“Dust or Destiny” Shown to Local School Children

A film “Dust or Destiny”, sponsored by the National Association of Foremen, was shown at one of the recent Sprague Electric Management Club meetings. Due to the educational value as well as the entertainment value of this film, the Management Club arranged to have it shown at the local schools.

This internationally famous Moody-Bible Institute film is best described as a fifty minute portrayal of the incomparable marvels of nature and how fulfilling man’s scientific equipment is in comparison to such marvels as the bird’s twenty thousand mile trip from the South Pole in the winter to the North Pole in the summer. These winged creatures, without the complicated scientific instruments of man, are able to navigate from one pole to another. A bird called the Pacific Golden Plover performs a remarkable feat in making an annual pilgrimage from Alaska to the Hawaiian Islands. These and many other of the amazing feats in making an annual pilgrimage from Alaska to the Hawaiian Islands. These and many other of the amazing features of nature make up this film.

The fact that the school children of North Adams immensely enjoyed “Dust or Destiny” is indicated by the letters Donald Meiklejohn, Secretary of the Management Club, received from the local schools.

Independence Day

The Company has announced that all departments will be closed at the regular closing hours on Thursday, July 3, and will reopen at regular starting hours on Monday, July 7.

Eligible employees, with at least six months’ seniority, will be paid for Independence Day in accordance with the provisions in their respective bargaining unit agreements.

Any work performed on Friday, July 4, will be paid for in accordance with the Company’s contractual agreements.

Little Bigger League Baseball Team Sponsored by Sprague Management Club

Lenar is a familiar word to television fans, but lately North Adams residents have been becoming acquainted with Semac. Semac isn’t spelled backwards; it’s left just the way it is and it stands for the Sprague Electric Management Club. The Management Club sponsored Little Bigger League Baseball Team, wears Semac proudly across the front of their uniforms.

And Semac has been doing a fine job since the opening of the Little Big- ger League baseball season. Their first encounter against the TVUA Team (Window Print Works) resulted in a 8-3 victory for Semac. Their next game, with the Lions, brought a 8-3 triumph.

The team is composed of fifteen young men between the ages of 13 and 15. The Little Bigger League is designed to supply baseball experience for boys too old for Little League Baseball and too young for high school baseball.

The Management Club, as sponsors, buy equipment for the team including uniforms, bats, and balls. They even supply insurance. Alfred Bergersen, Foreman of Paper Rolling and Paper Machine was present.

Hobby Show Pictures

Pictures of the Sprague Electric Hobby Show, which was held on May 16, were featured in the Home Town Pictorial section of the Boston Sunday Advertiser, June 22 issue. The Hobby Show photos, which were taken by Al Hosford, appeared in the May 16 issue of the LOG.

E. Purpura and Team Do Fine Job for Hospital

Ernest Purpura, Department Head of the Drafting Section of Specifications Engineering, has proved that he is a good salesman. As Captain of the team of solicitors which reported collecting $4,707 at the hospital report meeting held on June 19, Ernest really sold the idea of a new hospital to many North Adams people. This was the best individual record among the men’s teams in North Adams.

Going from door to door as a hospital worker, Ernest found that people had to be convinced of the need for their contributing. When asked how he went about persuading people to give, and give generously to the new health center, Ernest replied, “You just have to talk to them”. And he did a lot of talking for approximately 40% of that $4,707 was collected by Ernest personally.

Sales Training Program — Participants in the sales training orientation program meet with Walter Clark, Head of the Product Engineering Department, for a discussion of the functions of his department. They are from left to right, George Ferran, William Woodbury, Andrew Ferguson, Joseph Mucha, and Neal Hunter. Mr. Clark is standing. Mr. Ferran came to Sprague Electric in 1951 and is Assistant Manager of Engineers. Mr. Woodbury represents the Sprague Products Company as a contact man in the Southern California district, working out of the Los Angeles Office. Mr. Ferguson is a newcomer to Sprague Products and at the present is working out of the North Adams Office on new accounts. Mr. Mucha joined Sprague Electric this spring and is attached to the Sales Office under Mr. Neal Welch. Mr. Hunter, a graduate of Syracuse University, has been with Sprague Products since March, 1950, as a field engineer giving technical talks to dealers. This training course was designed to give the sales personnel an overall picture of Sprague Electric products, manufacturing facilities, and product application. The course extended from June 16 to June 25.

David Cates Transferred To Kingston, N. Y. Plant

David Cates has been transferred to the Sprague Electric Kingston Plant as Personnel Manager responsible for all Employee Relations and Personnel activities at the branch plant. At Kingston, Mr. Cates will report to William W. Stifler, Jr., Manager.

Mr. Cates became associated with Sprague Electric in November of 1950 and acted as Assistant to John D. Washburn, Director of Personnel. In the fall of 1951, he took over the duties of Night Foreman covering the second and third shifts at the Wire Coating Department in Bennington. While acting as Night Foreman, he continued to spend time in the Personnel Department in North Adams.

Prior to being transferred to Kingston, Mr. Cates received additional training in the Employee Relations Department.

Ty Cobb, the "old Georgia Peach," one of baseball's immortals, may have frittered off more than he could chew when he recently boasted a blast at present-day baseball. Here are some of his specific complaints about the game as it's played today:

Some of the most publicized heroes of recent years I'm thinking especially of Ted Williams and Joe DiMaggio—have limped on one cylinder. Naturally, he got hurt a lot. Worse, he was perhaps the outstanding example of how modern players neglect the fundamental training. The old guy has heard them say he never stayed in the water until you can swim, preferably one supervised by a life guard. No, you can't swim, and there is a water accident. The latter scored on an infield out but the ball players of today are just as good as they were in Cobb's day or mine.

Jackie Robinson, Sam Jethroe, or Stan Musial, as the only major-leaguers who've played first base without a glove. Only a handful of them ever wore one. Old-time pitchers and catchers would never let their mouths shut. The old-timers did not train. The sole best comment. His verdict, "Ty is nuts." I'm 40. And I can play a lot better than any of those guys in the major leagues now. I agree with Ty Cobb in a lot of ways."

The following story is reprinted with permission from the June 27, 1952, issue of the Sprague Electric Log. The Sprague Electric Golf Tournament is sponsored by the Sprague Electric Company of North Adams, Massachusetts. All employees, professional and otherwise, will play. This Tournament will be held at the Taconic Golf Club in Williamstown on Sunday, August 3, at 2:00 P.M. The Spraykfit Enterprise, the local newspaper, will cover the event. Entrance blanks may be obtained from the Personnel Department, Sprague Electric Company, North Adams, Massachusetts.

Diplomat—A person who can loll in comfort while in summer.

Here are some recipes tailor-made for "patios" or picnic eating. Because we're not sure how much water, we've chosen recipes which are well chilled and light eating. They all contain one of the choir foods—spaghetti, macaroni and noodles. These foods, always popular, are even more frequent menu guests with the current potato shortage. Remember, too, the macaroni trimmings are plant protein as well as food energy which are needed daily.

Food budget worries are lightened when you depend on durnum wheat foods. For example, of the red beans and 2 to 3 ounces of spaghetti, macaroni or noodles; at a cost of about 6 cents for each recipe. Molded Catallope Salad makes perfect summer porch dining when served with tender, but一直是和面 and buns. It will make a filling dinner menu if you add a platter of cold cuts and feel up and cocoa. For variety, make this molded salad with other fruits, or try a different flavored gelatin.

MOLDED CANTALOPE SALAD

1 package lemon flavored gelatin
1 cup pineapple juice
1 cup orange juice or water
1 tablespoon lemon juice
1 cup cantaloupe balls
3 ounces medium noodles
1 cup chopped green peppers

Dissolve gelatin in hot water. Add fruit juices. Pour 1 cup gelatin mixture into 1 quart mold. Arrange cantaloupe balls on bottom of mold. Chill in refrigerator while making other recipes. Cook noodles in well floured salted water until tender (about 6 minutes). Drain and rinse with cold water. Combine noodles and grapes with remaining gelatin mixture and pour into mold. Chill until firm. Unmold onto serving plate and garnish with cream cheese dressing or mayonnaise. Makes 6 servings.

Wednesday Credit Union Deadline . . .

There are approximately 1960 Sprague Electric people who are members of the Credit Union. And a great many of these members are withdrawing or borrowing money from the Credit Union every week.

The Credit Union Committee meets every Wednesday morning to consider the requests for loans. To be eligible for a loan, a person must be a member of the Credit Union, have at least five dollars in his Credit Union account, have 6 months seniority in the Company, and be an employee in good standing. It is necessary to have one co-maker and two co-makers in applying for a loan over $100, and two co-makers in applying for a loan over $200. The co-makers have to be over 21 years of age. The requests for loans should be signed in ink.

After the Credit Union Committee approves the loans on Wednesday morning, the checks for withdrawals also are made out on Wednesday. For the promptest service in getting these checks to the depositor, it is necessary to make up the requests in writing by Thursday. Checks for withdrawals and applications for loans must be received by Thursday.

"Before-You-Leave" Precautions . . .

As vacation-time draws near, many plans are made for a pleasant home-coining? Will you return home and be a better program in future years.

1. Stop milk, newspaper and other deliveries. Ask a neighbor to keep advertising circulars off your porch.
2. Leave window shades up instead of pulled down. If you are to be gone three weeks or more, leave your house locked.
3. Notify post office to hold mail, or arrange delivery to a neighbor.
4. Lock windows and doors.
5. Shut off gas and water at main valves. Shut off electricity at the main switch. Make sure you have all tire tools.
6. Inform police how long you will be away and where you can be reached in emergency.
7. Service car thoroughly, with close attention to safety features such as lights, brakes, tires, steering, wind-shield wipers.
8. Put a first-aid kit and flashlight in glove compartment. Be sure you have all tire tools.

Social Security Highlights
1953 is an important year for Social Security. It seems to be a year in which a multitude of questions are being asked. The Social Security Retirement and Survivor's Insurance Program. (Federally Operated)

To fully understand the situation at this time we must glance backward at the system as it has progressed.

There have been amendments from time to time, as Congress saw the need for them in the light of the growth of the program and changing economic and social conditions in the country.

Perhaps the amendments which were the most sweeping took effect in September, 1950. In the main, they (1) increased monthly benefits substantially (2) Brought under the law the large groups of gainfully employed workers and (3) Eliminated the requirements for entitlement to insurance benefits.

Included also were provisions for computing benefits in a different manner for those workers who meet certain qualifications. Basically, this is how it works:

For anyone reaching 65 years of age before July 1, 1954, and in the case of the death of a wage earner before this time, the amendments are made with the following modifications:

1. Stop milk, newspaper and other deliveries. Ask a neighbor to keep advertising circulars off your porch.
2. Leave window shades up instead of pulled down. If you are to be gone three weeks or more, leave your house locked.
3. Notify post office to hold mail, or arrange delivery to a neighbor.
