WE ARE LIVING IN THE ELECTRICAL AGE

Over the Top in Plant "March of Dimes" Drive

The response to the "March of Dimes" drive for the National Foun-
dation for Infantile Paralysis, has been highly gratifying.

While the drive lasts until January 30th, the response in our Sprague Plants was so spontaneous and enthusiastic that we are well above the amount raised last year, and still have 10 days to go.

At this writing (January 23) the amount raised was $801.40, and there are still a few departments to hear from. According to Plant Chairmen Ant Mathews and Jack Washburn, they are well satisfied with the cooperation received, and wish to thank all who have helped.

Berkshire Community Orchestra Rehearsing For Spring Concert

Plan To Give Two Concerts in North Adams

On January 7, the Berkshire Community Orchestra renewed its schedule of concerts and rehearsals, looking toward its Spring Concernts in April. Harry Harsehield, manager-secretary, reports that the development of the auxiliary orchestra is proceeding successfully and that they would become a definite and capable organization in a month or two.

At present, it is planned to give two concerts in the spring—one being for children. The program for the adults has been tentatively outlined to include: "unfinished Symphony" by Schubert, "Nra-cracker Suite" by Tchaikowsky, "L"Arlésienne Suite" by Bizet.

Leader Appears in Havana Concerts

During the holiday season, Professor Nin-Culmell of Williams College, director of the Berkshire Orchestra, flew to Havana, Cuba and performed in four separate concerts on December 29, 30 and January 2 and 3. In two of these concerts, he was the concert pianist with the famous Havana Philharmonic Orchestra. The other two performances were individual recitals. It is interesting to note that in the artistic programs of the Havana Philharmonic Orchestra, Nin-Culmell's success as conductor of the Berkshire Community Orchestra was given prominent mention.

This community at large is fortunate in having so widely recognized a musician, composer and director for its leader.

April Appearance Planned

It is planned to present the April concerts at the Drury High School, and judging by the success of the December concert, the attendance will reach capacity.

Of course, there are times when some of us find it necessary to be away from our work. Circumstances beyond our control get in their licks once in a while. But have you thought how being absent for little or no reason can be triggering.

To convince a hospitalized man that therapy room is restored.

Since Sprague Electric Employees have furnished a lounging or music room at that Hospital where patients can go for relaxation, we felt we would like to donate equipment for another room for the Occupational Therapy or Pre-Vocational Retraining section.

To date, our fund is sufficient to restart the project and we hope that as new equipment is needed and is available we can add to our donation.

On order now is equipment for Clay Modeling and Sheet Metal work.

Berkshire County Nurses Meeting

The January Dinner Meeting of the Berkshire County Industrial Nurses' Association was held January 8th at the Court Richmond, North Adams.

In spite of the indifferent weather and windsurfing a very successful meeting was held. One member came all the way from Lee. We often feel the stormiest evening is the best time for a nurses' meeting.

A most delicious dinner was served, the table was very festive with favor gifts for all. Our newly elected President, Mrs. Agnes Drummond of the Gevett Company of America, was present.

The meeting, as always, was pleasant and stimulating. Our purpose is to broaden our knowledge by discussion of Industrial Nursing problems.

The next meeting will be in March. At that time two nurses from the Sprague Electric Company, Mrs. Mabel P. Amos, R.N. of the Marshall Street plant and Miss Ethel Lewis, R.N. of Brown Street will be in charge.

It looks like Phil Caprinio has the last laugh on some of our doubting Thomases, for he told this story. Tony says that he has a cat and dog, and every day he lets his tomcats out, and the dog chases the cat around the house, and the cat eats up a tree near the house. Well, it seems Tony's father cut the tree down the other day, and when the animals happened to see each other, the dratted cat chased the dog, and the dog chased the cat, the cat climbed sixty feet in the air before realizing that the tree wasn't there!

And take our Blanche Bosver. The other morning, she decided to just follow the record, got on the bus, and after traveling some distance, found she was bound for Springfield, instead of Sugarloaf's Beaver Street.

Mary Bocchetti and Marjorie Husson have been quite busy at their Christmas work, which has been quite rewarding. Mary is 'Sweetheart of the Kitchen?' and Marjorie is making all sorts of toys to play with.

Safety Sayings . . .

Safety is that "little man who wasn’t there" at the time of an accident.

If you must dream — do it, at home, not on the highway.

When a man works another man does the work the working man as a working man would like to be worked or does the man work the working man as the man would like to work.

Johnny Hammerhead’s Boy Flies Off Handle

I am just a tool. And only a hard tool at that. What is worse I belong to the Hammer Family, and you know how folks have been treating us for generations. With the coming of the power tools and specialized machinery our lot has become steadily harder. We are dangerous business to the man who uses me. Last year my hammer, if my past treatment is any indication, would have hit a man who used me. Last year my hammer, if my past treatment is any indication, would have hit a man who used me.

The government has been telling us that we must work more and better.

Santa Claus (do we believe it?)

Sorry to have to every news of sorrow among all the festive notes: Our sincere sympathy to Mr. and Mrs. John Walsh on the death of Mrs. Walsh’s father.

We’re glad to have Craig Ferguson back after his illness.

The first race between Beatrice Shepard and Lois Lambert was won by Beatrice! My! we never know a girl could run so fast!

Sally Williams’ theme song is: "I’m the One Who’s Always Right!

We enjoy Freddie King’s singing — even though the songs are not too popular.

What vitamins do you take, Austin Ruge? — to get so much energy for those fancy dance steps. We could use some of it.

Many thanks to Bertha Fitzenwall, who keeps to reminded of Log deadline weekly.

Congratulations to Sally Jones as an outstanding "buddy" for our Department—sally says, "I'll do my best to meet the hour.

Season, George Meldan, old pal will miss you, especially at Christmas—hope you like foreign climes, and may you go to Rita Alabi—we'll remember you, kid. Al me we're hoping you're somewhere happy. Don’t be frightened, folks—it is seen in a bear in our Lab, but just Jimmy Malloy is his worry coat.

We see more of Johny Nodestroom of late—finally get a haircut.

Thanks to Miss Fincham—what we're hoping you're somewhere happy.

We have something to eat on Saturday morning, so like your fish cookies, "Al."

Our Eddy MacEwen has many alias—and knows how to use them. "Smart kid."

Congratulations to Johnny Nodestrom on the arrival of your new baby daughter.

We welcome you back after a leave of absence. We sure did miss you. Missed possing with you in the Leja and the rest of the gang. It's swell to have them back again.

Incorporated "Dea" Harmaan and Grace Arigone—where do you two get all your pep?

Bee Hill (5:00) and early to rise (5:00) makes Bee Hill a gleam in her eye. What's her personality?

Personalities

Ben Hill—ever so popular

Jenny Lynch—with a hearty laugh

Jane Parade—talking of her "buddy"

Mabel Mem—always so friendly

"Bucky" Bernardi—has a way with the girls

Mabel Moran—was once on time.

Jennie Battory—with a hearty laugh

"Peanut" Davis—talks about her baby daughter

Miss Helen DeMers of the Dry Goods Department, has announced her engagement to Mr. Ed-Chester of the Stockroom, March 1st. The young couple will be married in June. The engagement is announced.

Maintenance

By Little Lucy

"Wash" Santelli, our former co-worker has arranged his engagement to Miss Helen DeMers. His romance started in the PAA Department at Brown Street. The boys say they helped the romance along, but since "Wash" was transferred, they feel all credit is lost. Incidentally, Tony Woloski, our Romeo of the Maintenance is seriously thinking of making it a double wedding. The boys would like nothing better than a double celebration, Tony, so what do you say?

At Cardinal is the quiet type, but we all know what means. He sure is smooth.

"Rags" Wilson is kept pretty busy these days cleaning desks each morning. When his busy is not busy, he is occupying Charlie Done's as soon as Charlie is called out.

Tony Demo can certainly hold his own at a party, as was proved not long ago.

The day before Christmas, Tony Woloski was seen running down the street in his shirt sleeves. He was caught, and his last saw, "Look for you on the train again."

Ask Ernie Schofield why he was waiting for the Adams bus in front of Ligonier's. He bought the bus stop was on State Street.

Jerry Middlebrook had an unexpected train ride recently. While helping a friend get baggage on the train, he took too long a time to say goodbye so had to wait until the train reached Shelburne Falls where Jerry got off and waited for the return train. Jerry is an outside welder for Sprague.

After completing four years to M.P.'s, T. Lee Woloski is now in the U.S. Army. Tony Woloski is now doing the same for Sprague. He is working at the gate house this summer—so watch out.

Things We Miss About People

Good morning, our good friend Weathervane conditions were ideal for the spectroscopist, but a trifle warm for the skaters. The races were well handicapped by the officials and the spectators were treated to some fine skating by these youngsters, some of whom will have a fine chance in the coming Silver Skates Derby to be held in honor of George H. of our office. This vanguard that will participate in the contest would not be complete without the new Alpine Tow something to see. This is one of the latest types out and it is really a stand-out at "Dutch Hill." With two to three inches of new powdered snow, slopes throughout New England should be enough for the next few weeks.

Skiing—On Sunday, January 19, the North Adams Skiing Club will be holding the Geenawan School Championship with youngsters from all schools participating. Weather conditions were ideal for the spectators, but a trifle warm for the skaters. The races were well handicapped by the officials and the spectators were treated to some fine skating by these youngsters, some of whom will have a fine chance in the coming Silver Skates Derby to be held in honor of George H. of our office. Ice Fishing—Another month passes with all cutlery for ice fishing. This month has been the best yet for most of the ice fishers who have reported from various lakes and ponds. Big bass and even bull heads have hit the live bait and crane expectedly adds to the pleasure of some. Ice fishing is a good winter sport, but with the recreation Commission now enforcing a lubing with the blades... that's what many are saying. If you like to knit, you'll have fun making these socks and the little lady's sweater set. The directions for knitting the socks include several plain and fancy patterns. Just call the Beaver Street Dispensary for directions.
