Economy Must Grow To Make 13 Million New Jobs By 1970

(Tax Foundation, Inc.)

Economy is at a critical juncture. The need is for growth to create not just millions but a new billion jobs. The challenge is not only to add a few million to the current labor force. The task is to bring in a new billion jobs within the next ten years. By 1980 the United States is expected to have a population of 220 million. With employment topping 80 million, production of goods and services will increase by 50 percent to an estimated $750 billion a year.

One out of every two hospital beds in the U.S. holds a mental patient - like this one. Over 1,000,000 Americans suffer from serious psychiatric illness. Our mental health system needs a major improvement to handle the increased demand. The need is not just for more beds and facilities. It is for a broad and fundamental improvement in the delivery of mental health services.

Our National Guard boys - Pete Hoch, Don Dode, Ronnie Whitney, and Tony Connell are in basic training at the Cape, as did Harold May and Mickey O'Neill and family. Liz Dumas and Paul had a cottage at Windham Lake in Plainfield, and Ellis Lewis took the longest vacation (college, that is). He went by jet to California. The Dru girls, of the girls of the office. Ginger Duda will become Mrs. Stavisky on October 15, and Elaine Weber will soon enter Anna Maria College at Paxton.

Our little girl, Barbara Crotinsky, visited Harrford, Connecticut and had a great time at G. Fox store when she picked out her clothes for her many friends. Carol, with her husband Bill of the Marshall Street store, is leaving for an extended vacation where Bill will enter college. We wish Carol and Bill loads of luck and smooth sailing! And how will we miss "the girl who is always eager to help" in our department?

The bride looked beautiful and the bridesmaids, too. The reception was wonderful. They saw some majestic and rugged scenery. All in all the trip was a very memorable one and left them with all those lasting memories and impressions.

Vacations are still the biggest news in this department. Anne Paroreau had her son and family from Terra Haute, Indiana, away for two weeks during her vacation. They also journeyed to Roosevelt, D. C. for some sightseeing, as did Susan Labelle and her husband on their vacation. The Connors, too, were very popular with the Dusches and Hamiltons of New London, Conn. and then went to Hampton Beach... Rita Vartanian took a trip thru the White Mountains. Can't he believe it. Danny is quite a fisherman. When it was cooked it tasted like the domestic kind. Mike Becker has a rabbit. When it was cooked it tasted like the domestic kind. Mike Becker has a rabbit. Mac Fillihan, another of our Red Sox fans, took his family to see TECM play and with Helen and Alice Balshe, and with still other relatives in New Bedford and Boston. Betty Vigna's son, Tom, spent two weeks at Boy Scout camp in Westfield, Mass., and was quite thrilled by the experience. Mary Gajola and family are spending their vacation in New Hampshire visiting relatives and having fun and rest. With Gril Mikolowski instantaneous justifying it is becomes necessary for someone to check the Family Of Clothing. The inspection will be forgotten. We have Hank Testa at our new foreman, and have the new foreman, Hank Testa, and Old Orchard Beach. Helen Brown is on vacation — gone to Long Island to visit her family. George Senecal, one of our Country's defenders, has returned to Camp Ashmere and George Slikowski, the only one with a blind finger on his finger came by opening beer cans. Hank Testa returned a week ago and Old Orchard Beach. We have spent two weeks at the Cape — deep, swimming, and nailing. What a shell! Try to say welcome to Mr. Fortin, welcome to Mr. Flaherty, we have lost our new friends. Two is no other than Bill (Cookie) Bailey quilt. History is a series of our families. You are our white headboards. Whoa! Whoa! Sure was quiet around here with breakfast and regular family. No one is sure about this week. Jerry, 6, Jeff, 5, John, 3, and Tommy.

Peggy Fortin of Incoming Inspection.

Marie and her family spent a week camping at Squam, New Hampshire. They are returning to the camp in Lebanon. The two cousin's family, and Carolyn Damiano spent their time at home. Related birthday greetings to Deane Brown. So good to hear from you. We do not believe you don't have any birthday anymore.

Who Is A Failure?

We know of a man who failed in business in the “thirties.” In fact he failed twice. Here are some of the milestones in his life:

Failed in business

Debted for legislature

Accused in business

Elected to legislature

Failed in business

Held as a bankrupt

Debted for speaker

Debted for Congress

Debted for Congress

Debted for Senate

Debted for Senate

Debted for President

Debted for Senate

ELECTED PRESIDENT

He never admitted defeat.

His name, Abraham Lincoln

The most successful firms we know today never admitted defeat. They used every selling and advertising tool available to help build business.

But Not To Death

A lady was entertaining the small son of a friend. “Are you sure you can cut your own meat, Tommy?” she asked.

“Oh, yes, thanks,” answered the child politely. “I’ve often had it as tough as this before.”

At assistant director of a B. O. W. Sportmen’s Club encampment, it was my duty to inspect the living quarters each morning.

On my first inspection trip, I found a large umbrella hidden in the bed of a small boy. This was not a required item when I reported and the kid had explained.

He looked at me for a moment, and solemnly informed me: “Sir, did you ever have a mother?”

Gas station attendant (pointing to choke lever): “Yes, your car uses too much gas!” Know what this is for?”

Woman (airily): “Oh, that! I never use it, so I keep it pulled out to hang my handbag on.”

Suggestion Committee

(Continued from page 1)

Of the 1960 awards mentioned above, nine were made to James Cooper of the Machine Shop, Helen Folino of Miscellaneous Assembly and Parts Preparation, both of Marshall Street; Mary Marchio of Industrial Oils Final Assembly; Brown Avenue; and Frank Morandi of the Machine Shop, Beaver Street.

Mr. Cooper received his award for suggesting the use of a knockout to prevent material from sticking in a dumbing machine. Helen Folino earned her award by suggesting the use of one meter as a plug-in unit for aging ovens rather than each oven having its own meter. For an improved technique of touching up solder on Clorinol units following impregnation, Mary Marchio received her award. Frank Morandi suggested a method of inserting the eyplet in covers of Clorinol units which will save time and parts.

Look sharp! This quiz checks more than the acuteness of your vision. It also tests your judgment of what's right or wrong on the road. Look again—then rate yourself against the line. But keep in mind that preserving a traffic hazard is not enough. A good driver is always prepared to take instant action to avoid trouble.

We urge you to be alert, drive carefully, know the rules—and obey them. Remember: about 75% of all accidents are caused by the driver—not the car.

(Each hazard is located by letter and by number. For example, F1 indicates the location of the station wagon at the lower right of the picture where lines from F and 8 would cross.)

1. Boat on station wagon is improperly blocked by packages (13, lower right)
2. Driver’s rear view blocked by packages (13, lower right)
3. Packed car not completely off highway (C10, center right)
4. Car attempting to pass on the right (D7, center)
5. Car with trailer is coming on car at left (B7, upper center right)
6. Car crossing divider (A6, top center)

7. Child zooming ball from car (E1, left center)
8. Driver reaching in back of car, and eyes off road (G1, left)
9. Car following car too close (D12, left center)
10. Car with one door not completely closed (D15, bottom center)

(These are major hazards, there are others if you found more than ten, congratulations)
