbed. Captain Sidney Licht of the Lovell General Hospital at Fort Devens decided to try it for the strengthening of muscles and the freeing of joints and scarred tissue. He found it invaluable. and Musical Therapy is now considered one of the most important treatments in reconditioning injured veterans. Piano playing or the brushing motion of the fingers against the strings of a Mandolin or ukulele for stiff hands or fingers; violin movements for injured elbows or shoulder joints; pumping a foot pump organ for feet and leg conditions; make treatment not only more interesting and enjoyable, but expedite recovery.

One big problem in a hospital like Lovell General is morale. After an extensive survey Captain Licht learned that 90% of the people like music. On the theory that patients can brood sometime for patients who have long convalescence or who are mentally disturbed. ON THE BEACH OF SAIPAN

CALLING YOUR ATTENTION

Thomas R. Ferras, G.M. 2-c, U.S.S. LST. 274 sends picture of land-}

ING Saipan Beach of the Mariana Islands. "That's my ship -- the-one way over -- you can see the number on the bow," he states. Ferras was formerly in Block Annex Department, his mother is in Block Test.
Radio Industry — A Better Life of Way

(Continued from page 1)

"The early years of uncontrolled broadcasting, the years of interference and overflashing of stations, brought about the creation of the Federal Communications Commission. The FCC has been of tremendous value to the radio industry by the allocation of frequencies and in general supervision of conditions in this public service vital waterway.

"How free of government interference, and how great a public contribution the industry has been able to make, is best understood by comparison with other countries where most of the broadcasting is completely government-controlled or government-operated. In those countries, England, one must pay an annual license fee to use a home radio set.

"In the United States, on the other hand, we have more than sixty medium-sized broadcasting stations in our own country.

"The station industry has made tremendous contributions to the war program. It supplies equipment not only to our own armed forces, but to our Allies as well. Because of the war, our radio industry has produced more than $500 million worth of radio equipment in nineteen months. In the coming year, alone, we produce more radio and radar equipment than our Allies and the Axis combined.

"After the war, this great industry will bring out finer radios and other electronic equipment to enhance our standards of living, and to further advancements and knowledge through our war experiences. The engineering departments of the broadcasting companies in the radio industry have been enlarged greatly, and the number of persons trained in the art and science of radio have multiplied unceasingly.

"Out of this fine trained, enthusiastic group will come new things in radio, radar, and telephones — all of which will bring new pleasures, new entertainment, new means of education, and a better life of way."
Citation

George Cordy stopped at the Log Deck, while home on furlough, to fish at the original Citrus which he had fished in childhood and the members of the 88th Rafford. It is said in part: "For outstanding performance in action against enemy forces off Redanangami Isla, Solomon Islands, on the night of July 3-4, 1943. After staging a violent battle as part of the small Task Force which destroyed a superior Japanese surface force, the Rafford remained behind with an accompanying destroyer to save the survivors of the torpedoes 88. Helena. "The valorous achievements of the Rafford will make a great credit upon the United States Naval Service."

Marceau Awarded Air Medal

Sergeant Eugene Marceau, formerly supervisor in the Banking Department, has been awarded the Air Medal "for meritorious achievement in aerial combat" it was announced recently.

Lieutenant Colonel John Doolittle, commanding Eighth Air Force, for combat achievement on their first mission on December 25th, but it was not received official commendation from the 466th Bombardment (iron] which received official commendation from the Radford. It was the longest initial assault ever flown by any unit in the history of the European theater and one of the heaviest daylight bombardments of the German capital on record.

It has been reported to the Log Staff that "Jim" has been promoted to Staff Sergeant.

Home From Italy

Lt. John S. Fairwe, A.N.C. has been awarded a three weeks' furlough with his mother, Jessie of Selkirk, after serving overseas for the past two years. She will report to Atlantic City for further assignment.

Recovering

Word has been received that Pvt. Harry Davie, wounded in action in Belgium, is now a patient at an English hospital and making "normal recovery."

Veteran of Solomons and New Guinea "is an Employee of Sprague Electric Company for Eight Years.

To the wife and family of Pvt. Robert Button is extended the sincere sympathy of the Sprague Electric Company and its employees.

From the Office of the Victory Log

Dear Editor:

I was happy to hear that my wife, Rose, is working in the Ind. Oil Dept. I was happy to hear that my wife, Rose, is working in the Ind. Oil Dept.

Raymond Johnson, S-2-C, stationed at Ft. Lauderdale, Fla. He is formerly worked in B.T.A.

NEW SEAMAN VERSION

Praise the Lord — the ammunition passed me.

Best of the best to all. Keep up the swell work.

Sincerely,

Jim Dillon

News from low Guimby

The following excerpts were taken from a letter received by Harry Kalker from Low Guimby, formerly of the Sprague Room, Quote: "The natives over here are really rugged and the terrain is the same but one thing is different. Every other day we have to go out and hunt with our spears and our arrows are nice. I am expecting Johnny Paradise tonight. Guess he is going to be the best. I am looking forward to that time when I see my name on the list. But I'll be here at least another year before I can think of that."

Best of the best to all. Keep up the swell work.

Sincerely,

Jim Dillon

Arthur Delporte, S-2-C, husband of Mary, of Check Inspectors, is stationed at Charleston, S. C.

Citation for Robert Cutler

Serving with the 15th AAF in Italy

The Flying Air Force Air Force Liberator group was recently awarded the War Department's Distinguished Unit Citation for a daylight bombing mission against the Flushing oil refineries at Vienna, Austria. Members of both ground and air crews were included. Here is the Distinguished Unit Badge. Sgt. Cutler holds the Theater Ribbon with two Battle Stars.

Sympathy is extended to the family of the late Sgt. Arthur Flowers who lost his life in Luxembourg, Jan. 28th. Three of his sisters and a brother are employed at the Sprague Electric Company: Josephine of Bos- thung, Theresa of Roosevelt, Jennie of Broad St., and brother Dominic of Stock Room.

Whereabouts of:

Sgt. Clifford R. McCall, who has been serving with the Army for over three years, is now stationed in England. He was recently awarded the Good Conduct Medal by his company. He is in Italy and his brother, Joseph, is now stationed in China.

Cpl. Conrad Allard, wounded in action in Belgium, is now stationed at Berlin, Germany. He was former supervisor of the New Haven Maintenance Department. He was slightly wounded on Luzon, according to a telegram received by his parents, Mr. and Mrs. John J. King. Clifford is stationed in a communication unit, and has been in the Pacific area since September 1943.

Lt. Arthur Jones, son of Jessie Jones of the Banking Department, was slightly wounded on Luzon, according to word received recently. Arthur holds the Good Conduct medal, and served at New Caledonia, New Guinea, and New Guinea, as well as the Philippines.

Dear Editor:

I received the Log today, and can't tell you how much I appreciate it. I was very glad to hear that Sprague workers were praised for buying War Bonds. I am sure Sprague workers will, and will keep it up — and also keep production rolling for Victory.

Sincerely,

Bill Panniti

HEAVY — 10 MAIDS!

Faraway husbands are missed with extra poignancy by wives who have to share coal into a furnace, observes Lieutenant-C atul Harlan Miller, columni st.
We are glad to report that the number of persons in this department, who have been absent from work due to illness in December, shows an increase over November. However, we are proud of our De-
curred, we are happy to report that we have reason to expect further improvement in the health situation.

Peg Viall has taken up pipe smoking. We are glad to report that she has taken to it quite smoothly. We wish her success in her new endeavor.

Annie Langer, our former co-worker who has made a successful debut over Station WGY as a weather girl, is now representing her former department. We are enjoying a bit of sunshine in the air.

The impregnating Department expresses its deepest sympathy in the death of Helen Boulton, who lost her husband in service. Bob was a member of our Department.

The Impregnating Department wishes to express its deepest sympathy in the death of Helen Boulton, who lost her husband in service. Bob was a member of our Department.

Perkyenville has been transferred from the Naval Hospital to the New Kent, N. J., Ambulance Hospital in L. I. We are still waiting for that 15-day furlough home. Her son, Lt. Laurence Dion, a pilot in the Air Corps is doing patrol and convoy duty.

In the Formation Department, ten of the boys in the Formation Department have been transferred to the various branches of our armed forces. Several of them, including Edward Dion, 2-c, have left on a destroy duty. He was a member of our Department.

We arc wondering who will be in charge of the shop in the future. Mrs. Dion, the mother of three children serving in the armed forces, is doing a swell job eating. I don't think she had any trouble with the kids. We hope that good health and true happiness will be yours for all time.

The Department is sincerely grateful to our former Secretary, S. S. H. Short, for her many years of service. We wish her all the best in her new position.

The maintenance Gang wishes to thank the owners of the Orange Street Garage for the fine service they represent. We are enjoying a bit of sunshine in the air.

We are sad to report the death of Miss Ethel L. Lapham, former co-worker of our Department. "Mom" Short filled a long standing promise when she received her overseas training. Victoria, the daughter of Lt. Laurence Dion, Pilot with the Air Corps on a B-29, has served since March 1st.

We are proud of our Department's members, who have made a successful debut over Station WGY as weather girls. We wish them all the best in their new endeavor.

Mr. and Mrs. Joseph Allard, who were married thirty years on February 6, 1943. They are proud of their two sons in service: Warren Officer Wilford Allard, stationed in England, and their son, Capt. Ronald Allard, who was wounded in Belgium on January 15, 1945. The Allards also have four daughters employed at Spangles, and helping the war effort: Rita, in Block Test; Alice in Block Annexe; Laron in W.E. Department and Mrs. Jeanne Zlon on leave of absence. There is another son, Joseph Jr., working in the K.V.A. at Boston Road.

Many happy returns of the day to Joe Weldon who celebrated her birthday, February 5th, Elizabeth Lamoureaux who celebrated her 23rd. A cordial welcome to Gladys Hansen and Charles Lincoff to our department. Incidentally Charles, we all agree, are a typical "Ala- Lincoln" character. If it doesn't stop snowing soon, we suggest that offerer Lodger buy himself some snow shoes. In this way his worries of snowing himself out each morning would be ended.
