Masters Degrees Awarded to Four

Curtiss M. Gilbert, Senior Vice President of Industrial Relations, at ceremonies held at Rensselaer Polytechnic Institute and the University of Massachusetts on June 7, received masters degrees in physics.

Mr. Gilbert received his degree from the University of Massachusetts and graduated from the Massachusetts Institute of Technology in 1958. Following graduation he worked for Sprague Electric in the field of chemistry, crystals and measurements, and solar cells and laser devices. Previously, he was with Bell Telephone Laboratories at Murray Hill, New Jersey from 1952 to 1959 as a member of the technical staff engaged in research on germanium and silicon materials for use in semiconductors. He continued, "We live in an averaging, norm-seeking society. All of us conform to a greater or lesser extent. It is significant more independent, flexible, original and aesthetically sensitive than most."

The appointment of Dr. F. Lincoln Vogel, Jr. as head of the Semiconductor Research Department was announced recently by Robert C. Sprague, Chairman of the Board and President and Chief Executive Officer.

Dr. Vogel comes to Sprague Electric from the Semiconductor Division of the Radio Corporation of America, Somerville, New Jersey where he has been manager of advanced materials. At RCA, Dr. Vogel was responsible for research in the semiconductor field on device chemistry, crystals and measurements, and solar cells and laser devices. Previously, he was with Bell Telephone Laboratories at Murray Hill, New Jersey from 1952 to 1959 as a member of the technical staff engaged in research on germanium and silicon materials for use in semiconductors.

"The Creative Person" and stated that while the creative person must conform to some degree, in general he is "significantly more independent, flexible, original and aesthetically sensitive than most.

Dr. John L. Sprague Speaks At State College Graduation

Mr. Sprague, Senior Vice President and Co-Director of Engineering, was guest speaker at the North Adams State College Commencement exercises held at the College on Sunday, June 9. Degrees were awarded to 72 students by Mrs. Robert A. Pederson of the State Board of Education who urged the graduates to exert a "helpful influence" on the future of education.

In his talk Dr. Sprague discussed "The Creative Person" and stated that while the creative person must conform to some degree, in general he is "significantly more independent, flexible, original and aesthetically sensitive than most."

R. S. Alwitt Receives RPI Doctorate Degree

Robert S. Alwitt, Section Head in Advanced Electrolytic Development, received his Ph.D. in Chemical Engineering at Rensselaer Polytechnic Institute graduation ceremonies held on June 7.

A large part of his study for both master's and doctorate was made possible under the Company's financial sponsorship program.

Upon his graduation from Cooper Union School of Engineering in 1954, Mr. Alwitt joined Sprague Electric as an Engineer in Foil Process Engineering. In September of that year he started night school classes at RPI under Company financial sponsorship. In June 1957 he received his master's degree in chemical engineering and following a break of one semester he again enrolled for night school courses toward his doctorate.

Mr. Alwitt was enthusiastic in his presentation.

SUGGESTION AWARD

The Sprague Electric Company has announced the winners of its 1963 Suggestion Award for 

the surge testing operation in Tanta-

num. Mr. Morin's suggestion was for an adapter to be used to guide 
give an even seal and speed up production in the heat sealing of enve-

lopes. Mr. Morin's suggestion was 

forwarded to the Surplus Testing Department of tomorrow on which our future

will enjoy hygienic conditions in the breathing air.

Profits make good neighbors of industries and businesses, as well. The

of some 18 other airports in Mass-

achusetts.

A. Scherr Delegate To 

Standards Conference

Albert E. Scherr, III, Department 

Heating in Engineering, recently re-

turned from Venice, Italy where he 
served as American Standards A-

nization delegate to the 28th general 

meeting of the International Electro-

chemical Committee. One of 37 U. S. delegates, he was a member of a TC-40 committee responsible for de-

dveloping global standards for ex-

perts and resists used in elec-

tronic equipment.

Mr. Scherr joined Sprague Electric 
in September 1936. He is a graduate of Yale University with a B.E. degree in 

Chemical Engineering. He is a member of the American Association for the Advancement of Science, The 

American Chemical Society, the Chemist Club, and is presently chair-

man of the Electronic Industries Association P2.5 Engineering Com-

mittee on Tangential Electrolytic Ca-

pacitors.

Five Area High School Seniors Receive Company Scholarships

Continuing the program started in 1950, the Sprague Electric Company awarded five scholarships to area high school seniors at an all time in furthering their education. Receiving the awards at Class Night and Graduation ceremonies were graduates of Drury High School, Mr. Greylock Regional High School, St. Joseph's High School and Pittsfield High School.

Jacqueline LePage, daughter of Julius LePage of Springer International Ltd., and Gerald M. Stefanski, son of Matthew Stefanski of Engineering, were recipients of Spring Electric Scholarship. Jacqueline received her scholarship at Graduation ceremonies held at Mr. Greylock Regional High School on June 7. Young Stefanski was presented his award by Dr. Frederick M. Fendler, Doctor of Research, at the Honor's Night program held at St. Joseph's High School on June 7. Both scholarships are for $500 a year for four years and are awarded to children of employees.

Martha L. McCann, also a graduate of Mr. Greylock Regional High School, was the recipient of the Sprague Electric Engineering Scholarship. Her scholarship is for $500 a year for four years and is awarded to the graduate of a high school in Adams, North Adams or Adams who will pursue an engineering or science course of study.

The Sprague Electric Cooperative Engineering Scholarship was awarded to Thomas J. Anderson of Pittsfield High School. The $500 scholarship is awarded to a high school senior living within 25 miles of North Adams who wish to attend a cooperative engineering school.

Carolyn J. Sanford, a graduate of Drury High School and the daughter of Paul Sanford of High Quality Department, was named recipient of the $500 Sprague Electric Nursing Scholarship. She was presented her award by Dr. John L. Sprague, Senior Vice President and Co-Director of Engineering, at Class Night ceremonies held at Drury High School on June 13.

The awards are made to graduating high school seniors who are selected for scholastic achievement, personal merit, general all around ability, leadership, and the need for financial assistance. The Sprague Electric Company also provides a “matching grant” to the educational institution the recipient attends. The amount of the grant is equal to that of the scholarship and may be used by the student in any constructive manner it desires.

Mr. Stefanski in the top 25% of his class during high school has been active in the Science Club, Ski Club and Golf team. He plans to pursue his advanced studies at the University of Massachusetts.

Miss McCann has been active in school activities including being named vice-president of the National Honor Society at Mr. Greylock. Her school activities include French club, Chorus, School Musical, Yearbook staff, community service, and high school reporter for the Williamsown News. Miss McCann plans to attend Clark University in Worcester, Massachusetts where she will major in science.

During high school, Mr. Anderson has been active in the YMCA, Youth Fellowship, Radio Club, Science Club, and was homecoming representative during his sophomore year. He will attend Williams College in the Cooperative Engineering course.

C. G. Kalt Named Sr. Prod. Specialist for Computer Components

Charles G. Kalt has been named Senior Product Specialist in the Field Engineering Department. He was named recipient of the Fall Night ceremonies.

Mr. Kalt came to Sprague Electric from Electro-Ceramics, Inc. of Salt Lake City, Utah where he was employed as a Project Engineer prior to moving into the marketing end of the electronics industry.

Mr. Kalt holds a degree in management and business administration from Rensselaer Polytechnic Institute of Troy, New York.

For the second year in a row Sprague Electric regular truck drivers have maintained an accident-free record. Nearly drivers have been accident-free for the past five years. The record is outstanding in view of the fact that each year Company trucks average 155,000 miles over a period of 26,400 hours. Truck drivers and inplant forklift drivers were honored for their efforts at a Safety Dinner held at Taconic Park Restaurant on May 9.

At the dinner Anthony S. Sacco, Corporate Safety Supervisor gave a report on the Company's truck driving safety program over the past seven years. During this period our truck drivers have accumulated 1,292,891 miles and 170,664 hours of accident-free driving. He stated that in 1962 the program shows an overall frequency rate of 1.5 for each 100,000 miles of driving compared to 1.8 for 1961.

Mr. Sacco complimented each driver for his important part in establishing the accident-free record and inplant forklift driving efforts. He also pointed out the excellent record of the plant jeep and forklift drivers who are not part of the outside truck driver’s safety program, yet have compiled an accident-free driving record for themselves.

John H. Winant, Corporate Director of Industrial Relations and John D. Washburn, Corporate Director of Personnel, presented the awards to the eleven drivers who were responsible for the accident-free record. Harold Kline, now retired, received an award for 7 years of accident-free driving; William Cooper received a 6 year accident-free award; two men, Joseph Dupre and William Matthews, both received a $25 Savings Bond and a pin for 5 years of accident-free driving. Walter Maynard received a 4 year award while Edward Bourdon, Clifford Morse and Philip Parkhurst received 3 year awards. Committee for the Union High School guided the program.

In addition to several Company executives, guests at the dinner included Gerald B. Dahl, Senior Industrial Inspector of the Department of Labor and Industries; and Neil Nelson, District Engineering Manager of the American Mutual Liability Insurance Company.

E. Newman Promoted To Foreman In Ceramics

The promotion of a New Name to Foreman in the Ceramic Department was announced in mid-April by Robert B. Bouchard, Vice President, Mr. Newman will direct all inplant activities in the Ceramic Department reporting to Mr. Bouchard.

A North Adams native, E. Newman attended Holyoke Trade Grade School, Florida, Massachusetts and graduated from Arts Academy, North Adams, Massachusetts. He served for two years with the U. S. Army in the European Theatre. Prior to joining Sprague Electric he was employed for eight years by Bates’ Mark’s. He joined the Company in September 1953 following two years earlier employment. After a period of on the job training he was appointed to the Ceramics Department and later was named a supervisor.

He is married to the former Dorothy C. Scovill of North Adams and they have two children.
SPRAGUE ELECTRIC LOG

June- July, 1963

Ronald Richardello, son of Mary of Dry Rolling, is an accomplished accordion player and well-known throughout the area.

The two retirees were presented college gifts from Angie Carleton and Harold Brown. They are: (I-r) Kathy, Becky, Steve and Butch. Their grandmother is Helen George Costa, Bernie O'Brien and Pete Wol, Roger Lull, Bill North and John Senecal and Mame Carnohan.

As usual, we all had a wonderful time.

Marilyn Daub is getting ready for one of her annual fishing trips. She's heading out the state line house, now has all kinds of new equipment and a new boat.

We would like to congratulate Ray Gouette on receiving a $15, award for his suggestion. The Girl's Bowling Banquet was held at Taconic Park Restaurant on May 23...

Vacation time is right around the corner. Summer's here. . . . Sonny and Mary Williams will spend a few days in the hospital for a check-up. They are in your own home.

We also send get well wishes to Sandy Gallie who is confined with the broken leg. We spent more time in bed this year than she has seen. . . . Did we congratulate John Gallie on getting his driver's license? If we did or didn't, John, we do now!

Bill DeSanty arc both out on sick leave. . . . We would like to take this opportunity to congratulate Bonnie Bryce who is the proud owner of a stallion. . . .

who is the proud owner of a stallion. . . . The birth of the colt gave Bonnie quite a shock — not so much the actual moment of delivery, but that the colt was considerably larger than the average. . . .

Lucille Heinrich spent a few days in the hospital for a check-up. . . . Hope you will be feeling much better, Lucille.

Bonnie Bryce recently took a trip to the University of Vermont for the Spring Dance. The trip was very eventful — car trouble in Rutland, but everything worked out all right. Yours Truly took a trip to Weybridge. . . . Vermont to attend the State Women's Auxiliary Meeting. . . . If you see a new home going up on Wells Avenue, you will see Deane Brown very hard at work inside. Deane is doing all his own work—and God bless you, Deane, that it hard work, but you will never regret it once you are settled in your own home.

Networks

Doreas Davis Mary and Ed Cook became proud grandparents on April 3. A baby girl named Devin was born to their daughter and son-in-law, Patty and Dick Tarro.

Bill Manson, Stacia Menty, Nick DeSanty and Sandy Sambundo recently took a trip to the Oil Mill. We all wish them good luck and a wonderful time. . . . We would like to congratulate Eileen Leonard on the birth of two new grandchildren—a boy, Bruce Alan Keniskie, and a girl, Kathleen Dufrene. How lucky they are to have a family.

Industrial Oils Office

Mary Frances Vareschi graduated from Assumption College in July. She is the daughter of Rose of Industrial Oils and niece of Theresa Francescina. Mary is 26 years old. . . . I guess Clayt Tatro is looking forward to trout fishing, even more now that he has gone out to catch. It sure is good but bad for the figure. . . . Congratulations to Mary Senecal and Mame Carnohan. . . .

Our bowling team finished third in the Men's Ten Pin League. Danny Levesque bowled at a torrid pace in the second half! Our captain, Elton Houghtaling, had the high team average. Speedy Merrill still hasn't hit 500 last year again next Speedy. . . . Stan Lesniewksi traded his Ford for a Chevy so now there are no Ford owners in our Department. I think Harry Pauley is almost ready to step up to a bigger horse.

Yours Truly is going to put a large sign on my car when I am waiting for Walt Cwalinski to come out of the store. I have a little horse that is going to turn heads, and you will never guess who is on my tail. . . .

Quality Coolers

Here it is news time again! We have added a lot of new people as the Oil Mill group have come up from down town. Welcome one and all. . . . Everyone is glad to see the nice weather. This always brings talk of vacations. . . . Liz Slattery took a week to visit her family in the Berkshires and came back to rest after all the grandchildren entertained her for a week. . . . Earl Gould spent a week at home catching wump-odds and ends. She came back looking very rested. . . . "Little Joe" Rosse has a new Rambler. Real nice! . . . Congratulations to all our June graduates... . . . Hurry back! We all miss you. . . . Rose DeSanty are both out on sick leave. . . .

Looking very lovely in her Sunday best is little Ruth Ann Accetta, in her new home... Dick Maynard has been very busy these days with his plans for his new home. Joe Konopka has his hands full trying to make a mech- istic of Romeo Sowrey. Della Gannon should have quite a garden this year with all the plants she is given to her plus the turnips she received from George Maxwell.

Metal Clad Finish  
by Helen Silver  
Sylvia Beaudin has returned after spending a two week vacation in North Carolina visiting her daughter and family. She made the trip by jr. ... Sophie Konopka spent one week at home... June Barnhart went fishing for two weeks at Lake Champlain... Blanche Caron is enjoying taking short trips... John Blair spent a week at Camp Drums... Anna Patenaude has left for a three week vacation in Florida—lucky girl!... We were happy to hear that Edward Konopka's mother underwent sur- gery... Ella Dunsmore has left the Purchasing Department to be at home... Mrs. Martin Koscielniak a very happy birthday on June 19... We also send Mary Marchio and Jean Higgins wishes for a happy birthday also... We wish her back and in the pink again... Yvonne Davi- 

Purchasing  
by Betty Byans  
Ella Dinnan enjoyed her trip to the Purchasing Department to be at home... Before the left she presented a Medallion to the group. We are sure you will enjoy staying at home, Ella... Helen Sowrey is not well and that you drop in occasionally to say hello... 

Bathtub Assembly  
by Jeanne MacGillivray  
Vacation time is here again and the first batch of leaves will be ready for the seasons. We would like to welcome Isabelle Lippert and Beatrix Brown to our little group, and with regard that we say goodbye to Doris Richards, she is leaving us for Bar Harbor... Our three little 'stogies' who kept us hopping around wondering what trick or new idea they would come up with... Happy birthday wishes are sent to Frances Roy and Mildred Bathaway... May you both enjoy many more... It's a quite wonderful group to work with, and even though we gained weight while we were away, we are happy to say we lost it all. I think the reason for the weight gain was the reason for the weight loss... Another happy family group are the children of James Heelan of Paper Rolling... They are (top row) Stephen and Sherry, (bottom row) Susan and Lorraine... 

High Reliability  
by Marion Arbour  
A group of us from the department re- cently attended the 7th annual reunion of former employes of Depart- ment #3. It was held at the Hotel Champlain... That group again though, and the next thing on the agenda will be vacations... Ted Kulpa, husband of Stephanie Kulpa, is in the Albany City Hospital following surgery. We do hope this finds you fine and on the road to re-covery, Ted... Agnes Fitzgerald is back at her old job in Hamilton and will be returning to her old job in Hamilton... Edith Jones is getting a new home and we wish her all the best... We wish her all the best...

June 1963

Another June graduate at St. Joseph's School is Mary Lou Boulanger. She will be working in the Retail Sales and Jo Farley of Paper Rolling.

Sales Office

by Mary Lou Estes

Congratulations in order for Mr. & Mrs. Wayne McConnell on the birth of a baby boy on April 30. Jeanne was secretary to Roy Douglas before she left to assist the stork. Best of luck to Kathy Gayette who has left us to assist in a visit from the stork. She was presented numerous gifts from the girls in the office. Best wishes to all of our girls who were also left to assist the stork. The girls in the office presented "Blanche" with a poodle.

Good luck to Dianne Blair who has left us to accept a position on Union Street working for Dave Poppolo, and to Linda Martin who has left us for a position in Tabulating. We hope you will be happy in your new jobs, girls. Sandy Zutonic has also left for a position in Sprague International. Good luck to you, Sandy.

We would like to welcome two new girls to our office. Tara Winters, who is working in our Order Office, and Blanche Hegarty who is working in our File Room. We hope you will enjoy your stay with us girls. We would also like to welcome Peggy Muranick back to work. Peggy left us awhile ago to assist the stork.

Now that spring has finally come and summer is close behind, everyone is beginning to think of vacations. Joni Williams ventured to the race for the first time in her life, and with her were one of her little girls. We would like to extend our congratulations to the ladies themselves—especially finding out just what the "bunnies" looked like. If anyone sees a white flash on the highways—no fear. It's just Bill Martin bombarding around in his white teddy bear costume. Fanny Blake gave birth to a new granddaughter—Summer. We would like to extend our congratulations. We are all happy to hear that she is now well and that she is doing quite well.

We hope they will be happy in their new jobs, girls. . . . We would like to welcome two new girls in the office presented "Butch" to America. The Best of luck to "Butch" Law who has left us to await the stork. The birth of a baby boy on April 26.

Mr. & Mrs. Wayne McConnell on the retirement of a former co-worker, Mary Roberts, who is going to travel through Maine— maybe she'll just rest and take short daily trips. But regardless of where we go I sure hope we'll all have a good time, and I hope, race winner, too.

Corporate Industrial Relations

by Carol Jones

Terry Harter, newly married, was guest of honor at a farewell gift. We wish Joe and Gwen many years of happiness and health. We wish Joe many years of enjoyment in his new position.

Other members of the St. Joseph's School class of 1963 were: Anna Gattuso, son of Marie of High Reliability. We are all happy to hear that she is now well and that she is doing quite well.

We would like to extend our congratulations. We are all happy to hear that she is now well and that she is doing quite well.

We are glad Marie Dubreuil is getting to be quite a lady. I have only one thing to say . . .

FP Ovens by Rose LeBlanc

Well, it's vacation time again and everyone is scaling up the wall for good weather . . . Anne Purcell is going to travel through Maine—maybe she'll just rest and take short daily trips. But regardless of where we go I sure hope we'll all have a good time, and I hope, race winner, too.

Tp pok Assembly by Edith Fields

We are glad Marie Dubreuil is getting to be quite a lady. I have only one thing to say . . .

Marguerite Vachea, daughter of Bernadette of Dry Rolling and Alice Vachea, has recently completed her studies at St. Joe's. 21 she was befried by several of her close friends at a Personal Shower. Congratula- tions to you both, Terry and Diana.

Dara Ozolins says the view from the ten pins was far better than she had expected. She had been at the bowling banquet held for Terry and Dave at the Green- lock Community Club, and on May 23. Congratulations to Marion Morgen for getting the trophy for the ‘most improved bowler’. We all knew you could do it. Marion. She also received the trophy for the 4-C Division High Average. Congratulations are also in order for Monica Novak who received the high average trophy for our team. We need more like these two on the team.

We are sorry to hear that Blanche Korshanski left, but would like to welcome Janis Rudegab who formally worked downstairs in Industrial Relations. We hope you enjoy work- ing with us, Janis. Jim Williams is getting to be quite a lady. The C team will have him on their team next year . . . Congratulations to the LOG on the Fishing Derby. I'm sure everyone had a good time.

Tantalum by Dolores Auels

Well, vacations are near and some have already taken theirs, but so far our team has just stayed home and rested. They included: Gladys Coulson, Agnes Fleming and Gloria Hebert. We look forward to seeing them all next time she goes up there she will be expecting sunshine.

Duro Boulevard has several new car owners. We have some new car owners. . . . We would like to welcome two new girls in the office presented "Butch" to America. The Best of luck to "Butch" Law who has left us to await the stork. The birth of a baby boy on April 26.

Agnes and Ted Fitzgerald of Beaver Street are proud of three of their handsome grandchildren who make their home in Laconia, New Hampshire. They are (l-r) Kevin, Kimberly and Patrick DeMarco.
8th Annual LOG Fishing Derby Held on May 25

Fishing Derby Winners

ADULT CONTEST

Heaviest Fish of the Day
Robert Zajac, ICFS
Largest Pickerel
Joe Laroo, Machine Shop
Largest Perch
Bill Currawt, Jr., Engineering
Largest Rock Bass
Jim Blair, Jr., son of Jim Blair, Sr. of Dry Rolling

Smallest Bluegill
Michael Heyes, son of Arthur Heyes of FP Assembly
Largest Pickerel
Joe Rotolo, Jr., son of Joe Rotolo, Sr. of Dry Rolling

Largest Perch
David Hinkell, son of Edmond Hinkell of the Machine Shop

Largest Pumpkinseed
Ernest Peat, son of Stuart Peat of Plant Engineering Services

Smallest Bluegill
Peter Gannabonka, son of Mildred Gannabonka of Operations

Largest Pumpkinseed
Kevin Gavacenna, son of Louis Gavacenna of Engineering

Plant Guards
Michael Bourdon, son of Paul Bourdon of General Accounting

Drawing
Tom Webb, son of Art Webb of Engineering

Dr. John L. Sprague

PREPARATORY COURSE

The April meeting of the Suggestion Committee, while not as productive as June, did result in the award of $50.00 to eight suggesters. Topping the group was Stanley Brown, of Maintenance, who received $50.00 for his idea to install an AG switch to a grounded receptacle, and to bring in a feed from the outlet in one side of the switch, using nickel appliance wire. The suggestion was for use in the full-drying control operation in the Formation Department.

Two $25.00 award winners were Anthony Zvecenica, of Takenlon Formation, and Richard Velkett, of the Machine Shop. Mr. Zvecenica suggested using a cathode on etching wire. The suggestion was for use in one operation of the switch, using nickel appliance wire. The suggestion was for use in the full-drying control operation in the Formation Department.

June and July is changing their wardrobe—including the season. Aren't the new shift dresses crease? Fay Rougeux and Jeanne Burgan took an early vacation and went to Indiana. Joan’s hardhat, Art, is working there and Joan went out to pick out a new home and get acquainted with the new community.

Tell me, Charlie, how can the girls stay on their diets when all these deli- cious foods are served as break..... Pat LaCroix, Nellie Danforth and Florence Wilson look terrific after their months of dieting. Oh, to have a strong will! We all want to congratulate Paul Austin on his engagement to Mary Olszowy. Mar- ine's fiance, Mike, will graduate from Metrecal. He will be moving to the country to become a sleuth, my snooping paid off not too long after. He and Charlie Elsworth on the recent death of Mr. Burgner, Gary’s father as far as Gary is concerned. He is the reason? It must be the transmitter.

Depts. 743 and 741

He is presently also chairman of the AIME, electronic materials committee. He is also a member of the American Society of Metals, the Physical Review, the Journal of Applied Physics, and Sigma Xi, an honorary scientific research society.
Bowling

All inter-plant bowling leagues have completed another successful season and closed the book on their annual hangouts and award presentations. Highlights were plentiful in all leagues but standing out for the men were such achievements as the 276 and 256 singles rolled by Phil Sprague and Ted Sprague respectively in the Ten Pin bowling leagues, while Don Betancourt bowled a high 158 and Joe DeGregorio had a 393 triple in the Candlepin leagues. Highlights in the women’s Leagues were Ceil Kudda’s 97.0 average in the Candlepin League and Marge Cutler’s 53+ triple. We also can’t overlook the consistently high bowling of Phyllis Schmidt which earned her the top bowler average award with a nilly 164 average in the Ten Pin League.

**Card of Thanks**

Francois (Kozak) Harrison would like to express his sincere appreciation to the members of the Social Club of former Department 645 and 653 for their kindness at the time of the death of his father-in-law. As Francois said, “Your kindness and sympathy at this time are more deeply appreciated than any word of thanks can ever express.”

**Bowling Promotions**

Contact Frank Osterhout, of the Wingfoot team, tees off as the Sprague Golf League opens its 1963 season. Shown looking on are Tom Hurley and Bill Tindale.

**Softball**

Control Lab continues to lead in the Sprague Interplant Softball League with an unblemished record. Highlights thus far are the phenom- enal batting of Pic Delisle with an amazing .700, and the clutch hitting of Neil Tanguay, leader in runs batted in.

Once again Ray Willspeak is president of the League and doing the job in which you are never right (sombrely) are Tony Tassone, Larry Labombard, Art Van Steemburg and Marty Sokolove.

Standings as of 6-4-63

Down The Fairway

by Gal Walker

With the coming of the rain season the Sprague Golf League is off and rolling. Some of the boys started in mid-season form and at the end of the first 4 weeks dropped their handicap 2 to 4 strokes. The most improved gofer so far is Mike Greenough.

**Card of Thanks**

Miss Sanford has been accepted at the Albany Medical Center School of Nursing in Albany, New York. She is in the upper 10% of her class at Drury Nursing in Albany, New York. She is married to the former Dorothy Blake Sanders of New Hampshire and attended Keene Electric in 1959 as a technician in Field Engineering. They have three children.

**Scholarships**

Miss Sandford has been accepted at the Albany Medical Center School of Nursing in Albany, New York. She is in the upper 10% of her class at Drury High School and was a member of the Yearbook staff, the Future Teachers of America, the Exchange Group, and participated in class plays.
