Miss Avery, Company's First Employee, Feted On Retirement

Carleton Shugg

Dr. Jerome B. Weisner, President Kennedy's Special Assistant for Science and Technology and former Director of Sprague Electric, was presented with the 1961 Electronics Industry Achievement Award at the EIA Convention in Chicago in May. Left to right are: Dr. Weisner, EIA President L. Berkley Davis, James D. Secrest, Robert C. Sprague, and David R. Hull. Mr. Sprague was a recipient of the EIA Medal of Honor in 1954 and President of the EIA in 1951.

Mr. Sprague was principal speaker for the occasion and presented to Miss Avery, on behalf of himself, Mr. Sprague, and the assembled group, a colored television set. Before the presentation, Mr. Sprague talked of the early years of the Company and the struggles and problems that had to be overcome to get established. He spoke with a great deal of feeling of Miss Avery's long and faithful service. John H. Wimant, Corporate Director of Industrial Relations, was master of ceremonies for the occasion.

Carleton E. Perry, President of the Sprague Electric Management Club, presented to Miss Avery on behalf of the Club a set of luggage, desk clock and a plaque highlighting her years of service to the Company.

Company officers who also spoke...
Harold E. Brafman, center, Product Specialist in the Field Engineering Department, presents a set of standard samples of India block micas to the Honorable S. K. Roy, representing the Indian government. Mr. Brafman made the presentation on behalf of Committee D-9 of the American Society for Testing Materials. Looking on at the right is Mr. Robert St. Peter, President of the Mica Industry Association, Inc.

Mr. Robert C. Sprague, Chairman of the Board and Chief Executive Officer, is shown receiving the Gold Knight Award of the National Management Association at a recent meeting in Salem, Massachusetts. The award is being made by Mr. Bernard Macker, NMA Director. At the left is Mr. Fred Magruder, 1961 President of the NMA, while at the far right is Mr. Joseph O’Brien, President of the New England Council of Management Clubs.

A group of electronics students from Vermont Agricultural and Technical Institute, Randolph Center, Vermont, toured the Company Engineering and Production areas in mid-June. Here Richard C. Pester son, Manager of Instrument Operations explains equipment in the Test Engineering and Production areas.

Mr. J. E. Barry receives his Master's Degree.

J. E. Barry, Chemist, Engineering Laboratories, received his Master's Degree at graduation ceremonies held early in June at Remseler Polytechnic Institute, Troy, New York. Mr. Barry attended RPI under the Company's Educational Sponsorship program.

MR. GEROULO NAMED MANAGER OF QAR FOR SPECIAL PRODUCTS

Announcement of the appointment of Michael J. Geroulo as Manager of Quality Assurance and Reliability for North Adams and Bennington Special Products Division was made late in June by Mr. David B. Peck, Vice President, Special Products. Mr. Geroulo, completing his work for a Master of Science degree in Physics, received his bachelor's degree from the University of Vermont, St. Albans, Vermont in 1950. He is married to the former Eleanor A. Yanek of Throop, Pennsylvania and they have four children.

Four Engineers Are Added To ICFS Staff

The North Adams Interference Control Field Service Department recently added four engineers to its staff. They are George H. Smith, as Supervisor of ICFS Test Facilities; Richard A. Hall, Roger C. Follett and Michael Plavetzky to Field Engineering.

Mr. Smith, a native of Water-
town, New York, was in the service in Korea from 1953 to 1955 as a Radar Platoon Commander and later as Battalion Radar Officer with the 1st Field Artillery Observation Battalion. In 1959, he graduated from Clarkson College of Technology, Potsdam, New York, with a degree in electrical engineering. He then joined General Dynamics of Rochester, New York, as an electronics engineer. He is married and has two children.

Mr. Hall is a June graduate of the University of Massachusetts. He is a native of New Haven, Connecticut, but attended elementary and high school in Harvard, Massachusetts. He was in the U. S. Army for three years, working with electrical systems on the Nike Ajax antiaircraft missiles. He then became a student at the University of Massachusetts, and he has two children.

Mr. Follett is a Montpeillier, Ver-
mont native and graduated from the local elementary and high schools. He graduated from the United States Merchant Marine Academy in 1953 and joined the United States Air Force. Upon his discharge from the Air Force in 1957, he attended the University of Vermont and graduated this past June with a bachelor of science degree in electrical engineer-
ing. He is married and has two sons.

Mr. Plavetzky is a native of North Adams and attended local schools and graduating from Drury High School in 1959. He received his BS degree from Massachusetts Institute of Technology in 1961. Originally employed in the Ceramic Laboratory, he transferred to the Solid State Physics Laboratory in January, 1961. He married the former Miss Avery, a native of Hartford, Connecticut and graduated from Natick High School, Natick, Massa-
achusetts in 1959. He joined Sprague Electric in 1960 following his gradua-
tion from Massachusetts Institute of Technology where he received his BS degree in Electrical Engineering. During the past school year he was an assistant at Eastern Kodak Com-
pany and the U. S. Civil Service, and served two years hitch in the U. S. Army as a First Lieutenant. He received his MS degree in Electrical Engineering and is married to the former Alice Costa of Arlington, Massachusetts, and they have one child.

Scholarships Awarded To Area Young People

Two daughters and two sons of Sprague Electric employes from other area young people were the recipients of Sprague Electric Scholarships awarded at local high school class night and graduation ceremonies in mid-June.

Graduating Deering seniors, daughters of Sprague employes, each received a scholarship of $500.00 a year for four years. They were Eileen F. Bojajile, majored in Chemistry, a member of Section Head of Dry Equipment Engineering; and Josephine A. Troia, majored in Mathematics and Biology, a member of the Paper Rolling Department. Miss Bojajile plans to attend the University of Massachusetts and will pursue a course of study leading to a bachelor of science degree. Miss Troia will major in mathematics and biology at Keuka College, Ithaca, New York, in the fall.

Miss Avery warmly replied and ex-
pressed her appreciation of her as-
sociation in the company's and the company's advancement.

Mr. Follett is a Montpeillier, Ver-
mont native and graduated from the local elementary and high schools. He graduated from the United States Merchant Marine Academy in 1953 and joined the United States Air Force. Upon his discharge from the Air Force in 1957, he attended the University of Vermont and graduated this past June with a bachelor of science degree in electrical engineer-
ing. He is married and has two sons.

ICFS Engineers Look Over Equipment

Shown above are four engineers who recently joined the ICFS Depart-
ment. They are observing the results of a radio interference test being made by Mr. Robert C. Sprague, Chairman of the Board and Chief Execu-
tive Officer. They are, from left to right: Roger C. Follett, Richard A. Hall, Michael Plavetzky and George H. Smith.

Corporate Industrial Relations Holds Third Bi-Annual Conference

In early June, 29 members of Corporate Industrial Relations from every corner of the United States gathered at Williams Inn, Williamstown, Massachusetts to take part in a four day Industrial Relations Con-
ference.

The Conference was the third in a series with the first being held in May, 1957 and the annual one in 1959. The meeting aimed at passing on to the group the current trends in Industrial Relations practices and exchanging information on various Company programs. The conference featured seminars, workshops, dis-
cussions and question and answer sessions on various subjects. A broad range of sub-
jects were introduced including a step-by-step employee selection program, corporate publications, budget, control, insurance program, employee retirement program and overall personnel practices.

Mr. Robert C. Sprague, Chair-
manship of the Board and Chief Executive Officer, opened the conference by giving the audience a talk about the planned growth of Sprague Electric in the near and future.

Mr. Robert C. Sprague, Jr., Senior Vice President, spoke to the gathering on future aims of the group and the part to be played by the National Interference Control Foundation.

Speakers and discussion leaders from Corporate Industrial Relations

200 Friends and Associates Attend F. W. McNamara Testimonial Dinner

Frederick W. McNamara, center, is shown seated at the head table at a testimonial dinner given in his honor. Mrs. McNamara is seated on the left and Robert C. Sprague, Chairman of the Board and Chief Execu-
tive Officer, is on the right.

A testimonial dinner was given in honor of Frederick W. McNamara at the Inn House in Williamstown late in June. Mr. McNamara retired from the Purchasing Department after thirty-two years, but will remain as a consultant to the department.

Mr. McNamara is one of the original group of employes who trans-
ferred to North Adams when the company moved here from Quincy. He joined Sprague Electric in January 1929 as Purchasing Agent, coming from the Amend Corporation.

The dinner was attended by 200 Mr. McNamara’s friends, fellow em-
ployees and representatives from 51

Continued on page 11, col. 3

Sprague Electric suppliers.

Eland B. Buzzell, a Buyer in Purchasing, served as toastmaster and introduced Mr. Robert C. Sprague, Chairman of the Board and Chief Executive Officer. Mr. Sprague spoke of the Company’s early years and related experiences he and Mr. Mc-
Namara shared during these years.

A scroll was presented to Mr. Mc-
Namara by Mr. Robert A. Fieldbanks, Assistant Purchasing Agent, listing the names of all those who partici-
pated in the testimonial. He also was given a purse of money. Mr. McNamara received a standing ovation from the assembled group.

Mr. McNamara is a native of Chester, Massachusetts. He is mar-
ried to the former Margaret Mc-
Queen of Arlington, Massachusetts and they have two children. He was appointed to the North Adams Air-
port Commission in 1948 and has been a member ever since.

Four College Seniors Train In ICFS Dept.

The North Adams Interference Control Field Service has embarked on an unusual training program this summer. Four senior engineering students have been employed to re-
sieve overall training in ICFS pro-
grams and functions in the hope that they will be influenced to return to Sprague Electric when they graduate. The arrangement next June. Selected from several different schools, they have been chosen because of an expressed interest in this field. Each student will be assigned different duties in the de-
partment and will rotate his assign-
ment so as to receive a comprehensive overall picture of the department’s activities.

We hope you enjoy working with us.

Edna Cwiertniewicz and Adelle Sorbo—adapting and eating frogs legs. Edna had laryngitis recently and it certainly seemed quiet for a few days. She made up for it later, didn’t you, Edna? Amelia Dean has been very happy lately. She recently had her two sons and their families from California visiting her for three weeks. Belated anniversary greetings to Agnes and Ted Fitzgerald, Adele and Guerino Solari and Helen and Gordon Harrington. They all celebrated during July.

Congratulations to Richard Richards, son of Doris and Leon Richards, on his graduation from State College. Rich was the recipient of the $100.00 Sprague Award for Science. Curiously, at the Scott Camp (Camp Eagle) on October Mountain for the summer season, Richard is to be married on August 19 to Suzanne Campbell of Lanesboro. Recent vacationers include Edna Cwiertniewicz who went to New Hampshire, Stephanie Kulpa to Moosehead Lake, Maine, James Dean to Canada on a fishing trip (he didn’t even catch cold)! Yvonne Day at home enjoying the rainy weather, and Lillian Perk to Montreal, Canada. Others on vacation included Agnes Fitzgerald and Rose Bombardier. Agnes went to Laconia, New Hampshire where her granddaughter was very sick in the hospital. We hope everything is fine now, Agnes. Rose spent her vacation at home, and Doris spent a few days in Old Orchard Beach, Maine, over the Fourth of July.

Paper Rolling

George Maldoff & Bill Marquis

Here are your two new reporters “George & Bill” and we hope you enjoy our column. We had a wonderful time at the LOG picnic. Vacations are as follows: Chuck Mulcahy—2 weeks in New York. Andrew Darlington—Lake Champlain fishing (no fish). Mary Collier—2 weeks in Texas visiting her daughter Daisy Major—at home. Josephine Farley—in New York with her son, John, and his family. She drove out and back accompanied by her daughter, Alice Beer, who works in the Sample Department on Brown Street, also daughter, Ruth St. John, who works in the Tantalum Department on Marshall Street, and Ruth’s husband, Norman St. John, and 12 year old granddaughter, Christine St. John.

The welcome mat is out for Betty Ferris who joined our hard working, meticulous Hi-Pass line. Alice Lavariere vacationed at the beaches in Connecticut and on July 15 attended the wedding of her nephew, John Law, who married Arlene DeCoteau in Notre Dame Church. Alice Conolly and husband, Alas, traveled north to Lachine, Montreal and Sherbrooke, Canada to visit relatives. Fred Sothers had a unique vacation. He spent it moving his new green and white four-room trailer to his property in Briggsville. Mighty nice going, Fred. We would like to pay tribute to one of our co-workers, Leona Millard, who helped save the life of a little two year old girl who had wandered into the water. Leona, the mother of two boys, can certainly appreciate the feelings of this child’s parent. Susie Pollowe took one week of her vacation to go to Boston where she went on one of her grand shopping sprees and also visited her friend Sophie’s home in Fitchburg. Susie also has been quite the “angel of mercy” lately in her role of substitute teacher. We’re glad that “our girl” Marilyn Daub’s stay at the local hospital wasn’t for long, and that she has returned to work and her old desk. Our congratulations to Barbara Montagna and Diane Buletti on their graduation from Drury High School. Lula and Karl Briggs took the first two weeks in July for vacation and spent one week of it at Hampton Beach. They took Karl’s mother along as a guest. They enjoyed reading Liberase and dancing to Lester

Prior to the games a picnic lunch was served. The menu included hamburgers, hot dogs, potato salad, baked beans, coleslaw, relish, rolls and watermelon. The good food was consumed at a rapid rate and thoroughly enjoyed by all. As it was a cool evening the group adjourned to the clubhouse at dusk for dancing until ??

The Log ‘Gang’ Meet At Peter’s Hide-a-Way

Some 25 Log reporters and guests convened at Peter’s Hide-a-Way on June 20 for their annual outdoor get-together. The games again proved to be the highlight of the evening with almost everyone participating. A balloon bust game in which an inflated balloon is tied on the hip and each contestant tries to break another’s balloon with his hip, created quite a stir. The egg throwing contest, revived after being dropped last year, showed that many reporters still have the soft touch and sharp eye.
June 29th. Helen is on vacation. Delia Gawron by Marion Andrews
Our check inspector, Mary Gleba's son, William, and Rita Sorel's son, John, graduated from high school. We all wish you enjoy working with them. Rita Morehouse. Our dreamer, Rita Morehouse. To the gal in charge, "thanks, for a job well done". Now we are looking forward to the next one. The other partners three of us are always looking for the best party. No wonder Margaret is a great gal and her friendship will last for years. We all wish you have many more. Hi, we are happy to hear about the accident with your son, but we wish you are doing well. The other partner three of us are always looking for the best party. No wonder Margaret is a great gal and her friendship will last for years. We all wish you have many more. Hi, we are happy to hear about the accident with your son, but we wish you are doing well. The other partner three of us are always looking for the best party. No wonder Margaret is a great gal and her friendship will last for years. We all wish you have many more.
Looking a bit apprehensive is little George Gay, two year old son of Dr. and Mrs. Bouchard's wife, Ceil, has returned from a visit to Poland. Bet you're glad to see him again!... The food was delicious. The best of luck to everyone who went on vacation. And now the answer, please tell Dave Peck. We would like to say "Hi" to Jeanrette Bedelia and Pat Duncan and Irene Kondej—Pat, who had been gone from our ranks a long time. We have a few questions, and here's the answer, please tell Dave Peck.

Magnetic Finishing by Helen Bartlett

Magnetic Samples by M. Shily Naying

We all wish John Carey, who is ill in the hospital, a speedy recovery. We have heard that he is feeling much better... The weather will be real warm and we will be having some more of those long, hot... I had a good time at our Log Picnic—so did Janet. I took part in one of the games, and they were all a great success. I heard that Mark Vannini, son of Anthony, will be acting in the Little League All-Stars game. Mark is a good little player from all reports. Hope you will have as good a time as you did last year.

The girls all looked lovely in their dresses for the vacation. The girls all looked lovely in their dresses for the vacation. We received gowns for them—Phyllis Toniatti and Fran Unsworth.

A dinner party was held Sunday afternoon at the Taconic Park Restaurant in Williamstown... We would like to congratulate Mr. & Mrs. Waldo on the birth of a baby girl for Mr. & Mrs. DeMers who have been out sick... We are all keeping a watchful eye on Steve. We have decided that the third one is a sad sight. You guessed it. We are all keeping a watchful eye on Steve. We have decided that the third one is a sad sight. You guessed it... Laura (Shortstop) Roy is feeling much better... The weather was enjoyable by Evelyn Jones and Helen Burdick... We would like to congratulate Mr. & Mrs. Leon on the birth of a baby girl for Mr. & Mrs. DeMers who have been out sick... We are all keeping a watchful eye on Steve. We have decided that the third one is a sad sight. You guessed it... We are all keeping a watchful eye on Steve. We have decided that the third one is a sad sight. You guessed it... Kate Smith, we hope you're happy and back with us in the Fall... Who is the girl who had her shoes on the contractors' yard?... We would like to say 'Hi' to Jeanrette Bedelia and Pat Duncan and Irene Kondej—Pat who had been gone from our ranks a long time.
**Jersey beach (wishing they were back...)**

Just see Ruthie Wellspeak... With us they're not mentioned here.

The office) are the Wellspeaks, and at we take a week or two to get away.

Congratulations Helen Kawa (not all together, of wilderness (of the Clarksburg State Parkhurst... earlier in the season...

A couple who go to extremes to get Poirot of Western Electric. Left to right they are: William 12, Louis, Jr., their son, John Leonesio, Will Harris and hospital is Cynthia Tatro, and represented the facts in last month's... Langlois... We hope George LeSage of Nicky Utman as yet he hasn't been able to find out... Mrs. Hooks was not! Congratulations, her vacation. She and her husband canoeing and storing all the delicacies. Luck has been with him. His produce and to a camp on Florida Mountain.

Tantallon... It's baseball time!

The well-known fishing village at Oaklawn Cemetery. And Lena Copeland - it's baseball time!

Airman 3/c James E. Roberts is the son of Peg Roberts of Special Projects, and will come home to Dover A. F. Base, Dover, Delaware.

SPRAGUE ELECTRIC LOG

July, 1961

Joel Williams spent a most enjoyable graduation week-end at Dartmouth College—but they enjoyed her too! Helen Williams, John, graduated from Drury High School this June, and the very next day was on his way to his future career. C'est la vie, Corinne—one son in Germany, one in California—and thank goodness for it! You still have Shirley close by in Stanford!.

Ray Calvi, now of the Navajo Nation, was given a farewell party at Heartsville Lodge at which he received a deer skin jacket from the group. We wish Ray, and also his former little secretary, Barbara Colvin who is now so successful at Mr. Robert Warriner in Field Engineering, Barb was given a party at the Manor by the office personnel at which she received luggage. Barbara's sparkling personality is certainly missed in our office! Howard Sherman seems pretty happy these days. Bob Donald recently graduated as a dentist, which is a long and difficult course. Bert both Howard and Dr. Sherington are glad to see him, I'm sure.

Most of us are acquiring suntans these days, including our group, the Dentons, who sat under a sun lamp too long. We're going to make sure next year that way we have warmer weather on the agenda.

Sprodeo Inventory Control

by Peggy Buds

July 21st was the lovely bridal celebration for Margaret Lasher. It was her 22nd wedding anniversary and her daughter, Nance, who went to the University of Massachusetts, and will enter college in the fall.

The main topic these days is fishing. Eddie Meczywor, our check inspector, is a member of the 42nd Rifle Co. of the United States Marine Corps Reserve, for a well deserved rest! Al Rysz, a member of our group, Mose Duchene, is back from his ship after a layoff. He has fixed up his room at college and is pretty handy fixing things up. He has a grandson born in July, 1961. He was decorated with the Heat Seal and bring in some gorgeous flowers, anyone who fishes—he has the worms. Hewitt has a reminder—if you know anyone who has a story he told us about a family fish trip she went on when she was 10. She has a grandson born in July, 1961, and we're glad you are all feeling better too.
Gardner, daughter of John of Wire Coating.

This little thinker is Scott Morey, son of Gloria Knapp of Magnetics.

A happy little girl is Julie Ann Alberta Thibodeau, 14, was a June graduate of Sacred Heart with top honors. Her mother is Lucy of Magnetics.

It's because she is up here and her daughter is vacationing for the summer in Florida. Gyle is also the daughter of the handsome bearded man, Art George who is technician downstairs...Good luck, Joanie Myers, on your new job in the Lab.

Avis Bruce, you did a fine job making them. So did the others who made them for themselves. Avis Bruce had a pleasant surprise. She and Sandy Rodgers, who have an apartment together, were getting ready to move when Avis's family from Elgin, Illinois showed up and helped them. Not everyone gets moved in a Cadillac. We are all glad to hear that your son, Scott, is getting along so well and that his arm is going to be all right. Gloria Knapp, Joanie George has "that green eyed look".

Wire Coating

A retirement party was held for Harold Peters at the Mount Anthony Country Club on Thursday, June 29. Mr. Peters had been an employee of Sprague Electric for 19 years. About 35 people attended and Harold White acted as toastmaster. Mr. Peters was presented with appropriate gifts. The "gang" in Wire Coating would like to extend a warm welcome to Bruce McAd, a newcomer to their department...Carl Allen enjoyed fishing at Lake Champlain on his vacation, the first and second weeks of July...Kenneth Sawyer and William Potter left on July 8 to spend two weeks at Camp Drum with the National Guard. Did you have a nice vacation boys?...The Brothers of the Brush are really adding to the spirit of the Bennington Bi-Centennial Celebration by the addition of their beards and derbies and ties.

New Arrivals

JUNE
2. Mr. & Mrs. Ronald Kerney, son
8. Mr. & Mrs. Donald Tatro, son
11. Mr. & Mrs. Gerald Lavigne, son
11. Mr. & Mrs. Donald Mahoney, son
11. Mr. & Mrs. William King, son
13. Mr. & Mrs. John Cavanagh
14. Mr. & Mrs. Lawrence LeBeau, son
22. Mr. & Mrs. George Sturtevitt, son
28. Mr. & Mrs. David Haggerty, daughter
29. Mr. & Mrs. Ronald Battis, daughter

JULY
4. Mr. & Mrs. R. Alan Gierason, son
5. Mr. & Mrs. Ronald Battis, daughter
6. Mr. & Mrs. Arthur H. Hooker, daughter
6. Mr. & Mrs. Eugene Kozla, son
Even though he left the Navy in 1929 to take a job as a factory manager with Sprague Electric at North Adams, Mass., he resumed and saw the ship and the sea 11 years later as production manager for the Cram Shipyard in Philadelphia.

In World War II, he became general manager of the giant Todd Shipyards in Boston, N. Y., and Hoboken, N. J. He has rarely been away from ships since.

One exception to this was a job with the Atomic Energy Commission as manager of its Hanford, Wash. works in 1947. A year later, he was transferred to Washington, D. C. as deputy general manager of the entire AEC operation.

AEC EXPERIENCE, TOO

At the time, the atomic sub was only a gleam in Uncle Sam's eye, but somehow Shugg has ever done has pleased him toward his greatest accomplishment, building the missile-carrying atomic submarine fleet.

He was thus able to combine his knowledge of atomic energy with his ship-and-submarine-building know-how when he came to Electric Boat as assistant chief engineer.

"Funny thing," he reminisces, "at Hanford we had maybe a hundred areas of expertise and I was detailed to servicing a single atomic explosive. Yet I knew all kinds of safety devices and backup features to protect the workers.

"LIVING WITH THE ATOM"

When we went to work on the atomic bomb (the Nautilus) we built there were 4 months left before power source. It's a city, an ocean liner, and a weapon, all in one."

As a sub commander, Shugg finds his greatest troubles with the "nuts and bolts stuff" that goes into a sub, rather than with its complex nuclear propulsion and reduction of ASW (anti-submarine warfare) naus, as well as those for the Polaris program.

CITY UNDER WATER

As Shugg puts it, "A sub has every function found in a city - hotel, school, restaurant, communications - and then some. It's a city, an ocean liner, and a weapon, all in one."

"It's positively uncanny how that Shugg and the Electric Boat people their George Wash-ington's second critical wave. Winning out the G.W.'s sister ship, the Patrick Henry, in just 225/2 months from keel to full power, it is voyaging on a favorite Shugg saying, "We find it's easier to do something twice as fast."

When the first Polaris sub under its corporate belt, Electric Boat is just now getting into "repeat boats." Shugg has been looking toward space travel and has some ideas on how to get there. Shugg and the Electric Boat have almost a hundred Submarines, and 25 percent of them are of the Polaris class, "a part of them, even around when a Polaris missile is fired."

"It is axiomatic at Electric Boat that there is no such thing as a free lunch. It is a part of them, even around when a Polaris missile is fired."

"It is axiomatic at Electric Boat that there is no such thing as a free lunch. It is a part of them, even around when a Polaris missile is fired." It is this dedication to the job that helped deliver the George Wash-ington's second critical wave. Winning out the G.W.'s sister ship, the Patrick Henry, in just 225/2 months from keel to full power, it is voyaging on a favorite Shugg saying, "We find it's easier to do something twice as fast."
The 6th Annual Fishing Derby sponsored by the Sprague Log was held late in May at Hoosac Lake in Cheshire, Massachusetts. It was a sunny but cool, windy day with about 250 Sprague employees and their families turning out to try their luck. It proved to be a rewarding day for those who were able to catch a fish that qualified in one of the six categories in the adult contest or the ten categories in the children's contest.

In the adult contest the winners were: John Davis of Methods, 1st place; John Murray of the Machine Shop, 2nd place; Ray Belding of Filters, 3rd place; Ernest Pead, son of Stuart Pead, a life employee of the Warehouse, a lifetime membership and a fishing rod and reel for the heaviest fish caught; and Joseph Lazarczyk, son of Rose Lazarczyk of Filters, a spinpickerel. Among the children, the winners were: Gary Bourdon, son of Ed Bourdon of the Warehouse, a lifetime membership and a fishing rod and reel for the heaviest fish caught; and Andrew Mikus, son of William Mikus of the Washington Sales Department, a spinning rod and reel for the heaviest fish caught.

Two of the three winners in the adult section of the contest pose with their prizes. On the left is Phil Thompson of Methods, a fly rod and reel for the largest pickerel; Mike Gentile, son of Unio Gentile of Tarentum Finishing, a spinning rod and reel for the heaviest fish of the day; and Don Law of the Machine Shop, a rod and reel for the largest perch.

The children's contest winners were: Gary Bordem, son of Ed Bordem of the Warehouse, a life pass for the smallest bluegill; Alan Faveaux, son of Ray Faveaux of Maintenance, and Andrew Mikus, son of Cecelia Mikus of Check Inspection, Beaver Street, tied for the largest rock bass and each received a fly rod and reel; Carl Morin, son of Mike Morin of Filters, a spinning rod and reel for the largest perch; Joseph Stachlech, Jr., son of Lillian Hartwig of Paper Rolling, a spinning rod and reel for the largest crappie seed; Linda Peat, daughter of Stuart Peat of Engineering Services, a life pass for the smallest bluegill; and Ernest Peat, son of Stuart Peat, a casting rod and reel for the largest pickerel; and Joseph Lazarczyk, son of Rose Lazarczyk of Filters, a spinning rod and reel for the heaviest fish of the day.

The contest was organized and run by John Davis, Supervisor in Filters, who served as chairman. He was ably assisted by a group of judges consisting of: Ray and John Murray of the Machine Shop, Ray Belding of Filters, Bernie Belding of Engineering Laboratories, Dick Deffert of Industrial Oils Finishing Assembly and Henry Parker of Formation.

**Wingfoot Golf Team First Half Winners by Jim Bonar**

The Sprague Employers Golf League completed its first half of the season and the Wingfoot team finished in first place after the first eight weeks of competition.

Wingfoot's members are: Ralph Fresnola, Frank Osterhoudt, Don Tanguay, George Geroulo, John Flaherty, George Bateman, and Joe Fullmer. Fresnola has won 10 points; Tanguay has won 12 points; Geroulo has won 10 points; Flaherty, 7 points; Bateman, 6 points; and Fullmer has won 4 points.

Two players elected to baseball's Hall of Fame in 1961.

1. Who were the two players elected to baseball's Hall of Fame in 1961?
2. How many Walker Cup titles has Great Britain won?
3. What West Coast team played in the first Rose Bowl game?
4. I started to pitch in the major leagues at the age of 18. With what team?
5. Who was the jockey who rode in the 1960 Sullivan Award as the nation's outstanding amateur athlete?
6. Who was the twenty game winner in the American League in 1960?
7. Where was the winning streak of the Oakland A's broken off?
8. Who was the twenty game winner in the National League in 1960?
9. Who was the jockey who rode in the 1960 Sullivan Award as the nation's outstanding amateur athlete?
10. Who won the 1960 Sullivan Award as the nation's outstanding amateur athlete?
11. How many times has Gene Fullmer been knocked out in his career?
