Company May Lose Part of Marshall Street Warehouse

When original plans were being made for the artery from Union Street to West Main Street, the company had objected to the route of the artery because it would take out the entire center third of the Marshall Street warehouse. State officials, after a series of conferences with the company, agreed that the roadway would be built in such a manner as to pass over the third floor. Thus it would not interfere with our avenue of distribution.

Due to the adoption of the plan proposed by the redevelopment board, the state has gone back to its original plan. For to follow the compromise plan would pose engineering difficulties at the Marshall Street end of the artery.

As a member of the community and in our desire to be a good neighbor, your company has agreed to the loss of the center part of its warehouse. How- ever, in agreeing to this loss, the company has made three reasonable requests:

1. The company desires that a floor be left to the people who work there in jeopardy in case of fire or other emergencies.
2. Sufficient time will elapse which will not interfere with our avenue of distribution.
3. The company has agreed that the road Be built into the center third of the Marshall Street Warehouse. How- ever, in agreeing to this loss, the company has made three reasonable requests:

First, the company desires that a floor be left to the people who work there in jeopardy in case of fire or other emergencies.

Second, that access to the plant will continue to be made available from West Main Street during the construction period.

Third, the company wants assurance that the Phoenix bridge and a smaller one (see picture) will not be torn down simultaneously. These bridges are to be torn down as part of the flood control project. But to tear down both bridges at the same time would virtual-

Rise in Cost of Living Compensated By $1 Increase

As you probably noticed, your paycheck was different this month. This was due to the fact that the cost-of-living index had risen this month. Thus it would not interfere with our avenue of distribution.

Due to the adoption of the plan proposed by the redevelopment board, the state has gone back to its original plan. For to follow the compromise plan would pose engineering difficulties at the Marshall Street end of the artery.

As a member of the community and in our desire to be a good neighbor, your company has agreed to the loss of the center part of its warehouse. However, in agreeing to this loss, the company has made three reasonable requests:

First, the company desires that a floor be left to the people who work there in jeopardy in case of fire or other emergencies.

Second, that access to the plant will continue to be made available from West Main Street during the construction period.

Third, the company wants assurance that the Phoenix bridge and a smaller one (see picture) will not be torn down simultaneously. These bridges are to be torn down as part of the flood control project. But to tear down both bridges at the same time would virtual-

Company Strengthens Business in Foreign Trade

Earlier this month the company announced that it was undertaking negotiations to purchase a controlling interest in a small, progressive Italian company which manufactures capacitors. This step is being made as a part of the company's goal of becoming a major player in the growing electronic industry of the continent. Only in this way will our international business continue to broaden and expand in the coming years.

At present we anticipate that this transaction will include agreements for the interchange of know-how and engineering information which should be of benefit to both parties.

The main purpose of his visit was to learn as much as possible about our company and to iron out the details of the transaction. He has since returned to Italy where the final transfer will take place. Until that time, we are unable to publish the name of the company or its location.

J. K. Sprague Heads Californian Electronic Show

WESCON (Western Electric Show and Convention) is jointly sponsored by the West Coast Electronic Manufacturers Association and the Los Angeles and San Francisco sections of the Institute of Radio Engineers. This was the seventh convention held by this organization, and the ninth in which Sprague has exhibited.

This year, the company displayed a colorful 26-foot exhibit. The product display was divided into seven sections: Ferroxcube products, capacitors, magnetic components, transistors, resistors, magnet wires, and filters. The display was designed by S. L. Chertok, Advertising Manager, and J. G. Brent, assistant manager. Most of the work on the product panels was performed by Milone Babiney.

Sprague Electric was represented at WESCON (Aug. 21-24) by J. K. Sprague, President; S. L. Chertok, C. G. Killen, Robert Peters, and James Galbraith from North Adams. George Sprague from the Los Angeles Sales Office and other Sprague west coast personnel assisted with the show.

The Company Played Host . . . recently to 24 high school mathematic teachers who were attending a math institute at Williams College. Their tour of the plant started with a short introductory talk by John Schimmel, III, administrative assistant to the vice-president in charge of Research & Engineering, and then was followed by visits to Tantalum, Dry Rolling, Dry Electrolytics, and Dry Tubulars, with each respective foreman conducting an individual tour of his department.

Following the production tour, the group moved to the Tabulating room where James Gordon, head of Payroll and Tabulating, explained the new IBM computer. They then moved on to the Research & Engineering room where they received an explanation of the spectroscope and x-ray microscope equipment.

Above, the group poses with John J. Gumbleton, of the Employees and Community Relations Department, front row, third from left, who conducted the tour.

Ten employees, three of them women, benefited from the Suggestion System during the past month, with a total of $340 being given out in awards. In the above picture, Les Lemoine, Magnetic supervisor, left, and John Campbell, Plant Service Manager, right, present Blancha Hefelt and Jane Martin checks for their suggestions.

Mrs. Hefelt's $25 award was for a method of reverse winding, and Mrs. Martin's $25 was for a lid bolt winding machine. Both women work in Magnetics - Beaver Street.

Other awards went to the following: Leo A. Moreau, Jr., A. C. Dry Assembly, $25, for standardizing widths and types of capacitors; Raymond Maynard, General Maintenance, $15, for a new type of soldering iron; Ray Johnson, A. C. Dry Assembly, $60, for the installation of counters on rolling machines; John Maloney, Filter Development, $15, for a locating jig; and; Bob Winick, Machine Shop, $25, for a special type of soldering tip, and $25, for an inserted lug to be used in transferring plates; Florence Clement, Automation, $15, for a box for use in curing units; George E. Maxwell, Ceramic, $15, for a device to maintain space on a reel.

"Every Sprague Employee a Reporter"

Published by SPRAGUE ELECTRIC CO., North Adams, Mass.

EDITORIAL . . .

The big National shows of politics in the United States have come and gone — the conventions of the two major political parties. The donkey and the elephant have gone through their acts in the midst of noise, confusion, shouting and fun. The tumult and the shouting die . . . The old pro, not yet fully aware of the fact that his day has passed, the young hopeful, be of the strong lungs, enamoured with the sound of his own voice — they have left the stage.

In the miscellaneous collection of trash remaining to be swept up from the floors of the convention halls after the big shows at Chicago and San Francisco were over might be found broken hopes and thwarted ambitions, disappointments and the memories of personal failure.

However, the great Parties move on; the interest of the individual is submerged — at least in part — in the common purposes and hopes of the majority. The number of minor differences in party groups are submerged — at least in part — in the common purposes and hopes of the majority. One Million Dollars In Benefits . . .

that is what the Sprague Electric Company has paid out in the past 3½ years. The most it cost you is 10c a day to partake in the Company's hospitalization program. Your group hospitalization plan is one of the many fine benefits that you, as an employee, receive here at Sprague Electric.

Medical science has made many strides in the past year. A most recent case is the victory over polio (infantile paralysis). Though doctors now possess more knowledge and equipment than dreamed possible just a short while ago, medical care is not inexpensive. A broken leg or pneumonia that strikes your child could easily wipe out your savings. It is here that your Company's hospitalization plan benefits you.

For every one dollar you contribute to the plan, your company contributes three. For this year alone it is estimated that the total benefits paid will exceed last year's by $50,000, the latter being due to the increase in benefits received this year.

The fall resulted in a fractured hip which required surgery to reset. Here Mr. Sanford is having X-rays taken by Chief X-ray Technician George Ganon, at the North Adams Hospital. X-rays, laboratory work, drugs, anesthesia, operating room and surgery came to $277 — the Company's insurance plan paid $250. Added to this was the expense of 14 days hospital board which came to $168 — the Company paid $140.

Convalescing also meant various visits by the doctor and trips to the hospital so that his progress could be checked. These miscellaneous expenses came to $60. Mr. Sanford is pictured with Mr. Ganon, Nurse Bernice Hoxie and Mrs. Sanford as they go over one of his last X-rays.

While his hip was healing, Mr. Sanford had to spend 13 weeks convalescing in his home which is located in Stamford, Vermont. Under the hospitalization weekly accident and sickness benefits which are paid if you are unable to work due to non-industrial accident, he received the maximum amount of $292.50 while unemployed.
Robert P. Austin — joined the Research & Engineering section in 1954. He holds degrees from MIT and Brown University. He is married to the former Beatrice Powers of Darien, Conn. They have two children.

(Right) Stanley Bagdon—joined Sprague in 1943, was senior engineer in the Industrial Division of Research & Engineering. He is now foreman of Networks'cn, Brown Street. He is married and has four children.

Victor E. Ragosine — joined the R & E section of Sprague in 1954. He holds degrees from Columbia University in physics. At present he is the assistant engineer in charge of Physical Measurements and Reactivity group. He is married to the former Dorothy Simmond of Lowell. They have two children.

(Right) Clifford Kingsley—joined Sprague in 1936 as an employee in the Can Shop. He now holds the position of foreman of Dry Rolling and Assembly in Western Electric. He is married to the former Dorothy Dupuis of North Adams.

EmployeVisits Homeland, Relatives After A 43 Year Absence

On July 29, 1956, at 6:00 p.m., a plane took off from Idlewild International Airport, New York, destination — Burtonwood, England, a short flight from Manchester. Seventy-eight passengers and crew were aboard this VOAC (British Overseas Air Corporation) Comet.

One of these passengers was on his way home to see his brother, sisters and relatives, whom he had not seen for 43 years. The man we are speaking about is Harold Shore, superintendent of the Shipping Department, Industrial Oils Corporation (Coronet).

The first stop was Newfoundland, and in one hour and a half the plane was winging its way over the Atlantic, and Mr. Shore was getting his first thrill of crossing the ocean at an altitude of 19,000 feet, and at a speed of approximately 350 miles an hour.

The plane travelled from Newfoundland to Prestwick, Scotland, where rain and cold greeted our traveller. An hour later, at 9:00 p.m., our time, or 2:30 p.m., British time, Mr. Shore arrived at Burtonwood, England. A short automobile ride to Manchester, and Harold was met by his brother and two sisters. We know that unashamed tears were shed in this joyous reunion. He said that he found many changes since he had last been there — the city was all newly built and very beautiful, but old friends were just a memory. The food was newly built and very beautiful, but old friends were just a memory.

He said that he found many changes since he had left there — the city was all raw and raining for the two weeks Mr. Shore was there.

Strangely, Hobbs...

W. E. Suter, Rotarian of Wildsville, Texas, has the unusual hobby of collecting quotes, witticisms and quotes about public speaking. Items like these demonstrate their utility. After-dinner speakers are always after dinner. A good speech has a good beginning and a good ending, both of which are kept very close together. If speeches were made by candle-light, wouldn't it be fine to light the candle at both ends?

Education is a good thing, but it doesn't go far enough. It merely teaches a man how to speak — not when or how long.

No speech can be entirely bad if it is brief enough.

If some men's speeches don't reach posterity, it isn't because they aren't long enough. Stand up to be seen, speak up to be heard, and sit down to be appreciated.

It took Sir William Ramsey 16 years to discover helium, the Cortes 30 years to find radium, and the speaker five minutes to produce tedium.

Many can rise to the occasion, but few know when to sit down.

The world's best after-dinner speech: "Waiter, give me both checks."

A speech is like a wheel: The longer the spoke, the greater the tire.

Whether you can or not, it is surely a staggering sight. This is OUR PLANT. We all should have pride in it. Then why turn it into a huge trash receptacle?

The picture above was taken at the steps adjacent to the Marshall Street cafeteria, but this scene is duplicated in many other areas. Trash and cigarette cans will be placed near this entrance in the near future. Hold your paper and cigarette butts until you reach a receptacle — don't be a LITTERBUG!

Let's keep this plant a clean one, which mirrors our pride in being a Sprague employee.

Last December, Sprague truck drivers, divided into five teams of four or three men each, initiated a safe driving contest to see which team could go a full year with the fewest accidents. The LOG is happy to report that only two teams have been eliminated for accidents and that teams captained by Clifford Morris, Harold Kline and Ace Samia still remain in competition.

Sprague Electric trucks roll up an average of 2000 miles per week as they make deliveries to Albany, N. Y., Barre, Vermont, Nashua, New Hampshire, and various places in North Adams and near vicinity. Since the contest began there has been a marked decline in the number of automobile and truck damage to the vehicles and materials carried.

At the end of this year, the winning team will be presented with a driving pin and a safety plaque donated by the American Mutual Liability Insurers' Company. Congratulations are in order now for the fine job our safety-conscious drivers are doing. Remember —your job requires safety consciousness too.

Members of the three teams left in the Company's safe trucking contest are, front row, Norman Davison, Al Dupree and Ace Samia. Standing are Clifford Morris, Harold Kline, George Shortliffe, Martin Lamphier and Vincent Zappone. Missing from the picture is Chester Gallup.
If you’re not in the book you’re a man without

- a country
- a state
- a county
- a town
- a party
- a street
- a school
- a vote

Look it up, the things you own. If you’re not in the book, you risk not getting your fair share. This isn’t a democracy, it’s competition. Find out what democracy is and then get off your high horse and stop bragging about your government and its world

Large scarf with Spanish symbols, white, red, with light blue edge. Lost on Houghton Street on August 9. Reward. Dial MO: 2-2362.

FOR SALE

White oil and gas range; $10; electric refrigerator, breakfast set, two metal beds, priced for quick sale. Call Savoy 2544 between 5 and 7.

Westinghouse electric oven complete with pyrex dishes. Excellent condition, only used once. $25. Dial MO: 3-9792 anytime.

1952 Ford Victoria hard top convertible. Very good condition. Dial MO: 3-9085 after 4 p.m.

Dean’s Trailer Sales in Cheshire or dial MO: 2-2403. Reasonably priced for quick sale.

Fishermen’s Last Chance

Time is drawing nigh for entries in the 1956 LOG Fishing Contest. Up to this date, there are three categories in which no fish have been entered. These classes are brook trout, large

Boy’s bicycle, 24", in good condition. $15. Four burner Magic Chef gas stove

Boy’s bicycle, 24", in good condition. Used one winter, excellent condition. Dial MO: 3-9296 after 5 p.m.

Boy’s super 20" balloon tire bicycle with attachable side wheels. Very good

Black-Tuesday

Continued from Page 2

All of these fish for the LOG Fishing Contest? Afraid not! However, the men shown above enjoyed a successful day on an ocean fishing trip which was sponsored by the Center Sportting Goods Store. Fred Levey, proprietor, is in the center knolling, and Jack Rodger of Office Services, Stationery Department is holding the fishing pole. Other Sprague employees also went on the trip.

“O.K., award winner! How about a Suggestion for fixing this?”

If your name is in the book?
Tantum by Amelia Koza and Mary Odell

Welcome back to Janet Straczek and Tony Girard who have returned from their week of vacation coming up, but again interrupted her vacation to stop in for a pleasant visit with us. We missed you as much as you missed us. Claire Donovan and Miss Timothy joined the ranks. Leah is working for Greylock soon.

Tantalum recovery after a very serious accident.

by Maurie Richer

It wasn't such a bad hill! And don't forget to let us know when you need another refill or if you are still preserving "The" pencil with the autograph of your favorite fan! Eleanor Sprague in "Modern French Language" went. Dorothy Blanchard is very concerned about herself. While shopping, with her hands full of packages, she tripped and fell. She told her first thought: the cream puff!!!

Filler Department

Champlain; Dorothy Blanchard and Washington, D.C.. Mr. and Mrs. Joel Pierce spent their time at Hampton as did Mr. and Mrs. Robert. Mendel went to Lake George. Mary Collins recently returned from a vacation with a beautiful tan and many memories. They came home and they plan to live in Roseville, Michigan after a trip to Quebec on top of the list. Dot Lewis and Hazel Beck would recommend them on this trip and really enjoyed it. Vacations are still the main topic and with each person's return we have the opportunity to travel to new places and see new things, if only in our imaginary world. Like a visit to Sprague International Ltd. with Yvonne Cotterill, and Lake Champlain with Hazel Russell. A few days in Hartford with Lee Charbonneau, and a wedding in Brattleboro with Harold Lowe. Of course, the beaches are always a "yes" for the O'Neills, and New Hampshire vacations and likewise members of the department. Lucy Kenney was the victim of an automobile accident. We wish her a speedy recovery to Jennie Jones. Concerning Alice Bratcher's 9th wedding anniversary recently and had cake and ice cream. Vacation time is still rolling along. Bernie Hamburg is spending his vacation at Lake George and, while travelling by Greyhound bus to Denver, travelled by Greyhound bus to Denver, travelled by Greyhound bus to Denver, travelling by Greyhound bus to Denver, and Pueblo, Colorado, visiting his wife's family. Jack also managed to get in some camping and fishing and is still considering whether or not to change his major. Speaking of travelling, imagine, Bennett of Westfield, is an aunt of the room has been the races at Springfield, MA.

Small Order

by Eloise Brown

Welcome back to Pino Marraccino and congratulations and best wishes to her on her recent marriage to Fran Sprague. Helen Helen Cafe is enjoying her vacation at the Cape as is Mary Dury Mrs. Henry Bolus. Willie Lincoln is home with his arm bandages. When do they plan to return to work? And what a wonderful view of Sally on the Dave Garroway show.

Metallized Paper

by Charles Currier

Our little department has been teeming with activity for the past few weeks. Some of us are just planning our vacations while others have already begun to think about their time. We find our foreman, Bernie Fitzgerald in the best of spirits. Bernie enjoyed his vacation at Lake George, and Chick Current seems quite happy on his return from the Cape. Bernie Roberts returned from the Cape and Hampton Beach. Congratulations to The King who gave birth to a baby boy and to Barbara DLorenzo, a baby boy also.

Freezer Department

by Mary Richer and Alice Monette

We are all very happy to have Margie Filer return to work. It meant that her brother is becoming a patient at Mount Auburn Hospital. Family reunion after a very serious accident. DeLite has all their wishes for a quick and speedy return to health. Mrs. Roy had the travelling yen again and she visited her sister. Miss Dain interrupted her vacation to stop in for a visit. Didn't miss you very much as you missed us, Claire. Patricia Freer addressed her vacation returning her son. Mrs. Roy. Welcome back to Belinda Beecher from your leave about three years ago. Welcome to George Paquin's son who was hospitalized with pneumonia. It's a very sad time for the family. One of our crystal ball sees many nice events in store for the family. Many thanks to Dot and Gloria for our LOG column while both reporters were out on vacation.

Sales Office

by Dave McPherson and Jane Solar

Welcome are Bruce Lopes and Lois Norling and Carol Swenson who has taken her vacation to Calgary. Lois is working for William Brundage again. Welcomes are in order for Joeh Douglas's new secretary. A surprise lunch was served at the Clarksburg Executives Offices in honor of John who took off for Maryland where she visited her on her recent marriage to Frank Segals of F.P. Dry's.

F.P. Dry's Assembly

by Grace McConnell

This is Carole Barlow, pinning her hat for your reporter Grace McConnell, who is vacationing with her husband here, there and everywhere. She plans to return to Quebec on top of the list. Dot Lewis and Hazel Beck would recommend them on this trip and really enjoyed it. Vacations are still the main topic and with each person's return we have the opportunity to travel to new places and see new things, if only in our imaginary world. Bernie Roberts returned from the Cape and Hampton Beach. Congratulations to The King who gave birth to a baby boy and to Barbara DLorenzo, a baby boy also.

Freezer Department

by Mary Richer and Alice Monette

We are all very happy to have Margie Filer return to work. It meant that her brother is becoming a patient at Mount Auburn Hospital. Family reunion after a very serious accident. DeLite has all their wishes for a quick and speedy return to health. Mrs. Roy had the travelling yen again and she visited her sister. Miss Dain interrupted her vacation to stop in for a visit. Didn't miss you very much as you missed us, Claire. Patricia Freer addressed her vacation returning her son. Mrs. Roy. Welcome back to Belinda Beecher from your leave about three years ago. Welcome to George Paquin's son who was hospitalized with pneumonia. It's a very sad time for the family. One of our crystal ball sees many nice events in store for the family. Many thanks to Dot and Gloria for our LOG column while both reporters were out on vacation.

Sales Office

by Dave McPherson and Jane Solar

Welcome are Bruce Lopes and Lois Norling and Carol Swenson who has taken her vacation to Calgary. Lois is working for William Brundage again. Welcomes are in order for Joeh Douglas's new secretary. A surprise lunch was served at the Clarksburg Executives Offices in honor of John who took off for Maryland where she visited her on her recent marriage to Frank Segals of F.P. Dry's.

F.P. Dry's Assembly

by Grace McConnell

This is Carole Barlow, pinning her hat for your reporter Grace McConnell, who is vacationing with her husband here, there and everywhere. She plans to return to Quebec on top of the list. Dot Lewis and Hazel Beck would recommend them on this trip and really enjoyed it. Vacations are still the main topic and with each person's return we have the opportunity to travel to new places and see new things, if only in our imaginary world. Like a visit to Sprague International Ltd. with Yvonne Cotterill, and Lake Champlain with Hazel Russell. A few days in Hartford with Lee Charbonneau, and a wedding in Brattleboro with Harold Lowe. Of course, the beaches are always a "yes" for the O'Neills, and New Hampshire vacations and likewise members of the department. Lucy Kenney was the victim of an automobile accident. We wish her a speedy recovery to Jennie Jones. Concerning Alice Bratcher's 9th wedding anniversary recently and had cake and ice cream. Vacation time is still rolling along. Bernie Hamburg is spending his vacation at Lake George and, while travelling by Greyhound bus to Denver, travelled by Greyhound bus to Denver, travelled by Greyhound bus to Denver, travelling by Greyhound bus to Denver, and Pueblo, Colorado, visiting his wife's family. Jack also managed to get in some camping and fishing and is still considering whether or not to change his major. Speaking of travelling, imagine, Bennett of Westfield, is an aunt of the room has been the races at Springfield, MA.

Small Order

by Eloise Brown

Welcome back to Pino Marraccino and congratulations and best wishes to her on her recent marriage to Fran Sprague. Helen Helen Cafe is enjoying her vacation at the Cape as is Mary Dury Mrs. Henry Bolus. Willie Lincoln is home with his arm bandages. When do they plan to return to work? And what a wonderful view of Sally on the Dave Garroway show.

Metallized Paper

by Charles Currier

Our little department has been teeming with activity for the past few weeks. Some of us are just planning our vacations while others have already begun to think about their time. We find our foreman, Bernie Fitzgerald in the best of spirits. Bernie enjoyed his vacation at Lake George, and Chick Current seems quite happy on his return from the Cape. Bernie Roberts returned from the Cape and Hampton Beach. Congratulations to The King who gave birth to a baby boy and to Barbara DLorenzo, a baby boy also.
a fishing trip. Those returning are Joe Mansini, John Mansini, who spent his vacation at Lake George, John Miller, who motored to Kansas to be with his son and family, as did Howard Fix. The next outing on the list are Jim Valetta, Rita Clark, and Woodie Cote. The outing is scheduled for here and there and then yours truly, who is going to Warwick, R.I. to visit our old friends and co-worker Dave Whitehead. Again, I'd like to thank everyone for their kindness.

Caroline Braseau spent her time baby sitting as her husband was at Camp Drum for two weeks. "Hello?" is the reply from the girls who have left our department: Ruth Davis, Jeannette Heidemann, Catherine Linscott, Bonnie LeBlanc, Eileen Milic, Wanda Blais, Lee Blanchard, and Jane D'Agostino. Mrs. Kenny is on her vacation at this writing, and Dana Davino have returned to our department after three months. However, in that time, she acquired a daughter — Kathy.

Misc. Drys. Western Electric (Test and Ship) by Elsa Genoa and Emily Windyka

Continuing with vacations in our region, in the Bldg. 76 area, Delia Remiluk and Larry Labanowich at home; Maggie Talt — Saratoga; Dorothy Falanga at Fish Creek, Levy, Lunenburg, Nova Scotia; yours truly (E.W.) Hampton Beach; Mr. and Mrs. A. Racette, Hampton Beach; Eleanor Bestard, Alabama; Louis Angi, Delores Shaker, Atlantic City, N.J.; Rose Cayote, Detroit, Mich.; Priscilla Greenhow, Portsmouth, N.H. Congratulations to Mr. and Mrs. Harvey (E.W.) Hampton Beach. The lady was born 1960, and the latter was so happy after being injured in a auto accident July 15. John Sullivan, Merrimack, N.H., has also returned and have that many must have been surprised if anyone is interested in knowing what the weather will be a week in advance or even a whole month ahead, ask Rowland Roberts. He really is an expert at predicting it. He claims he has a "crystal ball" which, incidentally, no one has ever seen before. However, we have a lot of fun with him.

Bldg. 7 Offices by Barbara Campedelli

The welcome mat is out for the Dry Spec writers of Production Engineering who joined Bldg. 7 offices recently. We wish you had taken the opportunity to work with us. Welcome back to Dave Filipe, Lou D' Amico, and Anthony Grewecki, another rare treat. Bruce Woodger recently dishonest his knee cap playing softball and will be out of the picture for a while. Bruce. By the time you read this, he'll be back at work in Bldg. 7. Welcome back to Irene Dubreuil and Ruth Roy who was recently a winner. Our wishes for a speedy recovery and a faster return to work after their vacation. We hope you all enjoy working with us.

Employe and Community Relations by Sylvia Binell

New faces going places? Welcome to Irene Dufault and Ruth Poy who have joined us to here. Irene is now Fred Whitham’s secretary and Ruth has replaced Mary Pat R prejudice for LOG rep, as John Campbell’s secretary. Hope you enjoy working with us. Incidentally, Mary Pat is working for the Guidance Director of the Franklin High School and is getting along very well. We wish you all the luck in the world, Mike, and will have a boatload of work to do. Delia Gassett has been called away to work at Franklin. Dot LaDue will replace Delia. We wish you back soon.

Chuck Felix

All ready to go in his buggy — eight-year-old son, one of our youngest Brusigen of Round Midgets.

Round and Flat Midget Assembly by Betty Barcomb

Bina Cronin has returned to work after vacationing and seeing the Red Sox play. Pat Maguire took a trip to Delaware to visit a friend and spent one week just resting at home. Jo McCarthy spent her week camping in the mountains and stayed home the other half of her vacation. Ed Hilda Nakata went south to Lake George with her family. Dot LaDue and Ed Rice will be expecting March in the near future. Helen Hafner and husband took their three-week vacation to Ohio, Kentucky, and St. Louis, and at the same time, she managed to get quite a tan.

John Sullivan spent his vacation quietly enjoying a visit with his grandparents. We wish her many more of many beautiful gifts from her friends. Congratulations to Vacations and says he needs a vacation at the Bennington Show and has been visiting his folks in the South George area. He was going to get two for the price of one.

Vacation stories Silvio Volpi toured Niagara Falls and vicinity with his family. Mother Helen is back at home after a week up at Camp Drum with Co. K., 2nd Infantry. She suffered a head injury and spent more than a week in surgery recently at the Northampton State Hospital. I ask you? In Detroit, you get the best of both worlds! What a dash of sunshine and mix well. Remember — you are playing today yesterday was your C — I’m afraid!"

Retail Sales by Betty Jangrow

The luck of the Irish was certainly with Barbara King’s husband, Vincent. When he purchased a sweepstake ticket recently, and emerged one of the 200 winners. Our wishes for a speedy recovery. You have much to look forward to as there are six grandsons in the family. The Twilley girls were in charge of the bridal shower for our friends Whitney and Mark. They are going to get married August 13. We wish a speedy recovery to Irene Dubreuil and Ruth Roy who was recently a winner. Our wishes for a speedy recovery and a faster return to work after their vacation. We hope you all enjoy working with us.

George Colletti

A little shower was held at Northampton State Hospital for Alice Beer and Bill’s daughter. A hearty welcome to Mary Cottrell and Mary Burlingham. We hope you enjoy working with us. There were quite a few wedding anniversaries this month. Helen Murphy, married 20 years August 29; Mary Cottrell married 19 years August 16; and Delia Gassett, 25th anniversary August 25. Sally Talbott, Ella Pilling and Felix Rosado of Bldg. 7 offices. Pat Talt created a beautiful table scarf with the words, "Father, I promise to pray every day for you." He sent it to President Eisenhower. The scarlet had an emblem worked on it when President Eisenhower visited Boston in 1956. E. Phelan, Union. 1200 yards of thread went into the making of it. We are happy to see Steve DeMarco has a dash of sunshine around looking so good. Hope to see you back soon.
England. Peggy Maynard is con-
vinced after an operation. The entire
department wishes Peggy and her sister
Eileen a speedy recovery. Charles
Felix spent one week at Windsor Pond
and one week in New York City.
Kenneth Macior, Lila Stanton, Clement
Ait, Josephine Kauf, Mary Haley,
George Prusik, Alice Habak and
Rose Favreau all enjoyed their
vacations. Although Mary Malcom's
daughter Barbara's home is all papered,
painted and furnished, she was kept
busy with showers and parties. For
Mary thought August 25 would never
come. Weizbuck back to Germaine
Camus. Mary Sennett enjoyed her
vacation at Saratoga, and came
back with a lovely tan. Bill Deary
gave a good job pinch-hitting for
Harold Shire while he was on vacation.

Sandia Coolers
by Dorothy Bell Baker
If you could have a humorous ex-
perience had by Vi McColland and her
husband on their vacation, just ask
about the mayonnaise (pronouncing it
with an Irish brogue). Our best wishes for a
speedy recovery go to Rita Zaito's
father, Bert Raymond, who is all in
a Boston hospital. In honor of her
birthday, Lillian Simard was presented
a pair of Chinese figurines and a
beautiful birthday cake which was
baked by Vicky Blaisdell. If you are
planning a birthday party for your
office, you can call on the Special
Products Dept. and consult with
Ann. You can find Bev Murak, who just hostessed
such a party for her son Tommy.
She remarks plenty of ice cream, ham-
burgs, hot-dogs, soda, etc! Emma
Montagna has a new automatic washer,
and one week in New York City.

Misc. Resistor Assembly
by Jean Levy
Vacation news: Julia Sullivan took
two weeks at home for a
misfortune with her clothes dry-
housing room. Blanche Tatro recently
had a misfortune with her clothes dry-
walking around the room with over
shoes on, don't be alarmed. It's only
