Three promotions announced at the Bennington Plant

Three promotions at the Bennington Plant of the Special Productions Division were announced late in October by Harold White, Manager of Wire Coating Operations. Arthur George, Jr., a Senior Technician, was promoted to the position of Foreman of the Wire Coating Department. Virgil Gregory, Senior Technician in the Bennington Laboratory, was promoted to the position of Engineering Assistant reporting to Edward Coulomb, Assistant Manager of Wire Coating Operations, and John Sears, formerly Foreman of the Wire Coating Department, was appointed Department Head of Maintenance for the Bennington Plant.

Mr. George will be responsible for manufacturing functions in the Wire Coating Department. He has been employed by Sprague Electric Company for 13 years.

Notice

The North Adams Industrial Relations Department requests that the following changes be reported to them:

1. Eligible hourly employees who have returned to work from leave or layoff, but who have not signed up for the Hourly Pension Plan, should check with the Industrial Relations Department.
2. Changes in exemptions as they relate to income tax deductions.
3. Change of address and telephone number.
4. New dependents - so that they may be added for insurance coverage.
5. Benefits changes affecting life insurance.

Credit Union Votes
4% Dividend, Also Elects New Officers

An increase in dividend of 4½% was voted by the members of the Sprague Electric Credit Union at the semi-annual meeting held on Tuesday, November 21. This raises the dividend to 4½% per annum for the six month period ending October 31st for the 2823 Credit Union members.

It was also announced that the Credit Union shares and deposits are now fully insured as at June 7, 1961 when the Sprague Electric Credit Union joined the Massachusetts Credit Union Share Insurance Corporation.

Five Directors were re-elected for three year terms. They were: Thomas R. Dion of Maintenance Control, Henry K. Deane of North Adams Industrial Relations, Peter A. Horbal of Cost Estimating, Emma A. George, Jr. and V. Gregory,

Robert Hamilton demonstrates the application of the side sliding shutters for coiling winding operations which were purchased as a result of his suggestion.

19 Complete Annual Field Engineering Tour

The Annual Field and Sales Engineering Training Program was recently concluded on the Sprague Electric Sales and Engineering personnel under the direction of Courten W. Flanders, Manager of Corporate Training. Covering an exhaustive and extensive review of the Company's product lines, the tour started on Monday, November 6 with a presentation of the Company's history and plant facilities, and concluded on Friday afternoon, November 10, with a tour of the plants of John C. Killic, Vice President, Industrial and Military Sales.

In addition to North Adams' plant tours, the group was addressed by many Company officials including Robert C. Sprague, Chairman of the Board and Chief Executive Officer; Edward L. Ward, President; Neil W. Welch, Senior Vice President, Marketing and Sales; Dr. William A. Lazier, Senior Vice President, Engineering; Bruce R. Carlson, Vice President, Corporate Planning and Development.

Continued on page 8, col. 3

Robert Sprague's statement is as applied to a game of Chinese chess, means that the directors have arrived at a point which neither can win. With this interpretation, many authorities are of the opinion that active warfare must be restricted to a limited 'brushfire' type, fought with conventional weapons.

Research Building Is Landscaped

Work on the new Research Building is moving along to complete as many outdoor projects as possible before cold weather sets in. Here a crew finishes the landscaping of the lawn in front of the building. The sidewalk leading to it was completed late in November.

Company Eye Protection Program Proves Its Worth to Roy Ashton

Roy Ashton can thank his lucky stars for the Sprague Electric Safety Education program which requires employees to wear safety glasses on any job where possible eye injury may occur.

Roy, a machinist at the Brown Street Machine Shop, was recently in the process of milling a metal pulley on his milling machine. He was wearing his safety glasses, which is a required safety practice in the Machine Shop. The pressure of the cutter against the metal caused the pulley to burst and jagged pieces of metal flew in all directions. One piece, 2 x 1 x 1/4" struck the left lens of Roy’s safety glasses — but only caused the lens to crack. The shattered piece of metal fell harmlessly on the milling machine table.

We can not urge you too strongly to wear the required safety equipment provided by the Company. It is for your personal protection!

The policy of wearing safety glasses has been part of the Company’s Safety Program for many years and has paid off many times by protecting eyes from serious injury. Saving just one employee from injury makes the program worthwhile according to Arthur J. Mathews, Safety Coordinator.

Social Security Taxes To Rise In January ’62

Increased deductions for Social Security benefits will start with the first paychecks received by all Sprague Electric employees in 1962. As a result the maximum amount due will rise from $144.00 for 1961 to $159.00 for 1962 based on annual earnings of $4800.00. This represents an increase from 3% to 31/2% yearly taxable earnings.

The Social Security law passed by Congress also requires Sprague Electric Company to match each employee’s contribution — dollar for dollar. Therefore, 6.5% of the total taxable payroll earned during 1962 will be paid to the government to cover the costs of the present system.

This is the eighth time the Social Security taxes have risen in the last twelve years. During the first thirteen years, from 1937 to 1950, there were no increases. Starting in 1957 the rate was 1% of annual earnings up to a maximum of $3000.00 earning ($3100.00), and has now risen to next year’s maximum of $12000.00 tax on annual earnings of $4800.00. This amount will continue to rise in 1963, 1966 and 1968.

There will be no tax on $2000.00 or 45% of the same annual income. These scheduled increases in taxes are necessary because the money needed to pay benefits as they are at the present time. Neither the present tax increases, nor those through 1968, will allow for any additional in benefits now received by retired persons or their survivors.

There are two main reasons why Social Security is so important and necessary. It is frequently discussed during the last twenty years. First, each year more and more people are qualified to receive Social Security taxes.

Management Club Officers Installed

The 1962 officers of the Sprague Electric Management Club were installed at a meeting held early in November. They are (left to right) Robert J. Marriott, Treasurer; James C. Nicol, Vice President; Philip B. Talalac, President, and Zygamond Nash, Secretary. John H. Wingert, Corporate Director of Industrial Relations, installed the group in his capacity as Director of the National Management Association.

These are the safety glasses which protected Roy Ashton when a piece of metal flew from his milling machine table.
Samples and Small Orders tend this wish to you — A Very Merry Christmas and a Happy New Year, too!

High Reliability
by Marion Andrews
At this time I would like to welcome (for the month of December so I would like to wish everyone a Merry Christmas. Just a reminder — "What would Christmas be without Christ?"

I am back in with us again and you are glad to see me even though she does pick on me! Peggy Doyle bought her daughter a French poodle and she is having quite a problem with her. Don't we all, Peg, when we have a new puppy. Don't give up!

Bathtub Assembly
by Janet Morehouse
I had the pleasure of attending the Log Banquet held at Taconic Park recently and I want to say that the comittee deserves a big hand for the wonderful party given the reporters. Congratulations to both George and Carol. Poor Sam Unworth is still floor pacing, but assured me this morning that this is "D" Day — I am assuming that "D" stands for delivery... Old "Deadshot" George Maxwell is the busiest man around trying to decide what new car to buy and where to get it at the lowest price. Phyllis Parker and Helen Bryce are very careful not to let our ears hear any news. Despite all their gossiping and tongue wagging, they are very careful not to say anything while I am within earshot, but they will live to regret it!... Cel Mikulewski is still struggling with a very bad cold and does not seem to get anywhere as far as a Christmas party is concerned... Adella Gawron was not with us much lately as her son had a rather serious operation, but is coming along alright now. Dick Maynard is really overworked lately — overtime and no time for books... We have come to the conclusion that the Log Banquet was a howling success, but I am almost willing to bet that I will never drink another "C. C." whiskey shot ever!

Metal Clad
by Atlantic Pulino
Lillian Gainer, our star reporter, is still in the local hospital and will be for at least 3 more weeks. She just had her 3rd cast put on her leg. We all miss her and wish her well soon. Clyde MacDonald, our supervisor, and his wife, Maria, have named their new baby Luis Louise.

Vacations are coming to an end, but with long trips! Grace Dupuis and her husband spent 3 weeks traveling first to Florida and then on to Cleveland, Ohio to visit a sister, and then to Pittsburgh, Pennsylvania to visit her son and wife, both of whom teach at the University there... Jennie Thompson, her husband, and son Gary, attended Parents' Week-end at the University of Ottawa in Kansas where son, Frederick, is a senior.

Now we know it is about time for Helen Baxter to retire. She is slipping! She had the room in an upper one morning when one of the girls noticed that Helen had one black and one brown shoe. No one laughed harder than Helen. We will miss Helen's humor when she leaves us in December. Elizabeth Feria has been transferred to the Spray Room and we all miss her very much. Mildred Miranti was surprised with a birthday cake which she shared with all of us. Her husband spent 3 weeks traveling in California and little Edith is trying to decide what new car to buy and where to get it at the lowest price.

SPRAGUE ELECTRIC LOG

Page 3
and we were all glad for her... When you hear the girls talking about the Fox Hole and the Railroad Station you can bet they are 'riding' Angie Nausif and Amelia Couture. When it is too quiet, we know we can get a glass of orange juice and talk about some of your old co-workers and retirees. A little - and Lola Briggs knows just how to dig her. We like having Helen Lefebvre around.

What are we going to do when Bertha Dupere retires? That's what we hear throughout the building. Guest speakers are the order of the day, and the room is loved by all. She always lends a helping hand and has a kind heart. We wish her the best of luck on her heart as big as all outdoors. We will miss you, Bertha, but we won't forget you. Keep in touch with us.

We have some new faces around. Welcome to Eileen O'Neil. She is the inquisitive girl in the department. A lot of us envy her... When Lucille Crews' eyes light up we know her heart is in the right place. Everyone is thinking about snow tires this fall. Does anyone want to try one?... A very Merry Christmas to everyone from your High Reliability Test and Ship Department!

Pllling

By Joe Pilling

Vacation time is ended so we settle down again until next summer. Claus, Taff, and Jose are looking for a new apartment on Brooklyn Street. Everyone is thinking about snow tires and winter gear. Our sympathy goes to Inoude Volkman who recently lost his father. The scores 'Speedy' Marsellius in bowling may make John Murach sorry he didn't keep his bowling shoes... Mike Becker tells us that he's quite a duck hunter, but there are still some who are doubtful. Frank 'Mr. Rude' son is quarterback on his high school team. Maybe he'll develop into another Johnny Lajack... 'Jas' Volkman's son is attending Stare College.

A special bowling match was held recently between John Murach and "King of the Hill" Clary Tazto - results - John 499, Clary 460. Both bowling teams got off to a good start but took one ball off their best throwers due to straight and tell her that a sweater goes on the arms and not the legs!... We're still on the fence about "fallout" just ask Shirley Higgins. She knows just what to do about it. Everyone is talking about "fallout"... Eva King and Eva Mangano both have baby girls. We all expect more girls!... We all think Mark Lover for the big bag of 'tricks or treats' she brought in... We all hope for a Merry Christmas and to everyone from your Hilary Navigation Train-

Cheek Inspection by Betty Jacobson

The Fifth Annual Christmas Party of the Check Inspection group and invited guests will take place at the Heartwellodge on Saturday, December 16. The evening will feature a performance by the Log Banquet. Dave Thompson did a nice job of directing.

This very little fellow is Jackie and grand-nephew of Helen Burdick of Union Street. enjoying her birthday with a dinner at the Copper Pin. The evening was such a success that a "Supper Club" has been formed. Mary's will be collected each week until there is enough for a night out. Sounds like fun! The girls on Al's team helped him celebrate his birthday by presenting him with a cake and a beautiful wool shirt. Many happy returns, Al!

Looking very angelic is little Wayne Nassif, grandson of Angie Nassif of Metal Clad. His mother is the former Geraldine Dutcher, something comfortable and homey! Our bowling teams seem to be doing well. Our biggest win has been the team -- All in the department have either been transferred, or have gone on to other duties. We do wish all of you have many more years of happiness.

Little Robin Walden has a pal and his name is Gasper. They are a round times together. Robin is the daughter of Evelyn of Fitters.

We all wish you the Merriest Christmas from all of you. We feel it is time to give it serious and immediate action. Let us always...are an important topic of conversation in our group. We feel it is time to give it serious and immediate action. Let us always remember "It is not the flag we are ready to defend and fight for, but what the flag represents."...Wishing you the Merriest Christmas from all of us at Autometrics and a truly prosperous and healthy New Year.

**Purchasing**

*By Betty Boggus and Emma John*

The Beaver Street Purchasing and Material Control have moved into new quarters and we would like to extend our thanks and appreciation to Messrs. Pratt, Perry, Newcomb and their crew for the cooperation and wonderful quick service given to us in making our new office a pleasant place to work. It looks as if Ella Dummore is the last of the department to have a vacation, which we understand she is enjoying in New York City. We have two new members and we wish them the best. They are Elize LaFrance and Roberta Quirk.

Our most sincere and deepest sympathy to William Varetti and family on the recent loss of his father.

**Ceramics**

*By Margaret Dush*

First let me welcome all our new help! It's nice working with you - and to those who have left us to go back to their old jobs - Good luck and we hope you enjoyed working with us as much as we did with you... Dorothy Lewis is back from her vacation which she spent working in her garden and enjoying short trips here and there. Our Pat Dowling has a brand-new grandson and is she a proud grandma! Of course he is the nicest boy ever born. Right, Pat!...Wanda Scarpeto, Julia Martin, Marge Hauptreich and Young Truly spent a very nice weekend in Nashua, New Hampshire a few weeks ago. We had a very nice time sightseeing, shopping, and taking in a nice show. We had a snow storm to leave in, but it was nice and we all want to do it again.

Our birthday club enjoyed a Halloween party one noon with a beautiful cake made by Pat LeBeau. It tasted as good as it looked, too. Um, um!!...We are all waiting for our next party now... Our new utility man, Jim Robare, is getting real handy with a spray gun - he even sprays himself! He doesn't miss anything. We all with a speedy recovery to Celia Shanahan, Sophie Duda and Janice Goncya who are all our ill just now. Hurry and get well! We miss each of you.

**Inventory Control**

*By Peggy Dush*

How often do we hear, "Christmas is so commercialized"? It could be like that, if you think that way. Don't let the meaning of Christmas go out of your heart. It's really a holy, happy occasion. Getting into the Yuletide spirit should begin right now. This is important in making preparations for the Christ Child's birthday, December 25th... The choosing of gifts and wrapping them in colorful paper and twine for our dear ones; looking around at the many stands for the perfect tree; getting out the decorations for trimming the tree and windows; addressing the cards we send to our relatives and friends; and preparing the menu for this party of parties cannot be done in one day or one week, if it is to be a Merry Christmas.

The Log Banquet was held on November 2nd at the Taconic Park Restaurant where Yours Truly had a great time... Many plans are being made for our office Christmas party which will be held on December 14th at the 1896 House... On December 16th Marg Lasher, Marcia Lewis and Peggy Boole attended the Union Banquet on November 8th... Many plans are being made for our office Christmas party which will be held on December 14th at the 1896 House... On December 16th Marg Lasher, Millie Butler, Betty Beum, Madeline Garcia and myself will be traveling on the bus with the Sprague group to New York City for another two days of fun and shopping... In December there will be another "National" Log until January - Merry Christmas and a Happy New Year, everyone!

**Tantalum Department**

*By Amelia Keszty and Gladys Maderki*

We certainly have enjoyed our lovely fall weather with the beautiful fall, foliage, festivities and extremely pleasant weather... Next we will encounter another of Mother Nature's regal beauties - the winter season with its happy Yuletide excitement and well wishes... We wish to say a sturry "Thank you" to our Log Banquet Committee for such a delightful party. We enjoyed meeting the honored guests and the singing of the Green Mountain Boys Barber Shop Quartet... Kay Mendel, who represented the Emblem Club from North Adams, returned from a convention which took her to California, Reno and Las Vegas. The trip was made by jet and Kay said it was "interesting, exciting and fabulous". We are all happy that you had the opportunity to experience such a fantasy, Kay, and we all hope that someday we may get there too. We can dream, can't we?... Alice Pisano had a bit of a thriller for herself. She took her two grand-children shopping and in the course of the trip they got lost. As I always say, "never underestimate a child"... The children managed to stop a lady and told her their name and address and asked her to call their father. To make a long story short, Alice was quite upset and a little confused. She told the children, "I'll never take you shopping again", and one of them answered (very innocently) "But grandma, I didn't ask you to take me"... Which was the absolute truth! You just can't win!

Congratulations to our new bride, Louise B. O'connor Tones... We wish you many happy years together... Mary Benson is back with us after her maternity... Lena Ducharme is out fighting the virus. We hope you will be back with us soon... We would like to welcome the following to the Tantalum Department: Mary Sum-
December Birthdays.

*We look forward each month to name as many as possible of those born in December. Many, I'm sure, are not included because of the lack of space.*

1. William Houghnour
2. Bill Vareck
3. Lerna Dress
4. Darrell holey
5. Jeanne Couthey
6. Madeleine Boyer
7. Dorothea Yea
8. Walter Under
9. Hazel Russell
10. Ruth Arrighini
11. Carol Bowd
12. Rose Lacazy
13. Marie Kojie
14. John Seaberg
15. Bettie Beamchan
16. Stanley Lessick
17. Amelia Kouta
18. Oral Pierce, Jr.
19. Isabelle Maximini
20. Roy Cook
21. Monica Nowak
22. Rachel Filian
23. Victor Moderna
24. Larry Lohmabrd
25. Mildred Waterman
26. Philip Talador
27. Travel McGunigle
28. Vezo Navaro
29. Nancy Keffer
30. Lidia Guadalupe
31. Lucia Musrada
32. Loren Thome
33. Donald Lapine
34. Joseph Law
35. Duker Fletcher
36. Kathleen Scott
37. Betty Ritterbey
38. Lucy Stankcy
39. William Medeiros
40. Rachel Filian
41. Paul Ross
42. Alfred Mosley
43. John Seaberg
44. Belvue Beamchan
45. Stanley Lessick
46. Amelia Kouta
47. Oral Pierce, Jr.
48. Isabelle Maximini
49. Roy Cook
50. Monica Nowak

62. Donald Lapine
63. Joseph Law
64. Duker Fletcher
65. Kathleen Scott

The Deep Freeze And The Root Cellar

People themselves don’t vary much from country to country. Or even from century to century.

What does change is the environment in which people live. The environment of freedom, giving people the chance to use their ingenuity to develop an industrial technology, makes all the difference.

Frederick Englemann meant the difference between the superhighway and the cow path...the modern split level and the barn-log cabin...between the eight-hour day and the dawn-to-dusk toil...the deep freeze and the root cellar...between abundance and a bleak existence.

Economic freedom has stimulated our industrial growth because it relates an individual’s success to his own energy and ability.

Political freedom has given the individual the power to prevent excessive government interference in his affairs.

Religious freedom has given us faith in ourselves and our country that is essential to the building of a great society.

Individual freedom is the best guarantee of economic security.
The rough and rugged grid coach eyed the scholar speculatively, then: "Professor," he said, "I’ve been too busy coaching to do much courting."

"That was all. Two men passing in opposite directions on a cold night. He got to thinking. "That fellow said ‘Merry Christmas’ to me and I didn’t even answer him. Why?"

He turned and quickened his pace. He halted the other harrying pedlarman, shouting: "And I hope you have a Merry Christmas, too!"

The other fellow turned, extended his hand and said:

"Thanks. I was just trying to cheer myself up a bit. I felt gloomy and lonesome. Then I saw you and I thought maybe I was getting too deep within myself. I tried it, and it worked. It made me feel good to say ‘Merry Christmas’ to you. It made me feel wonderful when you turned and returned the greeting."

And they parted.

The man who had dismissed the Christmas card芒s, and his wife, was bored. Boring thing to get to thinking again.

Then he saw someone approaching. "Christmas?" he said, and the stranger responded cordially.

And the other fellow was saying:

"Merry Christmas!"

And so on down the street.

It was like a tonic. He cheered inside and began to smile. He was beaming when he opened the door of his shop.

"Merry Christmas!" he shouted. "MERRY CHRISTMAS" it echoed from his family.

Two words had cracked a hard shell. Multiplied, they carried that shell away and buried it. And a man who had been gloom was happy. And his family was happy, too, because he was. And they will have a wonderful Christmas.

And power of words and the way they are said is something greater than the world itself.

But The Sentiment Remains The Same

Christmas greeting cards have advanced a giant step in the century since the first card, designed by John C. Horsley of London at the suggestion of English educator Sir Henry Cole, made in December debut. It depicted a Victorian family party at which those present were reminding each other of the absent friend who received the card.

But the original idea of expressing Christmas greetings with fine art has remained unchanged. Americans shopping for cards this year may see, for example, a painting called "Hunting Scene" — drawn by amateur Sir Winston Churchill. Or they may choose paintings by the late French master, Maurice Utrillo; the Italian, Massimo Caspari; or such Americans as Norman Rockwell, Saul Steinberg and Thomas Volman.

But the USA, the German-born Boston lithographer, Louis Prang, first offered printed Christmas cards for sale in 1875. The initial ones were fancy — decorated with apple blossoms, Killarney roses, etc. Later, he added children in the snow, fir trees, fireplaces; finally Santa Claus came in strong.

Prang withdrew his cards from public sale in 1890, when a flood of cheap and ugly Christmas cards hit the market. But the Christmas card was here to stay. Toward the turn of the century, a Christmas postal card fist started the country. It lasted more than a decade; it was not until 1900 that card publishers began producing Christmas cards of the type we know today. Curiously, the great Currier and Ives Lithographers depicting 19th century America did not appear on Christmas cards until well into the present century, but their popularity is unflagging.

Fortunately the cards produced back then remain available, as they have increased in popularity. Today, more than 3,000,000,000 Christmas cards are sent yearly by the U. S. mail yearly.

PASSING THOUGHTS

Never try to reason the préjuge out of some people. It was to reason that价位 into him, and cannot be reasoned out.

The safest locality in which to live is within your own income.

Annual Golf League Banquet
Honor Equinox and Oakmont Teams

Equinox, the 1961 Sprague Golf League "Champions" received their trophies at last month’s banquet and Robert C. Sprague, Jr. (right) is shown presenting the team trophy to Captain Dick Patterson. Equinox team members pictured, from left to right are: Archie LaPresto, Frank Gamari, Kenny Russell, Dick Rosen, Dick Patterson and Charlie Ulrich. Absent when the picture was taken were: Phil Thompson and Walter Rohane.

Oakmont, the League Leaders, received their individual trophies with Robert C. Sprague, Jr. shown making the presentations. From left to right are: Leslie Kent, Pinky Sherman, Captain Billy Tisdale, Mr. Sprague, Norm Lambert, Harold Brafman and Tom Hurley. Other Oakmont team members, absent when the picture was taken were: Everett Johanson, Norm Lambert, Harold Brafman and Tom Hurley. The photograph was taken by Mr. Sprague.

Sports Quiz ...
Test your sports knowledge and grade yourself as follows: 2-2-2 poor; 3-5 fair; 6-8 good; 9-10 excellent. Questions 3 and 6 are worth two points, all others are one point each.

1. Who kicked the first field goal in one season in the NFL?
   a. Tom Harmon
   b. Tom Cade
   c. Tom Moore
   d. Tom Perry
   e. Tom Roger

2. How many U. S. Open Golf Champions has Arnold Palmer won?
   a. 3
   b. 4
   c. 5
   d. 6
   e. 7

3. Who were the only two players to win baseball’s Triple Crown more than once?
   a. Stan Musial
   b. Babe Ruth
   c. Ted Williams
   d. Mike Schmidt
   e. Ken Griffey Jr.

4. St. Bonaventure met defeat on its home court after 99 consecutive wins. Who upset them?
   a. Duke
   b. North Carolina
   c. St. John's
   d. Loyola
   e. Marquette

5. How many Walker Cup titles has Great Britain won?
   a. 4
   b. 5
   c. 6
   d. 7
   e. 8

6. Who was selected as the American Football League’s MVP?
   a. John Unitas
   b. Joe Namath
   c. O. J. Simpson
   d. Tom Cade
   e. Tom Roger

Field Engineering Tour
November, 1961

The group consisted of export horsewomen and has participated in area horse shows winning honors and ribbons. She also is an excellent skier using Dutch Hill and other local ski areas. A 1961 graduate of Deep River High School, Terry is employed in Corporate Industrial Relations.
