On Saturday, March 17, the traditional green will make its appearance in honor of St. Patrick, the patron saint of Ireland, who is famous for the legend that he drove the snakes out of Old Erin. Snakes-removal, however, was not the only thing which occupied St. Patrick during his lifetime.

Although the exact date of his birth has not been determined, it is believed that St. Patrick was born about 389, the son of a middle class land proprietor and deacon the son of a middle class land proprietor and deacon.

He made several trips to Rome and brought back many valuable relics, which it is believed were responsible for his escape, he joined a ship of Irish wolfdogs and remained with them during his captivity, he became subject to severe beatings and was ordered to be brought back many valuable relics.

He was elected to the Board of Governors of Hearing Foundation, Inc. The factory was established which will prepare for the mission. He went to Auxerre, a place having a close connection with Britain and Ireland where he remained for fourteen years and was ordained a deacon. His stay at Auxerre ended when there was a large outbreak of heresy in Ireland and it was necessary to send a bishop to control the situation. St. Patrick was selected and made his first entrance to Ireland on the shores of Strangford.

He worked in the F. P. Assembly and is looking forward to returning to the service last August. He is anxious to hear from friends at home.

The Machine Shop in new quarters at Marshall Street.

There are two Foremen in the Department, Mr. A. B. Lindquist who stays at Marshall Street and Mr. George Hall who takes care of things at Brown and Beaver Street. Mr. T. J. Rowland who has been with the Machine Shop since it started in 1930 is Superintendent of the Machine Shop.

In the Machine Shop, machines, dies, fixtures and tools are made according to specifications which the Sprague Electric Company has patented.

To make a fairly large automatic machine would take about 2000 hours and at one time or another, almost all the men employed in the Machine Shop would work on the machine each contributing their different skill.

Building 8 which is right next to the Machine Shop at Marshall Street will be utilized soon as a Toolcrib for supplies when a new floor in the building is completed. At the present time, the Toolcrib is at the Beaver Street plant.

Tool, Die and Machine Shop

The Machine Shop in new quarters at Marshall Street.

In 1930, when the Sprague Electric Company moved from Quincy, Massachusetts to North Adams, the Machine Shop was organized with Mr. John Sheehan as Foreman and three men to work the three machines which were in operation in the Shop. At that time, highly skilled operators were required so that it was necessary to make by hand many of the tools, etcetera which are now made by machines.

The Machine Shop growth paralleled quite closely the general expansion of the Company as a whole. Two months ago, the Shop moved from the Beaver Street plant to much larger quarters at Marshall Street. About forty men are now employed by the Tool, Die and Machine Shop.

Most of these men work at the Marshall Street Department but two or three are employed at both Beaver and Brown Streets. It is necessary to have a few men working at each plant in order to service machines. A small amount of equipment must be maintained for this purpose.

Fred Scarborough to Head Network and Filter Department

Recently a new Network and Filter Department was established which will be located in Building 4 at Marshall Street. Frederick Scarborough will act as Department head and the department will be under the jurisdiction of Frederick H. Potter, Factory Manager.

The department is being created to process both samples and production more rapidly than can be accomplished through regular departmental procedures.
BIRTHS

DAUGHTER to Mr. and Mrs. Francis Wilson on February 17. Mr. Wilson is Foreman of the Ceramics Department at Marshall Street.

DAUGHTER, Kathy Ann, to Mr. and Mrs. Robert Curry on February 20. Mr. Curry is employed in the Inspection Department.

SON to Mr. and Mrs. Raymond Hunnicut on February 20. Mr. Hunnicut is employed in the Planning Department.

SON, Chester John Trzcinski, Jr., to Mr. and Mrs. Trzcinski on February 16. Mrs. Trzcinski works in the Round Midget Assembly Department.

Battery Department

Francis Mesina was transferred from our department and we wish him success.

Tillie sure makes nice crocheted handkerchiefs.

We sure like our canaries, it sings every day. What kind of seeds do you eat, Margaret Perault?

Our household hint for this time is to roll pie crust between two pieces of wax paper, this will save a lot of sticky cleaning.

Industrial Oils
By Mary and Ann
Dot Pringle is back with us after her recent illness. Keep it up, Dot, you're looking fine.

Sighs of spring—George Coan claims he heard some robins the other day, someone else heard crows but Bill Sheldon takes the cake, he saw a bumble bee. That's going too far, Bill, it must have been a snow flake. Welcome to our new service boy, Red Hogan.

We had quite a surprise the other noon when Dick Clark hauled out that big pipe all by himself. What was up with that?

Bill Sheldon takes the cake, he saw a baby girl born February 28. The proud parents are the parents of a hound dog.

By Lillian Forbush
We are sorry to see Edith Burns and Nellie Durrer leave us and we wish them luck. They have been transferred to another department.

Dorothy Farinon's number one dream is coming true. She is having her kitchen remodeled.

Anna Fox had quite an experience and hasn't gotten over it yet. The hot water tank broke and her kitchen was flooded, I guess we all have bad luck sometimes.

Wire Coating
By Betty Jangrow
Congratulations to Mr. and Mrs. Louis Reen who are the parents of a baby girl born on February 28. The proud grandmother is Lucille Miller of this Department.

We send best wishes to Helen Burdick who is on a sick leave. We miss your hearty laugh, your bubbly chewing gum and all, but we miss you, so hay and get well soon.

Ernie Gamache is busy digging his cellar these days. It seems that he is going to buy a furnace for his home so he can keep warm next winter.

Donald Bourdon is seen sporting a new car. More power to the Wire Coaters and who will be the next lucky fellow?

We are happy to see Eva Favier making use of her auto license. She is much easier to ride than walk.

Molded Tubulars—Second Shift
By Lillian Forbush
We send best wishes to Margaret Fosse on the recent death of her brother, Raymond Timouthy.

It's grand to see Sarah Brown back and looking so well.

Pete Grande and his wife are joyed the other night. They are making use of her auto license. It's a good thing Ralph Kleiner didn't drop that mirror he purchased recently. Seven years had been a long time. He is still shaking from the experience.

Easter is just around the corner, girls, do you have your new clothes ready?

Florence's new house is ready to move in. Best of everything to you, Florence, Joe, Bill, and Richard from all of us.

Industrial Oil Rolling
By Erminia Sweeney
Sure and true St. Patrick himself that we will be needing in our department.

Steuers, popping up here and there, artificial last quite effective. At any rate, the girls all have good lungs.

Liz Satterly is back after a one week absence. She suffered a severe case of frost bite in both legs.

Sunday Ernie Jones is going to find out Marguerite Wald's age and will she be surprised. Walter Carpenter dipped and fell the other day and a few days later, his wife sprained her ankle. Good trouble really does come in bunches.

We are glad to see you back, Ag Miller.

Helen Lescure Shields is back with us once more.

She should furnish Jack Shields with roller skates, what with all the new help, he could certainly use them.

Helen Frasi is pretty busy these days playing, bridesmaid.

Bath tub Assembly
By Dora Landry
At last long we are well established in our new rooms with Jim Nizel as our Foreman.

Congratulations to Lucille Falcó on her ninetyninth birthday. We all enjoyed her cake.

Eileen Charbonneau, her husband, Marguerie Ricker, her husband and Pete Grande and his wife enjoyed the American Legion Ball.

Bertha Jennings left Sunday for a vacation in Florida and she is missed by all of us.

Evangeline Dupnis is wearing a beautiful smile because of her new grandson.

Join Pisano left for Maryland where she will join her husband, Corp. Joseph Pisano.

We are proud to claim one of the girls who participate in the dancing contest held at the Eagle's Hall every Friday night. She is none other than Florence Lincoln.

Ernie O'Neil's son, Robert, is now a P.F.C. stationed at Camp Rucker, Alabama. Her son, Thomas, a Corporal is at Eglin Field, Florida.

Rose Lecuyer's son is now a P.F.C. at Camp Atterbury, Indiana.

Edna Min we welcomed her granddaughter on February 18.

Miscellaneous Paper Finish
By Velma Lincoln
We welcome to our department several girls and hope they will get along with us. The girls are, Janie Haas, Mary Benson, Theresa Camaiolo, Jeanette Bombardier and Marjorie Willis. Roger Delisle is also back working with us and our new clerk is Florence Hamilecek.

Gloria Ams, our Southern girl, wife of Timmer Amos, the fighter, sure has a gift for keeping everyone happy.

Ann Downey went to a tea given in honor of her future daughter-in-law. Mary Zio's husband was operated on in the Albany Hospital. We hope he will soon be well and back with you again, Mary.

Catherine Marra is home sick with a cold.

Jean Attalla, our check inspector, likes working with us but doesn't care for our last hour rush.

Maryjane Wilks comes all the way from Charlestown each day.

Specification Engineering
By Fran Melito
Welcome to Evelyn Philips and Russ Marchie. Evelyn is in our blueprint Department and Russ is up in Drafting.

Frans Faustini's diamond caused quite a commotion in our department. It's really a beauty, Fran. Good luck to you and congratulations, Joe.

We understand Royal Scott should start a grocery store. It seems he has his future consumers all lined up.

A farewell party was held for Laurette DeBliss at Heartwellville on February 23. Laurette received a lovely watch from all of us.

We'd like to know who the smart lad was that put a nickel in the time clock and waited for a bottle of cola to come out. Too much overtime, I guess.

Our children's story is told by Emma Underwood. It seems that she and her husband drove her father and their nieces downtown, and when Emma's father got out of the car the three year old looked up and said, "Yes he's a cute kid, ain't he."

Fitter Department
By Betty Jangrow
Birthday greetings to Mabel O'Grady, Rita Kent and Irene Davis.

We welcome Ruth Haskins to our department and we hope she will enjoy working with us.

We will see what we can do about adding a few more acres to the parking lot for you, Rita Kent.

We have an artist in our midst. You should see John Davis draw pictures of a bound dog.

Mac Strouton has a hobby of collecting old dolls. If anyone has any old dolls they would like to sell, Mac is interested.

Edgar Remillard is certainly a busy man. Besides working here, he has many outside activities, one of them being, a Cub Scout Leader. What do you do in your spare time, Edgar?

We extend our sympathy to Edith Rizzett on the recent death of her sister and granddaughter.

Block Annex
By Della Keating
A speedy recovery to Doris Williams who is in the Hospital.

We miss Roger Delisle who has been transferred to another department.

We all will miss the three girls.

Paper Rolling — Night Shift
By Dorette Vairsu
Welcome to all the new girls and we hope you will enjoy working with us.

Happy anniversary to Prudence Dupnis, and may you have many more of them.

Thanks for the cake, Pauline LaPlace, it sure was good.

Metal Clad Department
By Barbara Jones
To the many new girls who have started work in the department, we say welcome.

Rita Martell, Rachel Kinner and Ruth Hannamoke have left the department.

We miss at home and Ruth and Rachel are going to travel. We all miss the three girls.

Congratulations to Mary Lou Frieze on her fifth anniversary.

Edgar Remillard is certainly a busy man. Besides working here, he has many outside activities, one of them being, a Cub Scout Leader. What do you do in your spare time, Edgar?

We extend our sympathy to Elida Rennett on the recent death of her sister and granddaughter.

Dona Marie Unis, niece of Helen Unis of Industrial Oil Rolling and grand-daughter of George Olson, four years old, with his brother Lennie, who is nine years old. They are the sons of Phyllis Olson who works in the F. P. Drys Department. Cell Wegray's two year old niece, Suzette. Cell is employed in the Dry Tubular Finish Department.

**WILLIAMS COLLEGE SPORTS**

**Wrestling:**

Coach Ed Boulger’s grapplers have added the “Little Three Champions” tag to their fall-finale close win over Amherst by the score of 22-14. Only a bad “Puck” failure in the first three matches by decisions, but the “Bucks” rallied to take the next 4 by decision.

**Squash:**

Coach Bob Moir’s “Purple Ducks” won the coveted Little Three Champions by dumping Amherst in Lasell Pool 45-30. This was the eighth straight “Little Three Win,” incidentally Williams in winning set Amherst in the loss column for the first time this season. Previous to this meet Amherst had won 10 straight.
