STUDENT HANDBOOK
To review a copy of MCLA’s Student Handbook, refer to http://www.mcla.edu/Student_Life/resources/studenthandbook/index.
A Message from the President

Dear Students:

Welcome to Massachusetts College of Liberal Arts (MCLA), the Commonwealth’s public liberal arts college. Located in the beautiful Berkshires of Western Massachusetts, MCLA’s campus is in North Adams, a city in the midst of a stunning revitalization. Being right in the middle of a community known for its vibrant culture, art, and seemingly endless opportunities for natural recreation adds another dimension to the educational experience you will have at MCLA.

MCLA’s engaged community produces transformative learning experiences fostered through a combination of classroom and hands-on learning. Our size and our focus on liberal arts will provide you with endless opportunities to learn from a dedicated and talented faculty who are invested in your success. In classes that are small and personalized, MCLA faculty will know your name and share your dreams.

The academic experience at MCLA empowers you and prepares you to deal with complex and diverse issues while pursuing in-depth achievement in a specific field of study. We provide a wide range of engagement opportunities both in and out of the classroom, including research projects, internships, service projects, and study abroad. These experiences will strengthen and refine your critical thinking, communications, and leadership skills — a foundation crucial to success in the global economy and engaged citizenship in your community.

Our campus continues to expand in dynamic ways. In 2013 we opened the Feigenbaum Center for Science and Innovation, a state-of-the-art, LEED Gold-certified facility that provides students, faculty, and the education community of Berkshire County with new opportunities for teaching, learning, and discovery. In 2015 we opened the newly renovated and technologically advanced, LEED-certified Bowman Hall, which houses a student-centered art gallery, art studios, PRESS Gallery, and hardware and software labs as well as the math, computer science, and visual arts departments.

In 2018, we opened the Design Lab in downtown North Adams at 49 Main Street. Outfitted with five separate workstations, each equipped with interactive short-throw projectors and ample whiteboard space, Design Lab is uniquely suited for collaborative problem-solving, while its open, flexible floor plan is an ideal space for curricular and co-curricular innovation, as well as a multi-purpose venue for the College and the community.

MCLA is an increasingly diverse and inclusive academic community committed to creating a campus climate, as well as a culture that values, represents, and honors diversity in our society. We actively endeavor to recruit and retain diverse students, faculty, and staff.

At MCLA, we continue to innovate, affect change, and achieve success through the dedicated efforts and commitment of our entire campus community. That work is reflected in this catalog. You will find information here about programs that meet your interests and exceed your expectations. As an MCLA student, you should reference the information in the catalog guide as you continue your academic journey.

Welcome, again, to MCLA, where I am certain you will discover a supportive, enriching, challenging, and inclusive community — right from the start!

Sincerely,

James F. Birge, Ph.D.
President
Mission Statement

OUR MISSION

Massachusetts College of Liberal Arts (MCLA) is the Commonwealth's public liberal arts college and a campus of the Massachusetts state university system. MCLA promotes excellence in learning and teaching, innovative scholarship, intellectual creativity, public service, applied knowledge, and active and responsible citizenship. MCLA prepares its graduates to be practical problem solvers and engaged, resilient global citizens.

OUR VALUES

Our mission guides the strategic goals that advance MCLA: Excellence in Teaching and Learning; Supportive and Inclusive Community; Responsive and Intentional Stewardship; and Public Purpose and Engagement. These goals reflect the interplay of the shared values that shape our commitment to students, faculty, staff, and our community.

Access: We believe a high quality liberal arts education should be available and affordable to all who aspire to it and are prepared for its challenges. MCLA is committed to providing this opportunity.

Critical Thinking: Through MCLA's role as leader, convener, and partner, we cultivate critical thinking and analysis in our learning and teaching. We promote a spirit of informed and open-ended inquiry. Our community members demonstrate consideration, deliberation, and planning in addressing challenges and opportunities in our society.

Discovery and Understanding: We understand intellectual disciplines and specific courses of study interact dynamically in academic and co-curricular experiences. We believe in strengthening student, faculty, and community interaction through engaging coursework, shared research, and service.

Global Awareness: We know that a liberal arts education affords students an appreciation of the wider world, both as a subject of intellectual discovery and through engagement with our society. We work to create and sustain the breadth of curriculum, experiences, and opportunities that lead us all to understand our active roles as knowledgeable global citizens.

Inclusive Community: MCLA is committed to creating a campus climate and culture of mutual respect that represents and honors diversity in our society. We celebrate this diversity and affirm the dignity and worth of all people. We intentionally integrate topics of social, cultural, and physical diversity in the curricular, co-curricular, and work life of our community.

Innovation, Experimentation and Creativity: We promote creativity and inquiry, and the role of a liberal arts institution to provide students with the freedom and means to explore ideas and take intellectual and creative risks.

Leadership: We believe that leadership is a shared responsibility, and encourage all members of the MCLA community to develop their affinity for leadership through formal coursework, professional development, co-curricular training, and practical application. We cultivate leadership opportunities and development programs to further these goals.
Lifelong Learning: We empower learners to develop habits of learning that have integrity and engender respect for tradition. We deploy 21st century tools for learning in our academic and co-curricular programs that prepare students to be informed, engaged, and capable learners.

Practicality and Application: We believe that the disciplines of arts, sciences, and professional studies empower individuals with broad knowledge and transferable skills, and a strong sense of values and ethics. In its programs and initiatives MCLA forges the connection among academic study, experiential learning, civic engagement, and future success.

Stewardship: We manage our resources responsibly and sustainably, and offer a variety of educational, cultural, and recreational experiences for the campus and local communities. We provide unique resources for the greater Berkshire region. We encourage a spirit of service among students, faculty, staff, alumni, and trustees, and to serve as stewards of the future.

ACCREDITATION STATEMENT
MCLA is accredited by the New England Association of Schools and Colleges, Inc., through its Commission on Institutions of Higher Education.

Accreditation of an institution of higher education by the New England Association indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer review process. An accredited college or university is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation. Accreditation by the New England Association is not partial but applies to the institution as a whole. As such, it is not a guarantee of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

MCLA DIVERSITY STATEMENT
Massachusetts College of Liberal Arts (MCLA) is committed to creating a campus climate, as well as a culture that values, represents, and honors diversity in our society. We actively endeavor to recruit and retain diverse students, faculty, and staff.

MCLA fosters meaningful dialogue both in and out of the classroom in order to encourage critical awareness and respect for similarities and differences. MCLA's inclusive education and informed pedagogy reflect and draw from the knowledge and empowerment of all individuals and the diverse groups that make up our college community.

MCLA critically addresses dynamics of inequality, exposing ways in which privilege and under-privilege are produced and maintained over time in society. We create and participate in forums and activities that both model and further equity in an informed manner. We also work to foster equity on campus and in the larger Berkshire community.
Members of MCLA are defined by and/or represent a variety of intersecting and diverse identities and groups, including but not limited to:

- **Age**
- **Class/Socioeconomic Status**
- **Disability**
- **Ethnicity**
- **Gender, Gender Identity, and Gender Expression**
- **Nationality**
- **Race**
- **Religion**
- **Sexuality**

MCLA strives to integrate topics of social, cultural, and physical diversity in the curricular, co-curricular, residential, and work life of the MCLA community. In so doing, MCLA works towards collaboration and purposeful engagement to achieve social justice on campus and in the wider community.

**Policy Statement on Affirmative Action, Nondiscrimination and Diversity**

The Board of Higher Education of the Commonwealth of Massachusetts (“BHE”) is responsible, pursuant to Chapter 15A of the General Laws of the Commonwealth of Massachusetts, for the overall governance of the public higher education system, which includes the State Universities.

The BHE and the Boards of Trustees of the individual State Universities maintain and promote a policy of non-discrimination on the basis of race, color, creed, religion, national origin, gender, age, disability, sexual orientation, gender identity, gender expression, genetic information, marital status, and veteran status. This policy incorporates by reference, and where applicable, the requirements of: Titles VI and VII of the Civil Rights Act of 1964; Title VI of the Civil Rights Act of 1968; Titles I and II of the Civil Rights Act of 1991; Title IX of the Education Amendments of 1972 and its regulations found at 34 C.F.R. part 1061; the Equal Pay Act of 1963; Civil Rights Restoration Act of 1988; Sections 503 and 504 of the Rehabilitation Act of 1973; the Americans with Disabilities Act of 1990, as amended; Section 402 of the Vietnam-era Veterans Readjustment Act of 1974, Uniformed Services Employment and Reemployment Rights Act; the Age Discrimination Act of 1975; the Age Discrimination in Employment Act of 1967, as amended; the Family and Medical Leave Act of 1993; the Genetic Information Nondiscrimination Act of 2008; the reauthorized Violence Against Women Act, Pub. Law No. 113-4 (2013); Federal Executive Order II246 of 1965, as amended by Executive Order II375 of 1967; Federal Executive Order I2900 of 1994; Federal Executive Order I3145 of 2000; Federal Executive Order I3160 of 2000; Federal Executive Order I3166 of 2000; Massachusetts Civil Rights Act; Massachusetts General Laws Chapters 151B, 151C, and Chapter I49; St.20II, c. I99 (H3810). An Act Relative to Gender Identity; directives of the BHE, the Boards of Trustees of the State Universities and the Commonwealth of Massachusetts; and other applicable local, state and federal constitutions, statutes, regulations and executive orders.

**STUDENT RIGHTS UNDER FERPA**

The Family Educational Rights and Privacy Act (“FERPA”) of 1974, as amended, ensures the confidentiality of student educational records and restricts disclosure of such records to third parties, except as authorized by law. FERPA also affords students certain rights with respect to their education records.

www.mcla.edu/Student_Life/resources/index
ASSESSMENT OF STUDENT LEARNING

Assessment fulfills MCLA’s goal of continuous improvement and is necessary in order to maintain its accredited status in the New England Association of Schools and Colleges (NEASC). The college uses assessment to determine the impact and effectiveness of programs and curricula, not of individual students or faculty members.

MCLA’s commitment to assessing its effectiveness necessitates that student work may be examined as part of program review, accreditation or other research projects. In addition, students may be asked to participate in surveys and focus groups or contribute in some other way to the assessment process.

The college adheres to all laws, ethics and criteria for protecting the identity and privacy of students and faculty members. All use of student work for assessment is in accordance with regulations of the Family Educational Rights and Privacy Act (FERPA) and monitored by the college’s Institutional Review Board. Any questions, concerns, or comments about assessment at MCLA should be directed to the office of Institutional Research, Assessment and Planning.
The College and Its History

Since our inception as the Normal School in North Adams in 1894, Massachusetts College of Liberal Arts (MCLA) has provided educational access and exceptional learning opportunities to generations of students and alumni. Over the years, MCLA has evolved to meet the challenges and needs of changing times. In 1932, the Normal School became the State Teachers College of North Adams, reflecting the increased importance of education as an academic discipline. In 1960, we changed our name to North Adams State College and expanded our focus to include professional degrees in business administration and computer science. In 1997, with eyes focused on the horizon of a new century, the College assumed a unique mission (within the state university system) as Massachusetts College of Liberal Arts, the public liberal arts college for the Commonwealth.

Today, MCLA continues to innovate. We guide students as they develop critical thinking, communication and leadership skills both in class and through a range of high-impact experiences. Applied learning always has been part of what the College provided to students; for many, the teacher practicum was an opportunity to learn by doing and to take what they learned into the classroom out into the field. Today, teacher preparation opportunities exist alongside arts management internships with local cultural organizations, undergraduate research in collaboration with faculty members, travel courses and study abroad, community service projects, and leadership positions in clubs, organizations and athletics teams. These activities enable students to enhance academics with practical experience and prepare them for graduate study or to launch their careers in whatever field their passion leads them.

As the economy continues to evolve, MCLA expands its majors and programs to address critical needs in the marketplace. New degree programs include those in art, arts management, athletic training, chemistry and political science and public policy. Each of our degree programs is delivered in small classes by faculty who know their students well and challenge them to excel. Our newest graduate program, the Master of Business Administration, offers a flexible curriculum for working professionals that prepares them to advance in their careers as leaders and innovators.

To support expanded programs in the sciences and the teaching and learning needs of the 21st century, MCLA has recently opened the Feigenbaum Center for Science and Innovation. This state-of-the-art facility supports learning and research for students, faculty and community members, and connects the College to important developments in the life sciences--one of the keys to the competitive advantage of the County and the Commonwealth.

The proof of MCLA's success can be found in the example set by our alumni. They are distinguished teachers, civic, community and business leaders, journalists, scientists, activists and entrepreneurs. They are proud of the education they received, loyal to their alma mater and dedicated to its continued success.

Though changing times present new challenges and opportunities, the essential nature of MCLA remains constant; a place that delivers a high-quality, affordable public liberal arts education in an environment that supports the development of intellectual and practical skills, promotes scholarship and inquiry, and challenges students to model personal, social and civic responsibility.
Admission

www.mcla.edu/Admissions  (413) 662-5410  admissions@mcla.edu

MCLA admits candidates who wish to participate in a challenging academic environment and who exhibit potential for growth. The admission requirements and procedures are designed to assist the College in selecting qualified students who can benefit from the educational experience and contribute to the MCLA community. The College also has a strong commitment to promoting diversity and strives to attract students from varying backgrounds.

ADMISSION INFORMATION AND PERSONAL VISITS

Prospective students and their families are strongly encouraged to visit the campus. Currently enrolled MCLA students conduct tours of the campus on weekdays and specific Saturdays throughout the year. To request admission information or to schedule a visit, please call the Office of Admission at (413) 662-5410 or 800-969-MCLA or visit our website at www.mcla.edu/Admissions.

DATES OF ENROLLMENT AND ADMISSION OPTIONS

MCLA operates on a semester basis with students being admitted to both the fall and spring semesters.

REGULAR/ROLLING ADMISSION

Candidates for admission are considered on a rolling admission cycle. For the fall term, the applications are reviewed commencing in December through the spring term. Freshmen applicants are encouraged to apply in November of their senior year, once first quarter grades are posted. Transfer students are recommended to apply a semester prior to their intended term of enrollment.

EARLY ACTION: OPTIONAL FOR FALL ADMISSION ONLY

Applicants who wish to receive their admissions decision early may submit their complete application package by Dec. 1 to the Office of Admission. Early action is not binding and only provides students with an early admission decision without obligation to enroll.

SPRING ADMISSION

Freshmen and transfer applicants are considered for the spring term by submitting all admission application information by Dec. 1. Decisions are made on a rolling basis for spring, commencing in October.
ADMISSION REQUIREMENTS AND PROCEDURES

Freshmen Admission Requirements: MCLA’s admission standards are selective and decisions are made on an individual basis after careful review of all academic credentials. Freshman applicants must meet the Massachusetts Department of Higher Education admission standards and possess a high school diploma or equivalency at the time of enrollment. In order to be considered for admission, applicants must meet the minimum eligibility index (a sliding scale based on high school grade point average and SAT [College Board Scholastic Aptitude Tests] I or ACT [American College Testing scores] test scores) and successfully complete the 17 academic units listed below. Meeting the minimum standards does not guarantee admission to MCLA.

Application Form: MCLA is a member of the Common Application. Freshman applicants must submit the Common Application which can be accessed through the MCLA website or www.commonapp.org.

High School Record: All freshman applicants must submit an official copy of their high school record, including at least the first quarter senior grades. An applicant is evaluated on the total high school profile, consisting of the applicant’s overall grade point average, curriculum and level of competitiveness. All high school grade point averages are recalculated and considered in comparison to the eligibility index.

High School Unit Requirements: The unit requirements listed below apply only to the traditional student recently graduated from high school and serve as evidence of the student’s ability to complete college-level course work. Units must be at college preparatory level. Completion of these academic units demonstrates competencies required for college preparation, but does not guarantee admission to the College. Exempted from these unit requirements are those students who have been out of high school for three years or more and have obtained a GED three years after their anticipated high school graduation year.

A. English ................................................................. 4 units
B. Mathematics ...................................................... 4 units
C. Science (with labs) .............................................. 3 units
D. Social Science .................................................... 2 units
E. Foreign Language ............................................... 2 units
F. Electives ............................................................. 2 units
Total: ................................................................. 17 units

A. English courses must cover both composition and literature and should include the development of reading, writing and comprehension skills.
B. Mathematics courses must include algebra I, II and geometry or trigonometry, or comparable coursework. One course must be completed in a student’s senior year of high school.
C. Science courses must include three units with lab work.
D. Social science courses, including one year of United States history.
E. Foreign language must be two levels of a single language.
F. Elective courses selected from additional college preparatory courses or from the above subjects or from arts and humanities or computer science.

Standardized Test Scores: Candidates for admission to the freshman class must submit official copies of the College Board Scholastic Aptitude Tests (SAT I) or the American College Testing scores (ACTs).
**Adult Learners:** Students who have been high school graduates for three years or more can apply to the College by submitting a copy of their high school record, GED scores, and/or college transcripts. Personal interviews are strongly recommended to make an accurate assessment of student skills and abilities.

**Transfer Student Admission:** MCLA welcomes qualified students to apply for transfer admission. A student who has earned a minimum of 12 semester hours of college-level credit from an accredited institution may be considered as a transfer student. Transfer students must have earned a high school diploma or equivalent. Transfer applicants are evaluated on the basis of their previous college course work. To be considered for admission, a student should understand the following:

- Admission is on a rolling basis.
- Official transcripts must be received from each college/university attended.
- A final high school transcript showing proof of graduation should be submitted along with SAT/ACT scores for transfer students who have been out of high school less than three years and have earned fewer than 24 transferable credits.

**Transfer Credit Policy for Core Curriculum:** Transfer students enrolling at MCLA with a designated Massachusetts Transfer Compact Associate’s Degree will be waived out of the Tier I and Tier II requirements in each domain. Students enrolling at MCLA whose official transcript indicates completion of the Mass Transfer Block from any public institution in Massachusetts will be waived out of the Tier I and Tier II requirements in each domain. Transfer students enrolling at MCLA with an Associate of Arts or Associate of Science degree from a public community college from New York State with a 2.5 GPA will be waived from the Tier I and Tier II requirements in each domain.

All other transfer students will receive credit toward the Tier I and Tier II requirements in each domain when the transferred courses are deemed equivalent to our core courses, or to have met the outcomes in those domains.

**Transfer Articulation Agreements:** MCLA has transfer articulation agreements with a number of two-year colleges. Admission preference and optimum transferability of credits are ensured for those students who apply from these colleges. Contact the Office of Admissions Director for more information.

**MassTransfer:** Students transferring to MCLA from any Massachusetts public higher education institution may qualify for MassTransfer. Massachusetts community college students who complete an associate degree and enroll in an approved MassTransfer program receive guaranteed admission, full transfer of credits and a tuition discount based upon final GPA. Students who complete the MassTransfer block of courses will satisfy the core requirements at MCLA, other than the capstone course. Completion of the 34 credits in the MassTransfer block must be indicated on the sending institution's official transcript.

Students should contact the Office of Admissions for more information. A complete description of MassTransfer and a list of approved programs is available at: www.mass.edu/masstransfer/.
INTERNATIONAL STUDENTS - APPLICATION REQUIREMENTS

International students studying or residing outside of the U.S. may apply to MCLA as a full-time student in a degree program by submitting the following documents:

• The Common Application.
• Official secondary school transcript and/or college transcripts translated into English and formally evaluated
• SAT I or ACT scores (MCLA’s College Board code is 3521 and ACT code is 1908)
• TOEFL or IELTS
• Letter of Recommendation
• Personal Statement/Essay (250-500 Words)
• Application fee.

* International applications must be submitted by March 1st to be considered for the fall semester.

Certification of Finances: As required by U.S. Citizenship and Immigration Services, you must complete the Certification of Finances form to verify access to sufficient financial resources to attend the College. All international students (not permanent residents or citizens of the U.S.) are classified as “out-of-state” students for tuition purposes. Since the College is unable to provide financial aid to international students, you must demonstrate adequate resources to meet yearly estimated expenses.

Readmit Students: Students who previously attended MCLA and have withdrawn in good academic standing prior to earning their degree may apply for readmission to the College by submitting an admissions application. If the student completed additional course work at another institution after leaving MCLA, an official transcript of this course work must be forwarded to the Office of Admissions. Any outstanding obligations to the College, such as financial commitments, must be reconciled prior to readmission.

Students who have been academically suspended from the College must file an admissions application. Suspended students must meet specific criteria and complete courses outside of MCLA to be considered for re-admission. Students are required to contact the Director of Admissions to discuss readmission and course selection.

Part-Time Day or Evening Enrollment: Students can attend MCLA as full-time (12 credits or more), or as part-time (fewer than 12 credits). Irrespective of the number of credits, to be eligible to earn a degree from MCLA, students must be matriculated or accepted into an academic program.

Students interested in enrolling in courses prior to matriculating may do so and are considered non-matriculated or “non degree” students. Non-matriculated students may register for courses through the Registrar’s Office for fall, spring or summer sessions. Students may earn up to 24 undergraduate credits at MCLA with a non-matriculated status. Non-matriculated students are not eligible for financial aid and register after matriculated students.

For more information contact the Office of Admissions, Registrar’s Office, or CSSE.
Billing information

www.mcla.edu/studentaccounts (413) 662-5230 studentaccounts@mcla.edu

Billing: Students are billed on a semester basis. Bills are due by the required due date. If a student account is not satisfied by the due date a late fee will be imposed and access to housing, meal plans and transcript requests may be affected. Non-payment may also result in being dropped from course work. The College accepts cash, check, or you may pay online with a credit card at www.mcla.edu/studentaccounts. The College also offers a monthly payment plan. For more information about this service please contact Student Accounts Office.

Insurance: Mandatory health insurance will appear as a charge on the student bill. Waiver or enrollment is completed on the Student Accounts website.

New England Regional Student Program: MCLA participates in a regional cooperative program administered by the New England Board of Higher Education. This program enables qualified residents of New England to study at in-state tuition rates plus a 50 percent surcharge on tuition in certain programs at any of the publicly supported New England institutions of higher education. The following rules apply:

Uniqueness Rule: When a program of study is not offered at an in-state institution, a qualified student may apply for enrollment at any participating out-of-state institution offering that program under the Regional Student Program.

Proximity Rule: When a program of study is offered at both an in-state and an out-of-state institution, and the out-of-state institution is closer in traveling time to a qualified student’s legal residence, he/she may apply to the out-of-state institution. For further information, contact the Admissions Office or the New England Board of Higher Education, 45 Temple Place, Boston, MA, 02111. You also may obtain additional information by visiting www.nebhe.org/tuitionbreak.

Tuition and Fees: For information regarding current tuition and fees, please go to www.mcla.edu/studentaccounts
Financial Aid Information
www.mcla.edu/Aid  (413) 662-5219  finaid@mcla.edu

All MCLA students are strongly encouraged to complete the Free Application for Federal Student Aid (FAFSA) at www.FAFSA.gov. For more information about the financial aid application process, please refer to the financial aid website at www.mcla.edu/Aid or call the MCLA Financial Aid Office at (413) 662-5219.

Financial Aid: Students are awarded financial aid according to need. Applicants who meet the College’s published financial aid deadlines will receive priority consideration. Although financial aid programs operate under specific federal and state guidelines, every effort is made to consider each student’s particular family financial situation. To apply for financial aid, complete a Free Application for the Federal Student Aid (FAFSA) online at www.FAFSA.gov. A copy of the family’s prior year IRS federal income tax transcript may be required for verification purposes. Consideration of eligibility for financial aid is made when these documents have been received and the student has been accepted to the College. For information regarding financial aid loans, grants, scholarships or work study programs, please refer to the Financial Aid website at www.mcla.edu/Aid or contact the Financial Aid Office.

Refund Policy: Withdrawal prior to the first day of classes (official opening), a student receives a refund of 100 percent. All refunds for withdrawals after the start of classes are determined on a pro-rata basis up to the 60 percent point of the semester. Pro-rata refunds are calculated by determining the percentage of the semester that has been completed up to and including the official date of withdrawal. Based on this calculation, the College determines the amount of financial aid that is unearned and is responsible for returning any portion necessary to the appropriate financial aid programs. Repayment is made to the Federal programs in the following order: Federal Direct Unsubsidized Loan, Federal Direct Subsidized Loan, Federal Perkins Loan, Federal Direct Plus Loan, Federal Pell Grant and Federal Supplemental Educational Opportunity Grant. Any remaining credit balances will then be returned to state, institutional and student resources, in that order. All refunds will be made by check payable to the student. Please note that withdrawal from the College could result in a balance owed to the College for federal aid that must be returned to the above programs. No refund will be made after the 60 percent point of the semester.

Withdrawal Policy: All undergraduate matriculated (degree-seeking) students withdrawing from MCLA must complete a withdrawal form through the Center for Student Success and Engagement/Advising Services. See leave of absence/withdrawal at end of next section.
Veteran Information

www.mcla.edu/Academics/registrar/veteraninformation/index (413) 662-5216 registrar@mcla.edu

Information for MCLA Students who are United States Armed Forces Veterans, Active Duty, Selected Reserve, National Guard, or their Dependents. Students are encouraged to identify their veteran status with the Registrar’s Office, Eldridge Hall Quad Level.

The Registrar’s Office certifies eligibility for tuition benefits with the U.S. Department of Veterans Affairs. Benefits can come from one of the following sources: · Massachusetts Categorical Tuition Waiver · Montgomery GI Bill® - Active Duty (Chapter 30) · The Post 9/11 GI Bill® (Chapter 33) · Montgomery GI Bill® - Selected Reserve (Chapter 1606) · REAP (Reserve Educational Assistance Program - Chapter 1607) · VEAP (Veterans Educational Assistance Program - Chapter 32) · DEA (Survivors’ and Dependents’ Educational Assistance Program - Chapter 35) · Vocational Rehabilitation and Employment (Chapter 31)

In compliance with the Valor Act of 2012, the Registrar’s Office evaluates potential college credit for military training programs, college courses taken while on active duty, and various examination programs. MCLA awards college credit based on the recommendations provided by the American Council on Education, DANTES, and our own Experiential Credit Program. Students are encouraged to contact the Registrar’s Office for more information.

In compliance with the Veterans Access, Choice, and Accountability Act of 2014, qualifying veterans and dependents will be charged tuition and fees at the rate for in-state students.

In compliance with the Veterans Benefits and Transition Act of 2018, MCLA does not penalize veterans and dependents using Chapter 31 and Chapter 33 benefits when the VA is late making payments by preventing these students from enrolling, charging additional late fees, requiring alternative sources of funding, or denying access to school resources. Qualifying students should submit their Certificate of Eligibility or Statement of Benefits before the first day of classes.
The Undergraduate Experience

ACADEMIC POLICIES
For detailed information pertaining to current academic policies, please refer to www.mcla.edu/registrar.

DEFINITION OF CREDIT HOUR
An amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

- One hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or
- At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution, including laboratory work, internships, practica, studio work and other academic work leading to the award of credit hours.

MCLA in accordance with the federal regulations and commonly accepted practices in higher education operates on a 50-minute hour as it relates to direct faculty instruction and a minimum of two additional hours per week as it relates to other non-direct instructional activities (laboratory, internships, etc.)

- Each unit of internship requires a minimum of forty-five (45) hours of on-site experience for each credit hour (See Policy on Internships)
- Laboratory courses must maintain a minimum of 45 contact hours per unit of credit.
- Field trips are to be counted hour-for-hour as laboratory meetings.

ACADEMIC HONESTY
A college is a community of students and faculty interested in the search for knowledge and understanding. This requires a commitment to honesty and integrity. Honesty on the part of every college student is integral to higher education at Massachusetts College of Liberal Arts. Acts of dishonesty are not merely a breach of academic honesty but conflict with the work and purpose of the entire College Community.

Violations of academic honesty include but are not limited to:

- Submitting the work of others as one’s own
- Unauthorized communication during or about an examination
- Use of information (notes, electronic communication, etc.) that is not permitted during exams, tests, quizzes
- Obtaining or disseminating unauthorized prior knowledge of examination questions
- Substitution of another person in an examination
- Altering College academic records
- Knowingly submitting false statements, data, or results
• Submission of identical or similar work in more than one course without the approval of the current instructor
• Collaborating on material after being directed not to collaborate
• Forging a signature or false representation of a College official or faculty member or soliciting an official signature under false pretense
• Other behavior or activities in completing the requirements of a course that are explicitly prohibited by an instructor
• Plagiarism (as defined below)

PLAGIARISM
The academic departments of the College have varying requirements for reporting the use of sources, but certain fundamental principles for the acknowledgment of sources apply to all fields and levels of work. The use of source materials of any kind and the preparation of essays or laboratory reports must be fully and properly acknowledged. In papers or laboratory reports, students are expected to acknowledge any expression or idea that is not their own. Students submitting papers are implying that the form and content of the essays or reports, in whole and in part, represent their own work, except where clear and specific acknowledgement is made to other sources. Even if there is no conscious intention to deceive, the failure to make appropriate acknowledgment may constitute plagiarism. Any quotation - even of a phrase - must be placed in quotation marks and the precise source stated in a note or in the text; any material that is paraphrased or summarized and any ideas that are borrowed must be specifically acknowledged. A thorough reordering or rearrangement of an author’s text does not release the student from these responsibilities. All sources that have been consulted in the preparation of the essay or report should be listed in the bibliography.

Upon an occurrence of alleged academic dishonesty, instructors may exercise their discretion in imposing a sanction. Instructors may also report this sanction to the Registrar or file additional charges against students if they believe that additional sanctions are appropriate. Instructors will notify the Registrar in writing in either or both of the following cases:

• Any acts of academic dishonesty whenever they have imposed a sanction that is beyond the value of the assignment
• The instructor requests that the College take further action.

The Academic Appeals Committee will hear academic grievances from and about students enrolled in the undergraduate program. It will also serve as a hearing board for students charged with academic dishonesty.
PROCEDURES FOR COURSE GRADE APPEAL OR ACADEMIC SUSPENSION

In the event a student wishes to appeal an instructor’s grade, the process for filing an appeal:

• The student will bring a written statement to the instructor explaining in detail all the facts relevant to the appeal. This must be discussed with the instructor. If a decision or resolution acceptable to the student is not reached:

• The instructor shall give the student a written statement of his/her decision, explaining in detail his/her reasons for that decision within one week of meeting with the student.

• The student will then bring both statements to the chair of the academic department sponsoring the course. The chair will read and discuss the statements with the student and consult with the faculty member as appropriate.

• The chair will provide the student with a written statement of his/her decision, recommending support or denial of the case decision within one week of meeting with the student. If a decision or resolution acceptable to the student is not reached:

• All materials will be forwarded to the Dean of Academic Affairs who will read and discuss all the statements with the student and other parties.

• The Dean will forward all information to the Registrar. Meetings of the Academic Appeals Committee will be called as needed by the Registrar. Requests for a hearing before the Academic Appeals Committee must include written statements from all parties as outlined above. Such requests must be made to the Registrar within thirty days of initiating the appeal.

In cases involving appeals of a course grade a student has one month into the following semester to initiate an appeal relating to grades earned in the regular fall or spring semesters. In all other cases (e.g. summer) the student has one month after receipt of the grade to initiate an appeal through the aforementioned channels. No grade appeals can be made after the above deadlines.

In cases involving academic suspension, students wishing to be readmitted must appeal in writing by the date specified in the student’s suspension notice. Forms explaining suspension appeal will be sent to the student at the time of notification.

• Students will submit WRITTEN appeals ONLY.

• The Academic Appeals Committee has the authority over enrollment conditions, including, but not limited to, mandating course selection for students and mandating the number of credits taken per semester.

All students academically suspended from the college must minimally meet the following conditions for readmission:

• At least 6 credits of transferable credit earned during the suspension period with a GPA of at least 2.0.

• A Readmission Approval Form must be completed by the student and approved by the Office of Academic Affairs or its designate, prior to enrolling in classes. Courses must be taken at an accredited institution other than MCLA.

• Students must sit out the following academic semester from MCLA. Students will be allowed to finish any courses in which they are attending classes at the time of suspension. However, such courses will not count for purposes of readmission.

• Other conditions may be imposed by the Academic Appeals Committee or the Office of Academic Affairs or its designate, based on the student’s overall record.

A student academically suspended from MCLA more than twice may appeal and may be eligible for readmission at the discretion of the academic appeals committee.
APPEAL PROCEDURES - ACADEMIC HONESTY

Upon an occurrence of alleged academic dishonesty, the instructor may exercise his/her discretion in imposing a sanction. The instructor may further file charges with the Academic Appeals Committee against the student if he/she believes that additional sanctions would be appropriate.

The instructor must notify the Registrar in writing of any occurrence of academic dishonesty whenever he/she has imposed sanctions. Such notification shall include the student’s name, course title, date of occurrence, type of dishonesty, sanction(s) being imposed, and any further action requested. This notification shall be effected within 14 days after discovery of the incident. A copy of said notice shall be sent to the student involved, including the charges made against the student and the grounds, if proven, that would justify failure or other academic sanctions.

If the student wishes to appeal the sanction imposed by the instructor, the student must initiate an appeal within 14 days after receipt of notification.

The Academic Appeals Committee shall consider as a basis for a hearing that:

- The student claims not to have been academically dishonest.
- The student claims the instructor imposed an inappropriate sanction.
- The nature of the offense merits further action.

In academic dishonesty cases, the committee may receive requests for hearings from students, individual faculty, staff members, or the Registrar.

- A hearing is requested by notifying the Registrar in writing. The Registrar is the chairperson of the Academic Appeals Committee.
- A faculty or staff member may bring charges against a student when sanctions of grading do not appear appropriate to the faculty or staff member, in light of the academic dishonesty.
- The Registrar must refer cases of second and/or subsequent offenses of academic dishonesty for committee action.

If occurrence does not concern work performed for direct academic credit, the member of the faculty, staff, or administration filing charges shall maintain all supporting documentation and shall notify the Registrar of the suspected violation(s). The Registrar will then institute the established college procedure for dealing with violations of academic ethics.

Upon request for a hearing, it is the duty of the Registrar as chairperson of the appeals committee to schedule such a hearing within 30 days if school is in session. All parties to the case shall receive written notification of the hearing 7 days in advance, including date, time, and place. The student should be given the names of witnesses and an oral or written report on the facts to which each witness shall testify, so that the student may prepare a defense.

The student may elect to waive his/her right to a hearing before the Appeals Committee, and admit to the charge(s) addressed. In such cases the committee will then proceed to the assessment of the appropriate sanction.

The Appeals Committee may recommend the following sanctions for cases involving Academic Dishonesty:

- Academic Reprimand, which consists of a notice placed in the official file in the Registrar’s Office. The Academic Appeals Committee may recommend that such notice remain on file for up to five years.
- Current semester dismissal for the semester in which the offense was committed. Grades of “WX” will be recorded on the courses no matter when the sanction is imposed; however, the instructor of the course in which the academic dishonesty occurred may exercise his/her option of assigning an “F” in that course.
- Semester dismissal both for the semester in which the academic dishonesty occurred and the following semester.
• A student who has been dismissed or suspended from classes may not enroll in any course offered by the college.

If a student is dismissed for academic dishonesty, the student's transcript will state that the student was dismissed for academic dishonesty and will indicate the date on which the student was dismissed. The student may petition the Vice President of Academic Affairs five years after the date of dismissal to have this statement removed from his/her academic transcript.

Students will be informed in writing of any sanction imposed on them by the Academic Appeal Committee.

A student who has been dismissed from the college for academic dishonesty may appeal for readmission. The Office of Academic Affairs or its designate may determine additional conditions of readmission.

If a student has been academically dismissed from MCLA more than twice for repeated violation of the academic honesty policy, the student is ineligible for readmission.

HEARING PROCEDURES

Appeal hearings will be closed to all but the student and/or faculty involved. Either party involved in the case may petition the committee in writing, within 24 hours prior to the hearing, to allow students and/or faculty members involved in the case to participate in or sit in during the hearing. Petitions will be approved at the discretion of the Academic Appeals Committee.

Either party to a grade or academic honesty appeal may testify on their own behalf.

The Committee reserves the right to allow the faculty member involved to hear the student’s testimony.

The student has the option to stay and hear the testimony of the faculty member and any other witnesses. The student will then be given an opportunity to respond to the testimony of those witnesses.

The committee will entertain a written petition for rehearing only in exceptional instances in which either party can demonstrate significant new factual information.

The Academic Appeals Committee reserves the right not to hear an appeal in any case where data is not sufficient, the necessary steps have not been followed or when jurisdiction is not clear.

COMMITTEE MEMBERSHIP

The membership of the Academic Appeals Committee hearing Academic Suspension Appeals shall consist of:

• Two faculty members appointed by the President of the Faculty Association for a two year term
• One faculty member appointed by the President of the Faculty Association for a three year term
• An MCLA Administrator
• The Dean of Academic Affairs
• The Registrar shall act as Chair — voting only in the event of a tie
• The Dean of Academic Affairs or the Office of Academic Affairs or its designate, shall act as chairperson in the absence of the Registrar.

Membership of the committee hearing Grade Appeals and/or Academic Dishonesty Appeals shall consist of all members listed above as well as two students chosen from the college judicial board pool by the Office of Student Affairs. If necessary, other appropriate students will be selected by the Registrar.
VOTING PROCEDURES
A quorum shall be at least two faculty, and one administrator for suspension appeals (in addition, one student for grade and dishonesty appeals).
In all cases any action requires a majority of those present.
Voting will be by secret ballot.
Any member of the committee who is involved in a particular case may not participate in that case.

REPORTS OF THE COMMITTEE DECISIONS
In all cases the committee’s recommendations along with all pertinent documents will be forwarded to the Vice President of Academic Affairs for their recommendation. The committee’s and the Vice President’s recommendations will be forwarded to the President for final approval. If requested, the President will provide written rationale to either party involved in the case.
The Registrar shall record all sanctions imposed for academic dishonesty by the instructor and by the President unless there is a finding of acquittal. In the case of acquittal, the record of the charge will be deleted from the files.
- Such records of sanctions shall be maintained by the Registrar separately from the permanent file, and will be made available to the Admissions Office should the student apply for readmission.
- All such records shall be destroyed upon graduation or five years from the last date of attendance.
- In the specific instance of a student dismissed from the college for academic dishonesty such records shall remain permanently on file, unless petition is made to the Vice President of Academic Affairs.

Further information regarding instructor and student rights and responsibilities and appropriate procedures to be followed in applying this policy may be obtained from the Office of the Dean of Academic Affairs or the Registrar.

Core Curriculum

MCLA's core curriculum provides a practical and interdisciplinary education that challenges students to develop themselves as thinkers, readers, writers, communicators, and problem solvers. Moreover, the core curriculum prepares students for a diverse world, for professional and personal success by helping students to think critically, and to make informed, self-directed decisions, which will prepare them for lives of civic responsibility. MCLA's core curriculum comprises three tiers. Tier I develops foundational skills including writing, reasoning, and language development. Tier II exposes students to coursework within each of four domains including creative arts, human heritage, self and society, and science and technology. Tier III is a culminating capstone experience. Domain level courses will engage students in:

- Comprehending the possibilities and limitations of various fields of human inquiry;
- Understanding the complex interplay of beliefs, values and practices that characterize disciplined systems of knowledge;
- Adopting diverse perspectives to function in our multicultural world.

**CORE CURRICULUM REQUIREMENTS**

**TIER I CORE FOUNDATIONS**

Critical Reading, Thinking, Writing ........................................... 3 cr
Quantitative Reasoning ............................................................. 3 cr

A Tier I quantitative course shall be a college-level course of at least three credits, whose primary focus is preparing students to meet the objectives below.

Upon successful completion of a Tier I quantitative course, students will be able to, in multiple contexts:

- Explain information presented in mathematical forms (e.g., equations, graphs, diagrams, tables, words);
- Skillfully convert relevant information into various mathematical forms (e.g., equations, graphs, diagrams, tables, words);
- Make calculations clearly, concisely, and correctly;
- Make judgments and draw appropriate conclusions based on analysis of quantitative data, and realize the limits of this analysis;
- Competently employ estimations of quantities;
- Present quantitative information in connection with their work, employing an effective format and thoroughly contextualizing the explanations.

- The learning outcomes for the Tier I Quantitative Reasoning requirement of the Core Curriculum were written by the members of the Quantitative across the Curriculum ad-hoc committee. This committee represents members from across academic disciplines.

All students must complete a foreign/modern language course at the 102 level (second semester elementary level) or demonstrate proficiency at or above the second semester elementary level (e.g. through an assessment process). Entering students who have passed, with at least a C average, the equivalent of a fourth year level of a foreign/modern language are waived from MCLA’s language arts requirement. Alternatively, students can elect to begin study of a new language at the first-semester elementary level (101) and subsequently complete the second semester elementary level (102) course in the same language.

In accordance with Section 504 of the Rehabilitation Act and the Americans with Disabilities Act, students with disabilities (as identified through Learning Services) will be advised to select an alternative course to fulfill their Tier I Language Arts requirement.

This course may be taken at any level and will be drawn from a list of courses that foster an understanding and appreciation of culture other than our own, including, but not limited to; anthropology, social geography, travel, history and language (non-speaking) appreciation courses. Appropriate courses will be selected in consultation with language and other appropriate academic departments.
TIER II - CORE DOMAINS

CREATIVE ARTS

Upon completion of the creative arts domain requirements students will be able to:

- Describe techniques, processes, and concepts that creative artists use in their work;
- Discuss personal encounters with the creative arts within broader historical and cultural contexts;
- Articulate the significance of the creative arts, artistic expression, and experience in today's world.

Courses Fulfilling Creative Arts Tier II Domain

- CCCA 101 Creative Arts: Methods & History

- THEA 120 Introduction to Performance
- THEA 200 Introduction to Theatre
- PHIL 120 Art & Philosophy
- PHIL 120H Honors: Art & Philosophy
HUMAN HERITAGE

Upon completion of the human heritage domain requirements students will be able to:

- Apply critical and comparative approaches to primary and secondary sources;
- Draw valid conclusions from documentary evidence and evaluate the significance of such conclusions;
- Evaluate the significance of events, ideas, or circumstances in a given text both within their own and contemporary contexts.

SELF AND SOCIETY

Upon completion of the self & society requirements students will be able to:

- Identify the values and assumptions in a particular social setting and compare them with one's own cultural context;
- Utilize inter-disciplinary perspectives, theories and social science methods to analyze significant social issues;
- Develop and present an analysis of the multiple factors that explain an individual's relationship to society.

CCSS 101 Contemporary Issues in Society
CCSS 102 Snapshots of Society
CCSS 110 Topics of Self and Society
CCSS 202 World Regions & New Global Order
CCSS 210 Landscapes of Human Activities
CCSS 260 Schools, the Law and Society
CCSS 264 Math of Fairness and Equity
CCSS 264H Honors: Math of Fairness & Equity
CCSS 268 Culture and the Body
CCSS 269 Education and Society

SOCI 201 Social Problems
SOCI 210 Families
SOCI 282 Social Constructions of Deviance
WMST 201 Introduction to Women’s Studies
SCIENCE AND TECHNOLOGY

Upon completion of the science and technology requirements students will be able to:

- Demonstrate knowledge of natural science content;
- Apply content knowledge to solve problems and make informed decisions;
- Communicate scientific findings orally and/or in writing;
- Interpret and generate graphs from scientific data;
- Apply scientific practices to test a hypothesis or answer a question;
- Find media (e.g., popular or scholarly literature) focusing on scientific topics and evaluate the reliability of the source.

TIER III - CAPSTONE EXPERIENCE

In the Capstone Senior Seminar students apply academic learning to the context of contemporary local and global communities.

Upon completion of the CCAP 300 Capstone Seminar students will be able to:

• Acquire and evaluate information from multiple and varied information sources that integrates two or more Tier II domains;
• Apply academic learning to the context of contemporary local and/or global communities;
• Investigate and analyze complex problems/issues and draw reasoned conclusions, providing comprehensive support for those conclusions;
• Effectively communicate ideas, solutions, and plans through a variety of media that must include a substantial writing component;
• Work effectively in collaboration with fellow students and/or community entities to create a product that demonstrates the student is able to connect academic learning and critical thinking skills with problems in the context of today’s world.

CONCENTRATION IN STUDIO ART • ART MINOR • ART HISTORY MINOR • DESIGN MINOR

ART MAJOR PROGRAM
The Department of Fine and Performing Arts offers a four-year program leading to a Bachelor of Arts degree in Art. The art major features hands-on courses in the creation and techniques of art, as well as courses in visual culture and media. Courses start with a foundations approach centered on drawing, painting, design, sculpture and art history. Building on these skills and concepts, students can choose electives in figure drawing, book arts, landscape painting, and many other art methods. Students will also develop their own artworks and a depth of knowledge about the history of art, according to their career goals and interests. Opportunities may include internships with area arts organizations such as the Massachusetts Museum of Contemporary Art (MASS MoCA), the Sterling and Francine Clark Art Institute, and MCLA’s Gallery 51. In addition to the broad benefits of a liberal arts degree, by completing the art major program, students will be able to:

- Create original high-quality artworks;
- Understand all levels of art-making and visual creativity;
- Relate, analyze, and utilize the history of art and visual culture;
- Build public art presentations and market their own and others’ art.

PROGRAMS AVAILABLE

BACHELOR OF ARTS IN ARTS MANAGEMENT • ARTS MANAGEMENT MINOR

ARTS MANAGEMENT MAJOR PROGRAM

The Department of Fine and Performing Arts offers a four-year program leading to a Bachelor of Arts in Arts Management. This unique program gives graduates the tools to create, develop, facilitate and evaluate cultural programs and organizations. The major features a strong background in visual arts, music, and theatre; combined with strategic planning, leadership, marketing, grants, fundraising and finance. Graduates develop expertise in areas including museum studies, performing arts management, community arts, arts education and artist entrepreneurship. The program’s internship and future employment opportunities are enhanced through MCLA partners in the world-class Berkshire art community, such as the Massachusetts Museum of Contemporary Art (MASS MoCA), the Sterling and Francine Clark Art Institute, Shakespeare and Company, Barrington Stage Company, the Norman Rockwell Museum, and Tanglewood, where MCLA students and graduates actively participate in many aspects of art administration. This hands-on connection to the creative economy - the interaction of arts, educational, and business enterprises, and non-profit organizations - serves as a culminating experience to the arts management curriculum and facilitates entry into an expanding job market in arts related enterprises. Students graduating with a degree in Arts Management will be able to:

• Demonstrate a broad-based understanding of issues in arts management including program development, fund raising and non-profit organization;
• Demonstrate an understanding in business concepts including financial accounting, management and marketing;
• Demonstrate practical experience in event coordination, audience development and project management;
• Demonstrate an understanding of the current arts ecology and their place in it.

BIOLOGY MINOR • HEALTH AND SOCIETY MINOR • PUBLIC HEALTH MINOR
TEACHING LICENSURE

BIOLOGY GENERAL MAJOR PROGRAM
The general biology major provides students with a strong background in the biological sciences, from molecules to organisms to ecological relationships. Advanced courses build upon information learned in the foundational courses and allow students to pursue their own areas of interest. The general major is a good choice for students interested in Botany, Wildlife Biology, Conservation Biology, Marine Biology, and Secondary Education. A major in traditional Biology prepares students to pursue graduate degrees or to work in a variety of settings. Upon completion of their program, graduates will be able to:

• Understand fundamental concepts in the discipline;
• Write a lab report to communicate the findings of a scientific experiment;
• Design an experiment to test a hypothesis;
• Find and analyze primary literature in the field;
• Demonstrate appropriate technical skills in the laboratory;
• Analyze data with appropriate statistical analysis.

TEACHING LICENSURE

Students interested in middle or secondary education can complete the general Biology major and licensure requirements through the Education Department, or can double major in Biology and Education. Students pursuing this option can also enroll in a 4 + 1 program to complete the B.S. in Biology and Masters of Education at MCLA in five years.

BIOLOGY AWARDS

Awards will be given annually to graduating seniors who have demonstrated outstanding performance in course work as well as in independent research. Students recommended for this award must meet the following criteria:

- A minimum overall GPA of 3.20
- A minimum GPA of 3.50 in courses counting towards the biology major
- Above average achievement at least one semester of independent research. Result of the research project must be presented at MCLA's Undergraduate Research Conference.
- A minimum of 16 BIOL credit hours taken at MCLA (not counting independent research credit hours)

BUSINESS ADMINISTRATION AND ECONOMICS MAJOR PROGRAM

The Department of Business Administration and Economics offers a four-year program leading to a Bachelor of Science in business administration. The program is designed to develop liberally educated professionals with the knowledge, perspectives, problem-solving abilities and ethical values necessary for successful careers and responsible citizenship.

The program has several options, including a general program in business administration, as well as five areas of concentration. All of our options offer a strong foundation of required courses, combined with relevant departmental and non-departmental courses that give students a strong base in communication, technical and administrative skills. The goal of our program is for students to become academically well-rounded and technically prepared for a career in business, government, non-profit organizations or for graduate study.

Students graduating with a degree in business administration are expected to:

• Understand and apply professionally marketable knowledge;
• Think creatively and critically;
• Define, analyze, evaluate, and solve problems;
• Express ideas effectively orally and in writing;
• Apply appropriate technology to contemporary business problems;
• Be prepared to function effectively in a culturally and demographically diverse environment;
• Respond to the needs of the global business community;
• Utilize and value a liberal arts education in one’s personal and professional life.
GENERAL BUSINESS ADMINISTRATION REQUIREMENTS

BADM 100    Explorations in Business ........................................ 3 cr
BADM 110    Information Technology for Business .................... 3 cr
BADM 201    Business Law I .................................................... 3 cr
BADM 206    Math Methods of Business & Economics ............. 3 cr

ENTREPRENEURSHIP MINOR PROGRAM

Beginning in September 2018, MCLA will offer an Entrepreneurship Minor. Housed in the Department of Business Administration, this 18-credit academic program is designed to introduce students to the concept of entrepreneurship as a means of economic and community development, as well an engine for social good. The coursework introduces students to prevalent frameworks for new business creation, such as the Lean Methodology and Design Thinking, while providing project-based experiences that help them turn ideas into actionable business plans.

ENTREPRENEURSHIP MINOR REQUIREMENTS

MARKETING MINOR PROGRAM

The marketing minor is an excellent program for students in any major, as almost everyone will promote something in their lifetime - a product, a service, a cause, an idea or themselves! It’s especially appropriate for students majoring in Arts Management, Corporate Communications, Environmental Studies, or Public Relations. This program provides the fundamental principles and concepts of marketing as well as courses in understanding consumer behavior and marketing in various environments.

MARKETING MINOR REQUIREMENTS

- BADM 100  Explorations in Business ......................................... 3 cr
- BADM 270  Marketing................................................................ 3 cr
- BADM 381  Consumer Behavior ................................................ 3 cr
- ECON 142  Microeconomics ..................................................... 3 cr

BACHELOR OF ARTS IN COMMUNICATIONS
DIGITAL MEDIA INNOVATION CONCENTRATION

COMMUNICATIONS MAJOR PROGRAM

Sonnets to podcasts, broadsides to blogs, the realm of human discourse is vast, varied, and ever-changing. In the English/Communications Department at MCLA, we educate our students to become effective, adaptable critics and creators of a variety of human discourse, individuals whose dynamic understanding of the literary and media arts contributes both to their own well-being and the well-being of others. To this end, the department offers a four-year program leading to a Bachelor of Arts in English. The Foundation of the program gives students a broad background in literature, language, and media. Beyond the Foundation, students take additional courses in one of the following concentrations: Broadcast Media, Film Studies, Journalism, Literary Studies, Public Relations and Corporate Communications, or Writing (Creative or Professional). Students graduating with a degree in Communications will be able to:

• Communicate effectively in oral, written, and other forms of discourse;
• Demonstrate an ability to work effectively in collaborative learning and problem-solving environments;
• Craft thoughtful, creative texts that demonstrate a keen sensitivity to language, form, style, and effect;
• Analyze texts closely and critically, demonstrating how languages, style, form, and genre create effects and shape meanings;
• Articulate an understanding of how cultural, historical, and ideological contexts condition both the creation and the reception of texts across time and in today’s complex, diverse world;
• Use various critical methods and theoretical frameworks in scholarly dialogue with others about the interpretations of texts;
• Design and conduct research, applying it to problem-solving and contributing to various forms of public discourse;
• Employ relevant technologies in the production, critique, and presentation of texts;
• Reflect on how the knowledge and abilities developed in the English/Communications Department transfer meaningfully to other academic and non-academic, real-world situations.

Chairperson: Justin Golub, Ph.D.  Email: J.Golub@mcla.edu

PROGRAMS AVAILABLE
BACHELOR OF SCIENCE IN COMMUNITY HEALTH EDUCATION

COMMUNITY HEALTH EDUCATION MAJOR PROGRAM

The Community Health Education program is an interdisciplinary major that provides a foundation in principles of community health, an understanding of the biological basis of disease, social and psychological aspects of health and disease, distribution and determinants of health and disease and practical strategies for implementing health promotion programs. Evidence-based practice is emphasized throughout the curriculum, and students will carry out experiments and analyze data in many courses. Through coursework and field experiences, this program will prepare students for successful completion of the Certified Health Education Specialist examination and for a career in community health education.

Upon completion of the Community Health Education program, students will be able to:
• Understand and apply fundamental concepts in the discipline;
• Find and analyze primary literature in the field;
• Analyze data, with appropriate statistical analysis;
• Demonstrate basic knowledge and skills related to evidence-based practice;
• Communicate health information verbally and in writing;
• Apply health concepts, health promotion and evidence-based practice in a real-world setting.

SOFTWARE DEVELOPMENT CONCENTRATION • BUSINESS INFORMATION SYSTEMS MINOR
COMPUTER SCIENCE MINOR • INFORMATION TECHNOLOGY MINOR

COMPUTER SCIENCE MAJOR PROGRAM

The Department of Computer Science offers a four-year program leading to a Bachelor of Science in Computer Science, with one of four concentrations. Students majoring in other departments may complete a minor in computer science or a minor in information technology.

Computer science encompasses a broad range of computing and communications technologies that are used for the development of business, commerce, robotics, entertainment, educational, medical and information system products. The dependence on modern computer systems has created a growing demand for software developers who can meet the needs of businesses and consumers. The application of these technologies now stretches from the factory floor to the office, boardroom and home. Current products range from standalone applications to fully distributed networked systems, and are made possible by the concepts of object oriented programming and design.

Career opportunities for graduates with these skills exist both in Internet companies and in more traditional companies that have a need for distributed systems of networked computers and software systems. Recent graduates have found employment with Internet startup companies, the insurance industry, communications companies and government contractors. The major program is designed to provide students with a strong grounding in several areas.

Students graduating with a degree in computer science will be able to:

• Develop and maintain professional quality software applications, products, and systems;
• Competently use major software applications found in industry;
• Communicate ideas effectively with others;
• Create and maintain hardware systems.
COMPUTER SCIENCE MAJOR

Students must select one of the following concentrations: Information Technology, Software Development, Bioinformatics, or Business Information Systems.

PROGRAMS AVAILABLE
TEACHER LICENSURE (PREK-2)  •  TEACHER LICENSURE (1-6)  •  TEACHER LICENSURE (5-8)
TEACHER LICENSURE (8-12)  •  BACHELOR OF SCIENCE IN EDUCATION
SPORT COACHING MINOR

The Education Department offers programs leading to licensure of teachers wishing to teach at the early childhood, elementary, middle school and secondary levels. Each program provides a balanced blend of theory and practice so that students will graduate with the knowledge and skills needed to become effective teachers. All license programs require that students complete a major in the liberal arts and sciences appropriate for the license.

Students also complete requirements for a major or concentration in education. It is recommended that students meet with an Education Department advisor during their freshman year to discuss their major.

Students who have completed requirements for licensure will be able to:

•  Plan curriculum and instruction;
•  Deliver effective instruction;
•  Manage classroom climate and operation;
•  Promote equity;
•  Meet professional responsibilities.

TEACHER LICENSURE PROGRAMS

The objective of the education program is to provide a balanced blend of theory and practice so that a student will graduate with a solid foundation from which to begin a teaching career. The Education Department prepares students in the knowledge and skills needed to become effective teachers. A network of mentor teachers associated with the College affords the pre-professional student the opportunity to apply educational theories in a variety of settings. Students seeking licensure must complete a major program in liberal arts or sciences and a state-approved license program in education.

Candidates for teacher licensure must decide which of the levels they wish to pursue. In the case of secondary education (8-12) and middle school (5-8), students major in the liberal arts curriculum consistent with the content area they wish to teach. Students should consult with the Education Department chairperson for more specific information and advice. Mark Hopkins Hall, telephone: 662-5505.
APPROVED LICENSURE PROGRAMS

Initial Licensure programs are available in the following fields:

**Early Childhood Teacher:**
- Pre-kindergarten - Grade 2
- Elementary Teacher: Grades 1 - 6
- Middle School Humanities: Grades 5 - 8
- Middle School Mathematics/Science: Grades 5 - 8
- Teacher of Biology: Grades 5 - 8 or 8 - 12
- Teacher of Chemistry: Grades 5 - 8 or 8 - 12
- Teacher of English: Grades 5 - 8 or 8 - 12
- Teacher of General Science: Grades 5 - 8
- Teacher of History: Grades 5 - 8 or 8 - 12
- Teacher of Mathematics: Grades 5 - 8 or 8 - 12
- Teacher of Physics: Grades 5 - 8 or 8 -12
- Teacher of Political Science/Political Philosophy: Grades 5 - 8 or 8 - 12

All licensure candidates will complete a minimum of 96 hours of work in a classroom appropriate to the license prior to student teaching.

Additional Information: Nancy Pearlman, Coordinator of Educator Licensure and Placement 413-662-5522

**TEACHER LICENSURE PROGRAM (PRE-KINDERGARTEN - GRADE 2)**

MCLA requires a major in education for students seeking early childhood license. The early childhood education program prepares teachers of young children prekindergarten through second grade.

The curriculum stresses the synthesis of theory and practice. Significant theories of child development and their practical implementation in group settings are studied. Also studied are different techniques of working effectively with individual and group behavior while stressing the teaching of mainstreamed children with special needs. The use of teaching materials for infants, toddlers, PreK, K, and grades 1-2 in all curriculum areas are presented. The curriculum stresses diverse values and various teaching and learning styles that are an important part of our multicultural society.

Students in the early childhood education program are prepared to teach and work in settings such as public schools (PreK-2), day care centers, nursery schools, and other group settings. With additional experience, early childhood graduates can qualify as lead teachers, as consulting resource teachers for special needs children, or as child-care workers in institutional settings. The curriculum provides a solid foundation for students who wish to seek state licensure as teachers of young children with special needs and Lead Teacher, Preschool Department of Early Education and Care (DEEC).

Formal application for admission into the Professional Semester requires an overall 2.8 GPA, with no grade below a C in required licensure courses, an assessment of oral and written communication skills, passing scores on the Massachusetts Tests for Educator Licensure, MTEL (see the education department for the required MTELs for each specific licensure area), two recommendations, and a successful interview.
Students must have departmental approval to enroll in more than 12 credits during the professional semester (student teaching). Upon completion of the ECHE program, the student is eligible for initial licensure (PreK-2).

To fulfill the requirements for the early childhood education program, students must complete a major in the liberal arts or sciences and a major in education, which includes the licensure program. Candidates for initial licensure must complete coursework in the following areas:

- Children’s Literature
- Early literacy including genres, literary elements, literary techniques, and vocabulary
- Mathematics including principles and concepts related to elementary mathematics
- Physical science*
- Life science*
- History, geography, government and economics;
- Creative arts
- Health or First Aid and CPR
- Physical Education
- Child Development or Developmental Psychology

*At least one science must include a laboratory requirement

Students should meet with an Education Department advisor during their freshman year to learn how these licensure content courses may also fulfill MCLA core curriculum requirements.

Choice of Liberal Arts/Sciences majors to accompany Early Childhood Education:
- Biology
- Chemistry
- English
- Environmental Studies
- Fine and Performing Arts
- History/Political Science
- Interdisciplinary Studies (IDST)
- Mathematics
- Philosophy
- Physics
- Sociology

TEACHER LICENSURE PROGRAM (1-6)

MCLA requires a major in Education for students seeking elementary license. The elementary education curriculum prepares students to become educated and competent elementary school teachers. The curriculum emphasizes a well-rounded education, early and continuous field experiences, and the study of research and knowledge related to effective teaching and learning.

To fulfill the requirements for the elementary education licensure program, students must complete a major in the liberal arts or sciences and the education major which includes the licensure program. Candidates for initial licensure must complete coursework in the following areas:

- Children’s Literature
- Adult Literature
- Early literacy including genres, literary elements, literary techniques, and vocabulary
- Mathematics including principles and concepts related to elementary mathematics (9 credits)
- Physical science*
- Life science*
- United States history including Massachusetts history, political principles, and ideals
- World history or Western Civilization
- Economic principles and concepts
- Political Science/Government
- Creative Arts
- Health or First Aid and CPR
- Physical Education
- Child Development

* At least one science must include a laboratory requirement.

Students should meet with an education department advisor during their first year to learn how these licensure content courses may also fulfill MCLA core curriculum requirements.

Choice of Liberal Arts/Science Major to accompany Elementary Education:
- Biology
- English
- Environmental Studies
- Fine and Performing Arts
- History/Political Science
- Interdisciplinary Studies (IDST)
- Mathematics
- Philosophy
- Physics

Formal application for admission into the Professional Semester requires an overall 2.8 GPA, with no grade below a C in required licensure courses, successful completion of Phases I and II, an assessment of oral and written communication skills, passing scores on the Massachusetts Tests for Educator Licensure, (See the education department for the required MTELs for each specific licensure area), two recommendations and a successful interview. Students must have departmental approval to enroll in more than 12 credits during the Professional Semester. Upon completion of the ELEM program, the student is eligible for initial licensure (1-6).

(Plus core/licensure content courses)

LICENSURE PROGRAM (5-8, 8-12)

MCLA requires a concentration or major in education for students seeking a middle or secondary school license. The middle secondary school education curriculum prepares students to become educated and competent teachers. The curriculum emphasizes a well-rounded education, early and continuous field experiences, and the study of research and knowledge related to effective teaching and learning.

To fulfill the requirements for the middle secondary school education licensure program, students must complete
a major in the liberal arts or sciences and a concentration or major in education. In addition, students must also complete a three-credit psychology course (applied developmental psychology). A total of 43 credits are required for the major and licensure program. Students should meet with an education department advisor during their first year. For more information contact the education department.

Choice of Liberal Arts/Sciences majors to accompany Middle Secondary School Education:

- Biology
- Chemistry
- English
- History, Political Science
- Interdisciplinary Studies (IDST)**
- Mathematics
- Physics

** A student selecting IDST will combine English and History for the Humanities License or Mathematics and a science for the Math/Science License.

Formal application for admission into Professional Semester requires an overall 2.8 GPA with no grade below a C in required licensure courses, an assessment of oral and written communication skills, passing scores on the Massachusetts Tests for Educator Licensure, (See the education department for the required MTELs for each specific licensure area), two recommendations and a successful interview. Students must have departmental approval to enroll in more than 12 credits during the Professional Semester (student teaching). Upon completion of the middle/second program the student is eligible for initial licensure (5-8, 8-12).

Total Teacher Licensure Program 5-12 Requirements ............37-43 cr

TEACHER LICENSURE BY THE COMMONWEALTH OF MASSACHUSETTS
To comply with federal regulations, Massachusetts requires that individuals who want to obtain teacher licensure
in the state must pass the Massachusetts Tests for Educator Licensure.

Students already possessing a bachelor's degree also may be admitted to a licensure program. Interested
students should meet with the Coordinator of Educator Licensure and Placement at their earliest convenience to
find out the specific requirements for the license level they seek.

Initial licensure is granted by the Commonwealth of Massachusetts to individuals who have completed approved
programs of study and received passing scores on the Massachusetts Tests for Educator Licensure. MCLA,
through the education department, offers at the undergraduate level programs that license regular classroom
teachers in Early Childhood (Pre K-2), Elementary (1-6), Middle School (5-8), and Secondary School (8-12).

Upon seeking a teaching position in the public schools, students should be aware that most school districts may
require a CORI (Criminal Offender Record Information) or SORI (Sexual Offender Record Information) check as
well as evidence of inoculations and fingerprinting.

ENGLISH AND COMMUNICATIONS MAJOR PROGRAMS
Sonnets to podcasts, broadsides to blogs, the realm of human discourse is vast, varied, and ever-changing. In the English/Communications Department at MCLA, we educate our students to become effective, adaptable critics and creators of a variety of human discourse, individuals whose dynamic understanding of the literary and media arts contributes both to their own well-being and the well-being of others. To this end, the department offers a four-year program leading to a Bachelor of Arts in English. The Foundation of the program gives students a broad background in literature, language, and media. Beyond the Foundation, students take additional courses in one of the following concentrations: Broadcast Media, Film Studies, Journalism, Literary Studies, Public Relations and Corporate Communications, or Writing (Creative or Professional). Students graduating with a degree in English or Communications will be able to:

• Communicate effectively in oral, written, and other forms of discourse;
• Demonstrate an ability to work effectively in collaborative learning and problem-solving environments;
• Craft thoughtful, creative texts that demonstrate a keen sensitivity to language, form, style, and effect;
• Analyze texts closely and critically, demonstrating how languages, style, form, and genre create effects and shape meanings;
• Articulate an understanding of how cultural, historical, and ideological contexts condition both the creation and the reception of texts across time and in today’s complex, diverse world;
• Use various critical methods and theoretical frameworks in scholarly dialogue with others about the interpretations of texts;
• Design and conduct research, applying it to problem-solving and contributing to various forms of public discourse;
• Employ relevant technologies in the production, critique, and presentation of texts;
• Reflect on how the knowledge and abilities developed in the English/Communications Department transfer meaningfully to other academic and non-academic, real-world situations.

COMMUNICATIONS MAJOR TOTAL FOUNDATION REQUIREMENTS 24 cr

Foundation Courses
ENGL 200 Communication Research & Methods ................. 3 cr
ENGL 211 Introduction to Mass Media .................................. 3 cr
COMM 201 Media Writing and Production ............................... 3 cr

Literature Studies (one of the following) ................................ 3 cr
  ENGL 221 Literary Journalism
  ENGL 250 Introduction to Literature
  ENGL 265 Literary Theme
  ENGL 270 Literary Genre
  OR one 200-level or above foreign language course

Media Practice in Context
(2 courses, with one being a writing course, must be different than concentration/track required course) ........................................ 3 cr
  ENGL 205 Introduction to Photography
  ENGL 212 Radio Production
  ENGL 214 Basic Television Production & Broadcasting
  ENGL 312 Radio Practicum

DEPARTMENTAL ELECTIVES REQUIREMENT
The six hours of English electives that complete the major’s requirements provide flexibility within the major. Working closely with the departmental advisor, the student may choose electives that (a) strengthen his/her area of concentration, (b) enrich the possible applications of specialization, or (c) broaden qualifications. For example, a student with a journalism concentration could choose two additional journalism courses, two courses in the closely related public relations offerings, two literature courses, or any selection that would best suit his/her individual needs and preferences. In any case, the selection of English electives should reflect a coherent plan, have clear goals, and broaden or deepen a student’s exposure to the field.

**TEACHING LICENSURE**

Students majoring in English may opt to pursue initial licensure as an early childhood teacher or elementary teacher. Also, English majors may pursue initial licensure as a teacher of English for the middle school and secondary levels. These students will complete an English major, and a licensure program in education.

BACHELOR OF SCIENCE IN ENVIRONMENTAL STUDIES
ENVIRONMENTAL SCIENCE CONCENTRATION
ENVIRONMENTAL SUSTAINABILITY CONCENTRATION • ENVIRONMENTAL SCIENCE MINOR
ENVIRONMENTAL SUSTAINABILITY MINOR • EARTH SCIENCE MINOR

ENVIRONMENTAL STUDIES MAJOR PROGRAM
Students in the Environmental Studies major select one of two concentrations: Environmental Science or Environmental Sustainability. The environmental studies major at MCLA prepares students to address challenges of global sustainability. Environmental studies students are part of a close-knit academic community who “learn by doing” as they work to find solutions to regional environmental challenges beginning their freshman year of college in collaboration with local partnering environmental institutions. Hands-on learning takes place in the classroom, in the field, in the laboratory, and as part of research and internships. As an interdisciplinary program, students take courses in departments and disciplines including biology, chemistry, geology, law, and public policy. Students graduating with a degree in Environmental Studies will be able to:

• Use classical skills such as critical thinking, research, speaking and writing as they apply to contemporary environmental issues;
• Use particular technologies necessary for modern professionals in the sciences, social sciences, and humanities;
• Quickly assess environmental problems and work effectively in a team to suggest realistic solutions;
• Enter either the professional world or graduate school with broad understanding, specific skills and significant experience in environmental studies.

Total Environmental Sustainability Minor Requirements ..................20 cr

EARTH SCIENCE MINOR PROGRAM

The earth science minor complements any major and provides students with knowledge and skills in the geosciences. Students learn how to work with spatial data, explore how earth’s surface has been shaped over time, investigate geological processes that lead to natural hazards for people, and study earth’s changing climate, among other topics in the geosciences. Flexibility in choosing elective courses in the minor allow students the opportunity to pursue both broad and specific interests in the field.

EARTH SCIENCE MINOR REQUIREMENTS

ERTH 270  Weather and Climate ............................................. 3 cr
ERTH 271  Landforms ............................................................. 3 cr

Choose one of the following:
ERTH 151  Introduction to Physical Geography ...................... 4 cr
ERTH 152  Introduction to Physical Geology .......................... 4 cr
ERTH 245  Natural Hazards ...................................................... 4 cr

Choose two upper level ERTH courses ............................................ 6 cr

Total Earth Science Minor Requirements...............................20 cr

TEACHING LICENSURE

Students majoring in environmental studies may opt to pursue initial teacher licensure as an early childhood teacher or elementary teacher. Students seeking any of these licenses must complete an environmental studies major, education major and a licensure program in education.

HEALTH SCIENCES MAJOR PROGRAM

The general Health Sciences degree prepares students to pursue careers and advanced study in a variety of health fields, including nursing, and is appropriate for students considering careers in nutrition.

• Upon completion of the Health Sciences program, students will be able to:
• Understand and apply fundamental concepts in the discipline;
• Find and analyze primary literature in the field;
• Design an experiment to test hypothesis;
• Demonstrate appropriate technical skills in the laboratory;
• Analyze data, with appropriate statistical analysis;
• Communicate the findings of a scientific experiment or information about a pathology.

MCLA-SAGE COLLEGE IN ALBANY, NY APPLIED NUTRITION ARTICULATION PROGRAM

Strong students who have met the requirements in the articulation agreement are guaranteed admission to the Master of Science in applied Nutrition and Nutrition and Dietetics programs at the Sage Colleges in Albany, NY.

CONCENTRATION IN MEDICAL TECHNOLOGY

In the Medical Technology concentration, students complete three years of coursework at MCLA and a clinical year at Berkshire Medical Technology program. Students who complete this concentration can become certified medical technologists. The Department of Biology offers a four-year program in medical technologist.

PROGRAMS AVAILABLE

BACHELOR OF ARTS IN HISTORY • HISTORY MINOR • PUBLIC HISTORY MINOR

TEACHING LICENSURE

HISTORY MAJOR PROGRAM

The Department of History, Political Science and Public Policy offers a four-year program leading to a Bachelor of Arts in History. Following completion of foundation courses, students pursue different fields of history depending upon their intellectual and career interests. This flexible program furnishes a useful background for careers in public service, education, environmental studies, government, law, journalism, public communication, and business. Students graduating with a degree in History will be able to:

• Demonstrate a comprehensive understanding of subject matter, methodologies and a variety of historiographical approaches;
• Demonstrate the ability to think clearly and critically about history and historical narratives, and to express ideas logically and persuasively in written and oral form;
• Demonstrate familiarity with diverse cultures and chronological periods and capacity for both empathetic and critical understanding of one’s own culture and society as well as those different from one’s own;
• Demonstrate competence in historical research and presentation, including the ability to appropriately access, use and evaluate primary and secondary sources in order to make a coherent historical argument.

HISTORY MAJOR REQUIREMENTS

TEACHING LICENSURE

Students majoring in history may opt to pursue initial licensure as an early childhood, elementary, middle school or high school teacher. Also, history majors may pursue initial licensure as a teacher of history or as a teacher of political science/political philosophy for the middle school and secondary levels. Students seeking initial licensure must complete the history major and a licensure program in education.
Honors Program

(413) 662-5137, www.mcla.edu/honr • Director: Zachary Finch, Ph.D. • Email: D.Zachary.Finch@mcla.edu

PROGRAM OVERVIEW

The honors program presents the opportunity for highly motivated students to enrich their academic studies with challenging interdisciplinary courses, independent research, and intensive intellectual engagement with their peers. Open to students in any academic major, those who complete the program earn the distinction of All College Honors upon graduation.

PROGRAM REQUIREMENTS

1. Maintain a cumulative grade point average at MCLA of 3.2 or better to remain in program
2. Take at least one honors course during each academic year
3. Overall 3.4 grade point average required to graduate with All College Honors designation
4. Complete at least 18 credits of Honors coursework, each with a grade of B or better, with at least half at or above the 300 level, to graduate with All College Honors designation
5. HONR 100, The Nature of Human Nature, 3 credits, is required to graduate with All College Honors designation

COMMONWEALTH SCHOLAR PROGRAM

Honors students may choose to undertake the prestigious Commonwealth Scholar Program. Beginning in the junior year, working closely with a faculty member, students will conduct a year-long independent research project that culminates in a public presentation.

REQUIRED COURSE:

HONR 550 Commonwealth Scholar Thesis Research ............. 3 cr
To be repeated once in a different semester.

CROSS-CULTURAL & SOCIAL JUSTICE MINOR • LEADERSHIP MINOR
TEACHING LICENSURE

INTERDISCIPLINARY STUDIES MAJOR PROGRAM
The Department of Languages, Interdisciplinary Studies, and Philosophy offers a four-year program leading to a Bachelor of Arts in Interdisciplinary Studies. Students majoring in Interdisciplinary Studies can pursue one of the following options:

B.A. Interdisciplinary Studies (for Educators): MCLA students can pursue an initial teaching licensure at the early childhood, elementary, and middle school level through a B.A. in Interdisciplinary Studies in combination with an education major and a licensure program. At the early childhood and elementary school level, students usually choose two areas of concentration (such as English and Psychology, History and English, Environmental Studies and Mathematics). At the middle school level, students opt for a general science, humanities, or math/science concentration. Students set up their individualized study-plan selecting classes from the course offerings at MCLA in close collaboration with an interdisciplinary studies faculty advisor.

B.A. Interdisciplinary Studies (Self-Designed Program): MCLA’s unique B.A. Interdisciplinary Studies (Self-Designed) program offers motivated students the option to create their own self-designed degree, by either focusing on a given theme, a geographic region, a specific question, a historical topic, an issue/problem in society, or by combining two or more disciplines into a multidisciplinary major. Examples of a self-designed program could include: European Studies, Film & Theatre, Psychology & Business, Art, Music & Psychology, History of Science, Science & Culture, etc.

B.A. Interdisciplinary Studies (Pre-designed Programs): Students may also opt to pursue a predesigned interdisciplinary program. These interdisciplinary programs are based on pre-structured study-plans and include:

- Cultural Studies
- American Studies
- Green and Sustainable Business Management
- Immigration and Diversity Studies
- International and Global Studies
Students graduating with a degree in Interdisciplinary studies will:

- Demonstrate advanced critical thinking, academic research, writing, and oral presentation skills;
- Have an understanding of how knowledge is created within different fields of inquiry;
- Be able to study important issues in societies past and present in local and global contexts from the vantage point of different disciplines and through interdisciplinary frameworks;
- Be able to study complex issues in society from ethical perspectives;
- Be able to analyze texts in cultural, social, and historical contexts;
- Apply methods, approaches, and insights from different disciplines (particularly in their respective areas of concentration) and interdisciplinary perspectives to the analysis of a given theme/issue and to the development of creative solutions to complex problems;
- Have developed skills for lifelong learning;
- Have acquired extensive knowledge of human societies and cultures, and will have developed an intercultural competence and awareness of global cultural diversity;
- Be able to assume an informed, critical, and responsible position as citizens of our increasingly interconnected world.

TEACHING LICENSURE

Students majoring in Interdisciplinary Studies (with a liberal arts area of study) may opt to pursue initial teacher licensure as an early childhood teacher, elementary education teacher, or middle school teacher. These students will complete an interdisciplinary studies major, an education major, and a licensure program in education.

LEADERSHIP MINOR PROGRAM

The Leadership Minor provides students with the opportunity to combine campus and community services with leadership studies in order to acquire the knowledge and skills necessary for assuming leadership positions in our increasingly interconnected world.

IDST 200 Introduction to Leadership ..................................... 3 cr
ENGL 306 Business Writing and Presentation .......................... 3 cr
OR BADM 366 Team Facilitation
IDST 395 Leadership Practicum: variable credits 1-3*
OR approved elective
CCAP 300 Service Leadership ............................................. 3 cr
OR Internship**
Electives: ............................................................................. 6 cr

* Students may take any combination of 1-3 credit practica to add to a total of 3 credits. Students may take no more than one practicum per semester.
** Note: Students may use an internship in another department in place of CCAP 300 Service Leadership provided they can demonstrate to the Leadership Minor Coordinator that their on-site work and educational and experiential objectives relate to themes in leadership studies.
Electives:
AMGT 235      Fundamentals of Arts & Culture Organizations
AMGT 245      Arts & Culture Marketing
AMGT 305      Writing in Arts & Culture
AMGT 330      Grants & Fundraising
AMGT 375      Arts & Culture Leadership
AMGT 445      Community Engagement
ATTR 340      Athletic Training Management
BADM 260      Management
BADM 361      Organizational Behavior
BADM 366      Team Facilitation (if not used as foundation)
BADM 384      Marketing Communications
BADM 390      Managing Workplace Diversity
BADM 405      Contemporary Business and Organizational Issues
BADM 490      Special Topics (as Applicable)
EDUC 375      Coaching Principles
ENGL 23I      Power of Words
ENGL 306      Business Writing and Presentation (if not used as foundation)
ENGL 396      Public Relations
HIST 240      Reacting to the Past
IDST 360      Topics in Culture and Society (as appropriate)
PHIL 322      Business Ethics
POSC 201      US Government & Public Policy
POSC 202      Comparative Government & Public Policy
POSC 304      Constitutional Law
POSC 313      American Political Institutions
POSC 315      Topics in Political Science
POSC 316      Topics in Public Policy
PSYC 230      Social Psychology
PSYC 335      Organizational Psychology
SOCI 403      Social Movements
SOWK 355      Community Organizing

NOTE: With the approval of the Leadership Minor Coordinator, students may obtain elective credit for taking other classes, provided they relate to leadership studies.

*NOTE: Students may use an internship in another department in place of CCAP 300

Service Leadership provided that they can demonstrate to the Leadership Minor Coordinator that their on-site work and educational and experiential objectives relate to themes in leadership studies.

CONCENTRATION IN SECONDARY SCHOOL MATHEMATICS EDUCATION
MATHEMATICS MINOR • TEACHING LICENSURE

MATHEMATICS MAJOR PROGRAM
The Department of Mathematics offers a four-year program leading to a Bachelor of Science in mathematics. The program fosters insights and solutions to a variety of problems through symbolic and numerical analysis. The practice of the discipline requires and engenders precise modes of thinking. The use of calculus, numerical methods, probability, statistics and logic is basic to the quantitative methods needed throughout society today. Students graduating with a degree in mathematics will be able to:

- Perform computations and procedures from a wide range of the various branches of mathematics;
- Demonstrate mathematical growth by acquiring a solid grasp of key concepts and themes;
- Develop fluency in reading and constructing mathematical proofs;
- Apply mathematical ideas and problem-solving to real-life situations in the various disciplines.

TEACHING LICENSURE

Students majoring in mathematics may choose to pursue initial teacher licensure as an early childhood teacher or elementary teacher. Also, mathematics majors may pursue initial licensure as a teacher of mathematics for the middle school or secondary levels. Students seeking any of these licenses must complete a mathematics major and a licensure program in education.
Modern Languages
(413) 662-5378 • http://www.mcla.edu/span • Chairperson: Rita Nnodim, Ph.D • Email: R.Nnodim@mcla.edu

PROGRAM AVAILABLE
SPANISH MINOR

SPANISH MINOR PROGRAM
The Spanish Minor program helps build proficiency and currency in spoken Spanish and develops cultural awareness, so students can interact with Spanish speakers in an accurate and successful manner in the workplace, while travelling, or in other social contexts. If students are working towards a career in business, teaching, social work, journalism, or in the medical field, or if they are pursuing an interdisciplinary program of studies, a minor in Spanish will be an invaluable asset for their career placement after college.

SPANISH MINOR REQUIREMENTS
SPAN 101-102 Elementary Spanish I & II .................................................. 6 cr *
SPAN 201-202 Intermediate Spanish I & II ......................................... 6 cr *
SPAN 300 Spanish Conversation ......................................................... 3 cr
SPAN 301 Advanced Spanish Grammar & Composition ........ 3 cr
Any two 300-level or above Spanish electives............................... 6 cr

Total Spanish Minor Requirements ...........................................18-24 cr

* Student placement in 100/200 levels based on prior coursework and experience. Students with prior experience in Spanish may choose the CLEP option for credit or may waive the appropriate number of credits.

BACHELOR OF ARTS IN PERFORMING ARTS • CONCENTRATION IN MUSIC
CONCENTRATION IN THEATRE • DANCE MINOR • MUSIC MINOR
MUSIC PRODUCTION MINOR • THEATRE MINOR • TEACHING LICENSURE

FINE AND PERFORMING ARTS MAJOR PROGRAM
The Department of Fine and Performing Arts offers a four-year program leading to a Bachelor of Arts in Performing Arts. The program provides students with a general introduction to the arts through a set of foundation courses. Students choose concentrations in music and or theatre. Options to minor in dance, music production or theatre, allow students to design a program uniquely tailored to their own interests and future goals. Located in one of the country’s premier arts and cultural meccas MCLA performing arts students leverage a dynamic range of coursework and practical application with unparalleled access to the Berkshire’s world-class performing arts institutions to become well-rounded graduates equipped with the knowledge and skills necessary to transition to careers in the theatre or music professions. Students graduating with a degree in Performing Arts will be able to:

• Demonstrate a broad-based understanding of the studio and historical/theoretical aspects of the performing arts;
• Demonstrate expertise in a chosen concentration of Music or Theatre;
• Demonstrate practical experience in public performance or exhibition in the arts;
• Demonstrate an understanding of the current arts ecology and their place in it.

DEPARTMENT POLICY REGARDING DOUBLE MAJORS/CONCENTRATIONS/MINOR PROGRAMS

Students may not minor in the same discipline as their major or concentration, but they may minor outside their concentration area. For example: PA/Music concentration majors may not also minor in Music, but could minor in Theatre, Arts Management, Music, Dance, Music Production or other disciplines.

TEACHING LICENSURE

Students majoring in fine and performing arts may opt to pursue initial teacher licensure as an early childhood teacher or elementary teacher. Students seeking any of these licenses must complete a fine and performing arts major, education major and a licensure program in education.
Philosophy

PROGRAMS AVAILABLE
BACHELOR OF ARTS IN PHILOSOPHY • CONCENTRATION IN LAW, ETHICS, AND SOCIETY
PHILOSOPHY MINOR • TEACHER LICENSURE

PHILOSOPHY MAJOR PROGRAM
The Department of Philosophy/Modern Language/Interdisciplinary Studies offers a four-year program leading to a Bachelor of Arts in Philosophy. Through reading, discussing and writing about traditional and contemporary philosophical texts and issues, the program challenges students to bring a rigorous critical and constructive attitude to every aspect of their lives. These critical skills and habits complement any career. Students graduating with a degree in philosophy will be able and disposed to:

- Reflect on their own most basic assumptions;
- Consider a variety of perspectives on a topic;
- Become an active member of a community of learners;
- Write in a literate, clear and interesting manner;
- Read actively and fruitfully various sorts of philosophical texts;
- Understand and apply the formal structures of sound reasoning and good argumentation;
- Engage in respectful and productive conversation and collaborative thinking.

Four Philosophy electives above the 200 level, planned with department advisor ...................................... 12 cr

Students majoring in Philosophy must publish at least two articles in the philosophical review, Thesis XII, and give at least one presentation at the annual philosophy student mini-conference. Course substitutions by departmental permission.

Total Philosophy Major Requirements .............................................. 30 cr
CONCENTRATION IN LAW, ETHICS, AND SOCIETY

Requires students to complete the philosophy major foundation courses, plus at least seven additional courses in philosophy. To graduate in the concentration, students must complete the following requirements:

LAW, ETHICS, AND SOCIETY CONCENTRATION REQUIREMENTS

Philosophy Major Foundation Courses ........................................... 18 cr
PHIL 400  Contemporary Legal Philosophy ................................. 3 cr

Two applied ethics courses (choose from): ................................. 6 cr
PHIL 322     Business Ethics
PHIL 325     Environmental Ethics
PHIL 485     Biomedical Ethics
PHIL 485     Information Ethics

One social and political philosophy course (choose from) .......... 3 cr
PHIL 360     Social and Political Philosophy
PHIL 385     Special Topics (when appropriate)
               OR an approved equivalent

Two Philosophy electives above 200 level
in consultation with advisor ...................................................... 6 cr

Course substitutions by department approval only.

Total Law, Ethics, and Society Concentration Requirements ...... 36 cr

Students pursuing the concentration must publish at least two articles in the departmental philosophical review, Thesis XII, and produce a senior capstone project as the basis for a presentation at the annual philosophy student mini-conference.
PHILOSOPHY MINOR PROGRAM

The philosophy minor will enable students to gain knowledge of main philosophical issues that may be fruitfully combined with subject areas in other departments, including their major program.

PHILOSOPHY MINOR REQUIREMENTS

PHIL 100  A First Course in Philosophy ................................... 3 cr
PHIL 200  Logic & Critical Reasoning ...................................... 3 cr
PHIL 300  Epistemology & Metaphysics ..................................... 3 cr
PHIL 350  Contemporary Moral Issues ...................................... 3 cr

The remaining necessary six credit hours consist of electives taken from the philosophy department curriculum.

The selection should depend on the major of the student and the student’s main interests. ................................................. 6 cr

Total Philosophy Minor Requirements .................................... 18 cr

TEACHER LICENSURE

Students majoring in philosophy may choose to pursue initial teacher licensure as an early childhood teacher or elementary teacher. These students will complete the philosophy major, education major and a licensure program in education.
Physical Education

(413) 662-5302 • www.mcla.edu/phed • Coordinator: Peter Hoyt, Ph.D. • Email: Peter.Hoyt@mcla.edu

The charge of a liberal arts education includes opportunities for intellectual, physical and spiritual development. The physical education program is housed within the Department of Biology. It is designed to encourage physical well-being and provides opportunities for leadership and collaboration.

The program courses offer students the opportunity to experience various forms of lifetime physical and recreation activities. These activities emphasize one or more of the different components of physical fitness: cardiovascular endurance, muscle strength, muscle endurance, flexibility, coordination, skill acquisition and weight loss. These serve as a foundation for a healthy, physically active lifestyle and inform effective choices concerning the value and place of lifetime physical activity.

SPORT COACHING PROGRAMS

The Physical Education program offers courses that support the minor program in sport coaching. This is an integrative program that includes coursework from the Department of Education and the Physical Education program. Please refer to the Education section of the catalog for more information regarding these programs.

PROGRAMS AVAILABLE

BACHELOR OF ARTS IN PHYSICS • BACHELOR OF SCIENCE IN PHYSICS
PHYSICS MINOR • TEACHING LICENSURE

PHYSICS MAJOR PROGRAM

The Department of Physics offers a four-year program leading to a Bachelor of Arts or Science in physics. Students study basic physical laws of nature, apply these laws in the laboratory, and explore practical applications found in society. Opportunities are available for advanced study in electronics, optics, solid state physics, computer applications, and elementary particle physics. Upon graduation, students are prepared to enter graduate school in physics or related scientific and engineering fields or to enter directly into the scientific or technological community. An undergraduate degree in physics is also an excellent foundation for graduate work in a host of other fields.

Students graduating with a degree in physics will be able to:

• Understand the basic principles in the various fields of physics.
• Make connections between various fields of physics.
• Solve problems using math and physical reasoning.
• Use modern computational methods to analyze and present data.
• Design and conduct experiments to evaluate ideas and verify theory.
• Evaluate the validity of experimental evidence.
• Effectively communicate information gained by written and oral means.

PHYSICS MAJOR REQUIREMENTS

The physics program requires students to complete particular courses to meet their core curriculum requirements and to satisfy prerequisites for physics courses or to provide evidence of competency in these areas.

TEACHING LICENSURE

Students majoring in physics may opt to pursue initial teacher licensure as an early childhood teacher or elementary teacher. Also, physics majors may pursue initial licensure as a teacher of physics for the middle school or secondary levels. Students seeking any of these licenses must complete a physics major, and a licensure program in education.

MCLA-UMASS AMHERST COLLEGE OF ENGINEERING ARTICULATION AGREEMENT

MCLA and the UMass, Amherst College of Engineering offer a dual degree program (3+2 engineering program). Under this program, qualified MCLA physics students completing their junior year will be accepted into the UMass College of Engineering. After completion of an additional two years of course work at UMass, students will receive two degrees (a B.A. in physics from MCLA and a B.S. in mechanical or civil engineering from UMass). For more information about this program contact the Department of Physics.

POLITICAL SCIENCE AND PUBLIC POLICY MAJOR PROGRAM
The Department of History, Political Science and Public Policy offers a four-year program leading to a Bachelor of Arts in political science and public policy, a unique interdisciplinary major where students combine classroom learning with field experiences and interactions with political and public policy practitioners. Majors will develop knowledge of U.S. and comparative governments, international relations, politics and the policy process, as well as develop liberal arts and vocational skills to prepare for graduate school and careers in public administration, law, business, political and public policy research, and organizational management. Students graduating with a degree in political science and public policy will:

- Demonstrate a comprehensive understanding in each of the following areas of political science: American politics, comparative politics, international relations, public policy, and research methods;
- Demonstrate proficiency in identifying, locating, and evaluating scholarly political science resources and literature and in using them responsibly to formulate effective arguments;
- Demonstrate the capacity to conduct original research using one or more methodologies in political science (i.e., quantitative, qualitative, historical institutional, etc.);
- Demonstrate competence in presenting research and analysis via written and oral communication;
- Demonstrate the application of skills and knowledge from the Political Science and Public Policy program in program-relevant internships.

PSYCHOLOGY MAJOR PROGRAM

The Department of Psychology offers a four-year program leading to a Bachelor of Arts in psychology. Students study principles of human growth and development and the processes of learning, cognition and emotion. Particular attention is given to knowledge related to personality development, maladaptive behavior, social diversity and group interactions, and the biological bases of behavior. The major provides the foundation for careers in human services and counseling, in business and industry, and in working with children, adolescents and adults in schools or clinical settings. The major program also prepares students for graduate study in all areas of psychology, social work, business, education, and other related professions.

Students graduating with a degree in psychology will be able to:

• Demonstrate knowledge of the following areas of psychology: Developmental, abnormal, social, and research and statistical methodology;
• Demonstrate competence in helping design empirical research;
• Demonstrate competence in using a statistical package to analyze data and to present those results in APA manuscript style;
• Communicate proficiently, both orally and in writing.

TEACHER LICENSURE

Students majoring in psychology may opt to pursue initial teacher licensure as an early childhood teacher or elementary teacher. These students will complete the psychology major, education major, and a licensure program in education.

SEMINARS, RESEARCH AND TOPICS COURSES, SENIOR THESIS AND INTERNSHIPS

Seminars offered at the 200, 300 and 400 levels allow students interested in advanced study or in pursuing graduate work in psychology or related fields to identify aspects of contemporary psychology of sufficient personal interest to support directed or independent scholarly work. Topic courses are offered to address special areas of psychology not included in the general curriculum. Students discovering such interests are encouraged to pursue them by enrolling in PSYC 397 Research Seminar, PSYC 391 Research Assistant, and PSYC 496 Research in Psychology and/or PSYC 500 Independent Study in Psychology. During the senior year, and with the approval of two faculty members, a student may then register for PSYC 550 Senior Thesis. Students are also encouraged to seek out internship in a wide variety of mental health and social services placements during their junior or senior year.

PROGRAMS AVAILABLE
BACHELOR OF ARTS IN SOCIOLOGY • ANTHROPOLOGY MINOR
CHILD AND FAMILY STUDIES MINOR • CRIMINAL JUSTICE MINOR • SOCIAL WORK MINOR
SOCIOLOGY MINOR • TEACHING LICENSURE

SOCIOLOGY, ANTHROPOLOGY, SOCIAL WORK MAJOR PROGRAM

The Department of Sociology, Anthropology, and Social Work offers a four-year program leading to a Bachelor’s Degree in Sociology. The program emphasizes scientific and humanistic methods of inquiry to understand the dynamics of power, poverty, inequality, criminality, childhood and families, health, aging, refugee displacement, cultures of resistance, and social change. Students are encouraged to integrate formal instruction with supervised activities outside the classroom such as internships in social service agencies, service learning, and attendance at professional conferences. Our interdisciplinary program is guided by shared principles that promote human rights, social justice, civil responsibility, and respect for diversities to prepare students for global citizenship in the 21st century.

The major is built upon six foundational courses and one upper level elective that apply a critical perspective for the development of a sociological imagination. Advanced courses extend foundational knowledge and allow students to explore interests in Anthropology, Social Work, and specialized areas within the field of Sociology. Students have options of pursuing minors in Anthropology, Child and Family Studies, Criminal Justice, Health, Aging and Society, and Social Work with course requirements specific to these fields. The program prepares students for careers in counseling, child and youth services, corrections, rehabilitation, public health, community organizing, and social justice research and advocacy. Many students continue their studies in Master’s and Ph.D. programs. A common graduate degree pursued is the Master’s of Social Work (MSW).

Students graduating with a major in sociology will:

- Think critically and be able to evaluate, synthesize, and analyze social science research design and apply this knowledge in original research projects;
- Understand the sociocultural perspective, demonstrate cross-cultural awareness, and identify forms of social inequality and stratification;
- Link academic frameworks to experiential learning such as internships, community based learning, field trips, and travel courses;
- Be prepared for careers and/ or entry into related graduate programs.
SOCIOLOGY MAJOR REQUIREMENTS

ANTH 130  Intro to Sociocultural Anthropology ....................... 3 cr
   OR ANTH 140 Peoples of the World
MATH 232   Introduction to Statistics* ...................................... 3 cr
* MATH 232   Introduction to Statistics credits count in the core requirements.
One SOCI elective which must be a 300 level or above .................. 3 cr

ANTH 395    Special Topics in Anthropology  
CCSS 268    Culture and the Body  
SOWK 380    Women and Health

Note: Students may elect to do an ANTH Independent Study, Research Assistantship, Teaching Assistantship or Internship as one of the Anthropology Minor Electives

**Total Anthropology Minor Requirements** ...........................................18 cr

---

**CHILD AND FAMILY STUDIES MINOR PROGRAM**

The child and family studies minor focuses on the development of children, the forms and functions of families, and the role of both in society at large. It offers students who anticipate working with children and families after graduation, as well as those who plan further study in the field, a solid foundation in these areas. (A Sociology major completing the child and family studies minor may apply only SOCI 210 Families to both programs)

SOCIAL WORK MINOR PROGRAM

The Social Work minor provides students with a sound introduction to the history of the field as well as to the major approaches and skills used by social workers. The minor consists of eighteen credit hours of which three credits are for field work. (A Sociology major completing the Social Work minor may apply only SOCI 100, Introduction to Sociology, to both programs.)

TEACHING LICENSURE

Students majoring in sociology may opt to pursue initial teacher licensure as an early childhood teacher or elementary teacher. These students will complete the sociology major, education major, and a licensure program in education.

PRACTITIONER SERIES COURSES

The social work and criminal justice practitioner series utilizes the rich experience of leading area professionals to present courses in specialty areas not covered in the general curriculum. Practitioners provide a mix of theory and practical wisdom developed over years of experience. These are evident as they teach courses in their areas of specialization (e.g., child welfare, mental health, corrections).

Course Descriptions

ARTS MANAGEMENT (AMGT)

AMGT 130        Introduction to Arts Management  3  cr
Introduces the historical development of arts management through a survey of patronage, artist/manager, nonprofit and commercial management systems. Lectures and readings will concentrate on the major areas of interest for marketing and fiscal management of individual and collective artists. Prerequisite: None

AMGT 235        Fundamentals of Arts and Culture Organizations  3  cr
Explores functional elements of arts and culture organizations with emphasis on strategic planning and organizations' fit in the arts ecosystem. An in-depth study of arts management focusing on topics including planning, organizational identity, environmental analysis, strategy development, marketing, human resources, financial planning, fundraising and control systems. Focus will be on the strategic management process and organizational innovation in the context of the contemporary arts environment. Course attributes: LDRS. Prerequisite: None

AMGT 245        Arts and Culture Marketing  3  cr
Examines the fundamentals of marketing theory and its application in arts and culture management. Topics include marketing mix; situational analysis; segmentation, branding; the 4 P's, publicity; Internet, social media, and database marketing; and marketing plan implementation and control. This course will examine theory and then directly apply concepts in the development of personal branding tools and in the generation of comprehensive marketing for a local arts or culture organization. Prerequisite: AMGT 130 or AMGT 235

AMGT 255        Financial Management in Arts and Culture  3  cr
Explores and examines the major elements of financial accounting in a typical arts or culture organization. With a focus on non-profit finance, students will learn to perform basic accounting tasks, prepare and analyze financial statements, implement an effective financial control system, use financial information as part of organizational decision making, develop a mission-driven budget, and understand professional accounting standards. Prerequisite: AMGT 130 or AMGT 235

AMGT 305        Writing for Arts and Culture  3  cr
Prepares students for writing in the arts and culture for a variety of contexts and audiences. The class will be run in a seminar format where students experience and engage in writing, analyzing, and drafting processes exploring a range of methods of communicating effectively and disseminating information about the arts and about their role in the arts. Students will develop a portfolio of writing (philosophy statement, bio, resume, cover letter, press release, blog entries, reviews, interviews, etc.) Prerequisite: AMGT 130 or AMGT 235

AMGT 330        Grants & Fund Raising  3  cr
Introduces the techniques in grant research and technical and contextual writing skills for grants in the arts. Examines government and private sources of art funding and fund raising techniques for arts and culture organizations. Prerequisite: AMGT 130 or AMGT 235

AMGT 335        Museum Studies  3  cr
Explores the operation of the art museum as a means to introduce the student to various aspects of the museum profession. Field trips to area museums and experience with the research and mounting of a didactic display highlight the study. Prerequisite: AMGT 130 or ARTH 117 or AMGT 235

AMGT 340        Performing Arts Management  3  cr
Examines issues particular to the management of performance artists. Focuses on contracts, legal issues, union representation, artistic freedom, promotion and marketing. Emphasis will be placed on problem-solving and negotiation with the individual artist. Prerequisite: AMGT 130
AMGT 345 Community Arts and Education  3 cr
Explores the work of artist educators in and out-of-school contexts, develops skills to identify learning objectives for their work, documents educational work, and increases the potency of marketing and descriptive material. Prerequisite: AMGT 130 or AMGT 235

AMGT 355 Artist Entrepreneurship  3 cr
Introduces the skills and techniques specific to individual fine arts businesses with an emphasis on applied work, peer critique and the development and/or refinement of a comprehensive portfolio of fine arts business tools. Topics to include strategic planning, marketing, financial record keeping, budgeting, taxes, time management, grant writing, legal issues, business structure and integrated technology use. Prerequisite: AMGT 130 or AMGT 235

AMGT 365 Arts and Culture Research  3 cr
Investigates the role of research in advancing arts and culture. Students will learn how to read and make sense of research studies in arts and culture. Students engage in research activities moving from designing a research question and conducting a literature review to designing instruments to collect data. Students explore strategies for analyzing data and consider implications for promising practices in the field. Students participate in research on a community-based project. Prerequisite: AMGT 130 or AMGT 235

AMGT 375 Arts and Culture Leadership  3 cr
Studies the theories of human motivation and leadership and adaptation of these theories to programs in arts and culture organizations. Students will probe concepts of authority and delegation and analyze leadership styles. Students will also explore concepts of and develop skills in managing effective work teams, time management, hiring and supervision, and board relations. Prerequisite: AMGT 130 or AMGT 235

AMGT 385 Legal Issues in Arts and Culture  3 cr
Introduces students to the basic legal issues encountered in arts and culture management. Students will cover the concepts of intellectual property, contracts and business structure. Current legal issues facing the industry will be addressed with a focus on the impacts of the digital age. Prerequisite: AMGT 130 or AMGT 235

AMGT 430 Topics in Arts Management  3 cr
Studies in depth a specific aspect of arts management designed to provide advanced work in arts management analysis, communication, legal issues and marketing. Primarily for arts management students in the junior and senior year. Content identified by subtitle. Prerequisite: AMGT 130

AMGT 435 Advanced Museum Studies  3 cr
An advanced level of museum study which includes management and exhibition. Prerequisite: AMGT 335

AMGT 440 Advanced Performing Arts Management  3 cr
Focuses on practical and applied experience in performing arts management. Students will examine presenting from all angles including curatorial methods and current trends in performing arts. Course uses practical and real life examples of organizing an actual festival including marketing, budgeting, production, curating and audience development. Prerequisite: AMGT 340

AMGT 445 Community Engagement in Arts & Culture  3 cr
Explores intersections between creative process, social activism and cross-sector work in community contexts. Students consider how artists, arts and culture managers, and community leaders work to catalyze communities through engagement in the arts and culture. Students investigate examples of projects and organizations that have successfully used arts and culture to address issues by sparking successful community dialogue. Prerequisite: AMGT 130 or AMGT 235

AMGT 450 Career and Portfolio Workshop  1 cr
Provides senior students majoring in Arts Management with an opportunity and framework to reflect on their past work in the major and the wider liberal arts as well as look forward to opportunities and challenges after graduation. Completion of a
personal strategic plan will be an essential component. Students will work with the instructor, career service professionals, and alumni to understand career and graduate school possibilities and prepare strategies and tools for success. Prerequisite: Arts management senior major

AMGT 500  Supervised Independent Study  3  cr
Open to juniors and seniors who wish to read in a specific area or pursue a project or topic in depth under the direction of a faculty member. Frequent conferences with the advisor are required. Prerequisite: Junior/senior status and department approval

AMGT 540  Internship in Arts & Culture  1 to 15 cr
Provides opportunities in a variety of arts and culture organizations to gain practical experience and develop skills in applying arts and culture theories in management, marketing, finance, development, community engagement, education and program administration. Includes accompanying classroom session to integrate field and classroom learning. Enrollment requires individual application and permission of the department. Prerequisite: Junior/senior status and department approval

ANTHROPOLOGY

ANTH I30  Introduction to Sociocultural Anthropology  3  cr
Introduces students to the basic concepts, theories and methodologies of sociocultural anthropology. Creates an awareness of the wide spectrum of cultural variation throughout the world. Demonstrates that through the study of anthropology, we may not only gain an understanding of “exotic” cultures but also of our own sociocultural experience. Course attributes: CRCU, CSS, SOCJ. Prerequisite: None

ANTH I40  Peoples of the World  3  cr
Examines the way of life of selected societies in various parts of the world. Explores patterns in human cultures, as well as the uniqueness of particular societies. Considers whether or not it is possible to truly understand a culture other than one’s own. Course attributes: C&FS, CRCU, CSS, SOCJ. Prerequisite: None

ANTH 305  Anthropology of Refugees and Displacement  3  cr
Explores the refugee experience in socio-cultural perspective. Considers the role of nationalism, capitalism, ethnicity, race, violence, trauma, and human rights in refugee processes. Examines and critiques the four components of the refugee journey: displacement, the refugee camp, asylum processes, and the durable solutions. Prerequisite: ANTH I30 or ANTH I40 or instructor approval

ANTH 310  Global Health  3  cr
Explores global health issues and crises such as HIV/AIDS, malaria, polio, and food insecurity in social and cultural perspective. Critically examines the colonial history, socio-medical impacts, and cultural contexts of global health interventions. Investigates a current event in global health. Prerequisite: ANTH I30 or ANTH I40 or SOCI 100

ANTH 315  Community Health  3  cr
Examines the impact of social inequality, culture, violence, environment, and gender on health outcomes. Investigates the socio-cultural components of major local health issues, including food insecurity, metabolic disease, mental health, and addiction. Assesses the effectiveness of public health interventions both locally and globally. Introduces anthropological approaches to developing public health interventions. Prerequisite: ANTH I30 or ANTH I40 or SOCI 100

ANTH 320  Peoples of the Middle East  3  cr
Exposes students to a variety of lifestyles in the Middle East through an examination of ecology, gender, kinship, stratification, religion and ethnicity. Considers the cultural perspectives of the powerful and the weak under colonialism and in post-colonial situations. Addresses “newsworthy” issues such as oil wealth and labor migration, “terrorism,” fundamentalism and nationalism. Course attributes: C&FS, CRCU, WMST. Prerequisite: ANTH I30 or ANTH I40 or instructor approval
ANTH 321  Peoples of the Caribbean  3 cr
Explores diverse aspects of life and culture in the Caribbean focusing on the following themes: colonial history of the Caribbean and the rise of plantation culture, gender and family life; the economic situation; industry and commerce; religion and life cycles; education; health care and access to medical services; democratization and political activism, such as the rise of Rastafarianism, ethnic identity and conflict. Course attributes: C&FS, CRCU. Prerequisite: ANTH I30 or ANTH I40

ANTH 322  Peoples of China  3 cr
Compares patterns of life in pre-revolutionary China with those that have emerged since the Revolution of 1949. Examines areas targeted for change by socialist leaders such as patriarchal attitudes and structures, distribution of wealth and availability of healthcare. Evaluates trends toward rapid industrialization and “democratization.” Course attributes: C&FS, CRCU. Prerequisite: ANTH I30 or ANTH I40 or instructor approval

ANTH 323  Peoples of Africa  3 cr
Focuses on the ethnic, cultural, religious, economic and political diversity in select regions of Africa, as representative of the kinds of differences found throughout the continent. Explores such diversity through a historical framework, addressing the history of colonial penetration, the impact it had in various parts of Africa and in the African diaspora, and the complex interplay between indigenous cultures and their values with the exigencies of the modern nation state. Course attributes: C&FS, CRCU. Prerequisite: ANTH I30 or ANTH I40

ANTH 324  Native American Peoples  3 cr
Explores indigenous cultures of North America. Students will consider technology and social systems, contact between indigenous and European cultures, migration issues, pre-Columbian world view and lifeways. Contemporary issues including sovereignty, land claims, social issues and cultural autonomy will be examined. Course attributes: C&FS, CRCU. Prerequisite: ANTH I30 or ANTH I40

ANTH 330  Children and Culture  3 cr
Focuses on a comparative analysis of children’s lives in the U.S. and other cultures. Examines the interplay of culture and biology in the socialization process. Children will be viewed at work and at play. Explores significant social problems affecting children. Course attributes: C&FS, WMST. Prerequisite: ANTH I30 or ANTH I40

ANTH 345  Culture, Health and Illness  3 cr
Compares medical beliefs and practices in Western and non-Western societies. Examines cultural beliefs, social behaviors, and economic and environmental factors that influence susceptibility to disease. Addresses issues concerning patient-doctor communication and psychosocial management of illness. Prerequisite: ANTH I30 or ANTH I40

ANTH 346  Disability and Culture  3 cr
Examines ways cultural meanings of disability and experiences of people with disabilities vary across cultures and historical eras. Investigates impact of social institutions, such as education, family, government, media and medicine, on the lives of disabled. Explores disability as a site of cultural creativity, as evidenced by interactive strategies, performance arts, and life writing, as well as a site of oppression and exclusion. Compares global disability rights movements. Course attributes: SOCI. Prerequisite: ANTH I30 or ANTH I40 or SOCI I100

ANTH 355  Politics of Culture  3 cr
Explores nation-states as social and historical creations. Examines the forces and factors that produce national, ethnic, indigenous and popular culture. Investigates gendered, ethnic and religious dissent, and controversies concerning diverse cultural claims and transnational processes. Considers the role of popular culture in shaping representations of self and others. Examples are drawn from the U.S., Israel/Palestine, South Africa, Egypt, Tibet, and more. Course attributes: SOCI. Prerequisite: ANTH I30 or ANTH I40 or instructor approval

ANTH 355H  Honors: Politics of Culture  3 cr
Explores nation-states as social and historical creations. Examines the forces and factors that produce national, ethnic, indigenous and popular culture. Investigates gendered, ethnic and religious dissent, and controversies concerning diverse
cultural claims and transnational processes. Considers the role of popular culture in shaping representations of self and others. Examples are drawn from the U.S. Israel/Palestine, South Africa, Egypt, Tibet, and more. Course attributes: HONR, SOCJ. Prerequisite: ANTH 130 or ANTH 140 or instructor approval

ANTH 365 Gender Roles and Culture 3 cr
Examines the roles and statuses of women and men in Western and non-Western societies, treating gender as a social construct rather than a biological given. Considers theories about the bases of sexual inequality and the relationship between gender and other social hierarchies. Investigates how cultural notions of gender influence an individual’s religious, political, sexual and familial experiences. Course attributes: C&FS, SOCJ, WMST. Prerequisite: ANTH 130 or ANTH 140

ANTH 370 Culture, Power and Protest 3 cr
Compares the forms of resistance practiced by oppressed groups in a variety of societies. Considers the assumptions that have influenced researchers’ assessments of social action. Emphasizes that numerous cultural practices, ranging from religious rites to oratory to spirit possession, have political implications. Course attributes: SOCJ. Prerequisite: ANTH 130 or ANTH 140

ANTH 395 Special Topics in Anthropology 3 cr
A course or seminar for students who have taken a substantial number of anthropology courses. Such courses or seminars may explore any of a variety of topics concerning social anthropology, physical anthropology, archeology, applied anthropology or linguistics, or courses in theory and method. Prerequisite: ANTH 130 or ANTH 140 and additional prerequisites to be announced

ANTH 495 Advanced Special Topics in Anthropology 3 cr
Provides advanced anthropology students an opportunity to explore advanced topics, current issues, methods, and theories in the field of anthropology. Prerequisite: ANTH 130 or ANTH 140 and junior/senior status or instructor approval

ANTH 499 Teaching Assistant in Anthropology 3 cr
Supervised academic class presentation(s), assistance with study sessions and tutorials, attendance at all classes, final paper and other duties negotiated with course instructor. Must have completed a minimum of four (4) courses in the discipline, have a 3.0 overall GPA or better, and a B+ or better in the course. This course can be taken for either pass/fail or traditional letter grading. The course requires approval of the department prior to enrollment. Prerequisite: Junior/senior status

ANTH 500 Independent Study 1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth under the direction of an anthropologist. Requires written reports and frequent conferences with the advisor. Prerequisite: Junior/senior status, department approval

ANTH 501 Research Assistant 1 to 3 cr
Students will assist faculty member in conducting original quantitative and/or qualitative research projects. The responsibilities may include collecting archival, ethnographic, interview, or focus group data, working with data sets, or other research activities. This course is repeatable for a maximum of 6 credits. Prerequisite: SOCI 331, junior/senior status, instructor approval

ANTH 540 Anthropology Internship 3 to 15 cr
Placement of advanced students in public or private organizations which actively apply anthropology, archeology or ethnohistory as part of their work routine. Internships may be developed in such areas as interethnic services, cultural resource management, museum work, local history, etc. Internships are awarded from 3 to 15 credits per semester, depending on the extent of student involvement. Prerequisite: Junior/senior status, ANTH 130 or ANTH 140, six semester hours of related courses at 200 level or above, department approval
ART (ART)

ART 116 Introduction to Drawing 3 cr
Introduces art practices through the study and creation of drawings. Drawing is fundamental to the visual arts. Working from observation, a mix of methods of line, value, and form build skills of tone, visual proportion, scale, sketching, composition, concept and artistic meanings. Prerequisite: None

ART 118 Introduction to Design 3 cr
Introduces design through individual and collaborative design projects. Uses a variety of materials and processes, explores the elements and principles of design, project development, presentation skills and the role of the craft. Prerequisite: None

ART 125 Introduction to Sculpture 3 cr
Introduces a variety of sculptured methods including manipulation, addition and subtraction as well as principles of three-dimensional design. Prerequisite: None

ART 201 Studio: Art & Society 3 cr
Focuses on potential impacts of visual arts in both societal and personalized contexts through the introduction and understanding of basic drawing techniques, first-hand art experiences, research and writing. Students will be required to explore image-making, as well as writing, to express original ideas and to enhance critical thought, observation, and analysis of existing artwork, explaining and discussing the contexts in which an artwork was made and is viewed. Intended for non-art majors. Course attributes: CCA. Prerequisite: None

ART 204 Digital Media 3 cr
Introduces students to digital media and techniques with a particular emphasis on contemporary practical applications. Prerequisite: None

ART 212 Introduction to Painting 3 cr
This in-depth studio art laboratory uses painting from observation to investigate and refine the use of color. Projects and readings include painting media and their use, classic and contemporary palette organization, color mixing and color theory. Prerequisite: ART 116

ART 216 Intermediate Drawing 3 cr
Develops intermediate drawing projects by working from observation and imagination. Techniques focus on line, modeling and form using intensive sketching processes. Prerequisite: ART 116

ART 218 Intermediate Design 3 cr
Students integrate and extend processes and media that were introduced in the first semester, with a focus on how compositional development, conceptual and material process and independent inquiry form the foundation of the design process. Prerequisite: ART 118

ART 232 Intermediate Painting 3 cr
Continues the exploration of our visual world, with increased attention to painting materials, color and palette, composition and metaphor in painting. Prerequisite: ART 116, ART 212

ART 235 Introductory Studio (Technique) 3 cr
Study and practice important facets of studio art techniques and creative methods in a creative arts laboratory environment. The course includes exercises and art projects to prepare students as they begin to develop a professional portfolio of original artworks. Course topics vary by semester and may include: sculpture, mixed media, collage, assemblage, cartooning, landscape painting and other topics. Repeatable if different topic. Prerequisite: ART 116
ART 305        The Human Figure  3  cr
Draw and/or paint based on direct observation of the nude model. The human figure is a central force of symbolism in European and American fine art. As such students will interact with artistic anatomy traditions and innovations. Prerequisite: ART 116

ART 306        The Concrete Poem  3  cr
Combine words and images in experimental, interdisciplinary formats such as hypertext, photo collage, mural-graffiti, sculptural installation and word-based painting or drawing. After preliminary studies and exercises, students develop their own visual concrete poems. Prerequisite: ART 116

ART 315        Intermediate Art Lab  3  cr
Focus on the creation of a series of artworks around a common theme, technique or art medium. This is an intermediate studio art laboratory course. This course may be repeated. Prerequisite: ART II6, ART 212

ART 335        Intermediate Studio (Technique)  3  cr
Employs mid-level studio art techniques to create original artworks. Method and technique vary by semester and may include art forms such as cast painting, block printing, digital photography, book arts, sculpture or other specialty topics. Course may be repeated. Prerequisite: Any 100 or 200 level ART course

ART 412        Advanced Art Lab  3  cr
Advanced, experimental studio art laboratory. Course work includes analysis and creation of symbolic/metaphoric systems, conceptual methods and decision-making in aesthetics as related to individualized art projects designed by the student with frequent feedback from the instructor, peer groups and/or guest artists. This course may be repeated. Prerequisite: ART 315

ART 435        Advanced Studio (Technique)  3  cr
Employs advanced studio art techniques to create original artworks. Method and technique vary by semester and may include art forms such as portraiture, engraving, manipulated photography, book arts, sculpture, or other advanced specialty topics. Course may be repeated. Prerequisite: Any 200 or 300 level ART course

ART 480        Senior Art Project  3  cr
Develop a public exhibition of art created in the art studios. Under the supervision of FPA faculty, students will select work from their art portfolios, organize and present a professional display in an art gallery or other appropriate community venue. Prerequisite: Senior Art Major

ART 510        Studio Art Teaching Assistantship  3  cr
Learn the fundamentals of art lab management and studio art teaching. Course content covers federal and state regulations regarding art media and their use, various philosophies of art education, and practical applications in the college classroom. With faculty guidance, advanced students gain a preliminary teaching experience. Prerequisite: Instructor approval

ART HISTORY (ARTH)

ARTH I17        Introduction to Art History  3  cr
Introduces art, architecture, and sculpture from prehistory to the present. Focuses on the art of the West with additional discussion of non-Western cultures. Examines major works and artists within their historical, social, and political contexts while tracing principle art movements. Also explores materials and techniques of art making. Course may include field trips to local museums. Course attributes: CCA. Prerequisite: None

ARTH 217        Contemporary Art  3  cr
Introduces contemporary art. Presents major artists in cultural, historical, and political contexts. Topics may include the changing nature of the avant-garde, the roles of the critic and the economic market, new forms of art making, and the expanding conceptions of creative self-expression, particularly with regards to gender identity and race. Course may include
field trips to MASS MoCA and other local sites of contemporary art. Course attributes: CCA. Prerequisite: None

ARTH 311       Topics in Art History  3  cr
Provides a focused investigation of a particular art historical period(s) or theme(s). Introduces art historical research and bibliography. Topics vary by section. May be repeated for credit with a different topic. Prerequisite: ARTH II7 or ARTH 217

ARTH 413       Seminar in Art History  3  cr
Provides a critical and sustained investigation of a particular topic. Topics vary by section and rotate among art historical fields. Students in this advanced seminar read and discuss relevant texts and are exposed to varying art historical viewpoints and theories. Students conduct independent research, make oral presentations, and write research papers. May be repeated for credit with a different topic. Prerequisite: ARTH 311

ARTH 500       Independent Study in Art History  1 to 3 cr
Develop an art historical research topic to study critically and in depth in conjunction with the faculty advisor. Prerequisite: Instructor approval

ATHLETIC TRAINING

ATTR 100       Observation in Athletic Training I  1  cr
Introduces the field of athletic training. Includes completion of hands-on proficiency skills related to the field of athletic training, outlined by the NATA Education Council. This course will be graded on a pass/fail basis. Coreq: ATTR 220
Prerequisite: None

ATTR 101       Observation in Athletic Training II  1  cr
Explores further the introduction to the field of athletic training. Includes completion of hands-on proficiency skills related to the field of athletic training, outlined by the NATA Education Council. This course will be graded on a pass/fail basis. Coreq: ATTR 221
Prerequisite: None

ATTR 200       Practicum in Athletic Training I  1  cr
Builds on course content acquired by the sophomore year of the athletic training program. Provides clinical experience in the field of athletic training. A presentation, practice and outcomes testing of clinical proficiency skills outlined by the NATA Education Council is required. Experience will come from various sports and settings. This course will be graded on a pass/fail basis. Prerequisite: ATTR major Coreq: ATTR 321

ATTR 201       Practicum in Athletic Training II  1  cr
Expands upon course content acquired by the sophomore year of the athletic training program. Provides clinical experience in the field of athletic training. A presentation, practice and outcomes testing of clinical proficiency skills outlined by the NATA Education Council is required. Experience will come from various sports and settings. This course will be graded on a pass/fail basis. Prerequisite: ATTR major Coreq: ATTR 322

ATTR 220       Introduction to Athletic Training I  3  cr
Introduces students to the field of athletic training and sports medicine. Explores fundamental principles of athletic training, which includes terminology, physical conditioning and injury prevention. Coreq: ATTR 100
Prerequisite: None

ATTR 221       Introduction to Athletic Training II  3  cr
Explores further the introduction to the field of athletic training and sports medicine. Emergency procedures and health care administration in athletic training will be emphasized. Prerequisite: ATTR 220 Coreq: ATTR 101
ATTR 300  Practicum in Athletic Training III  1  cr
Builds on course content acquired by the junior year of the athletic training program. Provides clinical experience in the field of athletic training. A presentation, practice and outcomes testing of clinical proficiency skills outlined by the NATA Education Council is required. Experience will come from various sports and settings. This course will be graded on a pass/fail basis. Prerequisite: ATTR major  Coreq: ATTR 337

ATTR 301  Practicum in Athletic Training IV  1  cr
Expands upon course content acquired by the junior year of the athletic training program. Provides clinical experience in the field of athletic training. A presentation, practice and outcomes testing of clinical proficiency skills outlined by the NATA Education Council is required. Experience will come from various sports and settings. This course will be graded on a pass/fail basis. Prerequisite: ATTR major  Coreq: ATTR 338

ATTR 321  Lower Body Assessment  4  cr
Explores all aspects of injury evaluation. Injuries to the lower extremity and lumbar spine will be stressed through lecture and lab. Required laboratory. Prerequisite: ATTR major

ATTR 322  Upper Body Assessment  4  cr
Explores all aspects of injury evaluation. Injuries to the upper extremity, head and cervical spine will be stressed through lecture and lab. Required laboratory. Prerequisite: ATTR major

ATTR 337  Modalities in Athletic Training  4  cr
Explores neurophysiology and human physiology. Students will learn how these systems are affected when microfailure has occurred. Students will also learn how to use therapeutic modalities and develop specific protocols that will affect the recovery of the microfailure. Required laboratory. Prerequisite: ATTR major

ATTR 338  Therapeutic Exercise  3  cr
Studies the techniques and principles involved in rehabilitation of athletic injuries. Topics included are therapeutic and reconditioning exercise, weight training/conditioning, psychological and physiological considerations and proper program construction. Prerequisite: ATTR major

ATTR 340  Athletic Training Management  3  cr
Explores management issues related to the field of athletic training and sports. Topics include but are not limited to health care administration, professional development, ethics, budgeting, legal concerns, drug testing and blood-borne pathogens. This course also prepares the athletic training student for the NATA exam, employment and/or graduate school. Course attributes: LDRS. Prerequisite: Junior/senior status

ATTR 400  Practicum in Athletic Training V  1  cr
Builds on course content acquired by the senior year of the athletic training program. Provides clinical experience in the field of athletic training. A presentation, practice and outcomes testing of clinical proficiency skills outlined by the NATA Education Council is required. Experience will come from various sports and settings. This course will be graded on a pass/fail basis. Prerequisite: ATTR major  Coreq: ATTR 450

ATTR 401  Practicum in Athletic Training VI  1  cr
Expands upon course content acquired by the senior year of the athletic training program. Provides clinical experience in the field of athletic training. A presentation, practice and outcomes testing of clinical proficiency skills outlined by the NATA Education Council is required. Experience will come from various sports and settings. This course will be graded on a pass/fail basis. Prerequisite: ATTR 200, ATTR 201, ATTR 300, ATTR 301, ATTR 400

ATTR 450  General Medicine in Athletic Training  1  cr
Explores all aspects of non-orthopedic injuries and disorders of the physically active including history taking, evaluation and instrument use. Exposes the Athletic Training student to non-orthopedic injuries and disorders associated with the physically active. Prerequisite: BIOL 342, BIOL 343
BUSINESS ADMINISTRATION

BADM 100        Explorations in Business  3  cr
Introduces students to the basic functions of business and management through examination of contemporary issues in businesses and organizations. Topics include management of human and financial resources, production and marketing of goods and services, and legal and ethical issues in decision-making. Provides students with basic competencies in business communications and research methods, and illustrates both successful/unsuccessful decision-making. Course attributes: CSS. Prerequisite: Open to all except junior/senior Business Administration majors

BADM 110        Information Technology for Business  3  cr
Explores the application of technology to business communications and decision-making. Students will utilize word-processing, spreadsheets, databases, statistical analysis software, Internet tools, graphics and presentation software to find, retrieve, organize and present business information. Emphasizes the importance of technology (including ethics and etiquette) in facilitating efficient business communications. Prerequisite: None

BADM 201        Business Law I  3  cr
Develops an in-depth understanding of the American Law Institute's Second Restatement of Contracts and the Second Restatement of Agency and relevant provisions of the Uniform Commercial Code. Prerequisite: Sophomore status

BADM 206        Math Methods in Business and Economics  3  cr
Focuses on the application of common mathematical models and elementary functions to problems in the business world. The following topics are presented with emphasis on applications in business, economics, and finance: linear, polynomial, rational, exponential and logarithmic functions, along with differentiation, integration, and optimization. Other applicable topics include computations of simple and compound interest, and loans. Prerequisite: ECON 142, MATH 232

BADM 224        Financial Accounting  3  cr
Introduces basic principles and methods used to develop financial statements and throughout the accounting cycle. Introduces ethical issues in accounting and requires students to conduct financial analysis and translate raw data into useful information for decision making. Spreadsheet and word processing software are used in the analysis of financial information. Prerequisite: BADM 110

BADM 225        Managerial Accounting  3  cr
Introduces basic cost principles and methods used to determine, plan and control costs. The course focuses on developing and using relevant managerial accounting information to make business decisions. Spreadsheet and word-processing software are used in the analysis of managerial accounting information. Prerequisite: None

BADM 240        Issues in Event and Sport Management  3  cr
Provides students with an overview of the basic issues in managing events in business, cultural and tourist venues, and sport and fitness industries. Covers all aspects of event management, including feasibility studies, operational planning and marketing evaluation. Industries examined include professional, collegiate and amateur levels of sport organizations; cultural and tourism venues, as well as all business organizations planning conferences, trade shows, and other events. Prerequisite: None

BADM 260        Management  3  cr
Explores the historical development and concepts of modern management theory. Blends behavioral theories of management and social responsibility and presents applications in a variety of organizational settings. Examines the role of managers in today's organization and in society and studies the complex multicultural, global organization of today. Course attributes: LDRS. Prerequisite: Sophomore status

BADM 270        Marketing  3  cr
Examines the role of marketing in today's organizations and in society and studies the complex multicultural, global organization of today. Examines basic theory and terminology with emphasis on the major marketing components: product,
price, promotion and distribution. Uses multiple research sources, including the Internet, to explore the marketing practices of today’s organizations and learn real world applications of marketing theory. Prerequisite: Sophomore status

BADM 290  Sophomore Special Topics  3  cr
Introduces students to various topics of emerging importance in the fields of marketing, management, finance, accounting, and e-commerce. Examines current issues in one or more of these areas. Prerequisite: Sophomore status

BADM 300  Personal Investing  3  cr
Provides an introductory but comprehensive study of the major aspects of personal investing. Topics covered include investment goals and strategies, risk/return assessment, individual stock investing - fundamental and technical analysis, bonds, stock mutual funds (various types/objectives), global investing, money market mutual funds, the New York Stock Exchange/financial markets and institutions, accessing investment information and analysis on the Internet, online investing. No prior business courses are required or necessary. Prerequisite: Junior status

BADM 303  Business Law II  3  cr
Continues the study of business law focusing on sales transactions and their connection with the Uniform Commercial Code. Legal aspects of secured transactions, commercial paper, bailments and carriers are also studied. Prerequisite: BADM 201

BADM 310  Advanced Information Systems  3  cr
Provides an in-depth study of the business information technology application. Students will learn to use the advanced functions found in word processing, spreadsheet, and database applications found within the business environment. Prerequisite: BADM 110

BADM 320  Accounting Systems  3  cr
Studies how accounting information is recorded and summarized using double-entry recordkeeping, first manually and then using a commercial accounting software package. Students will be introduced to the design, operation and management of computerized accounting information systems, and will develop an understanding of how accounting systems serve the other management informational needs of a business. Prerequisite: BADM 224

BADM 321  Financial Reporting I  3  cr
Studies the measurement and disclosure issues in accounting for assets in accordance with generally accepted accounting principles (GAAP). Studies the theoretical, practical and ethical issues involving alternative GAAP. Students use general ledger software in the analysis of accounting information and preparation of financial statements. Prerequisite: BADM 320

BADM 322  Financial Reporting II  3  cr
Continues the study of measurement and disclosure issues in accounting for liabilities and equity in accordance with GAAP. Further studies the theoretical, practical, and ethical issues involving alternative GAAP, as well as the income statement and the statement of cash flows. Students use computer software in the analysis/presentation of financial reporting issues. Prerequisite: BADM 321

BADM 325  International Business  3  cr
Studies the manager’s perspective in the fields of international trade and investment, balance of payments, international financial markets and monetary systems, national trade policy and laws. The course also addresses cultural variables in business, and examines how each of a number of basic management activities must be dealt with differently in the international environment than in a purely domestic setting. Prerequisite: BADM 260, ECON 141

BADM 330  Cost Accounting  3  cr
Focuses on the development of cost information needed by managers to plan and control in manufacturing, merchandising, and service enterprises. Topics build on material introduced in managerial accounting and include: job and process costing, standard costing, cost allocations, inventory management, transfer pricing and performance measurement. Spreadsheet and general ledger software will be used in the analysis of cost accounting information. Prerequisite: BADM 225
BADM 335        Federal Taxation - Individuals  3  cr
Studies federal income tax laws for individuals, with a broad overview of Massachusetts income tax laws for individuals. Students use commercial tax preparation software to enhance their ability to interpret and apply income tax law as it applies to individuals. Prerequisite: BADM 224

BADM 340        Financial Management  3  cr
Studies the acquisition and administration of funds in today’s corporation. Topics include shareholder wealth maximization concepts, the globalization of financial markets, working capital, risk/return, alternative forms of short- and long-term funds, financial statements analysis, mergers and acquisitions. Prerequisite: BADM 224, ECON 141, junior status

BADM 342        Legal and Social Environment of Business  3  cr
Focuses on legal and social issues in the workplace including, but not limited to: diversity, inclusion interpersonal conflict communication issues, harassment, and job performance. Current events, the Constitution, statutes, adjudicated cases and ethical principles will be used to illustrate the history, philosophy, structure, processes, and controls of state and federal regulatory systems over economic, social and individual activities. Prerequisite: Junior status

BADM 345        Sport Finance and Economics  3  cr
Examines the theoretical and practical implications of economics and finance in sports. Basic theories in finance and economics are applied to managerial control of sport organizations. Includes financial analysis, feasibility studies, and economic impact studies of sport teams and venues. Examines microeconomic decisions made by sport consumers, players and managers, owners and venue governing bodies. Prerequisite: BADM 240, ECON 142

BADM 350        Global Business and Economic Issues  3  cr
Analyzes the current global business and economic issues facing businesses and organizations. Provides interactive participation of students and faculty from multiple campuses. Students utilize business and economic theory to analyze and address critical issues facing multi-national corporations. Topics include various global business and public policy issues. Students work on inter-campus project teams via the course website to produce multimedia analytical reports. Prerequisite: Junior status; completion of Tier II Self & Society domain

BADM 361        Organizational Behavior  3  cr
Explores the study of group behavior in various organizational settings through the study of organizational theories of structure, culture motivation, communication and group dynamics. Cases and/or group activities are used to illustrate the application of theory to actual organizational scenarios. Course attributes: LDRS. Prerequisite: Junior status

BADM 362        Human Resource Management  3  cr
Examines and analyzes personnel functions of staffing, developing, compensating and motivating. Specific techniques within each function are explored in detail. Emphasizes the legal environment in which the human resource manager operates. Prerequisite: BADM 260

BADM 363        Operations Management  3  cr
Examines managerial processes for effective operations in both goods-producing and service oriented organizations. Topics include operations strategy, process selections and design, capacity planning, facilities locations and design, forecasting, supply chain management, production scheduling, inventory control, quality assurance, just-in-time, and project management. The topics are integrated using a systems model of the operations of an organization. Excel is used extensively. Prerequisite: BADM 110, MATH 232, BADM 260

BADM 365        Labor and Labor Law  3  cr
Provides an understanding of labor laws and their evolution, unions and their operations, and the nature of the union-management relationship. Utilizes case decisions to illustrate the collective bargaining process. Course attributes: SOCJ. Prerequisite: Completion of Tier II Human Heritage

<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>BADM 366</td>
<td>Team Facilitation</td>
<td>3</td>
<td>Develops an understanding of the processes and techniques of team-building and the interpersonal skills needed to become an effective facilitator. Students will engage in self-analysis that identifies their personal skills/abilities and their areas of strength/weakness. Students will be assigned to teams and operate as both a member/facilitator during the semester. They will learn how to deal with dysfunctional team members while developing interpersonal skills, enabling them to identify problems and work toward solutions. Course attributes: LDRS. Prerequisite: Junior status</td>
</tr>
<tr>
<td>BADM 367</td>
<td>Small Business Entrepreneurship</td>
<td>3</td>
<td>Introduces students to various types of small businesses through discussion, debate, and demonstrations. Provides them with knowledge and skills necessary to prepare a viable business plan. Students will be expected to develop and complete a business plan. Prerequisite: Junior status</td>
</tr>
<tr>
<td>BADM 380</td>
<td>Strategic Marketing</td>
<td>3</td>
<td>Provides an understanding of how to manage the firm’s marketing program. Marketing communications, strategy, product policy and overall marketing effectiveness are explored. Appropriate application of the marketing mix is covered through practical business applications. Prerequisite: BADM 270</td>
</tr>
<tr>
<td>BADM 381</td>
<td>Consumer Behavior</td>
<td>3</td>
<td>Provides an overview of the internal and external influences affecting the buying decision. Sociological, psychological, and economic factors are emphasized. Analyzes consumer and business decision-making. Prerequisite: BADM 270</td>
</tr>
<tr>
<td>BADM 382</td>
<td>Marketing Research</td>
<td>3</td>
<td>Examines the uses and limitations of marketing research information in strategic decision-making. Follows the marketing research process from problem definition through statistical analysis of data. Prerequisite: BADM 270, ECON 316</td>
</tr>
<tr>
<td>BADM 384</td>
<td>Marketing Communications</td>
<td>3</td>
<td>Approaches the subject from an integrated marketing communications perspective. Examines advertising, publicity, sales promotions, personal selling and the use of the Internet. Positioning, creativity, media planning and overall marketing effectiveness are determinants of success that will help students visualize, create and communicate a complete project. Course attributes: LDRS. Prerequisite: BADM 270</td>
</tr>
<tr>
<td>BADM 385</td>
<td>Global Marketing</td>
<td>3</td>
<td>Examines the management of global marketing operations, emphasizing decision-making and policy formulation. Analyzes the unique social, legal and political considerations associated with marketing in different cultures. Prerequisite: BADM 270</td>
</tr>
<tr>
<td>BADM 386</td>
<td>Sport Marketing</td>
<td>3</td>
<td>Examines the socio/cultural and economic impact that sport marketing has on society, including race and gender issues. Also examines various promotional activities in sport marketing - media relations, publicity and public relations; image advertising; and sponsorships. Examines principles of organizing and promoting sport events and activities. Prerequisite: BADM 270</td>
</tr>
<tr>
<td>BADM 387</td>
<td>Service and Event Marketing</td>
<td>3</td>
<td>Provides students with an in-depth analysis of the marketing functions in the service industries. Explores marketing of goods and services at the wholesale and retail level, direct sales marketing, marketing of business and personal services, marketing of cultural, tourist, sporting and business events, non-profit marketing, such as the arts and social services, and the role of marketing on the Internet. Prerequisite: BADM 270</td>
</tr>
<tr>
<td>BADM 390</td>
<td>Managing Workplace Diversity</td>
<td>3</td>
<td>Examines the roles of women and minorities from the 1600s to the present day to gain an understanding of why and how those roles have evolved. Integrates the changes in social, political, and economic conditions and value systems as they affect the ability of women and minorities to effectively function in social and work environments. Course attributes: LDRS, SOCJ, WMST. Prerequisite: Junior status</td>
</tr>
</tbody>
</table>
BADM 395        Accounting for Entrepreneurs  3 cr
Explores the advantages and disadvantages of various organizational structures and tax issues as they relate to
trepreneurs. Students will be introduced to basic financial and managerial accounting concepts, taxation, funding
sources, budgeting, and general ledger software. Prerequisite: ENTR 210

BADM 405        Contemporary Business and Organizational Issues  3 cr
Provides an overview of current issues relating to management and marketing areas in a variety of organizational settings. Emphasizes operating, strategic, and ethical considerations in decision-making within today’s dynamic environment. Course attributes: LDRS. Prerequisite: BADM 260, BADM 270

BADM 415        Global Supply Chain Management  3 cr
Focuses on the theoretical and practical foundations of understanding and managing global supply chain logistics. The course emphasizes the foundations and core principles of logistics and supply chain management from domestic and global perspectives, paying particular attention to organizational, strategic and operational issues. In this interdisciplinary course, students will gain a multi-faceted perspective on the broad critical themes of logistics and supply chain management. Prerequisite: BADM 260, ECON 316

BADM 420        Business Resource Center  3 cr
Offers students an opportunity to provide consulting services to area firms. Prerequisite: Junior status, 2.5 GPA

BADM 421        Advanced Financial Reporting  3 cr
Explores the theoretical and practical issues involved in accounting for business combinations, multinational transactions, partnerships, governmental units and not-for-profit organizations. Students use computer software in the analysis/presentation of cases. Prerequisite: BADM 322

BADM 423        Auditing  3 cr
Examines the professional standards and ethics of auditing. Explores the theoretical foundation of standards. Considers how field work, sampling, computers and management characteristics impact audit risk assessment. The moral and ethical responsibilities of the profession permeate the course. Students use computer software in the analysis and solution of cases/audit project. Prerequisite: BADM 321

BADM 435        Federal Taxation - Entities  3 cr
Studies federal income tax laws for C corporations, S corporations, partnerships, trusts, and estates and more complex personal income taxes. Students will prepare entity tax returns, perform basic tax planning and research publicly available federal tax information from the Internet. Prerequisite: BADM 335

BADM 440        Advanced Leadership  3 cr
Examines various topics in leadership studies, both current and historical. Emphasis will be placed on exploring and developing the student’s personal leadership philosophy, style, and approach. Possible topics could include operational, strategic, and ethical considerations within today’s dynamic social, corporate, and non-profit environment. Prerequisite: Junior Status

BADM 440H       Honors: Advanced Leadership  3 cr
Examines various topics in leadership studies, both current and historical. Emphasis will be placed on exploring and developing the student’s personal leadership philosophy, style, and approach. Possible topics could include operational, strategic, and ethical considerations within today’s dynamic social, corporate, and non-profit environment. Additional research component will be required of students taking this course for honors credit. Prerequisite: Junior Status

BADM 441        Managerial Finance  3 cr
Examines the relationships among risk, return and value in a financial context as tools for the analysis of capital structure and budgeting decisions, and the evaluation of leasing proposals. Covers the basic theoretical financial models in detail. Prerequisite: BADM 340
BADM 475  Seminar in Event and Sport Management  3  cr
Examines existing policies and development of suggested policies for the management of events and sport organizations. Uses case studies and current issues in event and sport management to develop critical decision-making capabilities. Serves as a capstone course for the concentration, integrating knowledge from the major, concentration, and other undergraduate experiences and its application to those current issues. Prerequisite: BADM 240 and either a) BADM 387 & ECON 377 or b) BADM 345 & BADM 386

BADM 490  Special Topics in Business Administration  3  cr
Studies a specific topic in accounting, marketing, management, finance, or policy for the purpose of encouraging advanced work and research in a field of interest. Content will be identified by subtitle. Prerequisite: Junior status

BADM 500  Independent Study in Business  1 to 3 cr
Open to juniors and seniors who wish to study a topic in depth. Final reports and frequent conferences with the advisor are required. Enrollment requires individual application and department approval. Prerequisite: Junior status

BADM 510  Seminar in Business Policy  3  cr
Examines, as a capstone course, a range of topics of current importance in all functional areas of business. All departmental foundation courses must be completed before enrolling in this course. Prerequisite: Senior status, BADM 340

BADM 540  Internship in Business  1 to 15 cr
Offers eligible students the opportunity for enhanced educational opportunities by providing actual field experience in public or private organizations that relate to their academic and professional interests. Enrollment requires individual application with faculty sponsorship and department approval. Students must have completed 24 BADM/ECON credits and 12 credits at MCLA prior to application. (3 credits may be applied to the 12 upper-level credits required in the general program.) Prerequisite: Junior status, 2.5 GPA

BADM 550  Accounting Internship  1 to 15 cr
Offers eligible students the opportunity for enhanced educational opportunities by providing actual field experience in public or private accounting that relate to their accounting interests. During the assignment, the student will complete an individualized learning contract sponsored and approved by a faculty member from the department. Only 3 internship credits may be applied to the 30 required accounting credits to sit for the CPA exam. Prerequisite: BADM 322, junior status, 2.5 GPA

BIOLOGY

BIOL 100  Concepts in Biology  4  cr
Provides the non-major knowledge of basic biological concepts. Concepts in Biology deals with the development of concepts in the biological science of life. Among the areas to be studied are evolution, genetics, and developmental biology: all deal with the fundamental characteristic of life: its ability to replicate over time. Required laboratory. Course attributes: CSTL. Prerequisite: None

BIOL 101  Biology Seminar for Majors  1  cr
Introduces students to biology in order to support majors in their academic work. Explores the diversity of fields within biology through presentations, reading and writing activities and interactions with peers and mentors. This seminar is required for all MCLA biology majors. Prerequisite: Biology major

BIOL 102  Nutrition for Healthy Living with Lab  4  cr
Introduces the non-major to the importance of diet for present and future good health. Examines the importance of carbohydrates, fats, proteins, vitamins and minerals, and their interactions. Explores topics such as label-reading, popular diets, dietary analysis, and other issues of current interest in the field of nutrition. Required laboratory. Students may take either BIOL 102 (4 credit lab course) or BIOL 103 (3 credit non-lab course) but not both. Course attributes: CSTL. Prerequisite: None
BIOL 103 Nutrition for Healthy Living 3 cr
Introduces the non-major to the importance of diet for present and future good health. Examines the importance of carbohydrates, fats, proteins, vitamins and minerals, and their interactions. Explores topics such as label-reading, popular diets, dietary analysis, and other issues of current interest in the field of nutrition. Students may take either BIOL 102 (4 credit lab course) or BIOL 103 (3 credit non-lab course) but not both. Course attributes: CST. Prerequisite: None

BIOL 105 Human Biology 3 cr
Provides the non-major with the knowledge about the structure and function of the human body. Students will develop ability to critically evaluate a large number of issues in this field, as presented in scientific publications and the news media. Students will gain a foundation essential for making knowledgeable decisions regarding quality of life. Students will be encouraged to share experiences based on their own culture and gender. Course attributes: CST. Prerequisite: None

BIOL 150 Introduction to Biology I: Cells 4 cr
Introduces the student to cell biology, mitosis, meiosis, genetics, photosynthesis, respiration and cellular organisms. This course is designed for, but not limited to, students pursuing a major/minor in science. Required laboratory. Course attributes: CSTL, ENVI. Prerequisite: None

BIOL 160 Introduction to Biology II: Organisms 4 cr
Introduces the student to evolution, ecology, and diversity of life. This course is designed for, but not limited to, students pursuing a major/minor in science. Required laboratory
Prerequisite: BIOL 150

BIOL 195 Special Topics in Biology 1 to 4 cr
Provides students with an opportunity to explore different topics and current issues in the field of biology. This course is designed to focus on biological issues at the introductory level. Prerequisite: None

BIOL 235 Botany 4 cr
Overview of the fundamental principles of plant biology with emphasis on anatomy, taxonomy, physiology and evolution of algae, non-vascular and vascular plants, including major divisions of gymnosperms and angiosperms. The focus will be on plants of economic, cultural or ecological significance. Required laboratory. Course attributes: ENVI. Prerequisite: BIOL 100 or BIOL 150

BIOL 240 Genetics 4 cr
Examines the major aspects of heredity, with emphasis on Mendelian principles as well as multiple genes, linkage, sex chromosomes, chromosome numbers, and biochemical and population genetics. Required laboratory. Prerequisite: BIOL 150

BIOL 245 Zoology 4 cr
Introduces the student to the biology of the invertebrate and vertebrate animals of the world through evolutionary and phylogenetic relationships. The course serves as an introduction to the major phyla. Required laboratory. Course attributes: ENVI. Prerequisite: BIOL 150

BIOL 250 Nutrition 3 cr
Investigates the importance of diet for present and future good health. Examines the importance of carbohydrates, fats, proteins, vitamins and minerals, and their interactions. In addition, the course explores topics such as label-reading, diets, dietary analysis and other issues of current interest. Prerequisite: BIOL 100 or BIOL 150

BIOL 255 Biodiversity 4 cr
Provides the non-major with focus on global, regional and local patterns of biological diversity and processes that influence these patterns. Central to discussions of biodiversity pattern and process will be scientific principles from ecology, evolution and conservation biology. The impact of humans on natural systems and biodiversity loss will also be discussed. Case studies will be used to illustrate biodiversity loss and proposals to protect and restore biodiversity. Required laboratory. Course attributes: CSTL. Prerequisite: None
BIOL 295        Special Topics in Biology  1 to 4 cr
Provides students with an opportunity to explore different topics and current issues in the field of biology. This course is
designed to focus on biological issues at the high introductory level. Prerequisite: Will vary depending on the course.

BIOL 305        Immunology  3  cr
Examines the structure and function of antigens, antibodies and the cellular system of immunity. Additional topics include a
study of the complement system, antibody classification, and immunological tolerance. The interaction of all systems will be
emphasized. Prerequisite: BIOL 240

BIOL 307        Pharmacology  3  cr
Examines the basic principles of pharmacology. Focuses on prescription and non-prescription drugs, their use, actions,
indications, contraindications, misuse and abuse. Drugs will be considered on a body system basis with the appropriate
consideration of the application of pharmacological principles as applied to specific body systems. Emphasis is on
pharmacological applications to athletic training. Stresses the use of electronic media in both learning exercises and as a
source of drug information. Prerequisite: BIOL 150, CHEM 150

BIOL 312        Epidemiology  3  cr
Introduces the student to the field of epidemiology. Students will learn about the distribution, frequency, and determinants
of patterns of disease and health conditions in various human populations. Prerequisite: BIOL 150, MATH 232

BIOL 316        Functional Human Anatomy  3  cr
Studies human anatomy as it pertains to human motion, with respect to anatomical and musculoskeletal fundamentals.
Includes a review of anatomy with emphasis on the function of joints and muscles as they relate to normal human movement.
Prerequisite: BIOL 100 or BIOL 150

BIOL 317        Advanced Genetics  3  cr
Studies selected topics in the field of genetics. Emphasizes the genetic mechanism as well as how this enables us to
understand how genetics fits into the growing field of biology as well as its impact upon society. Prerequisite: BIOL 240

BIOL 320        Microbiology  4  cr
Investigates prokaryotic and viral microbes with emphasis on both general and clinical applications. Major topics covered
are taxonomy, anatomy, morphology, reproduction and growth, bacterial control, pathogenicity, genetics and genetic
engineering. Extensive laboratory protocol is provided. Required laboratory. Course attributes: ENVI. Prerequisite: BIOL 240

BIOL 324        Marine Biology  3  cr
Explores the factors that limit the abundance and distribution of marine organisms. Topics include the diversity of habitats,
reproductive strategies and the interrelationships between organisms, as well as the influence of currents, light, temperature
and nutrient supply on the abundance and distribution of life in the oceans. Course attributes: ENVI. Prerequisite: BIOL 160

BIOL 327        Plants and Society  3  cr
Introduces students to the interactions between people and plants in cultures throughout the world. Topics to be discussed
include the current and historical use of plants as food, fiber, fuel and medicine. Course attributes: ENVI. Prerequisite:
Junior/senior status

BIOL 327H        Honors: Plants and Society  3  cr
Introduces students to the interactions between people and plants in cultures throughout the world. Topics to be discussed include the current and historical use of plants as food, fiber, fuel and medicine. Course attributes: ENVI, HONR.
Prerequisite: Junior/senior status

BIOL 330        Biology Seminar  1  cr
Utilizes a format of individual presentations and group discussions of current papers in the biological sciences. One hour
weekly. Prerequisite: BIOL 150 and junior/senior status
BIOL 332  Bryology & Lichenology  4  cr  
Provides skills in identification and knowledge of taxonomy, biology and ecology of bryophytes (mosses, liverworts, hornworts) and macrolichens, with focus on the taxa found in northeastern North America. Students will gain experience identifying these groups using hand-lenses and microscopes, dissections, and chemical testing, and will learn techniques for preparing a personal reference collection and specimens for museum-vouchered collections. Required laboratory; labs mostly outdoors. Prerequisite: BIOL 160 or BIOL 235

BIOL 334  Field Botany  4  cr  
Provides skills in plant identification through extensive fieldwork and study of live and pressed specimens. Emphasis on use of keys and associated terminology, exposure to the major vascular plant groups of northeastern North America, and practice identifying unknown plants. Students will learn about identification, morphology, ecology, taxonomy, and nomenclature of large taxonomic groups such as Poaceae (grasses) and Asteraceae (aster family). Required laboratory; labs mostly outdoors. Prerequisite: BIOL 160 or BIOL 235

BIOL 340  Developmental Biology  4  cr  
Investigates the development of plants and animals at the cellular, tissue and organismal level. Topics include gametogenesis, fertilization, early development, organogenesis and the control of these processes. Required laboratory. Prerequisite: BIOL 240

BIOL 341  Conservation Biology  3  cr  
Introduces the preservation of biodiversity at all levels: genetic, population, community, ecosystem and biosphere. Topics will include population biology, extinction, wildlife and land-use management, and socioeconomic factors involved in conservation decision making. Course attributes: ENVI. Prerequisite: BIOL 160 or ENVI 150 or ENVI 150H

BIOL 342  Anatomy and Physiology I  4  cr  
Explores structure and function of the organ systems of the human body, with emphasis on the integumentary, skeletal, muscular, nervous and endocrine systems. The required laboratory includes histology, gross anatomy and physiology exercises. Required laboratory. Prerequisite: BIOL 150

BIOL 343  Anatomy and Physiology II  4  cr  
Explores structure and function of the organ systems of the human body, with emphasis on the respiratory, cardiovascular, immune, renal and reproductive systems. The required laboratory includes histology, gross anatomy and physiology exercises. Required laboratory. Prerequisite: BIOL 150, BIOL 342

BIOL 351  Ornithology  4  cr  
Provides an overview of the fundamental principles of avian biology with emphasis on ecological and behavioral aspects of ornithology. Students will learn to identify about 100 regional species by sight and/or sound. A semester long project will encourage students to investigate and read the ornithological peer-reviewed scientific literature. Lab activities will include field trips to practice identifying birds and collecting avian field data. Required laboratory. Course attributes: ENVI. Prerequisite: BIOL 100 or BIOL 150 or ENVI 150 or ENVI 150H or instructor permission

BIOL 352  Entomology  4  cr  
Prepares students to confidently key specimens of New England insects and other relevant taxa to the family, genus or species level. Students will gain extensive practice in examining insects and other relevant invertebrates using hand-lenses and microscopes, as well as identifying live and preserve specimens using dichotomous keys and associated terminology. Students will learn techniques for assembling a personal reference collection and preparing specimens for museum-vouchered collections. Required laboratory. Prerequisite: BIOL 160

BIOL 354  Ecology  4  cr  
Investigates community and ecosystem structure and function, energy transformation, matter cycling, abiotic factors, food webs, symbiosis and populations. Required laboratory. Prerequisite: BIOL 160 or ENVI 150 or ENVI 150H
BIOL 360        Biochemistry  3  cr
Surveys the structure and properties of biologically important compounds: carbohydrates, proteins, amino acids, lipids, nucleic acids, and vitamins. Other topics to be covered include enzyme activity, cellular metabolism and protein synthesis. Prerequisite: CHEM 201

BIOL 361        Advanced Biochemistry  3  cr
Studies the chemical dynamics in living systems. Topics include enzymes mechanisms, metabolism and its regulation, and energy production and utilization. Prerequisite: BIOL 360

BIOL 375        Aquatic Ecology  4  cr
Focuses on the physical, chemical, and biological environment of freshwater systems, as well as on common methods used in the study of these systems. Concepts will be applied to addressing current challenges in conserving freshwater resources. Required laboratory. Prerequisite: BIOL 100 or BIOL 150 or ENVI 150H or instructor approval

BIOL 380        Evolution  3  cr
Examines the history of evolutionary thought and the processes of organic evolution. Students will present selected topics to the class. Guest speakers will present the effects of Darwinian thinking in such disciplines as philosophy, anthropology, psychology, sociology and religion. Prerequisite: BIOL 240

BIOL 390        Biometry  3  cr
Application-oriented introduction to data analysis in the context of biology. Students will learn to statistically analyze and interpret data collected from a variety of biological experiments. Prerequisite: Junior status and MATH 150, or MATH 220, or MATH 232

BIOL 395        Special Topics in Biology  1 to 4 cr
Provides students with an opportunity to explore different topics and current issues in the field of biology. This course is designed to focus on biological issues at the advanced level. Prerequisite: Will vary depending on the course.

BIOL 403        Applied Nutrition  3  cr
Explores current issues and topics of interest in nutrition, including but not limited to athletic performance, human development, human disease and nutritional therapy, with focus on primary literature. Prerequisite: BIOL 250, junior/senior status

BIOL 405        Animal Physiology  4  cr
Explores human and other vertebrates, in regard to the structure and function of the basic tissue types and the major organ systems with major emphasis on normal functions and the interactions of each organ system to insure homeostasis. Required laboratory. Prerequisite: BIOL 160 and junior/senior status

BIOL 410        Biotechniques  4  cr
Explores major techniques in the fields of biochemistry, cellular biology and molecular biology. This course is designed to be completely laboratory based. Prerequisite: BIOL 160, BIOL 240, junior/senior status

BIOL 412        Research Methods in Epidemiology  3  cr
Introduces the student to research methods in the field of epidemiology. Students will learn the value of research methodology as applied to the field of epidemiology with a focus on concepts and interpretation of basic research design and statistical analysis. Prerequisite: BIOL 312 and junior/senior status

BIOL 418        Parasitology  4  cr
Introduces students to the principles of parasitology and the related health concerns to humans and animals. Parasites from the following categories will be covered: protozoa, platyhelminthes, nematoda and arthropoda. Required laboratory. Prerequisite: BIOL 150 and junior/senior status
COURSE DESCRIPTIONS

BIOL 420  Bioinformatics  3 cr
Introduces the fundamental algorithms used in bioinformatics and how these algorithms can be used to solve biological problems. In this class, the students will learn how bioinformatics algorithms work, as well as how to obtain sequence data from scientific databases and analyze these data using tools available on a high-performance computer. Prerequisite: CSCI 243, BIOL 240, junior/senior status

BIOL 424  Field Study in Marine Biology  4 cr
Students will conduct research studies in marine habitats. Field work will take place in the Bahamas over spring break. Students will have the opportunity to visit a variety of habitats, such as sandy intertidal zones, estuaries, mangrove forests, shallow benthic areas and coral reefs (barrier, fringing and patch). Students will plan studies, conduct research at the field station, prepare a research report and present their findings. Prerequisite: BIOL 324, instructor approval, and junior/senior status

BIOL 440  Exercise Physiology  4 cr
Develops an understanding of the phenomena involved in optimum physiological functioning during work performance, whether it be in everyday living or athletic participation. Provides students with an understanding of the physiological aspects of exercise and its practical applications. Required laboratory. Prerequisite: BIOL 343 and junior/senior status

BIOL 445  Pathophysiology  3 cr
Provides an in-depth survey of physiological causes and pathological development of diseases that affect various organ systems in the body. Pathologies will be examined at the molecular, cellular, tissue and organ levels, with emphasis on the homeostatic disturbances that lead to disease conditions. Current research insights relating to disease states will be addressed throughout the course. Prerequisite: BIOL 343

BIOL 450  Animal Behavior  4 cr
Introduces the topic of animal behavior, exploring the principles of ecology, evolution, development, and ethology. The course will examine behavioral adaptation (including physiological, ecological, and evolutionary aspects) from individuals to population-level interactions. Topics include: foraging, anti-predator, and mating strategies: mechanistic control of behavior, sociality, and aggression. Laboratory component will focus on observation, communication, and experimental design. Prerequisite: BIOL 160, BIOL 240, junior/senior status

BIOL 475  Special Topics in Biology  1 to 4 cr
Provides students with an opportunity to explore different topics and current issues in the field of biology. This course is designed to focus on biological issues at the high advanced level. Prerequisite: Will vary depending on the course.

BIOL 480  Cell & Molecular Biology  4 cr
Examines the pioneering research in eukaryotic cell and molecular biology. Topics covered include structure and function of organelles, membrane dynamics, intracellular targeting, metabolism, eukaryotic replication, transcription, and translation, and applications to biotechnology. The required laboratory component emphasizes current cell and molecular techniques. Prerequisite: BIOL 240 and junior/senior status

BIOL 484  Biomechanics  3 cr
Provides instruction in those competencies essential to the study of the human body as a machine for the performance of work. Enables effective understanding and/or evaluation of motor skills and their effect on the human structure. Prerequisite: BIOL 316 or BIOL 342 and junior/senior status

BIOL 491  BMC: Clinical Chemistry  8 cr
Introduces the student to the physiology of the organ systems of the body and the various analytes that interact with them. Discusses abnormal physiology and relates to various disease states. Discusses the principles of test methodology. The student applies this theory to the clinical lab using current diagnostic techniques and instrumentation to correlate lab results to disease processes. Prerequisite: Department approval, requires acceptance and enrollment in MCLA-BMC Med Tech Clinical Lab Experience
BIOL 492  BMC: Clinical Molecular Biology  1 cr
Introduces the student to the basic structure and function of DNA. Discusses the impact of molecular genetics in medicine and specific methods for analysis. The student applies this theory in the molecular biology laboratory using current diagnostic techniques and instrumentation to correlate lab results with disease. Prerequisite: Department approval, requires acceptance and enrollment in MCLA-BMC Med. Tech. Clinical Lab Experience

BIOL 493  BMC: Clinical Immunology  1 cr
Introduces the student to the immune system and the immune response. Discusses immune detection, immunodeficiency disorders, autoimmune diseases, hypersensitivity, and tumor and transplant immunology. Discusses the antigen-antibody complex and the relationship to current testing methodology. The student applies this theory in the clinical lab using current immunologic techniques and instrumentation to correlate lab results to disease processes. Prerequisite: Department approval, requires acceptance and enrollment in MCLA-BMC Med. Tech. Clinical Lab Experience

BIOL 494  BMC: Clinical Hematology  8 cr
Introduces students to the study of the hematopoietic system including the relationship of hematologic diseases to diagnostic characteristics. Discusses erythrocyte and leukocyte disorders; cellular morphology, mechanisms and disorders of hemostasis and fibrinolysis; and principles of test methodology. The student applies this theory in the clinical lab using current diagnostic techniques and instrumentation to correlate lab results with disease processes. Prerequisite: Department approval, requires acceptance and enrollment in MCLA-BMC Med. Tech. Clinical Lab Experience

BIOL 495  BMC: Clinical Urinalysis and Body Fluids  1 cr
Introduces the student to the study of body fluids including urine, cerebral spinal fluid, synovial fluid, serous fluids, seminal fluid and miscellaneous other fluids. Discusses specimen collection and analysis. The student applies this theory in the clinical lab using current diagnostic techniques and instrumentation to correlate lab results with disease processes. Prerequisite: Department approval, requires acceptance and enrollment in MCLA-BMC Med. Tech. Clinical Lab Experience

BIOL 496  BMC: Clinical Microbiology  8 cr
Introduces the student to the study of bacterial, fungal, parasitic and viral infections in humans. Discusses transmission, clinical symptoms, specimen collection and laboratory methods used to identify suspect organisms. Discusses prevention, as well as antibiotic therapy. The student applies this theory in the clinical lab to isolate and identify pathogens, to provide antibiotic sensitivity information, and to correlate culture results with disease states. Prerequisite: Department approval, requires acceptance and enrollment in MCLA-BMC Med. Tech. Clinical Lab Experience

BIOL 497  BMC: Clinical Immunohematology  5 cr
Introduces the student to the different human blood groups, blood components, the antibody screening and identification process, transfusion protocols, blood donor screening, and state and federal regulations. The student applies this theory in the clinical lab to process blood and its components, determine blood product compatibility, apply appropriate quality control and correlate patient results to blood disorders. Prerequisite: Department approval, requires acceptance and enrollment in MCLA-BMC Med. Tech. Clinical Lab Experience

BIOL 499  Teaching Assistant in Biology  1 to 3 cr
Provides the opportunity for a student to assist in the preparation and implementation of a biology course. Prerequisite: Department approval

BIOL 500  Biology Independent Study  1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: Junior/senior status, department approval

BIOL 510  Biology Independent Research  1 to 3 cr
For biology majors who desire to conduct research on a specific topic in biology. The research will be under the direction of the instructor and will require a scholarly report. Prerequisite: Department approval
BIOL 540    Biology Internship 1 to 15 cr
Offers the student an opportunity to practice in a professional situation relevant to the biology major. The student will work with a faculty sponsor and an off-campus supervisor, as appropriate. Prerequisite: Department approval, junior/senior status

CORE CAPSTONE (CCAP)

CCAP 300    Capstone Seminar: 3 cr
Challenges students to integrate knowledge from several disciplines, applying academic learning and critical thinking skills to modern-day issues. Encourages students to work with others and become engaged citizens in the context of today’s world. Course attributes: CAP. Prerequisite: Junior status and completion of all Tier I and Tier II requirements

CORE CREATIVE ARTS (CCCA)

CCCA 101    Creative Arts: Methods and History 3 cr
What are the creative arts? How are they made, by whom and why? What are some major examples of the arts? The course will attempt to answer these questions through an interdisciplinary study of the eight arts (pictures, sculpture, music, theatre, film, dance, architecture and literature) and their relation to society in the past, in the present and in the varieties of world civilizations. Course attributes: CCA. Prerequisite: None

CCCA 102    The Art of Madness 3 cr
Examines myths and realities of madness from the perspective of the creative arts (e.g., art, literature, film, poetry). Explores a variety of artistic forms from the viewpoint of the artist and observer in studying the dimensions of maladaptive traits and behaviors. Emphasis is on critical thinking and analysis of the subject matter, the creator and the artistic medium within which it is portrayed. Course attributes: CCA. Prerequisite: None

CCCA 110    Topics in Creative Arts 3 cr
Examines fundamental concepts regarding the relationship of the individual to the creative arts. Topics will vary by semester and be identified by subtitle. Course attributes: CCA. Prerequisite: None

CCCA 202    The Good Earth: The Theme of Agrarianism 3 cr
Studies agrarian themes and their importance by surveying literature, music, paintings, and photography. Focuses on artistic perceptions of the earth and human relationships to it. Explores agrarian traditions, values and beliefs. Includes a study of agrarian social, political and economic issues. Course attributes: CCA, ENVI. Prerequisite: None

CCCA 203    Inventing Modernism 3 cr
Surveys art works from this dominant twentieth century philosophy and arts movement by considering how its values and aesthetic ideals shaped film, painting, communication, fashion, theatre and architecture. Investigates such thinkers and artists as Freud, Gropius, Klimt and Schiele. Course attributes: CCA. Prerequisite: None

CCCA 205    Popular Hollywood Films: I950s 3 cr
Uses the basic concepts and insights of the creative arts to examine the ways in which American popular film of the I950s incorporates ideas and societal reality into its modes of representation. Explores the relationships between American films and American popular culture. Course attributes: CCA. Prerequisite: None

CCCA 206    Rumi’s Vision 3 cr
Studies the poetry, life, and times of the great 13th century Sufi mystic, Jelaluddin Rumi. This is a course for students who want to expand their horizons and explore a view of reality that is not based on secular materialism. Because of excellent modern translations, Rumi is rapidly becoming one of the most relevant and powerful poets of our time. Course attributes: CCA. Prerequisite: None
CCCA 207 Children’s Literature: A Lively Art  3 cr
Develops a critical understanding of the verbal and visual art of children’s literature. Reflects major stories of world art and literature through two centuries of English language publications. Includes novels, short stories (including folk tales) and picture books. Readings will be placed in historical, cultural and literary contexts, with emphasis on techniques of writing and publishing, as well as pedagogical philosophies. Course attributes: C&FS, CCA. Prerequisite: None

CCCA 209 Contemporary American Poetry and The Times  3 cr
Covers American Poetry from the 1950s to the present and focuses on how American poetry reflected the cultural and political life in the United States from 1956 into the next millennium. Areas covered will be; poetry’s connection with the other arts (particularly music and the visual arts), poetry and politics, poetry and race, and the resurgence of the oral tradition. Students will compose their own poems in order to better understand the creative process. Course attributes: CCA. Prerequisite: None

CCCL 100 Computing and Communication  3 cr
Prepares students to use a computer as a tool for communicating in the information age. Topics include a computer overview, file management, web pages and the Internet, and Office Suite applications software including Word, Excel, PowerPoint and Access. Prerequisite: None

CCHH 101 Utopian Visions Fact and Fiction  3 cr
Involves a study of Utopian visions of the past and present, both real and imaginary, and connects these visions to four major American protest movements. Incorporates sources ranging from the Declaration of Independence to the songs of Bob Dylan. Course attributes: CHH. Prerequisite: None

CCHH 110 Topics in Human Heritage  3 cr
Examines fundamental concepts regarding the relationship of the individual to humanity’s shared heritage. Topics will vary by semester and be identified by subtitle. Course attributes: CHH. Prerequisite: None

CCHH 210 American Women Regionalist Writers  3 cr
Studies the texts of mid-to-late 19th century women regional writers in their historical, political and social contexts. Students will read extensively in both primary and secondary texts of the period to heighten their understanding of how it is that literary history is both shaped and understood, as well as how these particular women writers resisted the then mainstream prescription for an American literary project. Course attributes: CHH, WMST. Prerequisite: None

CCHH 220 Popular History and Biography  3 cr
Examines history in non-fiction prose works intended for a broad audience of intelligent but not expert readers. It looks at the kind and value of information in primary sources, and how secondary sources document them. Primary sources may include letters, diaries, memoirs, speeches, still and moving photographs, drawings, certificates, posters, maps to help distinguish the different kinds of information revealed in secondary sources. Course attributes: CHH. Prerequisite: None

CCHH 221 Divine Witness  3 cr
Explores the history of revelation as a fundamental way of knowing. Reviews important moments in history when divine witness played a part in shaping civilizations or altering the prevailing sense of reality. Features readings from a variety of texts drawn from many spiritual and esoteric traditions. Course attributes: CHH. Prerequisite: None

CCHH 223 The Great Depression  3 cr
Examines the historical, sociological, philosophical, literary and other aspects of the great American depression of the 1930s. Examines the cause and effect of change and persistence during a time of national crisis. Readings are first-hand accounts, documentaries, narratives and explanatory fiction. Course attributes: CHH. Prerequisite: None

CCHH 230 Introduction to Latinx Studies  3 cr
Examines the United States, and the histories, cultures, and experiences of Americans of Latin American ancestry. Latinx
studies is an interdisciplinary academic field that explores the politics, health, representation, and practices of people from Latin American and Caribbean heritage living in the United States. Latinx studies offers a lens through which we can better understand connections between diverse Latinx groups as well as the differences that may come between them. Course attributes: CHH. Prerequisite: None

**CORE SELF AND SOCIETY (CCSS)**

**CCSS 101**  Contemporary Issues in Society  3 cr
Identifies and analyzes significant social issues from one's own cultural context to gain a broader perspective of contemporary society. Explores four themes of understanding ourselves and our social context - people's origins, the socialization process, difference and inequality, and global connectedness. Examines these themes through multiple social science perspectives. Course attributes: CSS. Prerequisite: None

**CCSS 102**  Snapshots of Society  3 cr
Compares theories about human origins and their place in the world. Explores the relationship between ourselves as individuals and the broader society. Examines how social forces shape our existence as selves of a particular race, gender and class. Identifies key institutions and investigates the dynamics of power. Course attributes: CSS. Prerequisite: None

**CCSS 110**  Topics in Self and Society  3 cr
Examines fundamental concepts regarding the relationship of the individual to society at large. Topics will vary by semester and be identified by subtitle. Course attributes: CSS. Prerequisite: None

**CCSS 202**  World Regions and the New Global Order  3 cr
Studies the economic, political, cultural and physical characteristics of the major regions of the world and the countries within them; discusses how these regions and countries relate and interact at the international level. Course attributes: CSS. Prerequisite: None

**CCSS 210**  Landscapes of Human Activities  3 cr
Provides an understanding of the fundamental identifying traits of a culture; the economic, social, and political systems and institutions societies erect; the cultural landscapes they create; and the impacts societies have on natural systems. Course attributes: CSS, ENVI. Prerequisite: None

**CCSS 260**  Schools, the Law and Society  3 cr
Enables students to explore legislation and judicial decisions affecting school policies. Covers separation of church and state, controversial curricula and rights and responsibilities of students and teachers. Compares America with other cultures regarding equal access to education. Course attributes: CSS. Prerequisite: 100-level Self & Society course

**CCSS 264**  Mathematics of Fairness and Equity  3 cr
Stresses the connections between contemporary mathematics and modern society by identifying important social problems and conflicts and applying quantitative methods to solve these problems or resolve conflicts. Utilizes the notion of "enlightened citizenry," when students acquire broad knowledge of social problems and are able to apply quantitative methods to make personal judgements and decisions, as well as challenge our basic assumptions regarding a social setting. Course attributes: CSS. Prerequisite: None

**CCSS 264H**  Honors: Mathematics of Fairness and Equity  3 cr
Stresses the connections between contemporary mathematics and modern society by identifying important social problems and conflicts and applying quantitative methods to solve these problems or resolve conflicts. Utilizes the notion of "enlightened" citizenry," when students acquire broad knowledge of social problems and are able to apply quantitative methods to make personal judgements and decisions, as well as challenge our basic assumptions regarding a social setting. Course attributes: CSS, HONR. Prerequisite: None
CCSS 268  Culture and the Body  3  cr
Examines the body as a universal experience, a historical and cultural creation, and an ethical issue with policy implications. Explores our understanding of the foundations of our treatment of the body, the relationship between socialization and body image, how bodily difference has been used as a basis for inequality, and the impact of globalization on the circulation of body images and the exploitation of bodies. Considers ways in which harmful practices have been challenged and modified. Course attributes: CRCU, CSS, SOCJ, WMST. Prerequisite: None

CCSS 269  Education and Society  3  cr
Studies the role of education as an institution in our society, the world and their lives. Through the use of a wide variety of sources, students will become aware of the people and the historical events that played a role in the development of educational practices and issues, and will be able to compare the myths to the realities of this major institution. Course attributes: CSS. Prerequisite: None

CORE SCIENCE AND TECHNOLOGY (CCST)

CCST 101  Topics in Physical Science  3  cr
Designed for non-STEM majors, this course will examine fundamental concepts in physical science. Scientific reasoning, discovery, and invention provide a context for understanding reality-based applications of science. Topics will vary by semester and be identified by subtitle. Course attributes: CST. Prerequisite: None

CCST 102  A Case Study Approach to Science  3  cr
Introduces students to the use of the scientific method in various scientific settings. Using the case study method, students will cover a diverse range of topics which may include such topics as: the effects of radiation on biological systems, cancer and waste water treatment. Course attributes: CST. Prerequisite: None

CCST 103  Quarks to Quasars  3  cr
Develops the student’s understanding of the physical universe, from the smallest constituents of matter to the most distant, energetic structures known. The student will come to know how the scientific method guides us as we seek new knowledge. Conservation laws, the relationship between energy and matter, the need for mathematics and the inexorable links between the various branches of science will be considered. Course attributes: CST. Prerequisite: None

CCST 105  The Chemistry of CSI  3  cr
Illustrates the intricate role that chemistry plays in solving crimes through the introduction and understanding of basic chemical principles. Forensic techniques such as fingerprint analysis, fiber identification, drug identification and DNA profiling will be introduced. Case studies and “CSI” episodes will be used to explore the scientific foundation for the examination of physical, chemical and biological evidence. This course is intended for non-science majors. Course attributes: CST. Prerequisite: None

CCST 105H  Honors: The Chemistry of CSI  3  cr
Illustrates the intricate role that chemistry plays in solving crimes through the introduction and understanding of basic chemical principles. Forensic techniques such as fingerprint analysis, fiber identification, drug identification and DNA profiling will be introduced. Case studies and “CSI” episodes will be used to explore the scientific foundations for the examination of physical, chemical, and biological evidence. This course is intended for non-science majors. Course attributes: CST, HONR. Prerequisite: None

CCST 106  The Physics of Superheroes  3  cr
Examines superheroes through the lens of modern physics. The student will use basic physics principles such as mechanics, energy, and quantum mechanics to model and explain the powers and events in literature, which consists of comic books, sci-fi novels, and fantasy novels. This course will develop problem solving skills that are useful in a variety of real world applications. This course assumes no previous knowledge of physics and will be useful for science and non-science majors alike. Course attributes: CST. Prerequisite: None
CCST 110  Topics in Physical Science with Laboratory  4 cr  
Designed for non-STEM majors, this course will examine fundamental concepts in physical science. Scientific reasoning, discovery, and invention provide a context for understanding reality-based applications of science. Topics will vary by semester and be identified by subtitle. Required laboratory. Course attributes: CSTL. Prerequisite: None

CCST 111  Topics in Life Science  3 cr  
Designed for non-STEM majors, this course will examine fundamental concepts in the life sciences. Scientific reasoning and discovery provide a context for understanding reality-based applications of science. Topics will vary by semester and be identified by subtitle. Course attributes: CST. Prerequisite: None

CCST 112  Topics in Life Science with Lab  4 cr  
Designed for non-STEM majors, this course will examine fundamental concepts in life science. Scientific reasoning, discovery, and invention provide a context for understanding reality-based applications of science. Topics will vary by semester and be identified by subtitle. Required laboratory. Course attributes: CSTL. Prerequisite: None

CCST 230  Energy and the Environment  4 cr  
Looks at the impact of current energy usage on our environment from technical, social and political viewpoints. Investigates the present and projected usage of nonrenewable fuel sources and how modifications due to alternate energy techniques will affect current energy policy. Discusses possible large-scale alternate energy methods. Investigates the scientific aspects of such topics as global warming and ozone depletion. Required laboratory. Course attributes: CSTL, ENVI. Prerequisite: None

CHEMISTRY (CHEM)

CHEM 150  Introduction to Chemistry I  4 cr  
Studies chemical principles, theories, laws and their applications. Topics include electronic and nuclear behavior, periodicity, stoichiometry, structure and bonding. Teaches laboratory techniques through the performance of experiments related to the above topics. Required laboratory. Course attributes: CSTL, ENVI. Prerequisite: None

CHEM 152  Introduction to Chemistry II  4 cr  
Studies chemical principles, theories, laws and their applications. Topics include oxidation and reduction, kinetics, thermodynamics, equilibrium and descriptive inorganic chemistry. Teaches laboratory techniques through the performance of experiments related to the above topics. Required laboratory. Course attributes: CSTL, ENVI. Prerequisite: CHEM 150

CHEM 201  Organic Chemistry I  4 cr  
Studies the structure, properties and synthesis of organic compound and the mechanisms of their reactions. Topics include bonding, molecular orbitals, stereochemistry, resonance, acid-based chemistry, nomenclature, infrared spectroscopy, conformational analysis and substitution and elimination reactions. Required laboratory. Prerequisite: CHEM 152

CHEM 202  Organic Chemistry II  4 cr  
Builds on the concepts introduced in CHEM 201 by studying the reactivity of other classes of compounds including aromatic, unsaturated, alcohols, ethers, carbonyl derivatives and nitrogen-containing compounds. Nuclear magnetic resonance (NMR) will be studied. Basic total synthesis will be covered throughout the semester as new reactions are introduced. Required laboratory. Prerequisite: CHEM 201

CHEM 250  Inorganic Chemistry  3 cr  
Explores the structures, properties and chemical reactivity of the elements and of many compounds. This course builds upon the principles that have been introduced in general chemistry and will enhance understanding of atomic structure and bonding models, periodic trends and molecular symmetry, including molecular orbitals. These concepts are directly applicable to organic and biochemistry and environmental science. Prerequisite: CHEM 152
CHEM 301        Physical Chemistry I  3  cr
Studies the concepts and methods of classical thermodynamics and their application to chemical systems including:
chemical reactions, phase changes, solubility, equilibrium, kinetics and electrochemistry. Prerequisite: CHEM 152, MATH 320

CHEM 302        Physical Chemistry II  3  cr
Develops the mathematical and conceptual foundations of quantum mechanics. Includes applications of quantum theory to
atomic and molecular spectroscopy. Group theory will be introduced and then applied to atomic and molecular structure and
motion, rotational, vibrational and electronic spectra. Prerequisite: CHEM 301  Coreq:  CHEM 401

CHEM 310        Analytical Chemistry  4  cr
Examines classical and modern methods of chemical analysis. Emphasis is placed on chemical equilibrium, titrimetry
and selected analytical applications of instrumental methods, including visible, infrared, fluorescence spectroscopy, gas
chromatography and electro-chemistry. Required laboratory focuses on analytical techniques. Prerequisite: CHEM 152

CHEM 380        Drug Chemistry  3  cr
Explores the chemistry of drug design, synthesis and action. The methods used to design potential new drug molecules will
be discussed as well as how they are either isolated from natural sources or created in the laboratory. Prerequisite: CHEM
202, CHEM 250

CHEM 395        Special Topics in Chemistry 1 to 4 cr
Covers current topics in chemistry including: bioinorganic chemistry, bioorganic chemistry, forensic chemistry and physical
chemistry. Depending on the topic, laboratory exercises could be conducted as part of the course content. This course does
not require an independent project. Prerequisite: Junior/senior status or department approval

CHEM 401        Advanced Laboratory  3  cr
Examines bulk macroscopic and microscopic properties of matter. Topics include computer applications to statistical
methods and data analysis, glass blowing and techniques of experimental physical chemistry. Prerequisite: CHEM 301
Coreq:  CHEM 302

CHEM 405        Advanced Synthetic Chemistry 3  cr
Introduces the student to a variety of advanced methods in the synthesis and characterization of organic and inorganic
compounds. A wide range of compounds will be synthesized, including organic compounds, bioinorganic compounds,
transition-metal complexes, and coordination compounds. Prerequisite: CHEM 202, CHEM 310

CHEM 410        Instrumental Methods in Chemistry  3  cr
Explores the role of instruments in chemical research. The theory and hands-on experience of a variety of analytical
instruments will be covered. These include: ultraviolet, visible, fluorescence and infrared spectroscopic instrumentation as
well as high pressure liquid chromatography (HPLC) and gas chromatography (GC). This course is laboratory-based with
minimal lecture. Prerequisite: CHEM 310

CHEM 420        Special Topics in Chemistry 1 to 4 cr
Covers current topics in chemistry including: bioinorganic chemistry, bioorganic chemistry, forensic chemistry and physical
chemistry. Depending on the topic, laboratory exercises could be conducted as part of the course content. This course
requires an independent project. Prerequisite: Junior/senior status or department approval

CHEM 440        Advanced Organic Chemistry  3  cr
Provides the student with a deeper understanding of some of the concepts and reactions that are discussed in CHEM 201
and CHEM 202. The course also introduces new reactions such as the Aldol, Clasien Rearrangement and Ene reactions.
The role of these reactions in the total synthesis of natural products is also explored. Current topics in organic chemistry will
be discussed. Prerequisite: CHEM 202
CHEM 490        Chemistry Seminar  1 cr
Presents current topics in chemistry. Primary literature articles will be assigned and discussed in class. Enrolled students will present topics of their choice. Attendance at academic lectures at other colleges/universities is possible. Prerequisite: Senior status

CHEM 500        Independent Study in Chemistry  1 to 3 cr
For chemistry majors who wish to conduct an independent project on a specific topic in chemistry. The project will be supervised by a faculty member. The course requires a final scholarly report detailing the finding of the project. This course may be taken more than once for lengthy projects. Prerequisite: Junior/senior status, department approval

CHEM 540        Internship in Chemistry  1 to 15 cr
Offers the upper-level chemistry major an opportunity to practice chemistry in an appropriate professional situation. The student will work with a faculty sponsor and an off-campus supervisor in gaining experience significant to the major. Prerequisite: Junior/senior status, department approval

COMMUNICATIONS (COMM)

COMM 201        Media Writing and Production  3 cr
Introduces students to multiple ways of storytelling through various types of writing and working with audio, video, and interactive media. Students become familiar with audio and video recording and editing, as well as producing stories for the Web. Introduces script writing and storyboarding as part of an overall emphasis on clear and engaging writing within creative writing and journalistic frameworks. Prerequisite: None

COMM 281        Special Topics in Communications  3 cr
Studies introductory topics in media production and/or mass communications. Designed to provide foundational frameworks in communication subjects, including but not limited to media analysis, interpretation, research, media production, and media-specific writing. Content identified by subtitle. Prerequisite: None

COMM 481        Advanced Special Topics in Communications  3 cr
Studies in depth a specific aspect of mass communications. Designed to provide advanced work in media analysis, interpretation and research. Primarily for majors in the junior and senior year. Content identified by subtitle. Prerequisite: Junior/senior status

COMM 493        Teaching Assistantship in Communications  1 to 3 cr
Provides the opportunity for a student to assist in preparation and implementation of a communications course. Course may be repeated for a total of 6 credits. Prerequisite: Department approval

COMM 500        Independent Study  3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth within the fields of communications, media writing and production, or media and cultural studies. Written reports and frequent conferences with the advisor are required. Prerequisite: Department approval and junior/senior status

COMM 540        Internship in Communications  1 to 15 cr
Provides a practical, hands-on field experience to supplement classroom courses. The student works with an on-campus faculty advisor and usually with an on-site supervisor, and the two jointly evaluate the student’s work. Prerequisite: Department approval and junior/senior status
COMPUTER SCIENCE AND INFORMATION SYSTEMS (CSCI)

CSCI 101  First Year Computer Science Seminar  3  cr
Introduces students to the skills needed to navigate the computer science concentrations. In addition, Computer Science majors are introduced to various topics used throughout the curriculum. Topics include computer hardware, operating systems, file types, protocols, and networking. Prerequisite: None

CSCI 121  Programming in Java I  3  cr
Introduces the concepts of program development using the Java programming language. Topics include variables, control structures, arrays, string manipulation and an introduction to object oriented concepts. Prerequisite: None

CSCI 122  Programming in Java II  3  cr
Continues the study of object oriented programming and the Java language. Topics include file manipulation, method and class definitions, graphic applications, applets, multimedia, events and interfaces. Prerequisite: CSCI 121

CSCI 171  Electrical Circuit Design  4  cr
Introduces the student to passive circuit design and analysis. Topics include Ohm’s Law, resistor networks, power, AC and DC analysis, capacitors and inductors. Required laboratory. Prerequisite: None

CSCI 172  Electronic Circuit Design  4  cr
Introduces the student to active components. Topics include Bipolar Junction Transistors, Operational Amplifiers, biasing, and frequency response. Required laboratory. Prerequisite: CSCI 171

CSCI 208  Graphics I  3  cr
Provides a broad overview of computer graphics. Students will use proprietary and open source software to integrate images and text. The course includes demonstrations, lectures, presentations and hands-on projects. It is expected that students will have access to a digital camera and that students will work with their own images. Prerequisite: None

CSCI 210  Networking Theory and Administration I  3  cr
Introduces students to topics in networking theory such as protocols, protocol stacks, encryption and security. Basic network troubleshooting and administration will also be covered. Prerequisite: None

CSCI 211  Networking Theory and Administration II  3  cr
Introduces students to advanced topics in networking theory such as flow control and congestion control algorithms, routing algorithms, multiple access algorithms, and error detection and correction algorithms. Advanced troubleshooting and network administration will be covered. Prerequisite: CSCI 210

CSCI 221  Programming in Java III  3  cr
Continues the study of object oriented programming and the Java language. This course focuses on the development of graphical user interfaces and animated simulations and games using object oriented programming techniques. Prerequisite: CSCI 122

CSCI 222  Programming in Java IV  3  cr
Continues the study of object-oriented programming and the Java language. Topics include advanced data structures, input and output streams and serialization, multithreading, networking and object-oriented design methodology. Prerequisite: CSCI 221

CSCI 235  Digital Circuit Design  4  cr
Introduces the fundamental concepts involved in the analysis and design of digital logic circuits. Topics include number systems, Boolean algebra, logic minimization, and combinational and sequential circuits. Students design, implement, test and debug digital systems. Required laboratory. Prerequisite: None
CSCI 236  Web Development  3  cr  
Emphasizes the client side tools and techniques used to develop web applications. Topics include JavaScript, XHTML, cascading style sheets, file transfer protocol and browser compatibility. The course will also discuss effective web page design considerations, including usability, accessibility and information design. Prerequisite: None

CSCI 240  Introduction to Robotics  3  cr  
Introduces the student to the field of robotics. Students work in teams to build a small robot and program it to perform various tasks. Additionally, the course will discuss the essential elements of robotic systems, including motors, sensors, physical design and control. Prerequisite: None

CSCI 243  Database Development  3  cr  
Introduces the design, management and programming of database systems. This course focuses on the design of database systems using the SQL language, and will provide hands-on experience with one or more database management system products. It also examines the role of a database administrator. Prerequisite: None

CSCI 246  Programming in C#  3  cr  
Introduces the concepts of program development using the C# programming language. This course focuses on an introduction to the Visual Studio development environment, simple variables, control structures, and an introduction to object-oriented concepts. Prerequisite: None

CSCI 247  Introductory Topics in Computing  3  cr  
Provides an understanding of a topic in computing that may be of interest to majors or non-majors. This course introduces a topic that is not currently part of the department curriculum. Depending on the specific topic, students will demonstrate mastery of course content through programs, papers, and/or portfolio development. Prerequisite: None

CSCI 248  Programming in C# II  3  cr  
Continues the study of program development using the C# programming language. Intended for business information majors, this course focuses on advanced C# concepts including structured variables, additional control structures, object creation, code reuse and dynamic storage allocation. Prerequisite: CSCI 246

CSCI 288  Web Page Design  3  cr  
Introduces the study of web page design using contemporary design tools and development environments. Intended for non-computer science majors, the course takes a creative approach to web design that is facilitated by a good working knowledge of technical skills. Course explores theoretical, aesthetic and technical perspectives of effective web page design. Upon completion, students will be able to employ design techniques to create beautiful and highly functional web pages. Prerequisite: None

CSCI 302  Computer Triage  3  cr  
Intended for computer science majors. Topics include: troubleshooting, problem solving and maintaining network hardware and software. Prerequisite: CSCI 101

CSCI 308  Graphics II  3  cr  
Builds on CSCI 208 and provides a broad overview of 3-D computer graphics. Students will use proprietary and open source software to create and render three-dimensional objects and scenes. The course includes demonstrations, lectures, presentations and many “hands-on” projects. Prerequisite: CSCI 208

CSCI 318  Computer Organization and Assembly Language  3  cr  
Introduces students to the major hardware components of a computer system and to the organization of computers as a hierarchy of hardware and software. Considers the basic functional units of a computer system and then examines the following levels: digital logic, microprogramming, conventional machine language, operating system and assembly languages. Prerequisite: CSCI 235
CSCI 328        Object Oriented Design  3  cr
Investigates system design using the standard object oriented design methodology. The Unified Modeling Language (UML) is covered extensively, as are the tools and diagrams associated with it. The course incorporates the use of software design tools and applications used in industry. Prerequisite: CSCI I22

CSCI 330        Programming in C++  3  cr
Applies programming concepts to the C++ language. This course is intended for students who have studied another object-oriented programming language for at least two semesters. Topics include C++ syntax, data structures, libraries, graphics and GUI applications. Prerequisite: CSCI I21

CSCI 332        Systems Analysis and Design  3  cr
Introduces the students to Systems Analysis and Design. This is a hands-on course in which students learn and apply information gathering techniques, systems analysis techniques, systems design techniques and process, as well as systems implementation. Working as teams, students will analyze, design, and develop portions of a computer based information system. Prerequisite: CSCI 243

CSCI 336        Advanced Web Development  3  cr
Continues the study of World Wide Web application development. This course emphasizes both client-side and server-side tools and techniques used to develop web applications, and will include various scripting languages. Prerequisite: CSCI 236

CSCI 340        Robotics Development  3  cr
Introduces the student to various development areas associated with robotics. Topics include motors, motor control, sensors, microcontrollers, physical design, basic analog and digital circuit theory, software design, interfacing and artificial intelligence. Students will construct a robot or robotic system and choose to focus on one or more of these areas. This course may be repeated for a maximum of 9 credits. Prerequisite: CSCI I22, or CSCI 235, or CSCI 240, or PHYS 251

CSCI 343        Full Stack Development  3  cr
Focuses on the development of web-based applications. This course merges the concepts learned in Web Development and Database Development to form traditional persistent multi-tiered web-based systems. Prerequisite: CSCI I21, CSCI 236, CSCI 243

CSCI 346        Programming in Visual Studio  3  cr
Applies programming concepts to the languages found in the Visual Studio programming environment. This course is intended for students who have studied another programming language. Topics include syntax, data structures, graphics and GUI applications in a Windows environment. Prerequisite: CSCI I21 or CSCI 246

CSCI 347        Intermediate Topics in Computing  3  cr
Provides in-depth study of a topic introduced in an earlier course. Depending on the specific topic, students will demonstrate mastery of course content through programs, papers and/or portfolio development. Prerequisite: Department approval

CSCI 350        Introduction to Parallel Computing  3  cr
Introduces parallel computing methods for both distributed memory and shared memory architectures. In this course, students will learn how to design and implement parallel algorithms for solving classic computer science problems, and analyze their performance. This course covers several parallel programming techniques such as Open MPI, POSIX Threads, Open MP, and Java Threads. Prerequisite: CSCI I22

CSCI 352        Business Information Systems  3  cr
Provides an examination of business information systems that apply to all strata of organizations. The course will view organizations as information systems and demonstrate how computers are integrated in these organizations. Students will engage in service learning projects and gain practical experience off-campus, solving real problems for various companies. Prerequisite: CSCI 332
CSCI 360        Network Security I  3  cr
Examines client based/end user security. This course is intended for computer science majors. Topics include: identification, prevention and recovery from security vulnerabilities and threats to PCs, tablets and mobile devices. Prerequisite: CSCI 210

CSCI 361        Data Structures and Algorithms  3  cr
Introduces fundamental data structures such as stacks, queues, dictionaries, trees, and graphs. This course also covers the development and analysis of algorithms that sort, search, traverse, and divide and conquer. Algorithm analysis techniques covered include the RAM model of computation, best-case, worst-case, and average-case complexity. Students will implement data structures and algorithms using a contemporary programming language and serial and parallel programming techniques. Prerequisite: CSCI 222

CSCI 362        Operating Systems  3  cr
Students learn about and implement the fundamental principles used by operating systems to manage processes, memory, storage, and security. In addition, case studies will be introduced to explore the implementation of at least two modern operating systems. Prerequisite: CSCI 361

CSCI 363        Network Security II  3  cr
Continues CSCI 360, Network Security I and examines networked systems security. This course is intended for computer science majors. Topics include: identification, prevention and recovery for security vulnerabilities and threats to network data and networked resources. Prerequisite: CSCI 360

CSCI 371        Advanced Circuit Design  4  cr
Continues the study of circuit design. Covers topics including linear power converters, Field Effect Transistors, switching converters, charge pumps, and Pulse Width Modulation. Required laboratory. Prerequisite: CSCI 172

CSCI 373        Electronic Fabrication  3  cr
Introduces the student to the many skills that are required to create new electronic devices. Topics include soldering, enclosure design, circuit board design, mounting, and physical interfaces. Prerequisite: CSCI 371

CSCI 374        Control Systems  4  cr
Teaches the fundamentals of control systems. Topics include proportional controllers, PID controllers, and noise. Required laboratory. Prerequisite: CSCI 371

CSCI 390        Junior Seminar  1  cr
Ensures that students are prepared for their senior year of study in Computer Science. Students attend class for one hour each week to review material from the lower level courses in the program, (100 and 200 level). Near the end of the semester, each student will take a multi-part exam, which must be passed to continue on. Prerequisite: Computer Science Junior Status

CSCI 408        Graphics III  3  cr
Explores the history of CG animation and produces an animation short using a 3-D graphics program. Students will build on their skills developed in CSCI 208 and CSCI 308 and, working in teams, develop, refine and build a computer generated short animation. Prerequisite: CSCI 308

CSCI 420        Bioinformatics  3  cr
Introduces the fundamental algorithms used in bioinformatics and how these algorithms can be used to solve biological problems. In this class, students will learn how bioinformatics algorithms work, as well as how to obtain sequence data from scientific databases and analyze these data using tools available on the MCLA high-performance computer. Prerequisite: CSCI 243, BIOL 240 and junior/senior status
CSCI 441  Teaching Assistant in Computer Science  3  cr
Assigns students to assist a member of the computer science faculty. Students will be involved in developing materials for class, giving workshops and help sessions, and evaluating computer science projects. A member of the computer science faculty will coordinate, counsel and evaluate students enrolled in the course. Prerequisite: Department approval

CSCI 447  Advanced Topics in Computing  3  cr
Provides advanced study of a topic introduced in an earlier course. Depending on the specific topic, students will demonstrate mastery of course content through programs, papers and/or portfolio development. Prerequisite: Department approval

CSCI 452  Software Engineering  3  cr
Prepares students for work in industry. This course introduces students to modern tools and approaches that will allow them to design professional quality software. Prerequisite: CSCI 343, CSCI 390

CSCI 461  Senior Project  3  cr
Applying skills and knowledge developed as part of their computer science concentration, students plan, design, develop, deliver, and present a substantial professional quality project of their choosing. Over the course of the semester, students will work closely with a faculty advisor during all stages of their project development. Prerequisite: CSCI Senior Status

CSCI 462  Senior Seminar  1  cr
Prepares students for their final semester and employment thereafter in the following ways: It is writing intensive, and it prepares students for the job search process through the development of their resumes, learning portfolio, job search strategy, and interviewing skills. Prerequisite: Computer Science Senior Status

CSCI 475  Communications  4  cr
Introduces the student to the design and analysis of electronic communications equipment. Topics include radio transmitters and receivers, Antennae, Amplitude and Frequency Modulation, Heterodyning, Correlation, Convolution, Noise, and Digital Applications. Required laboratory. Prerequisite: CSCI 371

CSCI 500  Independent Study  1 to 3 cr
Designed for students who wish to undertake an in-depth examination of some topic of interest. The project will be carried out under the direction of a computer science faculty sponsor. Prerequisite: Junior/senior status, department approval

CSCI 540  Internship in Computer Science  3 to 12 cr
Open to juniors and seniors who would like to gain practical field experience in the computer industry. The intern will work under close supervision of both industry and department personnel. Prerequisite: CSCI 222, or junior/senior status, or department approval

DANCE (DANC)

DANC 100  Introduction to Dance  3  cr
Introduces students to the basics of ballet and modern dance technique, as well as offer an overview of the history of those genres. Course attributes: CCA. Prerequisite: None

DANC 200  Intermediate Dance  3  cr
Builds upon the basics of ballet and modern dance technique covered in Dance 100 Introduction to Dance as well as explores some of the important teachers, dancers, choreographers and works of those two genres. Prerequisite: DANC 100

DANC 300  Dance Project  1 to 3 cr
Allows students to create an individual project in dance, research, production, choreography, education, or topics in dance management that serve to deepen knowledge, experience in and exposure to dance. May be repeated for a maximum of 3 credits. Prerequisite: Junior/senior status
DANC 310        Topics in Dance Technique  3  cr
Students will explore different techniques, periods and contexts of dance. Varies by topic. May include ballet, jazz, hip hop, African, Irish, folk, etc. Prerequisite: DANC 200

ECONOMICS (ECON)

ECON 141        Macroeconomics  3  cr
Examines the organization of American economic systems, with comparisons to those of other countries. Emphasis is on the problems of unemployment, inflation, budget deficits and the possible fiscal and monetary policies used to correct them. The course studies such aggregate economic variables as consumption, investment, government expenditures, and taxes. Course attributes: CSS. Prerequisite: None

ECON 142        Microeconomics  3  cr
Deals with individual economic units, consumers and firms. Topic areas which are covered extensively are demand, elasticity and cost theories. The theory of wages and its application to labor markets are also discussed. An analytical study of market structure - perfect competition, monopolistic competition, oligopoly and monopoly - is emphasized. Prerequisite: None

ECON 290        Sophomore Special Topics  3  cr
Introduces students to various topics of emerging importance in economics. Examines one or more current issues in depth. Prerequisite: Sophomore status

ECON 310        International Economics  3  cr
Introduces students to the basics of international trade and finance and the effects of various international economic policies on domestic and world welfare. The course will discuss, among other things, sources of comparative advantage, gains and losses from trade, and the impact of trade on economic growth. In addition, the course will expose students to topics on trade policy interventions such as tariffs, quotas and voluntary export restraints. Prerequisite: ECON 141, ECON 316

ECON 315        Environmental Economics  3  cr
Introduces students to the economic analysis of the conflict between our lifestyle of unlimited wants and the scarce resources of our biological environment. Examines economic theory and applications to explain the dynamics of conflict. Uses an economic approach to solving environmental problems; students will research, analyze and report on environmental public policy issues. Prerequisite: ENVI 150 or ENVI 152H or ECON 141 or ECON 142 and junior status

ECON 316        Statistics for Business and Economics  3  cr
Continues the statistical methodology developed in Introduction to Statistics (MATH 232). Topics include interval estimation, hypothesis testing, analysis of variance, correlation analysis, simple linear and multiple regression, nonparametric testing, and design of experiments with specific application to problems in business and economics. Students’ development of analytical skills enhanced by use of statistical software. Prerequisite: BADM 110, MATH 232

ECON 340        Money, Banking and Global Financial Markets  3  cr
Investigates the financial systems of the U.S. European Union, and emerging economies. Emphasizes how economic institutions reflect the diversity of world cultures, including major financial institutions, monetary theory, interest rates and the structure and role of the Federal Reserve. Issues include economic, social, political and cultural integration of industrialized vs. Third World countries. Prerequisite: ECON 141

ECON 343        Managerial Economics  3  cr
Studies the application of economic theory to decision-making problems in the private and public sectors, including both explicit and implicit constraints imposed by the environment on the decision-maker. Systematic development of the theory of the interaction of consumers, firms and industries; a study of market structure, conduct and performance; and capital budgeting. Prerequisite: ECON 142
ECON 348  Contemporary Economic Issues  3  cr
Studies contemporary economic problems: employment, inflation, economics of pollution, income distribution, international debt crisis, the value of the dollar, balance of payments and the federal budget. Prerequisite: ECON 141

ECON 377  Economics of Culture and Tourism  3  cr
Considers the economic aspects of cultural and other events and activities on local communities and geographic regions, especially as they impact tourism and quality of life. Looks at how cultural goods are valued in both economic and cultural terms. Examines the role of culture and tourism in regional economic development. Analyzes current public policy toward cultural venues at federal, state and local levels in the United States and abroad. Prerequisite: Junior status, completion of Tier II Self & Society

ECON 490  Special Topics in Economics  3  cr
Studies a specific topic in economics for the purpose of encouraging advanced work and research in a field of interest. Content will be identified by subtitle. Prerequisite: Junior status, completion of Tier II Self & Society

ECON 500  Independent Study in Economics  1 to 3 cr
Open to juniors and seniors who wish to study a topic in depth. Final reports and frequent conferences with advisor are required. Enrollment requires individual application and department approval. Prerequisite: Junior status

EDUCATION (EDUC)

EDUC 150  Infant/Toddler Internship  3  cr
Provides the daycare certification student with practical experience needed for Office for Children certification. The intern will complete an individualized learning contract, sponsored and approved by an education department faculty member. The intern will work under close supervision of both the cooperating teacher and departmental personnel. Prerequisite: Department approval, EDUC 230 or concurrent enrollment in EDUC 230

EDUC 151  Preschool Internship  3  cr
Provides the daycare certification student with practical experience needed for Office for Children certification. The intern will complete an individualized learning contract, sponsored and approved by an education department faculty member. The intern will work under close supervision of both the cooperating teacher and departmental personnel. Prerequisite: Department approval, EDUC 305 or concurrent enrollment in EDUC 305

EDUC 230  Program Development: Infants & Toddlers  3  cr
Examines theory and practice of daycare for infants - up to age 3. Age-appropriate activities, program/curriculum development and special issues in daycare will be discussed. Working with parents, assessment, individual difference and multicultural appreciation will also be discussed. Prerequisite: Department approval

EDUC 302  Assessment and Evaluation  3  cr
Provides participants with a repertoire of assessments for classroom use including formal, informal, formative, summative, authentic and standardized. Participants will also engage in discussions about reporting student progress to parents. Students will learn a process by which to assess themselves in their role as teacher. Prerequisite: Junior/senior status

EDUC 305  Program Development: 3, 4 and 5 year olds  3  cr
Examines theories and practices of preschool programs. Emphasis placed on building a developmentally appropriate environment. Students will create a portfolio of curriculum materials. Issues such as professional development, parent-teacher relationships, assessment and evaluation, and children's transition to kindergarten will also be discussed. Preschool internships to be taken simultaneously. Students will complete an action research project. Prerequisite: Department approval
EDUC 324  Teaching Math/Science K-8  3 cr
Supports the preservice and inservice teacher in planning for the teaching and learning of science and mathematics in the K-8 classroom. Major concepts, curriculum theory and instructional strategies appropriate to math and science education are explored in a hands-on workshop format. Current topics, issues and movements in science and math education are examined. Prerequisite: Department approval

EDUC 325  Teaching Science: Elementary and Middle School  3 cr
Organizes and plans for teaching and learning science. Major principles of science, the development of science lesson plans, experiments and demonstrations, enrichment activities and science projects are included. The shaping of science education in today's elementary and middle schools is examined through recent science education research materials. Prerequisite: Department approval

EDUC 336  Reading in the Content Area  3 cr
Examines effective strategies to support middle school and secondary students' ability to use language to learn. In addition to reading and writing text, alternative modes of demonstrating learning will be explored. Technology will be included through online assignments. Reflection and professional growth are concurrent goals. Prerequisite: Department approval

EDUC 338  Reading and Language Arts (ECHE/ELEM)  3 cr
Emphasizes an integrated, constructivist approach to teaching the language arts based on cognitive, psycholinguistic and sociolinguistic theories about how children learn language. Teaching strategies are introduced that help children learn to communicate effectively using listening, talking, reading and writing. Organizational patterns of instruction that emphasize literature, theme cycles and workshop approaches are explored. Prerequisite: Department approval

EDUC 340  Field Placement I  2 cr
Acquaints each student with the contemporary setting of public schools. In this pre-practicum, students will be expected to be in a classroom for 48 hours. This will be the first experience in the schools for each education student. The on-campus component includes five seminar sessions. Students may be waived from hours in the school setting if appropriate documentation is provided but not from the seminars. Prerequisite: CCSS 269, department approval and 2.5 overall GPA Coreq: EDUC 336 or 338 or EDUC 430

EDUC 341  Field Placement II ECHE/ELEM  2 cr
Requires that pre-service teachers will assume a broader variety of instructional responsibilities in an early childhood/elementary classroom. Students will be expected to be in a classroom for 48 hours. The on-campus component includes four seminar sessions. Students may be waived from hours in the school setting but not from seminars. Prerequisite: CCSS 269, EDUC 340, department approval, 2.5 overall GPA, passing score on Communication/Literacy MTEL Coreq: EDUC 409 or EDUC 412

EDUC 342  Field Placement II 5-12  2 cr
Requires that pre-service teachers will assume a broader variety of instructional responsibilities in a middle or secondary level classroom. Students will be expected to be in a classroom for 48 hours. The on-campus component includes four seminar sessions. Students may be waived from hours in the school setting if appropriate documentation is provided but not from seminars. Prerequisite: CCSS 269, EDUC 340, department approval, 2.5 overall GPA, passing score on Communication/Literacy MTEL Coreq: EDUC 414

EDUC 375  Coaching Principles  3 cr
Facilitates an understanding of sport coaching based on the most current thinking regarding principles that appropriately guide coaching behaviors. Involves the study of medical-legal, growth and development, psychosocial, biophysical, training/conditioning, tactical/strategical, organizational/administrative, ethical and professional development aspects of coaching in a variety of competitive sport settings. Course attributes: LDRS. Prerequisite: Sophomore status

EDUC 376  Sport Coaching Practicum  3 cr
Provides an opportunity for the student to observe and assist a coach. Students will experience a hands-on approach
to coaching skills, including participating in emergency care and assisting with planning practices, designing tactics and strategies in preparation for games. Provides opportunities to learn duties and responsibilities of coaches and athletic directors, rules related to recruiting athletes and other rules and policies related to school athletics. Requires 150 on-site hours. Prerequisite: Junior status, PHED 375

EDUC 404  Sheltered English Instruction ECHE/ELEM  3 cr
Focuses on preparing undergraduate level ELEM and ECHE pre-service teachers to shelter academic content and English language instruction for ELLs. Topics include salient differences among ELLs; language structure; second language acquisition; and effective practices based on the SEI model. Students will learn to differentiate instruction for ELLs at different English proficiency levels, focusing on English Language arts, literacy skills, and academic vocabulary in various content areas. Prerequisite: EDUC 338, department approval

EDUC 405  Sheltered English Instruction MDSC/SECE  3 cr
Focuses on preparing undergraduate level Middle and Secondary pre-service teachers to shelter academic content and English language instruction for ELLs. Topics include salient differences among ELLs; language structure; second language acquisition; and effective practices based on the SEI model. Students will learn to differentiate instruction for ELLs at different English proficiency levels, focusing on language and literacy skills, and academic vocabulary in relevant content areas. Prerequisite: EDUC 336, department approval

EDUC 409  Curriculum and Instruction ECHE  3 cr
Plan, develop and assess instructional units designed for understanding. Link designs to state standards and create a continuum of assessment methods. Pre-service teachers will be active learners as they participate in designing developmentally appropriate lessons, units and assessments. Prerequisite: Department approval

EDUC 412  Curriculum and Instruction ELEM  3 cr
Plan, develop and assess instructional units designed for understanding. Link designs to state standards and create a continuum of assessment methods. Pre-service teachers will be active learners as they participate in designing developmentally appropriate lessons, units and assessments. Prerequisite: Department approval

EDUC 414  Curriculum and Instruction 5-12  3 cr
Plan, develop and assess instructional units designed for understanding. Link designs to state standards and create a continuum of assessment methods. Pre-service teachers will be active learners as they participate in designing developmentally appropriate lessons, units and assessments. Prerequisite: Department approval

EDUC 420  Classroom Management/Teaching Strategies (ECHE & ELEM)  3 cr
Prepares one to design educational environments that support all learners and to see classrooms from the learner’s perspective including the learner whose cultural, linguistic, social, psychological, or economic background is different from the teacher or from the mainstream. Demonstrates that managing classrooms requires attention to physical, social, temporal, auditory, and visual dimensions. Provides strategies to build the social competence of learners who present behavior difficulties. Prerequisite: Department approval

EDUC 422  Classroom Management/Teaching Strategies (MDSC/SECE)  3 cr
Prepares one to design educational environments that support all learners and to see classrooms from the learner’s perspective including the learner whose cultural, linguistic, social, psychological, or economic background is different from the teacher or from the mainstream. Demonstrates that managing classrooms requires attention to physical, social, temporal, auditory, and visual dimensions. Provides strategies to build the social competence of learners who present behavior difficulties. Prerequisite: Department approval

EDUC 430  Teaching in an Inclusive Classroom  3 cr
Introduces values, laws and principles underlying special education, including the rights of parents/guardians. Identifies the role of general educators in securing supports and services for individual students, and in developing and implementing IEPs. Highlights strength-based assessment, peer supports, assistive technology, Universal Design for Learning (UDL),
promoting social competence, and collaboration with families, paraeducators, special educators, and clinicians. Prerequisite: Department approval

EDUC 460        Special Topics in Education  3  cr
Studies problems, concepts, issues, topics, or themes that are of particular importance in the field of education. Special topic seminars may explore any of a variety of topics concerning academic freedom, affirmative action, basics, compensatory education, computers in teaching, multicultural education, values, learning styles and human rights, among others, as they relate to the field of education. Prerequisite: Department approval

EDUC 473        Contemporary Educational Issues  3  cr
Examines contemporary issues in education on ideological grounds and on national and local levels (e.g., bilingual education, multiculturalism, general-liberal education). These issues will be explored from interfacing viewpoints (i.e., political, educational, economics, social) so that students can formulate their own views based on careful consideration of the arguments. Prerequisite: Junior/senior status, department approval

EDUC 500        Independent Study  1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: Junior/senior status, department approval

EDUC 530        Student Teaching Practicum 5-12  9  cr
Provides the culminating field experience for teacher licensure. Students spend five full days per week in a school classroom. In the role of classroom teacher, the practicum student works with individual children, teaches both small and large group lessons, plans and implements several units of instruction, and carries out a variety of other responsibilities. This course is graded on a pass/fail basis. Prerequisite: Department approval, passing scores on all MTELs, grades of C or better in all licensure courses, and GPA of 2.8. Coreq: EDUC 581

EDUC 535        Student Teaching Half Practicum 5-12  1 to 9 cr
Provides the culminating field experience for teacher licensure. Students spend five half days per week in a school classroom. In the role of teacher, students work with individual children, teach small and large group lessons, plan and implement several units of instruction. This half-practicum is designed to be used on very rare occasions when a student needs to do a practicum over a 2 semester period of time. Student will register for 4 credits one semester and 5 credits the second. This course will be graded on a pass/fail basis. Prerequisite: Department approval, passing scores on all MTELs, grades of C or better in all licensure courses, GPA of 2.8. Coreq: EDUC 581

EDUC 540        Education Internship  3 to 15 cr
Interning in a public or private organization or agency such as higher education, hospital, recreational or elderly centers will occur. Completion of an individualized learning contract sponsored and approved by an education department faculty member. Internship may involve, but is not limited to, education-related tasks such as training, organizational development, computer-based learning and human resource development. Prerequisite: Junior/senior status, department approval

EDUC 550        Student Teaching Practicum PK-K  3  cr
Provides the culminating field experience for teacher licensure. Students spend five days per week in a preschool classroom for approximately one third of the semester and the remainder of the semester in a grade I or 2 classroom. In the role of classroom teacher, the practicum student works with individual children, teaches both small and large group lessons, plans and implements several units of instruction, and carries out a variety of other responsibilities. This course will be graded on a pass/fail basis. Prerequisite: Department approval, passing scores on all MTEL's, grades of C or better in all licensure courses, and 2.8 overall GPA Coreq: EDUC 560, EDUC 561

EDUC 560        Student Teaching Practicum I-2  6  cr
Provides the culminating field experience for teacher licensure. Students spend five full days per week in a school classroom for approximately two thirds of the semester. In the role of classroom teacher, the practicum student works with individual children, teaches both small and large group lessons, plans and implements several units of instruction, and carries out a
variety of other responsibilities. This course will be graded on a pass/fail basis. Prerequisite: Department approval, passing scores on all MTEL's, grades of C or better in all licensure courses, and 2.8 overall GPA. Coreq: EDUC 550, EDUC 561

EDUC 561 Student Teaching Seminar ECHE 3 cr
While engaged in the practicum semester, student teachers have a need to be reflective of this experience. Under the guidance of an experienced Massachusetts College of Liberal Arts mentor, this seminar provides students with opportunities to share and to reflect on their efforts to successfully merge theory and practice. The seminar will require students to conduct action research in their classes. Prerequisite: Department approval, passing scores on all MTEL's, grades of C or better in all licensure courses. Coreq: EDUC 550, EDUC 560

EDUC 570 Student Teaching Practicum I-6 9 cr
Provides the culminating field experience for teacher licensure. Students spend five full days per week in a school classroom. In the role of classroom teacher, the practicum student works with individual children, teaches both small and large group lessons, plans and implements several units of instruction, and carries out a variety of other responsibilities. This course will be graded on a pass/fail basis. Prerequisite: Department approval, passing scores on all MTEL's, grades of C or better in all licensure courses, and 2.8 overall GPA. Coreq: EDUC 571

EDUC 571 Student Teaching Seminar ELEM 3 cr
While engaged in the practicum semester, student teachers have a need to be reflective of this experience. Under the guidance of an experienced Massachusetts College of Liberal Arts mentor, this seminar provides students with opportunities to share and to reflect on their efforts to successfully merge theory and practice. The seminar will require students to conduct action research in their classes. Prerequisite: Department approval, passing scores in all MTEL's, grades of C or better in all licensure courses. Coreq: EDUC 570

EDUC 575 Student Teaching Half Practicum I-6 1 to 9 cr
Provides the culminating field experience for teacher licensure. Students spend five half days per week in a school classroom. In the role of classroom teacher, they work with individual children, teach small and large group lessons, plan and implement several units of instruction. This half-practicum is designed to be used on very rare occasions when a student needs to do a practicum over a two-semester period of time. Students will register for 4 credits one semester and for 5 credits the second semester. This course will be graded on a pass/fail basis. Prerequisite: Department approval, passing scores on all MTEL's, grades of C or better in all licensure courses, and 2.8 overall GPA. Coreq: EDUC 570

EDUC 580 Student Teaching Practicum 5-8 9 cr
Provides the culminating field experience for teacher licensure. Students spend five full days per week in a school classroom. In the role of classroom teacher, the practicum student works with individual children, teaches both small and large group lessons, plans and implements several units of instruction, and carries out a variety of other responsibilities. The course will be graded on a pass/fail basis. Prerequisite: Department approval, passing scores on all MTEL's, grades of C or better in all licensure courses, and 2.8 overall GPA. Coreq: EDUC 571

EDUC 581 Student Teaching Seminar 5-12 3 cr
While engaged in the practicum semester, student teachers have a need to be reflective of this experience. Under the guidance of an experienced Massachusetts College of Liberal Arts mentor, this seminar provides students with opportunities to share and to reflect on their efforts to successfully merge theory and practice. The seminar will require students to conduct action and research in their classes. Prerequisite: Department approval, passing scores on all MTEL's, grades of C or better in all licensure courses. Coreq: EDUC 530 or 580 or 590

EDUC 585 Student Teaching Half Practicum 5-8 1 to 9 cr
Provides the culminating field experience for teacher licensure. Students spend five half days per week in a school classroom. In the role of classroom teacher, they work with individual children, teach small and large group lessons, plan and implement several units of instruction. This half-practicum is designed to be used on very rare occasions when a student needs to do a practicum over a two-semester period of time. Students will register for 4 credits one semester and for 5 credits the second semester. This course will be graded on a pass/fail basis. Prerequisite: Department approval, passing
scores on all MTEL's, grades of C or better in all licensure courses, and 2.8 overall GPA  Coreq: EDUC 581

EDUC 590  Student Teaching Practicum 8-12  9 cr
Provides the culminating field experience for teacher licensure. Students spend five full days per week in a school classroom. In the role of classroom teacher, the practicum student works with individual children, teaches both small and large group lessons, plans and implements several units of instruction, and carries out a variety of other responsibilities. This course will be graded on a pass/fail basis. Prerequisite: Department approval, passing scores on all MTEL's, grades of C or better in all licensure courses, and 2.8 overall GPA  Coreq: EDUC 581

EDUC 595  Student Teaching Half Practicum 8-12  1 to 9 cr
Provides the culminating field experience for teacher licensure. Students spend five half days per week in a school classroom. In the role of classroom teacher, they work with individual children, teach small and large group lessons, plan and implement several units of instruction. This half-practicum is designed to be used on very rare occasions when a student needs to do a practicum over a two-semester period of time. Students will register for 4 credits one semester and for 5 credits the second semester. This course will be graded on a pass/fail basis. Prerequisite: Department approval, passing scores on all MTEL's, grades of C or better in all licensure courses, and 2.8 overall GPA  Coreq: EDUC 581

ENGLISH (ENGL)

ENGL 100  College Writing I  3 cr
Explores the writing process, providing practical strategies and techniques. Emphasis is on constructing texts with attention to various levels of organization and development. Prerequisite: None

ENGL 150  College Writing II  3 cr
Emphasizes college-level writing, reading, research and revision practices necessary for 21st century academic and civic engagement. Teaches students to use a variety of genres, rhetorical techniques, and sources of evidence to reach academic and civic audiences. Course attributes: CWR. Prerequisite: ENGL 100

ENGL 200  Communication Research and Methods  3 cr
Develop knowledge about the role of communication research in academic and professional disciplines, preparing students to better analyze data and to critically engage with research findings. It introduces quantitative, qualitative, and combined communication research methods so students can begin primary research of their own. Prerequisite: None

ENGL 202  The Personal Essay  3 cr
Explores personal essays from the classical era to the present. Uses a workshop format where students write a variety of personal essays, choosing from among meditation, confession, letter, memoir, portrait, prose poem, reportage and humor. Prerequisite: None

ENGL 204  Media, Self-Identity and Society  3 cr
Introduces the concept of self-identity, examining it within the contexts of gender, sexuality, health and ethnicity across media and society. Using interdisciplinary approaches, this cultural studies course focuses upon themes which explore myths about identity through analyzing meanings in media and social/cultural texts; how these originate in and across history, to become part of every day “common sense” discourse. Course attributes: CSS. Prerequisite: ENGL 150

ENGL 205  Introduction to Photography  3 cr
Introduces students to photography, digital cameras and photo editing programs. Topics include various forms of composition for communication including documentary photography. Combines lectures and discussion with hands-on experience. Instruction includes camera functions, exposure control, technical and creative control, basic computer manipulation of images and digital output options. Students must provide a digital SLR or point and shoot camera. Prerequisite: None
ENGL 207  Introduction to American Ethnic Studies 3 cr
Explores the methodological and thematic evolution of American and Ethnic Studies. We will ask: Who is an American? What does it mean to be American? We will approach this task through a critical vantage point that considers the impacts of race, class, gender, and sexuality on “Americanness.” We will also explore how economics, empire, racism, transnationalism, and imperialism all impact our definitions of “Americanness.” Course attributes: CHH. Prerequisite: None

ENGL 208  Experiments in Creative Writing 3 cr
Experiments with various approaches to creative writing by focusing on questions of originality and creativity in language. Stresses the exploratory and playful approaches both to language itself and, more importantly, to the production of meaning in language which opens avenues to effective creative writing. Prerequisite: None

ENGL 210  Essentials of Film 3 cr
Focuses on film interpretation by emphasizing elements such as light, sound, composition, camera movement, acting, and direction. Initiates students into developments in film history, film genre and film theory. Course attributes: CCA. Prerequisite: None

ENGL 211  Introduction to Mass Media 3 cr
Surveys various media, stressing their historical evolution and the technological and socio-cultural forces that shape them. Includes newspapers, magazines, film, radio and television. Prerequisite: None

ENGL 212  Radio Production 3 cr
Explores radio production values and possibilities. Includes basic news coverage, scripting, preproduction planning, interviewing, and audiotape editing and mixing. Prerequisite: None

ENGL 214  Basic Television Production and Broadcasting 3 cr
Examines how television production employs verbal and visual communication. Includes experience with principles, theory, and the practice of television production and broadcasting in the studio. Requires work on individual and crew projects. Prerequisite: None

ENGL 221  Literary Journalism 3 cr
Surveys the rich literature of creative nonfiction. Students read and analyze the work of several contemporary literary journalists such as John McPhee, Annie Dillard, Gretel Ehrlich and Joseph Mitchell, as well as a sampling of historical authors, such as Daniel DeFoe and Henry David Thoreau. Students identify themes and techniques of literary journalists and how these are similar to or different from fiction writers. They also have an opportunity to practice writing short pieces in this genre. Prerequisite: None

ENGL 231  The Power of Words 3 cr
Explores the way words and symbols shape human thought, behavior and institutions. Traces how meanings arise, why communication is hazardous, and what makes messages subject to misinterpretation. Provides useful tools for functioning in a world in which language can be misleading and even destructive. Course attributes: CSS, LDRS. Prerequisite: None

ENGL 239  Writing and Reporting the News I 3 cr
Teaches basic principles and skills involved in news reporting and writing. These include interviewing, identification of news values, formal and informal research, story organization, lead writing, transitions, attributions, and grammar and style, including application of the AP Stylebook and Libel Manual. Students develop their skills by writing several practice stories. They are invited to contribute stories to The Beacon, the weekly newspaper of MCLA. Prerequisite: None

ENGL 250  Introduction to Literature 3 cr
Seeks to develop each student’s ability to understand and respond to a variety of literary texts by repeated practice in textual explication through discussion and written work. While most readings will be drawn from poetry, drama and prose fiction, the course will also embrace, where appropriate, texts drawn from mass media. (English/communications majors may not take ENGL 250 to fulfill their Creative Arts Core Curriculum requirement.) Course attributes: CCA. Prerequisite: None
COURSE DESCRIPTIONS

ENGL 265      Literary Theme  3  cr
Utilizes both primary and secondary literary and historical sources to explore ways in which a selected theme continually reappears in literature. Texts are examined, interpreted and evaluated within historical contexts; critical and comparative approaches are used to draw conclusions regarding content and context. The specific theme to be examined will vary and will be identified by subtitle. Course attributes: CHH. Prerequisite: None

ENGL 270      Literary Genre  3  cr
Examines the question of how an author’s choice of a single literary mode, genre, or type affects the meanings of a text. May focus on plays, short stories, song lyrics, comedy, romance, novels, myths, or other genres. The specific genre to be examined will vary and will be identified by subtitle. Course attributes: CCA. Prerequisite: None

ENGL 300      Creative Writing: Fiction  3  cr
Focuses on the craft of fiction and the student’s own short stories. Literary works are analyzed for writing techniques, but the emphasis of the course is on constructive criticism of the student’s work by peers and by the instructor and on exercises to help develop imagination and skill. Prerequisite: None

ENGL 301      Creative Writing: Poetry  3  cr
Features the art of writing poetry and a critique of the student’s own poems. Literary works are analyzed for form and writing techniques, but the emphasis of the course is on constructive criticism of the student’s work by peers and by the instructor. Prerequisite: None

ENGL 302      Creative Writing: Scripts  3  cr
Pursues the craft of scripting, focusing on the student’s own writing of television, film, theatre, or slide/tape scripts. Published works are analyzed for writing techniques, but the emphasis of the course is on constructive criticism of student work by peers and by the instructor and on exercises that help to develop imagination and visual literacy in the creation of dialogue, characters and action. Prerequisite: None

ENGL 303      Writing Prose  3  cr
Gives students who have completed their foundational studies additional practice and instruction in writing nonfiction prose. Explores the adaptation of such prose to specific contexts. Individual courses may focus on prose writing in a particular discourse community (e.g., business, science and technology, education), which will be identified by subtitle. Prerequisite: None

ENGL 304      Creative Writing: Playwriting  3  cr
Develops and exercises story-telling abilities through the writing of dramatic works for the stage. Students will explore the Aristotelian elements of classical drama as well as the unities of time, place and action. Through activities designed to improve skills used to create these elements and through close textual analyses of successful models, students will work toward the goal of writing individual producible one-act plays. Prerequisite: None

ENGL 305      Magazine Writing and Editing  3  cr
Studies the art of writing and editing articles for magazines. Students will analyze current publications, write articles on subjects of their own choosing and practice editing skills. Class will include group critiques of written work and individual conferences. Prerequisite: ENGL 239 or department approval

ENGL 306      Business Writing and Presentation  3  cr
Provides practice in writing strong, clear, and creative business communications. Course attributes: LDRS. Prerequisite: Junior status or department approval

ENGL 308      Writing Associate Workshop  3  cr
Offers students who desire to work as writing associates both individual and group instruction in ways to respond to student writing. Serves as a forum for discussion of topics relating to being a writing associate at MCLA. Prerequisite: ENGL 150, permission of instructor
ENGL 309  Technical Writing  3 cr  
Emphasizes principles of technical communication, particularly document design and readability, and gives students the opportunity to apply these principles in writing reports, instructions, descriptions, and abstracts for science, business and communications. Prerequisite: Department approval

ENGL 312  Radio Practicum  1 to 6 cr  
Assists students in creating advanced live and audiotape productions of professional broadcast quality and/or assuming positions of management in a noncommercial FM radio station. Credit determined by extent of project(s). Prerequisite: None

ENGL 313  Global Anglophone Language and Literature  3 cr  
Analyzes Global Anglophone Literature and Postcolonial theory with a particular focus on writing from and about Africa, the Caribbean, and India. Discussions will center on questions of language, representation, and form. We will explore the various aesthetic strategies and techniques employed by writers to communicate contemporary postcolonial themes, such as neocolonialism, globalization, nationalism, imperialism, feminism, migration, hybridity, and diaspora. Course attributes: CRCU, WMST. Prerequisite: ENGL 250

ENGL 314  Advanced TV Production and Broadcasting  3 cr  
Acquaints students with the theoretical and practical applications of television broadcasting systems. Focuses on theoretical and practical projects; particular attention will be paid to broadcast journalism with special emphasis on investigative reporting. Students will also become familiar with other aspects of television studio facilities. Prerequisite: ENGL 214

ENGL 315  Constructing the Short Film  3 cr  
Acquaints students with the various aspects of the film production process through the use of videotape. This course gives students an understanding of the kinds of decisions filmmakers encounter and the kinds of techniques they employ. Activities include preparing detailed shooting scripts, experimenting with photography, light, color, motion, sound and editing, and manipulating both live action and animated materials. Individually or in small groups, students will produce a 10-15 minute film. Prerequisite: None

ENGL 316  Broadcast Delivery  3 cr  
Focuses on the analysis and development of techniques and skills needed for performance of news, commercials, editorials and “on scene” reporting. Emphasizes voice quality, diction and presentational skills. Critical assessment of professionals is stressed. Culminates in the production of professional audition videotapes. Prerequisite: None

ENGL 319  Global Issues in Communications  3 cr  
Studies in depth a specific aspect of global communication. Provides the student with a general knowledge of the geopolitical issues of international communication, including technological, economic and political/ideological patterns. Course attributes: CRCU. Prerequisite: ENGL 211

ENGL 321  News Editing Practicum  1 to 6 cr  
Concentrates on editing and the functions of a newspaper editor. Fills the junior staff position of the college newspaper to refine writing, design and layout skills. Prerequisite: ENGL 339 and instructor approval

ENGL 323  Publication Design and Typography  3 cr  
Studies contemporary layouts and design principles, with special emphasis on integrating content, typography and design for a “total communications package”. Includes basic typography and an overview of printing processes and composing methods. Students create layouts for brochures, newsletters, newspapers and magazines, and may utilize computer graphics programs. Prerequisite: None

ENGL 324  Broadcast Journalism  3 cr  
Emphasizes investigative reporting as it relates to gathering, writing and presenting news and documentary for television. Examines the practical and theoretical concepts of electronic news gathering (ENG) and electronic field production (EFP).
Analyzes standards for broadcast journalism. Prerequisite: ENGL 239, ENGL 214, instructor approval

ENGL 328        Issues in Journalism  3  cr
Discusses issues and problems central to the practice of journalism and the role of the media in a democratic society. Issues may include environmental journalism; media, law and ethics; investigative reporting; government, politics and the press; covering popular culture and others. Students may be required to produce journalism articles and/or commentaries based on those or related issues. Prerequisite: None

ENGL 331        The Story of English  3  cr
Explores the history and development of the English language from the Anglo Saxon to its current evolution as a world language. Traces the growth of the language in historical, cultural and literary contexts, using diverse texts and films, with special emphasis on varieties of English spoken and written in the New World. Students research special topics. Prerequisite: ENGL 250 or department approval

ENGL 337        Advanced Photography  3  cr
Builds upon skills learned in Introduction to Photography, to include sophisticated camera techniques and advanced darkroom developing and procedures. Students are encouraged to develop various forms of composition such as photography for science, art or publication. Some consideration will be given to digital photography and related procedures. Prerequisite: ENGL 205

ENGL 338        Photojournalism  3  cr
Concentrates on photojournalism as a form of composition. Designed to help students to understand and master a number of techniques such as story-telling and photo editing. The subject of ethics will also be covered, as will digital camera applications. Students will be encouraged to submit work to The Beacon for consideration. Prerequisite: ENGL 205

ENGL 339        Writing and Reporting News II  3  cr
Offers writing and reporting experience through the writing of advanced news stories and features. These include covering campus community meetings, reporting on police, fire and safety news and concerns, dealing with local courts and investigative level-two reporting. Students expand their knowledge of ethics, libel, privacy and freedom of information laws. Students may submit stories to The Beacon. Prerequisite: ENGL 239 or permission of instructor

ENGL 340        Literature and Society  3  cr
Discusses and analyzes a variety of literary works that illuminate social issues. Integrates literature with other disciplines by focusing on several contemporary themes of social relevance. Prerequisite: ENGL 250

ENGL 341        Hybrid Poetics  3  cr
Investigates a range of experimental literary texts that cross, blur, or recombine different modes and genres of writing, in order to invent new forms of expression. Students explore the porous borders between poetry and prose, the creative and the critical, the visual and the verbal, the oral and the written, the factual and the imaginative. In their own writing, students are invited to move between two types of writing, creative and analytical, that are ordinarily kept separate. Prerequisite: Junior/senior status or instructor approval

ENGL 349        Critical Reading  3  cr
Explores different ways of reading a text. Students use diverse critical methods to consider the distinct understandings of a text produced by different reading methods. Examines connections between developments in critical theory and parallel developments in philosophy, art and film criticism and social theory. A variety of critical methods will be examined. Prerequisite: ENGL 250 or department approval

ENGL 351        William Shakespeare  3  cr
Considers such works as the Sonnets, Midsummer Night’s Dream, Measure for Measure and The Tempest. Prerequisite: ENGL 250 or department approval
ENGL 353 Hawthorne and Melville 3 cr
Studies the chief works of Nathaniel Hawthorne and Herman Melville with particular attention to their innovations in American letters. Includes such works as Typee, Moby-Dick, Billy Budd, The Scarlet Letter, and The Tanglewood Tales. Prerequisite: ENGL 250 or department approval

ENGL 361 John Steinbeck 3 cr
Considers the vision of the Nobel Prize-winning author of The Red Pony, Of Mice and Men and Travels with Charley. Examines texts drawn from throughout Steinbeck’s career, with special attention to the common themes, preoccupations and narrative devices which characterize his works. Readings will be drawn from such works as Cannery Row, The Grapes of Wrath and The Winter of Our Discontent. Prerequisite: ENGL 250 or department approval

ENGL 365 Reading the Graphic Novel 3 cr
Explores the graphic novel and related forms. Examines the meaning of the proliferation of this literary form as well as the perceptual mechanisms and processes involved in reading image. Prerequisite: ENGL 250 or department approval

ENGL 367 The Beat Generation 3 cr
Explores the literature of the Beat Generation, including its antecedents, influences, and lasting legacy. Authors include Ginsberg, Kerouac, Burroughs, Corso, Snyder, McClure, Ferlinghetti, DiPrima, Baraka, Cassady, Johnson, Jones, Bob Dylan, and others. Prerequisite: ENGL 250

ENGL 368 The Age of Milton 3 cr
Studies Milton’s major works, emphasizing the relation between his development as a poet and the intellectual and social currents of the Puritan Revolution and of the restoration of the monarchy. Includes such works as “On the Morning of Christ’s Nativity,” “L’Allegro,” “II Penseroso,” “Lycidas,” “Samson Agonistes,” and “Paradise Lost”. Prerequisite: ENGL 250 or department approval

ENGL 368H Honors: The Age of Milton 3 cr
Studies Milton’s major works, emphasizing the relation between his development as a poet and the intellectual and social currents of the Puritan Revolution and of the restoration of the monarchy. Includes such works as “On the Morning of Christ’s Nativity,” “L’Allegro,” “II Penseroso,” “Lycidas,” “Sampson Agonistes,” and “Paradise Lost”. Course attributes: HONR. Prerequisite: ENGL 250 or department approval

ENGL 371 The American Renaissance 3 cr
Surveys texts from such authors as Emerson, Dickinson, Thoreau, Alcott, Fuller, Melville, Hawthorne, Whitman, Douglas. Course attributes: ENVI. Prerequisite: ENGL 250 or department approval

ENGL 372 Arts of Medieval and Renaissance Britain 3 cr
Explores medieval and Renaissance British literature, history and culture. The course includes a spring break travel component. During travel students contextualize literature with the cultural heritage experienced via visual arts architecture, music, theatre, dance, fashion, food, and landscapes and cityscapes of Britain. Prerequisite: ENGL 250, sophomore status, instructor approval (Students pay travel fee)

ENGL 372H Honors: Arts of Medieval and Renaissance Britain 3 cr
Explores medieval and Renaissance British literature, history and culture. The course includes a spring break travel component. During travel, students contextualize literature with the cultural heritage experienced via the visual arts, architecture, music, theatre, dance, fashion, food, and landscapes and cityscapes of Britain. Course attributes: HONR. Prerequisite: ENGL 250, sophomore status, instructor approval (Students pay travel fee)

ENGL 374 Literature and the Environment 3 cr
Explores, through literary study, the variety of ways that human beings have regarded our relationship to nature and the environment. Examines some of the many cultural factors conditioning these views, as well as the impact on the environment-and us-when these views are put into practice. Course attributes: ENVI. Prerequisite: ENGL 250
ENGL 375        Civil War in Literature and Film  3  cr
Considers texts which focus on the American Civil War for thematic and generic purposes. Prerequisite: ENGL 250 or department approval

ENGL 377        Novel in Context  3  cr
Examines the genre of the novel written in English, setting it in historical and cultural context. Traces the development of the novel, locating in even its earliest examples characteristic methods and concerns. Explores the prose narratives and epistolary writing of the 17th century as influential predecessors of the novel genre, progressing from that base to studying key examples of novels from the 18th century through the present. Prerequisite: ENGL 250

ENGL 381        African American Literature  3  cr
Surveys texts drawn from such writers as Hughes, Dubois, Wright, Morrison, Giovanni, Reed, Douglas, etc. Course attributes: CRCU. Prerequisite: ENGL 250 or department approval

ENGL 387        Latino/a American Literature  3  cr
Studies texts focusing on the Latino/a experience in the United States. Considers the history of immigration, assimilation, resistance and bi-lingualism which have marked writers placing their vision within the frame of Latino/a history; it will pay particular attention to how such texts set forth a Latino/a experience as both part of and as also distinct from other cultural strands in the United States. Includes such writers as Villareal, Rodriguez, Perez-Firmat, Zamora, Alvarex Islas, and Pena. Course attributes: CRCU. Prerequisite: ENGL 250 or department approval

ENGL 389        Contemporary American Literature:  3  cr
Surveys representative literary texts from the margins and boundaries of the American experience. Concentrates on familiarizing students with issues, questions and motifs that recur in works which diagnose ongoing conflicts in the American temper. Readings are drawn from both the margins and mainstream of American literary traditions and all eras. Content identified by subtitle. Prerequisite: ENGL 250 or department approval

ENGL 392        Queer Identity in Contemporary Literature  3  cr
Explores representations of queer identity by contemporary writers working in a variety of literary genres including short and novel-length fiction, the graphic novel, poetry, and memoir. Authors may include David Leavitt, Jeanette Winterson, Olga Broumas, Colm Toibin, Raphael Campo, Alan Hollinghurst, Leslie Fienberg, Mark Wunderlich, Alison Bechdel, or Michelle Tea. Course attributes: WMST. Prerequisite: ENGL 250 or department approval

ENGL 393        Faulkner and the Global South  3  cr
Explores the reciprocal resonances between the writing of white southern modernist, William Faulkner, and the diverse literatures coming out of the Global South. Examines the ways in which Global South writers use experimental poetics to continue Faulkner’s project and tell the stories of colonialism from the neocolonial present. Prerequisite: ENGL 250

ENGL 395        Experiential Credit Portfolio Preparation and Writing  3  cr
Provides students with help in completing a portfolio for experiential credit. Includes a rigorous essay-writing component. Prerequisite: Approval of the Advising Center in consultation with the appropriate department(s)

ENGL 396        Public Relations  3  cr
Introduces students to the broad career area of public relations. Principles, cases and problems of public relations will be studied through contact with local organizations. Topic areas include internal communications systems, applications of mass communications, researching public opinions and social responsibilities. Course attributes: LDRS. Prerequisite: ENGL 239 or ENGL 211 or department approval

ENGL 397        Special Topics in Film  3  cr
Studies in-depth a specific issue in film and filmmaking linked by one or more common contexts, such as genre and subject matter, or historical, social, economic, philosophical or aesthetic concerns. Students will practice using evidence from those contexts to produce close, critical readings of films that reflect both an understanding of the context and an understanding
of the visual and auditory languages of film. Content identified by subtitle. Prerequisite: ENGL 210 or instructor approval

ENGL 400  Intercultural Communication  3  cr
Studies in depth the role culture plays in the communication process in various world cultures including African, Asian and Central American. Examines the cultural differences in language, thought patterns and non-verbal communication behaviors. Course attributes: CRCU. Prerequisite: Junior/senior status

ENGL 410  Special Topics in Creative Writing  3  cr
Explores new forms, genres, and approaches to the craft of creative writing for advanced students looking to further their creative and critical artistic practices. Content identified by subtitle. Primarily for majors in the junior and senior year. Prerequisite: Junior/senior status

ENGL 412  Filmmakers and Filmmaking  3  cr
Studies in depth a number of films by one or a cluster of filmmaking professionals. The professionals may include directors, screenwriters, editors, cinematographers, producers or others. Guides students in understanding the aesthetic, technical, economic and other concerns of various film professionals, leading students to analyze and appreciate a filmmaker’s body of work. Prerequisite: ENGL 210 or instructor approval

ENGL 427  Senior News Editing Practicum  3 to 12  cr
Focuses on the daily functions of the campus newspaper, including editorial writing, news editing, page design/layout, photography, newsroom and advertising management, and budgeting. Fills editorial board and other senior staff positions on the campus newspaper for the purpose of refining writing, editing, design and other communication skills. Prerequisite: ENGL 321, instructor approval

ENGL 430  Advanced Poetry Workshop  3  cr
Focuses on the work of the individuals in the workshop. The work of established poets is analyzed for method and craft. Weekly writing assignments are critiqued by the class and the instructor for rewriting. There is a final portfolio of 12 to 15 poems. Prerequisite: ENGL 301 or department approval

ENGL 435  Advanced Fiction Workshop  3  cr
Focuses on creating finished short stories. As in ENGL 300, the major emphasis is on constructive criticism of student work by peers and by the instructor. Prerequisite: ENGL 300 or department approval

ENGL 441  Special Topics in Literature  3  cr
Studies in depth a specific aspect of literature. Designed to provide advanced work in literary analysis, interpretation and research. Primarily for majors in the junior and senior year. Content identified by subtitle. Prerequisite: Junior/senior status or department approval

ENGL 451  British Literary Survey  3  cr
Explores the landmark texts in British literature. Readings may include Beowulf and works by Chaucer, Shakespeare, Milton, Johnson, Wordsworth, Austen, Dickens, Woolf or Joyce. Prerequisite: ENGL 250 or department approval

ENGL 461  American Literary Survey  3  cr
Explores the landmark texts in the traditions of American literature. Readings may be drawn from the Puritan and Colonial periods and from such writers as Emerson, Thoreau, Poe, Melville, Dickinson, Twain, James, Pound, Hughes, Eliot, Faulkner, Porter, Ellison and Walker. Prerequisite: ENGL 250 or department approval

ENGL 471  World Literary Survey  3  cr
Explores myths, epics and other important texts from around the world that have served as repositories of the values of their respective cultures. Also examines more recent texts that stand as efforts to shift those cultural values. Texts studied may include such Greek, Hebrew, Western African, Japanese, Mayan and Islamic texts such as The Odyssey, The Bible, The Epic of Son Jara, The Tale of Genji, Popul Vuh and The Koran. Course attributes: CRCU. Prerequisite: ENGL 250 or department approval
ENGL 481  Special Topics in Mass Communication  3 cr
Studies in depth a specific aspect of mass communications. Designed to provide advanced work in media analysis, interpretation and research. Primarily for majors in the junior and senior year. Content identified by subtitle. Prerequisite: Junior/senior status or instructor approval

ENGL 490  Senior Seminar  3 cr
Provides a capstone course in which majors meet in their final undergraduate year to explore a significant theme or topic. Students integrate what they have learned about language, literature and media, and together the students, pooling their special knowledge in these areas, respond to the specific theme, concept or topic. Prerequisite: ENGL majors only or department approval

ENGL 493  Teaching Assistantship in English/Communications  1 to 6 cr
Assists the instructor with the organization, implementation and assessment of individual English/Communications courses. Prerequisite: Department approval

ENGL 500  Independent Study  1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: Junior/senior status, department approval

ENGL 540  Internship in English  1 to 15 cr
Provides a practical, hands-on field experience to supplement classroom courses. The student works with an on-campus faculty advisor and usually with an on-site supervisor, and the two jointly evaluate the student’s work. Prerequisite: Junior/senior standing, department approval

ENTREPRENEURSHIP (ENTR)

ENTR 210  Principles of Entrepreneurship  3 cr
Develops entrepreneurial skills through the integration and application of Design Thinking, Systems Thinking, and Lean Canvas. Working in small groups, students gain an understanding of social entrepreneurship through the application of these tools to identify, refine, and present viable solutions to contemporary challenges facing communities. Prerequisite: None

ENTR 510  Entrepreneurial Studies Seminar  3 cr
Provides a structured environment in which students identify and pursue social entrepreneurship opportunities from the framework of their choice (Design Thinking, Lean Canvas, and Conventional Project Management). Each class will focus on the student’s development of a specific aspect of their business plan. Intended for Entrepreneurial Studies minors. Prerequisite: ENTR 210

ENVIRONMENTAL STUDIES (ENVI)

ENVI 100  Environmental Studies: Entering Student Seminar  1 cr
Introduces students to environmental studies in order to inform students about academic and professional opportunities in the field. Supports incoming students in beginning to develop a professional portfolio, and provides information about research, internships, graduate schools, and jobs through presentations and interactions with peers and mentors. This seminar is required for all MCLA environmental studies majors and will be graded on a pass/fail basis. Prerequisite: ENVI Major

ENVI 150  Introduction to Environmental Systems  4 cr
Provides a foundation in the physical, chemical and biological principles of environmental science in order to explore Earth’s terrestrial, aquatic and atmospheric systems. Directly investigates freshwater and forest environments of the northeast in the context of the scientific method. Required laboratory. Course attributes: CSTL, ENVI. Prerequisite: None
ENVI 150H  Honors: Introduction to Environmental Systems  4  cr
Provides an interdisciplinary foundation in the physical, chemical and biological principles of environmental science in order to explore earth’s terrestrial, aquatic and atmospheric systems. Historical case studies illustrate political and ethical dimensions of environmental issues. Lab exercises familiarize you with the forest and freshwater environments of the northeast and how the scientific method is used to analyze and understand the relation between humans and the natural environment. Required laboratory. Course attributes: CSTL, ENVI, HONR. Prerequisite: None

ENVI 152H  Honors: Environmental Sustainability  4  cr
Provides a foundation in the nature and properties of natural resources in the context of sustainable environmental management. Students will consider and apply the paradigm of social, environmental and economic sustainability to a variety of natural resource issues such as fossil fuels, renewable energy, wastewater, forestry and wildlife, land protection, food production, urbanization and solid waste and recycling. Required laboratory. Course attributes: ENVI, HONR. Prerequisite: None

ENVI 225  Nature of New England  4  cr
Surveys the nature of New England and focuses on the natural history and identification of representative vertebrate animals of the region. It will introduce the physical setting of New England, investigate various communities and ecosystems of the region, and discuss nature in winter and how animals cope with the extremes of winter. The class format includes lecture, student presentations, and class discussions of assigned readings. Required lab component that includes field based activities. Course attributes: CSTL, ENVI. Prerequisite: None

ENVI 226  Nature of New England  3  cr
Surveys the nature of New England and focuses on the natural history and identification of representative vertebrate animals of the region. The first part of the course will introduce the physical setting of New England. Subsequently, it will cover various communities and ecosystems of the region, identify the distinguishing vegetation for selected ecosystems, describe the natural history of those ecosystems, and emphasize the identity, biology, and ecology of representative vertebrate animals. Course attributes: CST, ENVI. Prerequisite: None

ENVI 250  Special Topics in Environmental Studies  3  cr
Focuses attention on a special environmental topic or issue at an introductory level of investigation. Course attributes: ENVI. Prerequisite: Sophomore status or instructor approval

ENVI 260  Green Living Seminar  2  cr
Utilizes the format of individual reports and/or group discussions of current papers, topics or problems in environmental studies. May also be organized around a seminar series with invited speakers. This course will be graded on a pass/fail basis. Course attributes: ENVI. Prerequisite: None

ENVI 299  Environmental Studies Practicum  1 to 2 cr
Offers environmental studies students an opportunity to gain practical experience in an appropriate professional situation. The student will work with a faculty sponsor and an off-campus supervisor in gaining experience significant to the major. Course can be repeated up to a maximum of 4 credits. Course attributes: ENVI. Prerequisite: Department approval.

ENVI 310  Politics and Environmental Policy  3  cr
Focuses on political science and government in national, regional and international organizations throughout the world. Topics include: United Nations, state and local government, politics and economics of the Pacific Rim. Course attributes: ENVI. Prerequisite: Junior/senior status

ENVI 315  Environmental Economics  3  cr
Introduces students to the economic analysis of the conflict between our lifestyle of unlimited wants and the scarce resources of our biological environment. Examines economic theory and applications to explain the dynamics of conflict. Uses an economic approach to solving environmental problems; students will research, analyze, and report on environmental public policy issues. Course attributes: ENVI. Prerequisite: ENVI I50 or ENVI I52H or ECON I41 or ECON I42 and junior status.
ENVI 320  Methods in Environmental Research  4  cr
Investigates the methods used by environmental researchers to formulate research problems, collect and analyze data and present results professionally; examines sampling techniques, field procedures, and limitations of equipment and research design. Required laboratory. Course attributes: ENVI. Prerequisite: ENVI 150, ENVI 152H, Tier I Quantitative Reasoning, junior status

ENVI 325  Geographic Information Systems  4  cr
Geographic Information Systems/Science is rapidly becoming the optimum approach for displaying and analyzing both spatial and temporal data in virtually every field. Through a series of “on the job” projects, students will learn the concepts, terminology and computer skills necessary to apply these skills to a variety of subject and occupational areas. Students will complete a final project, report and presentation using GIS in their area of interest. Required laboratory. Course attributes: ENVI Prerequisite: None

ENVI 340  Environmental Law  3  cr
Studies the development of an American consciousness toward the environment throughout our nation’s history, emphasizing the political, economic and social forces at work in the consequent creation of United States environmental law. This law will then be considered in detail through the examination of federal, state and local environmental protection legislation, regulations and related court decisions. Course attributes: ENVI. Prerequisite: Junior status

ENVI 340H  Honors: Environmental Law  3  cr
Studies the development of American consciousness toward the environment throughout our nation’s history, emphasizing the political, economic and social forces at work in the consequent creation of United States environmental law. This law will then be considered in detail through the examination of federal, state and local environmental protection legislation, regulations and related court decisions. Course attributes: ENVI, HONR. Prerequisite: Junior status

ENVI 350  Advanced Special Topics in Environmental Studies  1 to 4  cr
Focuses attention on a special environmental topic or issue at an advanced level of study. Course attributes: ENVI. Prerequisite: Junior status or instructor approval

ENVI 351  Ornithology  4  cr
 Provides an overview of the fundamental principles of avian biology with emphasis on ecological and behavioral aspects of ornithology. Students will learn to identify about 100 regional species by sight and/or sound. A semester-long project will encourage students to investigate and read the ornithological peer-reviewed scientific literature. Lab activities will include field trips to practice identifying birds and collecting avian field data. Required laboratory. Course attributes: ENVI. Prerequisite: BIOL 100 or BIOL 150 or ENVI 150H or instructor approval

ENVI 355  Everglades and South Florida  3  cr
Explores the history, ecology, and current events of the Everglades and South Florida. Through an extended field trip through South Florida, students will explore the historical and contemporary interactions of people with their environment. Using an environmental history perspective, students will examine topics such as agricultural practices, development pressures, Everglades management, threatened and endangered species, water conservation, natural areas management, and prehistoric people. Course attributes: ENVI. Prerequisite: BIOL 100 or BIOL 150 or ENVI 150 or ENVI 150H or instructor permission

ENVI 360  Advanced Special Topics in Environmental Science  1 to 4  cr
Examines the aspects of environment predominantly from life science perspective. Courses may focus on particular taxa, or particular biological organization at the level of the organism, population, community, or ecosystem. Courses may also focus on various aspects of ecology. Course attributes: ENVI. Prerequisite: None

ENVI 375  Aquatic Ecology  4  cr
Focuses on the physical, chemical, and biological environment of freshwater systems, as well as on common methods used in the study of these systems. Concepts will be applied to addressing current challenges in conserving freshwater resources. Required laboratory. Course attributes: ENVI. Prerequisite: BIOL 100 or BIOL 150 or ENVI 150H or instructor approval
ENVI 400  Environmental Studies: Senior Seminar  1 cr
Provides a culminating experience for graduating ENVI majors as they prepare to pursue graduate school or employment in
the environmental field. Supports students in completing their academic portfolio and in finding and successfully applying
for jobs and graduate school. Incorporates a variety of presentations by students and outside professionals. This seminar
is required for all MCLA environmental studies majors and will be graded on a pass/fail basis. Prerequisite: ENVI Major and
Senior status

ENVI 401  Independent Research  1 to 3 cr
For environmental studies majors who desire to conduct research on a specific topic in environmental studies. The research
will be under the supervision and direction of the instructor and will require a scholarly report. Course attributes: ENVI.
Prerequisite: Department approval

ENVI 425  Advanced Geographic Information Systems (GIS)  4 cr
Builds on ENVI 325, providing opportunities for conceptualizing and solving spatial/temporal problems within the student’s
primary field of study. Complex spatial analysis, quantitative methods, process model building and the substantial use of
remotely sensed data will be key elements of this course. Topics will also include geo-coding, mapping ethics and 3-D map
visualization. Required laboratory. Course attributes: ENVI. Prerequisite: ENVI 325 (grade of C or better)

ENVI 499  Teaching Assistantship in Environmental Studies  1 to 3 cr
Provides the opportunity for the student to assist in the preparation and implementation of an environmental studies course.
This course will be graded on a pass/fail basis. Course attributes: ENVI. Prerequisite: Department approval

ENVI 500  Independent Study in Environmental Studies  1 to 3 cr
Open to juniors and seniors who wish to study a topic in depth. Written reports and frequent conferences with the advisor
are required. Course attributes: ENVI. Prerequisite: Junior/senior status, department approval

ENVI 540  Internship in Environmental Studies  1 to 15 cr
Offers the environmental studies major an opportunity to practice in an appropriate professional situation. The student will
work with a faculty sponsor and an off-campus supervisor in gaining experience significant to the major. Course attributes:
ENVI. Prerequisite: Junior/senior status, department approval

EARTH SCIENCE (ERTH)

ERTH 151  Introduction to Physical Geography  4 cr
Studies the natural environment from a geographical perspective. Analyzes the distribution and character of environmental
elements, including weather, climate, landforms, soils, and vegetation. Examines consequences of human intervention in
natural systems. Required laboratory. Course attributes: CSTL, ENVI. Prerequisite: None

ERTH 152  Introduction to Physical Geology  4 cr
Studies the earth, including the origin and types of earth materials, volcanism and crystal deformation, external earth
processes and development of landscapes, geological resources, and geological processes as natural hazards. Required
laboratory. Course attributes: CSTL, ENVI. Prerequisite: None

ERTH 245  Natural Hazards  4 cr
Studies natural processes which are hazardous in the context of human activities, including relevant geologic, geomorphic,
climatic, and meteorologic phenomena; examines the origin and significance of selected hazards from natural and human
perspectives and explores how people underestimate or misjudge risk. Required laboratory. Course attributes: CSTL, ENVI.
Prerequisite: None
ERTH 270  Weather and Climate  3  cr
Examines general meteorological and climatic characteristics through space and time, especially as influenced by
temperature, wind, and moisture. Explains atmospheric disturbances at planetary, regional, and local scales. Course
attributes: CST, ENVI. Prerequisite: None

ERTH 271  Landforms  3  cr
Examines the description, origin, classification, and interpretation of landforms. Analyzes geologic, climatic, and biologic
factors as landform controls and shows that certain geomorphic processes are natural hazards. Course attributes: CST,
ENVI. Prerequisite: None

ERTH 300  Topics in Physical Geography  1 to 4 cr
Analyzes and evaluates selected contemporary problems in Earth Science. Course attributes: ENVI. Prerequisite: ERTH I51 or
ERTH I52 or ERTH 245

ERTH 310  Glacier Systems  3  cr
Studies glacier systems as environmentally significant landscape features; examines glacier hydrology, movement, erosional
and depositional processes, glacier related landforms, and cold region landscapes. Pays particular attention to climate-
glacier relationships and global warming. Prerequisite: ERTH I51 or ERTH I52 or ERTH 271 and Junior/Senior status

ERTH 330  National Parks and Monuments  3  cr
Studies the topography, geology, climate, flora, fauna and scenic qualities of national parks and monuments by describing
the history of the national park system and factors threatening its existence. Course attributes: ENVI. Prerequisite:
Completion of Tier II Science and Technology Requirement

ERTH 370  River Systems  3  cr
Studies streams as environmentally significant landscape features in the context of human activity; examines hydrology
and flooding, channelization, flood plains and their land use patterns, water contamination and related ecology. Course
attributes: ENVI. Prerequisite: None

ERTH 500  Independent Study  1 to 3 cr
Independent effort directed to the in-depth study of some aspect of earth science. Course attributes: ENVI. Prerequisite:
Department approval

FINE AND PERFORMING ARTS (FPA)

FPA 500  Supervised Independent Study  1 to 3 cr
Open to juniors and seniors who wish to read in a specific area or pursue a project or topic in depth under the direction
of a faculty member. Frequent conferences with the advisor are required. Prerequisite: Junior/senior status, department
approval

FPA 501  Senior Thesis  3  cr
Directed study representing a student’s ability and commitment to serious academic research. Seniors present a written
thesis exploring a topic of their choosing in depth. Topics must explore how the arts are interdisciplinary, be presented in the
context of their time, and take into account related artistic influences and social values. Prerequisite: Senior FPA Major

FPA 540  Internship in Fine and Performing Arts  1 to 15 cr
An opportunity to work in an arts-related job. Work situations might include: a position in a theatre company; collections
management or educational outreach employment in a museum; assisting in the management of a community music
ensemble or a school music program; work with development, publicity, programming, and publication for an arts council,
gallery, or other arts business. Only 3 credits can be applied to Performing Arts major requirements. Prerequisite: Performing
Arts junior/senior status, department approval
COURSE DESCRIPTIONS

FRENCH (FREN)

FREN 101        Elementary French I  3  cr
Introductes spoken and written French, emphasizing comprehension and communication. Classroom time devoted primarily to listening and speaking, with some reading. Vocabulary presented and illustrated in meaningful contexts. Lab assignments provide practice in writing as well as additional opportunities to hear and read French. First half of a one-year course; intended for those who have no prior experience with French. Conducted in French. Prerequisite: None

FREN 102        Elementary French II  3  cr
Improves fundamental skills of understanding, speaking, reading and writing French. Students will increase their command of the standard topics of French grammar. Short readings will enhance understanding and appreciation of French-speaking cultures and provide topics of conversation. Second half of a one-year course. Conducted in French. Course attributes: CLA. Prerequisite: FREN 101 or department approval

FREN 201        Intermediate French I  3  cr
Reviews first-year college French (or high-school equivalent) with a view toward building competence and confidence in students who have been exposed to the basics of the language. Exploration of selected themes in the modern French-speaking world, as well as intensive exercises in the oral and written language. Readings, discussions and brief essays on topics related to French culture. Conducted in French. Prerequisite: FREN 102 or equivalent

FREN 202        Intermediate French II  3  cr
Presents a selection of French literary works and cultivates skills necessary to read and discuss them with understanding and appreciation. Reviews and expands grammar and vocabulary. Provides opportunities to learn and apply fundamentals of literary analysis and criticism. Readings include the major genres and represent a range of French-speaking countries. Prerequisite: FREN 201 or department approval

FREN 390        Special Topics in Francophone Studies  3  cr
Studies a specific aspect of the French language and/or a particular Francophone culture in depth. Designed to provide advanced work in selected areas of study. Course topic is identified by subtitle and may include areas such as French society and culture, Francophone groups outside of France, French linguistics and Francophone literature or film. Taught in French unless otherwise noted. May be repeated for credit with a change in topic. Prerequisite: FREN 201 or department approval

HISTORY (HIST)

HIST 103        Pre-Modern World Civilization  3  cr
Studies the cultural and historical traditions of the major geographical regions of the pre-modern world up to 1492: Greece and Rome, South and Southeast Asia, East Asia, the Middle East, Africa, Europe and the Americas. Emphasis will be placed on such factors as international trade routes, the spread of ideas and religions, and the formation of state-systems that became the basis of the post-1492 world. Prerequisite: None

HIST 104        Modern World Civilization  3  cr
Provides an introductory historical survey of the major events, ideas and people which have shaped world civilizations since 1500, the beginning of the modern era of history. Takes a comparative, interdisciplinary, and non-Eurocentric approach to historical analysis emphasizing diversity and global awareness. Course attributes: CHH. Prerequisite: None

HIST 113        United States History to 1877  3  cr
Focuses on the development of American political, economic, social, philosophical, and cultural values and institutions from Colonial beginnings up to 1877. Sufficient emphasis will be placed on the Massachusetts and Federal Constitutions to meet the state requirement. Course attributes: CHH. Prerequisite: None
COURSE DESCRIPTIONS

HIST 114  United States History after 1877  3 cr
Focuses on the development of American political, economic, social, philosophical, and cultural values and institutions from 1877 to the present. Sufficient emphasis will be placed on the Massachusetts and Federal Constitutions to meet the state requirement. Course attributes: CHH. Prerequisite: None

HIST 220  Reformers, Rebels, Revolutionaries in East Asia  3 cr
Using a "lives and times" approach, this course will introduce to students some men and women whose lives reflect major social, cultural, political and economic developments in the modern history of East Asia (China, Japan, Korea, and Vietnam). These individuals were uniquely positioned to influence history when their society experienced profound transition and transformation through imperialism, industrialization, wars, and social conflicts. Course attributes: CHH. Prerequisite: None

HIST 230  War, Science, and Society  3 cr
Using a variety of case studies from European and world history, this course concentrates on increasing students’ understanding of how conflict and scientific innovation have combined to change societies. Students will research and analyze a broad range of source materials to develop their ability to construct arguments and interpretations and express them logically and persuasively in speech and writing. Possible topics include atomic energy, medicine, transportation, and weaponry. Course attributes: CHH. Prerequisite: None

HIST 240  Reacting to the Past  3 cr
Explores selected periods in American history using elaborate, role playing historical games based in the American past. This course seeks to draw students into engaging the past, developing their understanding and analysis of historical sources, and improving skills in speaking, writing, and leadership. The games covered in the course will vary from semester to semester. Course attributes: CHH. Prerequisite: None

HIST 290  Historical Methods and Theory  3 cr
Introduces the discipline of history, with emphasis in the following areas: how to find, analyze, assess, and utilize primary and secondary source materials; understanding historiography - the study of how history is "made"; the possibilities of digital and public history; how to create written work in upper-level courses that exhibits sound scholarship and meets professional citation standards. Prerequisite: Sophomore status

HIST 305  Topics in European History  3 cr
Focuses on either the histories of particular European nations or a chronological period, issue or theme in European history. Emphasis will be placed on a comprehensive understanding of the subject matter as well as developing skills in reading historical sources, research, writing and oral communication. Possible topics include: Europe in the 20th century; History of Britain; History of Russia; History of France; Ancient Greece & Rome. Prerequisite: Junior/senior status or HIST 290

HIST 310  Topics in Asian History  3 cr
Focuses on either the histories of particular Asian nations or a chronological period, issue or theme in Asian history. Emphasis will be placed on a comprehensive understanding of the subject matter, as well as developing skills in reading historical sources, research, writing and oral communication. Possible topics include: History of Japan; History of India; Chinese Culture and Civilization; and the United States and China. Course attributes: CRCU, SOCJ. Prerequisite: Junior/senior status or HIST 290

HIST 320  Topics in United States History  3 cr
Focuses on a chronological period, issue, or theme in the history of the United States. Emphasis will be placed on a comprehensive understanding of the subject matter, as well as developing skills in reading historical sources, research, writing and oral communication. Possible topics include: The Civil War; Immigration and Ethnicity; The Civil Rights Movement; US & WWII; New England History. Prerequisite: Junior/senior status or HIST 290

HIST 330  Topics in Latin American History  3 cr
Focuses on either the histories of particular nations or a chronological period, issue or theme in Latin American history. Emphasis will be placed on a comprehensive understanding of the subject matter, as well as developing skills in reading
historical sources, research, writing and oral communication. Possible topics include: The United States and Latin America; History of Mexico. Course attributes: CRCU, SOCJ. Prerequisite: Junior/senior status or HIST 290

HIST 340  Topics in the Middle East and Muslim World  3 cr
Focuses on either the histories of particular nations in the Middle East or a chronological period, issue, or theme in the Muslim World. Emphasis will be placed on a comprehensive understanding of the subject matter as well as developing skills in reading historical sources, research, writing and oral communication. Possible topics include: The Middle East & the Modern World; The Muslim World. Course attributes: CRCU, SOCJ. Prerequisite: Junior/senior status or HIST 290

HIST 350  Topics in African History  3 cr
Focuses on either the histories of particular African nations or a chronological period, issue or theme in African history. Emphasis will be placed on a comprehensive understanding of the subject matter as well as developing skills in reading historical sources, research, writing, and oral communication. Possible topics include: History of Africa; African History in Literature and Film. Course attributes: CRCU, SOCJ. Prerequisite: Junior/senior status or HIST 290

HIST 401  Seminar in Historical Periods  3 cr
Examines a particular era in depth. The course will be based around reading and discussion of a variety of historical works with the instructor selecting course materials and methods appropriate to the subject. Emphasis will be placed on analysis, critical thinking and historiography, in addition to mastery of subject matter. Central to the course will be a major research project, with findings presented in both written work and an oral presentation. Prerequisite: HIST 290, junior/senior status or instructor approval

HIST 403  Seminar in Issues in History  3 cr
Examines in depth a particular issue, concept, topic or theme in history. The course will be based around reading and discussion of a variety of historical works with the instructor selecting course materials and methods appropriate to the subject. Emphasis will be placed on analysis, critical thinking and historiography, in addition to mastery of subject matter. Central to the course will be a major research project, with findings presented in both a written work and an oral presentation. Prerequisite: HIST 290, junior/senior status or instructor approval

HIST 405  Senior Thesis  3 cr
The senior thesis is to be taken under the direction of a professor in the department who will work with senior history majors writing a bachelor’s thesis on a selected topic in history. Students will choose a topic and present an outline and proposal to any department faculty member or to the entire department sitting as a thesis committee. The purpose of the senior thesis is to give students the opportunity to do individualized, advanced research in an aspect of history in which they have particular interest and capability. Prerequisite: Senior status or department approval

HIST 450  Career and ePortfolio Workshop  1 cr
Provides senior students majoring in History with an opportunity and framework to reflect on their past work in the major and the wider liberal arts as well as look forward to opportunities and challenges after graduation. Completion of an ePortfolio will be an essential component. Students will work with the instructor, career service professionals, and alumni to understand career and graduate school possibilities and prepare strategies for success. Prerequisite: HIST Major, senior status

HIST 500  Independent Study  1 to 3 cr
Open to juniors and seniors who desire to read widely in a given area or to study a specific topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: Department approval

HIST 510  Teaching Assistant in History  3 cr
Offers highly qualified majors or minors in history an opportunity to assist an instructor in the conduct of a course. The student may be held responsible for conducting classes, review sessions, consulting on course materials, etc. Prerequisite: Department approval
HIST 540    Internship in History  1 to 15 cr
Qualified students may be placed as interns in governmental and social service agencies, museums, etc. Prerequisite: Junior/senior status and department approval

HEALTH SCIENCE (HLTH)

HLTH 100    Clinical Observation  1  cr
Allows the student to learn about a specific health care field through direct observation of clinical practice. The student will work with a faculty sponsor and a clinical supervisor. Students will complete clinical observation and will participate in scheduled discussions about the observation experience. This course is graded on a pass-fail basis and is repeatable to 3 credits. HLTH 100 may be paired with BIOL 500 Independent Study for advanced exploration of the field. Prerequisite: Department approval

HLTH 150    Introduction to Community and Public Health  3  cr
Introduces the fields of Public Health, Health Education and Health Promotion. Topics will include the history of public health, health status, health care philosophy, health and wellness, chronic and infectious diseases, health-related behavior, health theories and program models. Students will learn to use library databases and write a review of health-related literature. A service learning component will allow students to establish projects and relationships that will benefit the community. Course attributes: CSS. Prerequisite: None

HLTH 195    Special Topics in Health Studies  1 to 4 cr
Provides students with an opportunity to explore different topics and current issues in health or related fields. This course is designed to focus on health topics or issues at the introductory level. Prerequisite: None

HLTH 200    Health Promotion and Planning  3  cr
Introduces students to health promotion programs. Students will develop health education curricula and teaching strategies for individuals and groups across the life span and in a variety of settings. Students will explore curricular design theory, health education needs assessments, instructional strategies, learner characteristics, teaching materials and aids, learning environments, and evaluation methods. Prerequisite: None

HLTH 210    Human Growth and Development  3  cr
Explores the life cycle from conception to death. Biological, sociological and psychological perspectives will be examined and applied to everyday situations and social issues. Course attributes: CSS. Prerequisite: None

HLTH 295    Special Topics in Health Studies  1 to 4 cr
Provides students with an opportunity to explore different topics and current issues in health or related fields. This course is designed to focus on health topics or issues at the high introductory level. Prerequisite: Will vary depending on the course.

HLTH 310    Environmental Health  3  cr
Provides a multidisciplinary understanding of the science, practice, laws and policy of environmental health sciences, addressing why risk of disease is modulated by the environment. Topics include types and sources of environmental contaminants, exposure assessment, types of microenvironments, human behavior and time-location-activity patterns, toxicology, the risk assessment paradigm, basics of environmental and occupational epidemiology, and communicating about environmental health sciences. Prerequisite: BIOL 150

HLTH 395    Special Topics in Health Studies  1 to 4 cr
Provides students with an opportunity to explore different topics and current issues in health or related fields. This course is designed to focus on health topics or issues at the advanced level. Prerequisite: Will vary depending on the course.

HLTH 495    Special Topics in Health Studies  1 to 4 cr
Provides students with an opportunity to explore different topics and current issues in health or related fields. This course is designed to focus on health topics or issues at the high advanced level. Prerequisite: Will vary depending on course.
HLTH 540        Internship in Community Health Education  3  cr
Provides students with hands-on experience outside of the college in the field of community health and wellness. The student will work with a faculty sponsor and an off-campus supervisor, as appropriate. Repeatable up to 12 credits. Prerequisite: HLTH 200 and junior/senior status.

HLTH 590        Health Internship  1 to 15 cr
Provides students with hands-on experience in health fields. The student will work with a faculty sponsor and an off-campus supervisor, as appropriate. Prerequisite: Junior/senior Status

HONORS (HONR)

HONR 100        The Nature of Human Nature  3  cr
Explores the problematic notion of human nature employing the open-ended question-asking and interdisciplinary discussion which characterizes the Honors Program. The course ranges widely over philosophical, psychological, literary and anthropological texts, as well as works of art, which propose competing definitions for human nature. Students are asked first to understand and then to criticize each perspective in turn and finally to formulate their own understanding of human nature. Course attributes: CHH, HONR. Prerequisite: None

HONR 102        Topics in Honors  3  cr
Explores designated intellectual topics employing the open-ended and interdisciplinary research and discussion methods which characterize the Honors Program. Provides an opportunity for critical examination at the honors level in various domains. Course attributes: HONR. Prerequisite: None

HONR 201        Special Topics in Honors  3  cr
Undertakes a concentrated study of an interdisciplinary subject to be determined by the honors director in consultation with the Honors Advisory Board. Course attributes: HONR. Prerequisite: None

HONR 210        Director's Book Course  1  cr
Reading of a single text chosen by students in the Commonwealth Honors Program. The text is discussed and augmented by student presentations on related topics. Includes teamwork with Commonwealth honors students at other campuses, perhaps meeting with the book's author and attending lectures on specific related topics. Course lasts seven weeks. Course attributes: HONR. Prerequisite: Membership in the Honors Society

HONR 301        Special Topics in Honors  3  cr
Undertakes a concentrated study of an interdisciplinary subject to be determined by the honors director in consultation with the Honors Advisory Board. Course attributes: HONR. Prerequisite: None

HONR 401        Special Topics in Honors  3  cr
Undertakes a concentrated study of an interdisciplinary subject to be determined by the honors director in consultation with the Honors Advisory Board. Course attributes: HONR. Prerequisite: None

HONR 500        Independent Study in Honors  1 to 12 cr
Open to juniors and seniors who desire to read widely in a given area or to study a specific topic in depth. Written reports and frequent conferences with the advisor are required. Course attributes: HONR. Prerequisite: Department approval

HONR 550        Commonwealth Scholar Thesis Research  3  cr
Independent research, writing, and editing of a Commonwealth Scholar thesis under the direction of a faculty sponsor and the director(s) of the honors program. Program of study to be approved in the previous semester, and culminating in a public presentation and defense of the thesis. This course is repeatable for a maximum of 6 credits. Course attributes: HONR. Prerequisite: Honors Program Director Approval
INTERDISCIPLINARY STUDIES (IDST)

IDST 150        Introduction to Cross-Cultural & Social Justice Studies  3  cr
Opens up a perspective on the history, contemporary experience and cultural diversity of the major ethnic groups/immigrant
groups that make up the American Mosaic, while also discussing issues of social justice and inequality. The focus is on
the U.S. experience, but the course will also discuss the experience of minority groups in other parts of the world through
selected case studies. Course attributes: CHH, CRCU, SOCJ. Prerequisite: None

IDST 200        Introduction to Leadership  3  cr
The foundation course in the Leadership Minor. A description and comparison of major leadership theories along with
current applications and case examples. Also examines issues of ethics, power, teams and women in leadership. Each
student will be involved in a service/leadership and reflection experience throughout the semester which will develop their
leadership skills, and identify the student’s own leadership philosophy and style. Course attributes: LDRS. Prerequisite: None

IDST 299        Introduction to Interdisciplinary Studies  3  cr
Introduces students to approaches, methods and themes in interdisciplinary studies. Draws on concepts and approaches
from selected academic disciplines (such as sociology, history, political science, psychology, cultural studies) to develop
interdisciplinary frameworks for the study of important issues in society. Course topic identified by subtitle (e.g. Introduction
to Urban Studies, Prison, Punishment, and Society). Course attributes: CSS. Prerequisite: None

IDST 320        Interpretation  3  cr
Beginning with the consideration of the raw data with which scholars work, students proceed through the process by which
meaning is constructed and then through the processes by which various interpretations can be challenged or defended,
with special emphasis placed upon standards for distinguishing effective from ineffective arguments. Prerequisite: Junior/
senior status

IDST 350        World History in Contexts  3  cr
Focuses on the history of a geographic area, nation, epoch, or selected social group. Students will critically engage with
a variety of sources, such as written historic documents, oral histories, literary texts, music and cinematic representations
of past and present human experience in local and global (particularly non-Western) contexts. Course topic identified by
subtitle (e.g. History of Africa in Literature and Film; Women in History and Society). Prerequisite: Junior/senior status

IDST 360        Topics in Culture and Society  3  cr
Explores complex and controversial topics in culture and society from the vantage point of at least two different disciplines
(e.g. sociology, history, psychology, literature, cultural studies) and interdisciplinary perspectives. Course topic identified
by subtitle (e.g. Madness and Society; Prison and Society; Globalization; Global Migration; Popular Cinema and Society in
India and the Diaspora; Culture, Power, and Society; Nationalism and Religious Fundamentalism). Prerequisite: Junior/senior
status

IDST 395        Leadership Practicum  1 to 3 cr
Students engage in leadership and/or service experiences either on or off campus and meet weekly for instructor-led
supervision, which comprises the presentation of selected reading topics (e.g. teambuilding) and reflection activities (e.g.
journal discussion) in a small group setting. Leadership Practicum does not count toward the IDST major. Course attributes:
LDRS. Prerequisite: Instructor approval

IDST 401        Senior Seminar  3  cr
Available only to senior interdisciplinary studies majors, this seminar requires students to carry out supervised research
projects within their areas of study and to share the progress and results of their research with seminar participants.
Prerequisite: Senior IDST Major

IDST 500        Directed Independent Study  1 to 3 cr
Open to junior and senior IDST majors who wish to read in a given area or to study a topic in depth. Written reports and
frequent conferences with the advisor are required. Prerequisite: Junior/senior status, department approval

IDST 540  Interdisciplinary Internship  1 to 6 cr
Offers seniors field experience that actively and extensively draws upon the concepts, principles, and skills of at least two different disciplines. The internship must include a strong writing component in which the student interprets his/her field experience with reference to key ideas and themes of the relevant disciplines. Prerequisite: Senior status, department approval

ITALIAN (ITAL)

ITAL 101  Elementary Italian I  3 cr
Introduces the basics of spoken and written Italian, emphasizing communication and comprehension. Classroom time devoted mainly to speaking and listening with some reading and writing. Vocabulary presented in meaningful contexts. First half of a one-year course; intended for those who have no prior exposure to Italian. Conducted in Italian. Prerequisite: None

ITAL 102  Elementary Italian II  3 cr
This course is a continuation of Italian 101. Speaking, listening, reading and writing skills are emphasized. Conducted in Italian. Course attributes: CLA. Prerequisite: ITAL 101

MATHEMATICS (MATH)

MATH 100  Math for Educators I  3 cr
Reviews key concepts in numbers, operations, and algebra. Examines proofs and explanations suitable for elementary instruction. Covers: number bases other than ten, the order of operations, and the addition, subtraction, multiplication, and division of integers, fractions, and algebraic expressions. Prerequisite: None

MATH 101  Math for Educators II  3 cr
Reviews key concepts in functions, algebra, and geometry. Examines proofs and explanations suitable for elementary instruction. Covers: decimals, percents, exponents, radicals, functions, sequences, equations, dimensional analysis, and basic geometry, including angles, areas, volumes, and basic proofs. Prerequisite: MATH 100

MATH 102  Mathematics for Liberal Arts  3 cr
Presents mathematics topics designed to promote mathematical problem solving, reasoning, decision making and communication. Students will develop an understanding of the nature, purposes and accomplishments of mathematics. Topics selected from elementary set theory, logic, number theory, graph theory, voting theory, functions, difference equations and geometry. Course attributes: CMA. Prerequisite: None

MATH 150  Precalculus  3 cr
Introduces topics necessary for the study of calculus. A detailed study of algebraic, trigonometric, exponential and logarithmic functions and equations, and their applications to modeling real world problems. Topics are considered from analytical, graphical and numerical points of view. Course attributes: CMA. Prerequisite: Placement based on SAT scores and high school background

MATH 220  Calculus I  3 cr
Examines limits, continuity, the derivative, differentiation of elementary functions, applications of the derivative and an introduction to the antiderivative. The first of a four-part sequence. Course attributes: CMA. Prerequisite: MATH 150, placement based on SAT and high school background or department approval

MATH 232  Introduction to Statistics  3 cr
Examines descriptive statistics, probability, sampling theory and inferential statistics. Mathematics majors cannot use this course for credit towards their major. Course attributes: CMA. Prerequisite: None
MATH 240        Proof I  3  cr  
Introduces sets, Boolean logic, combinatorics, functions, and the basics of mathematical proof. Prerequisite: Completion of Tier I Quantitative Reasoning or instructor approval

MATH 250        Discrete Mathematics  3  cr  
Provides a foundation in mathematical topics central to the study of computer science, emphasizing mathematical reasoning and algorithms. Topics include propositional logic, Boolean algebra, mathematical proofs and induction, computer arithmetic, elementary combinatorics, recursion, graphs and trees, matrices, sequences and summation. Prerequisite: None

MATH 261        Linear Algebra  3  cr  
Investigates the theory of vector spaces, linear equations, linear transformations, determinants, inner product spaces, eigenvalues and eigenvectors. Prerequisite: MATH 240

MATH 281        Linear Programming  3  cr  
Examines the solution of linear programming problems using graphical methods, the simplex algorithm and the computer. Additional topics may include duality theory and applications chosen from the transportation problem, the personnel assignment problem and two-person, zero-sum games. Prerequisite: MATH 261

MATH 286        Topics in Mathematics  3  cr  
Examines sophomore level topics in mathematics that complement departmental offerings in mathematics or math competency courses. Emphasis is on the nature of mathematical thought or applications of mathematics. Prerequisite: Completion of Tier I Quantitative Reasoning or instructor approval

MATH 310        Proof II  3  cr  
Examines a wide variety of proof techniques (e.g. direct, by contradiction, by contrapostive, bi-directional, uniqueness, by induction, by counter-example). Students will practice these techniques and learn how and when to apply each one. Functions and relations will provide many examples, and be covered in-depth. Prerequisite: MATH 240

MATH 320        Calculus II  3  cr  
Studies antiderivatives, the definite integral, transcendental functions, techniques and applications of integration, an introduction to improper integrals. The second of a four-part sequence. Prerequisite: MATH 220

MATH 328        Interest Theory  3  cr  
Treats topics from the mathematical theory of compound interest. Problems dealing with annuities, amortized schedules, sinking funds and bonds will be analyzed. Prerequisite: MATH 320

MATH 330        Calculus III  3  cr  
Studies infinite series, plane curves, polar coordinates, vectors, vector-valued functions and analytic geometry in three-dimensional space. The third of a four-part sequence. Prerequisite: MATH 320

MATH 331        Probability and Statistics I  3  cr  
Examines probability laws, discrete and continuous random variables and their probability distributions, expectation, moments and moment generating functions, sequences of random variables and Markov chains. Prerequisite: MATH 430 or concurrent enrollment in MATH 430

MATH 332        Probability and Statistics II  3  cr  
Examines functions of random variables, sampling distribution, limit theorems, estimation, hypotheses testing, linear regression, correlation, analysis of variance and analysis of enumerative data. Prerequisite: MATH 331

MATH 340        Graph Theory  3  cr  
Investigates definitions and examples of graphs, graph isomorphism, paths and circuits, connectivity, trees, planar graphs, Euler’s formula, graph coloring, four and five color theorems and applications. Prerequisite: MATH 240
MATH 344   Geometry  3  cr
Studies geometries from an advanced standpoint. Some of the topics that may be covered are non-Euclidean geometry, geometry of the complex plane, affine geometry or projective geometry. Prerequisite: MATH 310

MATH 345   Game Theory  3  cr
Introduces game theory terminology, zero-sum, two-person games, minimax theorem, optimal mixed strategies and applications to economics. Prerequisite: MATH 261

MATH 360   Number Theory  3  cr
Introduces the basic concepts of number theory: the Euclidean algorithm, primes, divisibility theorems, Mersenne and Fermat numbers, linear Diophantine equations, congruences, unique factorization and quadratic reciprocity. Prerequisite: MATH 261

MATH 362   Abstract Algebra  3  cr
Introduces the study of algebraic structures with a detailed examination of groups, their properties, and their mappings, including both isomorphic and homomorphic mappings. Cyclic, symmetric, and quotient groups will be studied, as well as groups of permutations, cosets, and normal subgroups. Also covers the Fundamental Homomorphism Theorem. Prerequisite: MATH 310

MATH 365   Mathematical Modeling  3  cr
Explores the development of mathematical models that solve different types of problems, including both discrete and continuous real-world problems that are either deterministic or probabilistic. Determines solutions analytically and through the use of mathematical software. Prerequisite: MATH 320

MATH 372   History of Mathematics  3  cr
Examines the historical development of mathematics and its impact from ancient to modern times. Prerequisite: MATH 320

MATH 380   Differential Equations  3  cr
Examines first- and second-order differential equations with particular emphasis on nth order equations with constant coefficients, differential operators, systems of equations, series solutions, and Laplace transforms. Prerequisite: MATH 330, CSCI 121 or CSCI 246

MATH 390   Numerical Analysis  3  cr
Studies the approximation of polynomials at points and over intervals; numerical solutions of algebraic and transcendental equations in one unknown using geometric and arithmetic methods; numerical differentiation; and integration. Prerequisite: MATH 320

MATH 430   Calculus IV  3  cr
Concludes the four-semester sequence of calculus with the study of functions in two or more variables, their derivatives and partial derivatives, multiple integrals, line and surface integrals, Green’s Theorem and Stoke’s Theorem. Prerequisite: MATH 330

MATH 440   Topology  3  cr
 Covers various topological spaces. Continuity, connectedness, and compactness are analyzed and compared. Applications of continuity will be applied to the contraction mapping principle. Analysis of product spaces and quotient spaces. Alternate topics may be discussed. Prerequisite: MATH 310

MATH 444   Operations Research  3  cr
Covers various interrelated topics such as linear programming, network analysis, game theory, probability and queuing theory, and optimization theory. Prerequisite: MATH 430

MATH 455   Complex Variables  3  cr
Studies the basic theory of functions of a complex variable including complex numbers and their algebra; analytic functions;
Cauchy-Riemann conditions; and the differential and integral calculus of analytic functions. Prerequisite: MATH 430

MATH 460        Real Analysis  3  cr
Examines the basis of calculus with a rigorous exploration of the function concept from both a set-theoretic and topological viewpoint with particular attention to the completeness of the real number system, limits, continuity and convergence of sequences and series. Prerequisite: MATH 310, MATH 330

MATH 465        Financial Mathematics  3  cr
Introduces the concepts of probability theory: discrete and continuous random variables, and their probability distributions. Covers Brownian motions and geometric Brownian motion, the binomial model, the Black-Scholes formula; the markets for futures, options, and other derivatives. Discusses the mechanics of trading, pricing, hedging, and managing risk using derivatives. Prerequisite: MATH 320

MATH 486        Special Topics in Mathematics  3  cr
Introduces theory that is an extension of various upper-division mathematics courses. Special topics may explore, but are not restricted to: analysis, geometry and theory related to modern technology. Prerequisite: To be determined by the instructor

MATH 500        Independent Study  1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: Junior/senior status, department approval

MATH 540        Internship in Mathematics  3 to 15 cr
Qualified students may be placed as interns in mathematically oriented positions. The internship is designed to supplement and apply classroom study. Prerequisite: Junior/senior status, department approval

MODL 100        Introduction to Language  3  cr
Investigates the nature of language, its function, history and relationship to other aspects of human physical, social, psychological and cultural development. Covers phonetics, phonemics, syntax language acquisition, dialects, language change, discourse analysis, nonverbal and animal communication, language in society and other topics. Prerequisite: None

MODL 101        Elementary Language I:  3  cr
Introduces spoken and written foreign language emphasizing comprehension and communication. Classroom time devoted to speaking and listening, and some reading. Vocabulary presented in meaningful contexts. First half of a one-year course. Intended for those at the absolute beginner level. Prerequisite: None

MODL 102        Elementary Language II:  3  cr
Strengthens spoken and written foreign language emphasizing comprehension and communication. Classroom time devoted primarily to speaking and listening, and some reading. Vocabulary presented in meaningful contexts. Second half of a one-year course. Course attributes: CLA. Prerequisite: MODL 101

MODL 495        Teaching Assistantship in Modern Language  3  cr
Gives modern language students the opportunity to aid in the teaching of lower- and upper-division courses. This course will help prepare students who wish to pursue careers in the teaching of foreign languages. This course will be graded on a pass/fail basis. Prerequisite: Instructor approval, 3 semester hours in MODL

MODL 500        Independent Study  1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: Junior/senior status, department approval
MUSIC (MUSI)

MUSI 159        Music Theory I  4  cr
Develops various ear training skills, including sight singing, melodic and rhythmic dictation, and an introduction to harmonic dictation. These skills will be developed in conjunction with an introduction to music theory: simple and compound meter, scales, intervals, and chords. Includes Piano Lab. Prerequisite: None

MUSI 175        Home Studio Recording  3  cr
Introduces basic concepts of recording, mixing and editing music on a MacBook. Course material includes microphone placement, recording, mixing and basic composition. Prerequisite: None

MUSI 251        Introduction to Music  3  cr
Provides a general historical survey of music and introduces basic music theory. The objective of the course is to help students become conversant in the styles and genres of music in the history of western civilization. Popular music styles are discussed in their historical context as well as for their influences on contemporary culture. Course attributes: CCA. Prerequisite: None

MUSI 252        Piano I  3  cr
Classroom piano instruction for students with little or no musical background or experience. Emphasis on basic piano technique and elementary music theory. Prerequisite: None

MUSI 253        World Music  3  cr
Compares world music and the study of music in the context of culture. Introduces students to the field of ethnomusicology and explores the folk and classical music of Asia, the Balkans, the Americans, and the wealth of ethnic culture in the North Adams area. Course attributes: CCA, CRCU, SOCJ. Prerequisite: None

MUSI 256        Guitar I  3  cr
Provides students with a proficiency of basic guitar techniques through study and performance of appropriate repertoire. Assumes no musical background or experience. Guitars provided on loan. Prerequisite: None

MUSI 258        Private Lessons  1  cr
Studying privately with a professional musician, students will take 10, one-hour instrumental or voice lessons. Through this study they will advance their technique as well as improve their musicianship. Students will study a selection of exercises and repertoire with the studio instructor and will prepare at least one piece for a final evaluation or performance. Course may be repeated for a maximum of 3 credits. Two sections may be taken concurrently on different instruments. Additional fee required. Prerequisite: Department approval

MUSI 259        Music Theory II  4  cr
Introduces musical notations and modes of analysis in a sequential format beginning with basic staff and note symbols, scale and chord structure, major and minor tonality, etc., and continuing through key signatures, chord function, seventh chords, inversions and harmonic analysis and ear training. Mastery of skills is required before admission to the next level (B or better). Prerequisite: MUSI 159 or instructor approval

MUSI 275        Performance Workshop Topic  3  cr
Studies in depth a specific aspect of music performance. Designed to provide advanced work in analysis, interpretation and research. Offerings may include, but are not limited to: Building a Vocal Portfolio, Broadway, Gershwin, Flute Choir, Performing Mozart. Prerequisite: None

MUSI 350        Instrumental Ensembles  1 to 3 cr
Perform with one or more of the following: The Massachusetts College of Liberal Arts Community Band; The Massachusetts College of Liberal Arts Jazz Band; Chamber Ensembles. These groups perform music from standard and contemporary literature and are intended for experienced instrumentalists. Prerequisite: None
COURSE DESCRIPTIONS

MUSI 351  
Topics in Music History  3 cr  
Studies the composition, performance, reception and criticism of music over a specified time period. A historical study of music concerned with a composer’s life and works, performance practice, developments of styles and genres, and place of music in society. Offerings may include but are not limited to genre history, period history, composers or specific works. Prerequisite: MUSI 251

MUSI 352  
Piano II  3 cr  
Develops keyboard skills. Attention given to chording, sight reading, accompanying, improvising, performance practice and the development of a repertoire. Prerequisite: MUSI 252 or equivalent

MUSI 356  
Guitar II  3 cr  
Develops intermediate-level performance skills. Prerequisite: MUSIC 256 or equivalent

MUSI 357  
Vocal Ensembles  1 to 3 cr  
Perform with one or both of the following: The Massachusetts College of Liberal Arts Concert Choir; The Massachusetts College of Liberal Arts Chamber Choir; repertoire includes choral literature from all periods. Prerequisite: None

MUSI 358  
Private Lessons  1 cr  
Studying privately with a professional musician, students will take 10, one-hour instrumental or voice lessons. Through this study they will advance their technique, as well as improve their musicianship. Students will study a selection of exercises and repertoire with the instructor and will prepare at least two pieces for a final evaluation or performance. Course may be repeated for a maximum of 3 credits. Two sections may be taken concurrently on different instruments. Additional fees required. Prerequisite: MUSI 258, department approval

MUSI 359  
Music Theory III  3 cr  
Continues materials presented in MUSI 259. Advanced work in harmonic analysis, secondary dominants, higher tertian chords, dictation and solfeg. Opportunities to improve conducting, performance, and composition skills. Further analysis of form, orchestration, arranging, and ear training. Prerequisite: MUSI 259

MUSI 360  
Composing with Software  3 cr  
Introduces students to compositional techniques and formal components of music composition using music composition software. Students will write several pieces of music and practice exercises to demonstrate the compositional principles under study. The course will include lecture and studio settings. Prerequisite: MUSI 359

MUSI 375  
Advanced Studio Recording/Live Sound  3 cr  
Continues MUSI 175. This course investigates advanced techniques of recording and live-sounding mixing on hardware and software. Techniques include microphone placement, speaker and monitor mixing, cabling and sound board principles. Students will be prepared for internships, graduate school and employment. Prerequisite: MUSI 175

MUSI 410  
Orchestration/Arranging  3 cr  
Studies the technique of orchestration. Instruments of the orchestra, instrumental colors, preparing the score, adapting music for different mediums. Students will create one large project (arrangement for band or orchestra). Prerequisite: MUSI 359

MUSI 415  
Counterpoint  3 cr  
An in-depth study of 18th century counterpoint with an historical approach. Students will write an invention, a trio-sonata and a fugue. Prerequisite: MUSI 359

MUSI 450  
Topics in Music Seminar  3 cr  
Provides advanced work in analysis and interpretation and research. Offerings: Improvisation, Composition; Conducting; History of Musical Theatre, Recording. Prerequisite: MUSI 359
MUSI 458  Private Lessons  1  cr  
Studying privately with a professional musician, students will take 10 one-hour, instrumental-voice lessons. Through this study they will advance their technique and improve their musicianship. Students will study a selection of exercises and repertoire with the instructor and will prepare at least two advanced pieces for a final evaluation or recital performance. Course may be repeated for a maximum of 3 credits. Additional fee required. Prerequisite: MUSI 358, department approval

MUSI 459  Music Theory IV  3  cr  
Examines traditional techniques of musical form and their applications in historical and contemporary styles. Prerequisite: MUSI 359

MUSI 475  Music Production Film  3  cr  
Continues MUSI 375. This course will examine the techniques and procedures of composing and recording music for specific uses with film. Students will create footage or explore outside sourced film and compose and/or mix music to be connected with aforementioned film. Students will explore the creative as well as the technical aspects of film music recording. Prerequisite: MUSI 375

PHED 103  Swimming  1  cr  
Designed for the non-swimmer wishing to learn to swim and swimmers looking to improve their swimming skills. Swimming as a lifelong health/fitness activity is stressed. Prerequisite: None

PHED 108  Community First Aid and Safety  1  cr  
Provides instruction in basic first aid and CPR for the adult, child and infant. Red Cross certification is provided upon successful completion. Prerequisite: None

PHED 109  Scuba  2  cr  
Introduces the skills of scuba diving. Successful completion of this course leads to certification in NAUI, a worldwide diving organization. Prerequisite: None

PHED 110  Fundamentals of Tennis  1  cr  
Instructs students in the fundamentals of tennis and game play. Prerequisite: None

PHED 113  Fundamentals of Beginning Badminton  1  cr  
Provides the opportunity to learn skills and strategy of racket sports, specifically badminton. Prerequisite: None

PHED 120  Emergency Medical Response  1  cr  
Provides instruction in professional rescuer CPR, AED, and first aid for the adult, child, and infant. American Red Cross certification is provided upon successful completion. Prerequisite: None

PHED 125  Fundamentals of Golf  1  cr  
Introduces students to the game of golf. Provides basic instruction in a good golf swing and the following: putting, chipping, iron and wood shots. Prerequisite: None

PHED 132  Fitness for Life  1  cr  
Provides instruction in the components of physical fitness: flexibility, muscular strength and endurance, and cardiovascular endurance. Stress management and nutrition are also discussed. Prerequisite: None

PHED 144  Aikido  1  cr  
Focuses on an understanding of the principles of Aikido, a Japanese martial art. Focus is placed upon mastery of the fundamentals of the art to an extent that the student will be able to apply correct stance, falling and rolling techniques, and proper distance during the practice of self-defense. Prerequisite: None
PHED 146        Self Defense for Women  1  cr
Focuses on awareness and avoidance of a possible attack. Students will learn to punch and kick properly along with basic self defense hands techniques. This is a beginner’s course in self-defense. Course attributes: WMST. Prerequisite: None

PHED 147        Fundamentals of Yoga  1  cr
Teaches the basic Hatha Yoga postures, breathing exercises and relaxation techniques. Prerequisite: None

PHED 150        Special Topics in Physical Education  1 to 2 cr
Introduces students to a variety of physical education activities. Activities vary according to teaching staff and student needs. Prerequisite: None

PHED 160        Strength and Conditioning  1  cr
Designed for students to learn and practice techniques of conditioning as it relates to sport. Testing and training techniques for strength, power, speed, endurance, flexibility and agility will be emphasized. Prerequisite: None

PHED 215        Lifetime Wellness  3  cr
Helps students develop a set of health behaviors that constitute what is generally considered to be a high energy lifestyle. These behaviors stress responsibility for one’s health. Areas covered are physical fitness, nutrition and weight control, stress management, substance abuse, sexually transmitted disease and chronic disease. Prerequisite: None

PHED 375        Scientific Foundations of Coaching  3  cr
Facilitates an understanding of sport coaching based on the most current thinking regarding principles related to training basics, energy fitness, muscular fitness, and biomechanics. Students will learn to develop training programs for better sport performance and to ensure the health and safety of athletes. Prerequisite: EDUC 375

PHED 395        Special Topics in Physical Education  1 to 3 cr
Explores a specific aspect related to physical education, athletics, coaching or sports medicine. Content identifiable by subtitle. Prerequisite: Department approval

PHED 500        Independent Study  1 to 3 cr
Open to juniors and seniors who wish to study a topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: Junior/senior status, department approval

PHILOSOPHY (PHIL)

PHIL 100        A First Course in Philosophy  3  cr
Engages students in the critical investigation and reflective analysis of such fundamental philosophical questions as freedom and moral responsibility, the nature of being and knowledge, the existence of God and the problem of evil, and individual rights and social justice. Emphasizes the relevance that philosophy has to contemporary problems and encourages students to think, read, write, and speak critically and thoughtfully. Course attributes: CHH. Prerequisite: None

PHIL 110        World Religions  3  cr
Examines basic texts, concepts, presuppositions, and ways of life of several major religious traditions. Drawing on both sacred texts and scholarly analyses, as well as fictional and journalistic accounts, the course aims to understand and assess the meaning of religion in human life. Course attributes: CHH, CRCU, SOCJ. Prerequisite: None

PHIL 110H       Honors: World Religions  3  cr
Examines basic texts, concepts, presuppositions and ways of life of several major religious traditions. Drawing on both sacred texts and scholarly analyses, as well as fictional and journalistic accounts, the course aims to understand and assess the meaning of religion in human life. Course attributes: CHH, CRCU, HONR, SOCJ. Prerequisite: None
PHIL 120  Art and Philosophy  3 cr
Adopts a philosophical approach to the experience, understanding and critical assessment of the products and processes of the creative arts. Our inquiries will center on two traditional questions of aesthetic theory: What is art? What is art's special value? This course will be more theoretical than hands-on, though direct, continued experience in the various creative arts will be encouraged and figure prominently in most discussions and assignments. Course attributes: CCA. Prerequisite: None

PHIL 120H  Honors:  Art and Philosophy  3 cr
Adopts a philosophical approach to the experience, understanding and critical assessment of the products and processes of the creative arts. Our inquiries will center on two traditional questions of aesthetic theory. What is art? What is art's special value? This course will be more theoretical than hands-on, though direct, continued experience in the various creative arts will be encouraged and figure prominently in most discussions and assignments. Course attributes: CCA, HONR. Prerequisite: None

PHIL 200  Logic and Critical Reasoning  3 cr
Examines and applies the principles of cogent, sound or critical reasoning and writing, leading to a deeper understanding of language and of the use of logical argumentation. Considers, in the context of real life arguments and claims, (in the rhetoric of philosophy, history and other disciplines) formal and informal principles of clear and systematic thinking and writing. Course attributes: CHH. Prerequisite: None

PHIL 200H  Honors:  Logic and Critical Reasoning  3 cr
Examines and applies principles of cogent, sound or critical reasoning and writing, leading to a deeper understanding of language and of the use of logical argumentation. Considers, in the context of real-life arguments and claims (in the rhetoric of philosophy, history, and other disciplines) formal and informal principles of clear and systematic thinking and writing. Course attributes: CHH, HONR. Prerequisite: None

PHIL 240  Ancient Philosophy  3 cr
Explores the ancient roots of western intellectual history, including contributions of non-European societies, in the context of the politics, economics, language, religion and technology of their times. Students will apply philosophical and historical tools to investigate the development of important ideas and schools of thought in the ancient world and the consequences of those ideas in the present. Prerequisite: PHIL 100, or department approval

PHIL 242  Modern Philosophy  3 cr
Explores the roots of western intellectual history since the European Renaissance, including the politics, economics, language, religion and technology in which they arose. Students will apply philosophical and historical tools to investigate the development of important ideas and schools of thought in the modern world and their consequences in the present. Prerequisite: PHIL 100, or department approval

PHIL 285  Special Topics in Philosophy  3 cr
Challenges students at the sophomore level to understand, construct and criticize both informal (natural language) and formal (categorical and propositional) arguments. The course considers in detail the very notion of argument, argument structure and the criteria for constructing cogent arguments, and distinguishes arguments supported by evidence and reason from mere opinion and belief. Students will learn to apply these logical concepts in their writing, conversing and reading. Prerequisite: PHIL 100, sophomore status, or department approval

PHIL 300  Epistemology and Metaphysics  3 cr
Considers the origins, nature and presuppositions of knowledge, as well as its relation to such concepts as belief, fact, truth, justification and reality. Examines various accounts of the most general features of reality, using categories such as being/becoming, real/apparent, identity/difference, existence, change, time, space and causality. Prerequisite: A 100-level and a 200-level philosophy course or instructor approval

PHIL 322  Business Ethics  3 cr
Examines the values of a business society and the ethical dimensions of decision-making in business, with the aim of
enabling the student to develop a meaningful set of values by which to live and contribute creatively in a business society. Course attributes: LDRS, SOCJ. Prerequisite: A 100-level and a 200-level philosophy course or department approval

PHIL 325 Environmental Ethics 3 cr
Addresses recent and historical perspective on the nature and scope of human moral obligations to the natural environment. Discusses the content and merits of competing ethical theories and their implications for both intra-human affairs and our place in nature as one of its creatures. Course attributes: ENVI, SOCJ. Prerequisite: A 100-level and a 200-level philosophy course or department approval

PHIL 335 Philosophy of Education 3 cr
Seeing education as the principal means to full personhood raises important questions about autonomy, authority, creativity, and knowledge. This course will examine various philosophical perspectives on these questions and their implications for classroom practice. Prerequisite: A 100-level and a 200-level philosophy course or department approval

PHIL 350 Contemporary Moral Issues 3 cr
Views such issues as war and peace, world poverty, sexual morality and spirituality from the perspectives of traditional and contemporary ethical theories. Course attributes: SOCJ. Prerequisite: A 100-level and a 200-level philosophy course or department approval

PHIL 360 Social and Political Philosophy 3 cr
Investigates conceptual and moral questions posed by life in community with others. These include justifications of democracy, political freedom, natural rights, political obligation, social justice and the challenge of anarchism. Course attributes: SOCJ. Prerequisite: A 100-level and a 200-level philosophy course or department approval

PHIL 375 Ethics and Animals 3 cr
Explores the potentially morally significant relationships between humans and various kinds of non-human animals, applying moral propositions that we, as a society, subscribe to, to see whether they have unacknowledged implications for non-humans. Prerequisite: Junior/senior status

PHIL 375H Honors: Ethics and Animals 3 cr
Explores the potentially morally significant relationships between humans and various kinds of non-human animals. Explores moral propositions that we, as a society, subscribe to, to see whether they have unacknowledged implications for non-humans. Course attributes: HONR. Prerequisite: Junior/senior status

PHIL 385 Special Topics in Philosophy 3 cr
Challenges students at the junior level, to understand, construct, and criticize both informal (natural language) and formal (categorical and propositional) arguments. The course considers in detail the very notion of argument, argument structure, and the criteria for constructing cogent arguments, and distinguishes arguments supported by evidence and reason from mere opinion and belief. Students will learn to apply these logical concepts in their writing, conversing, and reading. Prerequisite: A 100-level or 200-level philosophy course, junior status, or department approval

PHIL 400 Contemporary Legal Philosophy 3 cr
Examines the nature of law, the logic and sociology of judicial processes and the relationship of law to morality, including a comparison of major legal theories: natural law, legal positivism, legal realism and Marxist legal analysis. Prerequisite: A 100-level and a 200-level philosophy course, or department approval

PHIL 410 Constructing Reality 3 cr
Focusing on the increasingly popular notion that human beings, individually or corporately, actively construct, in part or in whole, the world. This notion transcends disciplinary boundaries, finding expression in such diverse fields as biology, philosophy, psychology, physics, anthropology, sociology, mathematics, theology, literary theory, cybernetics and linguistics. Prerequisite: A 100 or 200 level philosophy course or department approval
PHIL 410H  Honors: Constructing Reality  3 cr
Focusing on the increasingly popular notion that human beings, individually or corporately, actively construct, in part or in whole, the world. This notion transcends disciplinary boundaries, finding expression in such diverse fields as biology, philosophy, psychology, physics, anthropology, sociology, mathematics, theology, literary theory, cybernetics and linguistics. Course attributes: HONR. Prerequisite: A 100 or 200 level philosophy course or department approval

PHIL 485  Special Topics in Philosophy  3 cr
A philosophical topics course tailored to changing student needs and interests, each offering focuses on a period in the history of philosophy (e.g. Greek philosophy, medieval philosophy, 20th century American philosophy, etc.), the works of an individual philosopher (e.g., Plato, Hegel, Hume, Kant, Descartes, etc.), or the critical examination of a philosophically challenging concept (e.g., freedom, value, meaning, truth, relativism, rights, justice, etc.) Prerequisite: A 100 level and 200 level philosophy course or department approval

PHIL 495  Teaching Assistantship in Philosophy  3 cr
Provides assistance to philosophy majors who intend to pursue active teaching careers in the discipline. Students will be assigned to a department member to assist in the teaching of lower-level courses. Prerequisite: Minimum of 18 semester hours in philosophy and department approval

PHIL 500  Directed Independent Study  1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: A 100-level and a 200-level philosophy course, junior/senior status, department approval

PHIL 540  Philosophy Internship  3 to 9 cr
Philosophy is applicable to a wide range of professions and activities (e.g. law, business, education, public service). The philosophy internship is designed to allow advanced students with a particular focus or career goal to design and pursue such applications with faculty supervision including a significant component of writing about their experiences. Up to 9 credits per semester, three of which may apply to minimum major requirements. Prerequisite: Senior status and department approval

PHYSICS (PHYS)

PHYS I20  Introduction to Engineering  4 cr
Introduces students to basic scientific methodology, current problems and fundamental principles of engineering design. Intended for non-science majors and potential engineering students. Required laboratory introduces fundamental science and engineering principles through collaborative projects such as robotics. Required laboratory. Course attributes: CSTL. Prerequisite: None

PHYS I31  General Physics I  4 cr
This is the first of a two-semester sequence, designed primarily for students in the biological and health sciences and others who desire a rigorous but non-calculus-based course that presents a complete introduction to physics. Covers vectors, one and two dimensional motion, Newton’s laws, and rotational motion, conservation of energy and momentum, gravitation, wave motion, sound, heat and thermodynamics. Required laboratory. Course attributes: CSTL. Prerequisite: None

PHYS I32  General Physics II  4 cr
This is the second of a two-semester sequence, designed primarily for students in the biological and health sciences and others who desire a rigorous but non-calculus-based course that presents a complete introduction to physics. Covers geometrical optics, electricity and magnetism, electronics, modern physics, relativity. Required laboratory. Course attributes: CSTL. Prerequisite: PHYS I31

PHYS I40  Astronomy  3 cr
Looks at historical and modern aspects of astronomy. Topics covered will include: the Earth-Moon system, our solar system,
galaxies, the observable universe, as well as current research in astronomy, including quasars, pulsars, black holes, other planetary systems and the search for extraterrestrial life. Course attributes: CST. Prerequisite: None

**PHYS 151**  Introduction to Mechanics  4  cr
First course in a three-course introductory physics sequence which utilizes a calculus-based approach to study the natural world. This course focuses on kinematics, dynamics, conservation of energy and momentum, and rotational motion. Required laboratory. Course attributes: CSTL. Prerequisite: MATH 150 or MATH 220 or concurrent enrollment in MATH 220

**PHYS 200**  Seminar for Physics Majors  1  cr
Explores the discipline of physics in order to support majors in their academic work and help them understand their career options. Explores the diversity of fields within physics through presentations, reading and writing activities and interactions with peers and mentors. This seminar is required for all MCLA physics majors. Prerequisite: None

**PHYS 251**  Introduction to Electricity & Magnetism  4  cr
Second course in a three-course introductory physics sequence which utilizes a calculus-based approach to study the natural world. This course focuses on electricity and magnetism, including Maxwell’s Laws. Required laboratory. Course attributes: CSTL. Prerequisite: PHYS 151, MATH 220

**PHYS 252**  Introduction to Waves, Optics, and Relativity  4  cr
Third course in a three-course introductory physics sequence which utilizes a calculus-based approach to study the natural world. This course focuses on waves, optics, and special relativity. Required laboratory. Prerequisite: PHYS 251, MATH 320 or concurrent enrollment in MATH 320

**PHYS 301**  Classical Mechanics  3  cr
Studies particle motion in two- and three-dimensions, systems of particles, rigid bodies, moving coordinates systems, and Lagrange’s equations. Prerequisite: PHYS 252, MATH 330

**PHYS 303**  Electricity and Magnetism  3  cr
Studies electrostatics, magnetostatics, electrodynamics, Maxwell’s equations and its applications. Applications include electromagnetic properties of matter, wave propagation, radiating systems and special relativity. Prerequisite: PHYS 252, MATH 330

**PHYS 305**  Electronics  3  cr
Provides experience in building and analyzing analog and digital circuits and becoming familiar with the standard electronics lab equipment, such as oscilloscopes, power supplies, function generators, and multimeters. Students will build circuit containing resistors, capacitors, inductors, transistors, and logic gates and analyze these circuits, which entails calculating the theoretical output (voltage, current, signal shape) and comparing these predictions to the experimental output. Prerequisite: PHYS 351

**PHYS 351**  Modern Physics  4  cr
Studies the discovery of various physical phenomena which led to the development of quantum mechanics and introductory quantum mechanics. Required laboratory. Prerequisite: PHYS 252

**PHYS 361**  Mathematical Physics  3  cr
Presents mathematical methods of use in the solution of physical problems. Topics covered include linear equations: vectors, matrices, and determinants, multiple integrals: applications of integration, vector analysis, ordinary and partial differential equations, coordinate transformations and tensor analysis, and probability. Prerequisite: MATH 320

**PHYS 401**  Advanced Physics Laboratory I  3  cr
Studies laboratory techniques to supplement senior physics courses or work on special projects with departmental approval. Use of current computer technology is integral. Prerequisite: PHYS 252
PHYS 402        Advanced Physics Laboratory II  3  cr
Continues Physics 401. Use of current computer technology is integral. Prerequisite: PHYS 401

PHYS 403        Introduction to Particle Physics  3  cr
Introduces the concepts necessary to understand the structure of matter at the most fundamental level. Considers matter in terms of its most elementary constituents, and discusses the properties, classifications, and forces which act upon these particles. Discusses the relationship between conservation laws and symmetries. The experimental study of elementary particles is discussed throughout the course. Concludes with a discussion of outstanding questions in the field. Prerequisite: PHYS 351

PHYS 460        Statistical Thermodynamics  3  cr
Studies statistical techniques applied to physical phenomena. Topics include kinetic theory of gases, classical thermodynamics and quantum statistical physics. Prerequisite: PHYS 252

PHYS 471        Quantum Mechanics  3  cr
Studies inadequacies of classical mechanics and explores ways of describing nature at the atomic level. Topics include the Schrödinger equation and its solutions for various simple systems, expectation values, operator formalism and matrix representation. Prerequisite: PHYS 351

PHYS 499        Teaching Assistantship in Physics  1 to 3 cr
Provides the opportunity for a student to assist in the preparation and/or implementation of a physics course. Prerequisite: Department approval

PHYS 500        Directed Independent Study  1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: Junior/senior status, department approval

PHYS 510        Independent Research  1 to 3 cr
Participation in research in physics under the direction of a member of the physics faculty in a specific area. Prerequisite: Department approval

PHYS 540        Physics Internship  3 to 15 cr
Offers the upper-level physics major an opportunity to practice physics in an appropriate professional situation. The student will work with a faculty sponsor and an off-campus supervisor in gaining experience significant to the major. Prerequisite: Department approval, junior/senior status

PHYS 580        Special Topics in Physics  1 to 4 cr
Studies concepts, problems, issues, topics or themes that are important in the field of physics. Special topic seminars may explore a variety of topics including but not limited to: physics for educators, solid state physics, robotics and engineering applications. Lab may be required depending on topic. Prerequisite: Department approval

POLITICAL SCIENCE (POSC)

POSC 201        United States Government and Public Policy  3  cr
Introduces the major institutions of national and state government and the discipline of political science. Through interdisciplinary study, students will develop an understanding of political behavior and the public policy processes in the United States. Course attributes: CSS, ENVI. Prerequisite: None

POSC 202        Comparative Government and Public Policy  3  cr
Provides a comparative introduction to common political problems and the discipline of political science. Through an interdisciplinary study of various nation-states, students will develop an understanding of political behavior, political
institutions, and public policy processes. Course attributes: CSS, ENVI. Prerequisite: None

POSC 210  Political Science Research and Methods  3  cr
Provides students with an understanding of various theoretical approaches to the study of politics and the public policy processes, as well as developing skills in social science quantitative and qualitative research methods. Prerequisite: None

POSC 300  Politics & the News Media  3  cr
Examines politics in America with an eye to the role and responsibility of the news media in, and the relationship of the press to, politics. Analyzes the print and electronic media and current political campaigns, as well as how politics and the news media have been portrayed in film. Prerequisite: Junior/senior status or POSC 210

POSC 304  Constitutional Law  3  cr
Analyzes constitutional law with special emphasis on civil liberties and civil rights. Legal issues will be examined in the light of relevant social and political conditions. Course attributes: SOCJ. Prerequisite: Junior/senior status or POSC 210

POSC 305  American Political Institutions  3  cr
Surveys the three branches of the national government in the United States: Congress, the Presidency, and the Supreme Court. Using a variety of theoretical models, this course seeks to explain how the structure of these institutions affects behavior of actors in the institutions, outcomes as a result of those behaviors, and the practical process of policy formulation. Prerequisite: Junior/senior status and POSC 201 or POSC 201 and POSC 210

POSC 306  Topics in United States Political Science  3  cr
Focuses on aspects of issues and topics in political science and public policy that are at least mainly geared towards understanding the United States case and the corresponding academic research. Emphasis is placed on critical thinking, writing skills, and engagement with the political science literature. Examples of topics in this area include: State and Local Government, Campaigns and Elections, Women in Politics. Prerequisite: Junior/senior status or POSC 210

POSC 315  Topics in Global Political Science  3  cr
Focuses on aspects of issues and topics in political science and public policy that involve extensive analysis of international relations or comparative politics and the corresponding academic research. Emphasis is placed on critical thinking, writing skills, and engagement with the political science literature. Examples of topics include: Model UN, Latin American Politics & Society, and Global Development. Prerequisite: Junior/senior status or POSC 210

POSC 323  American Political Behavior  3  cr
Surveys American political behavior. The concept of political behavior is broad, but encompasses areas such as the psychology of political decision making, the dynamics of opinion formation, the importance of values and affect, the stability of mass opinion, political leadership and responsiveness and the role of the media. Prerequisite: Junior/senior status or POSC 210

POSC 333  The Politics of War and Conflict  3  cr
Explores issues in war and peace within countries and in the international system. Uses political science theories and recent cases to analyze the origins, evolution and resolution of various forms of conflict, including civil war, terrorism, and revolution. Prerequisite: Junior/senior status or POSC 210

POSC 340  Inequality and Social Policy  3  cr
Examines social welfare policies and programs from the New Deal to the present analyzing their economic, cultural, historic and political roots. Emphasis on selected issues such as poverty and inequality, healthcare, abuse and neglect, daycare and parental leave. Examines social welfare policies as expressions of American values and political processes and compares American programs to those of other industrialized countries. Special attention paid to the experience of social program recipients. Course attributes: C&FS, SOCJ, WMST. Prerequisite: SOCI 100 or any Self & Society course
POSC 343        Political Economy  3  cr
Analyzes the intersection of politics and economics both domestically and internationally in order to understand the accumulation and distribution of power and wealth. Uses theories from both political science and economics to explore issues such as taxation, redistribution, poverty, trade, finance, and immigration. Prerequisite: Junior/senior status or POSC 210

POSC 353        International Law & Organizations  3  cr
Explore issues involving the balance between anarchy and structure in the international system. Uses political science theories and recent cases to analyze the origins and evolution of international laws and norms, the United Nations and major regional organizations, such as the European Union while also examining the impact of these institutions on issues of global importance. Prerequisite: Junior/senior status or POSC 210

POSC 401        Seminar in Political Science  3  cr
Explores in depth a particular problem, concept, or theme in political science using advanced research methods. Possible topics include: The American Presidency; Global Development; The American Political Tradition; Political Psychology. Prerequisite: Junior/senior status and one POSC course

POSC 403        Seminar in Public Policy  3  cr
Explores in-depth the public policy process in the United States and/or other nation-states using advanced forms of analysis. Possible topics include: U.S. Public Policy; Comparative Public Policy; Healthcare Policy; Education Policy. Prerequisite: Junior/senior status and one POSC course

POSC 450        Career and ePortfolio Workshop  1  cr
Provides senior students majoring in Political Science and Public Policy with an opportunity and framework to reflect on their past work in the major and the wider liberal arts as well as look forward to opportunities and challenges after graduation. Completion of an ePortfolio will be an essential component. Students will work with the instructor, career service professionals, and alumni to understand career and graduate school possibilities and prepare strategies for success. Prerequisite: PSPP Major, senior status

POSC 500        Independent Study  1 to 3 cr
Open to juniors and seniors who desire to read widely in a given area or to study a specific topic in depth. Written reports and frequent conferences with the advisor are required. Prerequisite: Department approval

POSC 510        Teaching Assistant in Political Science  3  cr
Offers highly qualified majors or minors in political science an opportunity to assist an instructor in the conduct of a course. The student may be held responsible for conducting classes, review sessions, consulting on course materials, etc. Prerequisite: Department approval

POSC 540        Internship in Political Science  1 to 15 cr
In consultation with a political science professor, students may apply for and earn internship credit by interning with elected officials or at local or town governments, state governments, national governments. Students may also intern for election campaigns, non-governmental organizations, law offices, interest groups, or other placements approved by the department. Internships are evaluated by a combination of site coordinator evaluations, student reports, and a debriefing memo. Prerequisite: Department approval

PSYCHOLOGY (PSYC)

PSYC 100        Introduction to Psychology  3  cr
Introduces students to the science of psychology, presenting the basic principles of mental processes and behavior. To introduce the process of empirical investigation, research participation is required. Course attributes: CSS. Prerequisite: None
PSYC 101  Introductory Seminar in Psychology 1 cr
Introduces new psychology majors to the scientific basis of psychology through interactions with faculty, student mentors, and community professionals. Explores unique opportunities within the major and the college (research, internships, study away/abroad). Students will create a psychology major portfolio and will begin to document their learning and engagement with the discipline. Required for all MCLA psychology majors. Prerequisite: PSYC Major

PSYC 208  Applied Developmental Psychology 3 cr
Examines developmental theory and research from an applied perspective. Physical, cognitive, language, social and emotional development from early childhood through adolescence will be covered with an emphasis on application. (Students cannot receive credit for both PSYC 208 and PSYC 210). Course attributes: C&FS. Prerequisite: PSYC 100 or any Self and Society course

PSYC 210  Developmental Psychology 3 cr
Examines the development of the child through adolescence, including neonatal and prenatal development. Major theories of physical, cognitive and social development are discussed. The research methods and controversial issues in developmental psychology are emphasized. (Students cannot receive credit for both PSYC 210 and PSYC 208). Course attributes: C&FS. Prerequisite: PSYC 100 or any Self and Society course

PSYC 230  Social Psychology 3 cr
Examines human social behavior emphasizing environmental and situational factors. Theoretical and applied issues are considered within selected topics. (Psychology majors cannot receive core Self & Society credit for PSYC 230). Course attributes: CSS, LDRS. Prerequisite: PSYC 100 or any Self and Society course

PSYC 270  Abnormal Psychology 3 cr
Examines theoretical perspectives of maladaptive behavior and the concepts of stress, coping, normality and abnormality. Emphasis on assessment, diagnosis, and treatment of psychological disorders of childhood, adolescence and adulthood. Prerequisite: PSYC 100 or any Self & Society course

PSYC 290  Psychological Research and Statistics I 4 cr
Introduces the nature of empirical investigation in psychology and the role of data analysis in psychological research. Students learn the value of research methodology as applied to the field of psychology with a focus on concepts and interpretation of basic research design and statistical analysis. A weekly lab introduces data analysis software applications. Prerequisite: PSYC 100 and Tier I Quantitative Reasoning

PSYC 291  Psychological Research and Statistics II 4 cr
A continuation of PSYC 290, extending the nature of empirical investigation in psychology to specific research designs and statistical analyses. The course focuses on concepts, interpretation and applications of methodology and data analysis used by psychologists, including topics of ethics and APA style. Mastery of course material will be demonstrated by a completed research paper; weekly lab extends students' knowledge of statistical analysis software applications. Prerequisite: Grade of C or better in PSYC 290

PSYC 299  Sophomore Seminar in Psychology 3 cr
Introduces and explores empirical research, theory and applications in selected areas of psychology. Emphasis will be placed on library research and class discussion. Critical reading and analysis skills will be assessed through several papers and presentations. Prerequisite: PSYC 100

PSYC 301  Psychology Professional Seminar 1 cr
Provides junior and senior psychology majors with an opportunity to reflect on their past work in the major. Explores opportunities and interests in preparation for careers and graduate study in the field. Students will work with the instructor and other professionals to develop and implement strategies for success after MCLA. Required for all MCLA psychology majors. Prerequisite: PSYC 101, junior status, PSYC Major
PSYC 310  Cognitive Psychology  3 cr
Studies knowing, learning, thinking and language. Topics include theories of cognition, language, attention, problem solving, memory, consciousness and creative thinking. Prerequisite: PSYC 291

PSYC 316  Behavior Analysis  3 cr
Introduces the field of behavior analysis, examining behavior analytic history, philosophy, concepts and principles. Techniques and strategies inside and outside the laboratory will be discussed in detail. Students learn the basics of database approaches to behavior treatment. Concepts will be illustrated during discussion of a wide variety of behavior problems associated with developmental disabilities, substance abuse, physical fitness and academic delays. Prerequisite: PSYC 100

PSYC 325  Environmental Psychology  3 cr
Examines the relationship between the natural and built physical environment from a multidisciplinary perspective. Focuses on the behavioral effects of spatial design, noise, privacy, personal space and climate. Prerequisite: 200 level PSYC or SOCI course or completion of Tier II Self & Society domain

PSYC 331  Biological Psychology  3 cr
Examines the relationships between brain function and behavior using concepts from psychology and biology. Topics include motivation and emotion, learning and memory, sensory systems and perception, language disabilities and mental disorders. Prerequisite: PSYC 291

PSYC 332  Drugs and Human Behavior  3 cr
Examines the use and abuse of drugs from biological, psychological and cultural points of view. Addresses contemporary efforts in education, prevention and treatment of abuse. Prerequisite: One 200-level PSYC course or completion of Self and Society domain

PSYC 335  Organizational Psychology  3 cr
Emphasizes the application of psychological theory and techniques to the management of behavior in structured organizations. Focuses on the concepts of motivation, leadership, and interpersonal and group process. Course attributes: LDRS. Prerequisite: 200 level PSYC or SOCI or BADM course or completion of Tier II Self & Society domain

PSYC 340  Psychology of Children with Special Needs  3 cr
Examines the special needs of children, the methods used to determine these needs, and the procedures used to meet these needs. Course attributes: C&FS. Prerequisite: PSYC 208 or PSYC 210

PSYC 350  Theories of Personality  3 cr
Examines classical and contemporary approaches to personality theory. Emphasizes application and empirical support for theoretical positions. Prerequisite: PSYC 270 and junior status

PSYC 355  Human Sexuality  3 cr
Examines the field of human sexuality from psychological, biological and sociological perspectives. In covering a wide range of contemporary topics, emphasis is on empirical, verifiable scientific information. Course attributes: C&FS, WMST. Prerequisite: 200 level PSYC or SOCI course or completion of Tier II Self & Society domain

PSYC 356  Psychology of Gender  3 cr
Focuses on the similarities and differences between males and females, masculinity and femininity. Explores the origins and maintenance of gender stereotypes and their consequences. Course attributes: C&FS, WMST. Prerequisite: 200 level PSYC or SOCI course or completion of Tier II Self & Society domain

PSYC 357  Psychology of Women  3 cr
Examines psychological and sociocultural issues concerning women in our society. Women’s experiences will be covered in areas that are stereotypically thought of as male-oriented as well as those more exclusive to females. Course attributes:
WMST. Prerequisite: 200 level PSYC or SOCI course or completion of Tier II Self & Society domain

PSYC 360  Measurement and Assessment  4  cr
Introduces concepts related to psychological testing and measurement. Topics will include measurement theory, psychometric principles, ethics of measurement and assessment, and measurement design in different settings (government, clinical, educational, and/or industrial/organizational). Mastery of course material determined by design, administration, interpretation and critique of assessments. Content identified by subtitle. This course is repeatable for a maximum of 8 crs. Required laboratory. Prerequisite: PSYC 291

PSYC 370  Human Communication and Perception  3  cr
Presents an information processing approach to how we perceive and communicate about the world. Also examines our acquisition and use of language, as well as societal influences on perception and thought. Prerequisite: PSYC 291

PSYC 376  Sport Psychology  3  cr
Introduces students to the current research and theoretical perspectives related to various psychological and psychosocial components of exercise, sport participation and competition. Personality, motivation, social facilitation, anxiety, aggression and other factors that influence individuals and teams/groups are examined. Prerequisite: Completion of Tier II Self & Society domain

PSYC 380  Educational Psychology  3  cr
Studies the conditions and theories of classroom learning. Scope: instructional objectives, task analysis, conditioning, concept and rule learning, problem solving, memory, transfer and motivation. Course attributes: C&FS. Prerequisite: PSYC 208 or PSYC 210

PSYC 386  Adolescent Development  3  cr
Examines the cognitive, social, emotional and physical development of the adolescent from a psychological perspective. Psychological and social problems that may arise during adolescence are discussed. Course attributes: C&FS. Prerequisite: One 200-level PSYC course

PSYC 387  Childhood Disorders  3  cr
Examines the etiology and clinical characteristics of behavioral disorders in infancy through adolescence, including emotional disturbances, anxiety and conduct disorders, mental retardation and learning disabilities. Emphasis on theoretical perspectives, research, assessment, early intervention and prevention. Course attributes: C&FS. Prerequisite: PSYC 208 or PSYC 210

PSYC 390  Research Design and Analysis  4  cr
Focuses on advanced methodology, data analysis and interpretation in psychological research. A research project is required. Required laboratory. Prerequisite: PSYC 291

PSYC 391  Research Assistant in Psychology  1 to 3  cr
Provides opportunities for students to assist faculty in conducting empirical research. Particular responsibilities may include data collection, statistical analyses and other activities involved in planning and conducting research in psychology. Amount of credit will be determined by the faculty supervisor in consultation with the student. The course may be repeated up to a maximum of six credits with all grades assigned as pass/fail. Enrollment requires permission of the instructor. Prerequisite: 200-level PSYC course, instructor approval

PSYC 397  Research Seminar:  4  cr
Applies research design and practice to selected problems. Includes literature review, deriving and empirically testing hypotheses. Requirements involve preparation of laboratory and other research materials, recruitment of participants and collection, analysis, and interpretation of resulting data. Culminates in preparation and submission of a complete report of the research project. Content identified by subtitle. This course is repeatable for a maximum of 8 crs. Required laboratory. Prerequisite: Instructor approval
PSYC 399  Honors Seminar in Psychology  3 cr
Surveys and critically examines selected areas and issues in psychology. Emphasizes multidisciplinary and interdisciplinary approaches to the topics selected for study. Designed for junior and senior majors intending graduate study in psychology, the seminar requires students to develop a program of reading, give oral presentations and complete a literature review paper. Prerequisite: PSYC 291

PSYC 410  History of Psychology  3 cr
Examines the development of psychology as a science, an academic discipline, and a profession. Includes a comparative analysis of major contemporary theories in psychology. Prerequisite: PSYC 291 and completion of 9 upper-division credits in psychology

PSYC 416  Research in Behavior Analysis  4 cr
Participate in the design, implementation, analysis and dissemination of empirical research. Students will examine the strategies and rationale underlying within-subject designs through exposure to recently published articles from the behavior analytic literature. The relationship between experimental and applied research will be examined closely. All students will prepare an APA-style manuscript describing their research project. Required laboratory. Prerequisite: PSYC 316

PSYC 440  Counseling Methods in Psychology  3 cr
Studies techniques applicable in the helping services and counseling. Theories of counseling and basic psychotherapy will be reviewed. Experiential sessions will demonstrate established theories. Prerequisite: PSYC 270

PSYC 470  Teaching Assistant in Psychology  1 to 3 cr
Provides the opportunity for students to assist a faculty member in the preparation and implementation of a psychology course. Particular responsibilities may include providing support with class activities and assisting students enrolled in the course. Amount of credit will be determined by the faculty supervisor in consultation with the student. The course is graded pass/fail. Enrollment requires permission of instructor. Prerequisite: Instructor approval

PSYC 495  Special Topics in Psychology  3 cr
Explores one or more special topics in psychology. Topic will be specified when the course is offered. Prerequisite: Junior/senior status and completion of Tier II Self & Society domain

PSYC 496  Research in Psychology  3 cr
For junior and senior psychology majors who choose to conduct psychological research independently in a specific area. The research will be carried out under the direction of the faculty supervisor and will require a substantive scholarly report of the research. The course may be repeated for credit with the permission of a faculty member. The course is graded pass/fail. Enrollment requires permission of the instructor. Prerequisite: Instructor approval

PSYC 499  Advanced Seminar in Psychology  3 cr
An intensive examination of a selected topic in psychology. Mastery of the seminar material will be assessed by the completion of an APA-style paper. Prerequisite: PSYC 291 and completion of 9 upper-division credits in PSYC

PSYC 500  Independent Study  1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth. Written reports and frequent conferences with the advisor are required. Enrollment requires individual application and permission of the department. Prerequisite: Junior/senior status, department approval

PSYC 516  Functional Assessment and Intervention  3 cr
Receive an intensive overview of behavioral assessment strategies designed to determine the environmental factors that influence behavior problems. Examples from recent literature will be examined in depth with a focus on applications to educational and other settings. All students will conduct three simulated functional assessments and behavior plans. Prerequisite: PSYC 316
PSYC 518  Ethics and Professional Issues in Behavior Analysis  3 cr
Designed to familiarize students with the ethical principles of behavior analysis and the historical contexts in which they developed. We will examine ethics as they apply to research, clinical practice, and the role of the behavior analyst in society. Prerequisite: PSYC 316

PSYC 540  Psychology Internship  3 to 15 cr
Provides opportunities in a variety of public agencies and private organizations to gain practical experience and to develop skills in applying psychological theories, principles, methods and techniques to the management of problems of human development, thought, adjustment and behavior. Enrollment requires individual application and permission of the department. Prerequisite: Junior/senior status, department approval

PSYC 550  Senior Thesis  3 cr
Requires completion of a formal thesis on a significant topic in psychology. Intended for senior psychology majors, a literature review and proposal, along with approval of two members of the psychology faculty, is required prior to enrollment in the thesis course. Prerequisite: Senior PSYC major, department approval

PSYC 552  NECC: Advanced Learning  3 cr
Provides an overview of modern behavior analytic concepts and terminology. Beginning with an examination of the history and assumptions of modern behaviorism, students will learn the competencies of behavior analysis in relation to working with children with special needs. Requires acceptance and enrollment in MCLA-NECC cooperative program. Prerequisite: Department approval

PSYC 553  NECC: Functional Analysis and Treatment of Behavior Disorders  3 cr
Covers the goals and strategies of behavioral assessment. Students will learn indirect, descriptive and experimental assessments. All students will perform a descriptive functional analysis and an analog functional analysis. Required acceptance and enrollment in MCLA-NECC cooperative program. Prerequisite: Department approval

PSYC 554  NECC: Systematic Inquiry in Applied Research  3 cr
Students will read and discuss recently published articles in the field of Applied Behavior Analysis. Class sections will focus on student presentations and discussion of articles selected by the instructor. The goal is to further student knowledge and inquiry in applications of empirical research in applied behavior analysis. Requires acceptance and enrollment in MCLA-NECC cooperative program. Prerequisite: Department approval

PSYC 555  NECC: Seminar and Practica in Clinical Practice 9 cr
Involves working with special needs children under the mentorship of a faculty advisor. Students complete readings and research related to their classroom experiences and write a paper on a topic chosen by the student and approved by the instructor. Each student is assigned teaching responsibilities under the supervision of a faculty mentor. Students participate in a weekly seminar designed to raise issues and discuss topics relevant to the practicum experience and assigned readings. Prerequisite: Department approval, requires acceptance and enrollment in MCLA-NECC Cooperative Program

SKILL (SKIL)

SKIL 096  Mathematics for College  3 cr
Provides the means for students to develop mathematical literacy by reviewing computational skills and selected algebraic functions. Students will acquire quantitative sense and confidence to prepare for core curriculum or foundation courses in quantitative skills. Course includes initial diagnostic/placement test, which determines specific learning units to be covered. The course is individualized and runs with small group, individual and large group instruction. Prerequisite: Placement based on college testing, SAT scores, faculty or admissions referral
SOCIOLOGY (SOCI)

SOCI 100   Introduction to Sociology 3 cr
Introduces the history, major concepts, and methods of sociology. Examines elements of social organization, sociological analysis of groups and relationships between major institutions of society. Emphasizes the idea of the sociological imagination and its application to contemporary issues. Course attributes: CRCU, CSS, SOCJ. Prerequisite: None

SOCI 201   Social Problems 3 cr
Studies problems and disorganization in modern industrial society such as: poverty, racism, sexism, environmental pollution, militarism and family issues. Course attributes: CRCU, CSS, SOCJ. Prerequisite: SOCI 100 or a 100-level Self & Society course

SOCI 210   Families 3 cr
Explores contemporary American families (the forms they take, the functions they serve, the problems they face) within the context of families of other historical time periods, and other cultures. Presents an interdisciplinary examination of such topics as: gender roles, marriage, divorce and blended families, nonmarital lifestyles, parenting, family policy and technology’s impact on family life. Course attributes: C&FS, CSS, WMST. Prerequisite: SOCI 100 or a 100-level Self & Society course

SOCI 282   Social Constructions of Deviance 3 cr
Analyzes social definitions of and responses to deviance, as well as explanations of its causes. Examines drug and alcohol use and abuse, mental illness, sexual and gender differences, and other issues frequently considered deviant. Course attributes: CSS. Prerequisite: SOCI 100

SOCI 305   Latinas in US Society 3 cr
Addresses the modern lives of young Latinas in the U.S. Topics to be discussed include, but are not limited to, family, friendship, romance, appearance, identity, and socioeconomic status. In particular, the subject of "voice" or "voz" and the strength Latinas gain in society through expressing their opinions and giving testimony will be explored. The subject of the commodification and national/intercultural expectations of the body of Latinas will also be given much attention. Course attributes: C&FS, CRCU, SOCJ, WMST. Prerequisite: SOCI 100

SOCI 312   Sociological Theory 3 cr
Explores the meaning of theory and its utility in the sociological enterprise. Examines foundational works of major classical theorists (Comte, Marx, Weber, Durkheim) and introduces contemporary perspectives such as symbolic interactionist, critical, feminist, and postmodern theories. Prerequisite: SOCI 100 and two SOCI electives

SOCI 315   Religion in Modern Society 3 cr
Studies religion as a social phenomenon in all its diversity in American culture. Emphasis will be placed on understanding religion in a post-modern world. Examines how sociology, distinct from theology, psychology and common sense approaches religion. Explores how religion is socially, culturally and historically constructed. Prerequisite: SOCI 100

SOCI 316   Sociology of Sport 3 cr
Analyzes sport as a microcosm of society. Specifically focuses on American sport from youth through the professional levels. Studies sport and the following: socialization, business, mass media, ethical dilemmas, race, gender, structural inequality and secular religion. Examines the sociological reasons why contemporary sport is organized and functions as it does. Prerequisite: SOCI 100

SOCI 321   Race and Ethnic Relations 3 cr
Explores the intersection of race, ethnicity, and issues of diversity in the U.S. and beyond. Begins by establishing what race and ethnicity are in the U.S. Course topics related to race will include family relations, friendships, urban life, gender, socioeconomic status, stereotypes, community, and space/location. Occurrence of racism and related inequality in its various forms is a central discussion thread throughout the course. Course attributes: CRCU, SOCJ. Prerequisite: SOCI 100
SOCI 322    Population 3 cr
Studies human populations in terms of size, composition, and distribution, and the causes and social consequences of these three characteristics. Examines issues of population policy at community, national, and international levels. Course attributes: ENVI. Prerequisite: SOCI 100

SOCI 325    Contemporary Social Issues through Film 3 cr
Examines American society through the medium of film. Students learn how to analyze movies sociologically, to place them in their historical and cultural context, both as shaping forces in society and as reflections of underlying social issues. Prerequisite: SOCI 100

SOCI 331    Methods of Social Research 3 cr
Examines sociological methods commonly used in the study of the social world, as well as ethical and political issues related to the research process. Explores the various steps of research design, data collection (questionnaire construction, interviewing, observation, content analysis) and data analysis. May include an independently designed research project. Prerequisite: SOCI 100 and two SOCI electives

SOCI 351    Criminology 3 cr
Studies the nature of crime and theories of criminal behavior; operation of courts, police systems and correctional institutions; probation, parole and crime prevention. Course attributes: SOCJ. Prerequisite: SOCI 100

SOCI 352    Juvenile Crime, Justice and Advocacy 3 cr
Analyzes deviant/offender behavior and the criminal justice system for children and youth. Considers current issues (e.g., gangs, racism/discrimination, policing, sentencing, incarceration) from various societal perspectives. The course also explores youth advocacy efforts and collaborative work in schools and the larger community to assist youth offenders. Course attributes: C&FS. Prerequisite: SOCI 100

SOCI 355    Law and Society 3 cr
Analyzes the development of law in complex societies, its functions and the social forces that influence rule-making and rule-sanctioning institutions. Examines the workings of legislatures, courts and executive administrative agencies, as well as the role performance of legal practitioners - legislators, judges and lawyers. Course attributes: SOCJ. Prerequisite: SOCI 100

SOCI 360    Women, Movies, and MTV (music television) 3 cr
Addresses sociological and social work accounts of the lived experiences of women in American society including special populations such as survivors of rape, spouse abuse, incest and mental illness. Compares these accounts to historical and cultural depictions of women in movies and MTV. Examines the images of women in film as a powerful form of cultural conditioning. Course attributes: C&FS, WMST. Prerequisite: SOCI 100 or PSYC 100 or any Self & Society course

SOCI 395    Special Topics in Sociology 3 cr
A course or seminar for students who have taken a substantial number of sociology courses. Such courses or seminars may explore any of a variety of topics concerning social groups, social institutions, social interaction patterns, or any of the vast array of topic areas dealt with by sociologists. Prerequisite: SOCI 100 and additional prereqs to be announced

SOCI 402    Genocide 3 cr
Examines legal definition and cases of genocide to understand structural preconditions and effective prevention strategies. Course attributes: CRCU, SOCJ. Prerequisite: SOCI 100 and junior/senior status or instructor approval

SOCI 403    Social Movements 3 cr
Introduces students to major social movements of the 20th Century in the U.S. and the variety of state responses to them. Examines political, social, economic conditions that gave rise to movements and the ways in which these movements have succeeded and failed. Explores why people join movements and the tactics they use to achieve movement goals. Additional focus on how art (poetry, literature, performance art, murals, photography) can function as a form of political protest. Course attributes: LDRS, SOCJ. Prerequisite: SOCI 100 and junior/senior status or instructor approval
SOCI 410  Sociology of Education  3 cr  
Uses a race, class, gender analytic structure to investigate social inequalities in education. School choice, urban schools, school sports, space/location, and friendship are some of the areas that will be explored. Family involvement in school choice, tracking, and magnet programs will also be considered. Grade school through college educational outcomes will be addressed. Course attributes: C&FS. Prerequisite: SOCI 100 and junior/senior status or instructor approval.

SOCI 415  Sociology of Happiness  3 cr  
Explores attainment and production of human happiness at individual and societal levels. It examines happiness theory and research from sociology, philosophy, anthropology, social psychology, health, political science, economics, public policy, and other fields to provide a comprehensive understanding of wellbeing and its multiple sources. Prerequisite: SOCI 100 and junior/senior status or instructor approval.

SOCI 425  Sociology of Childhood  3 cr  
Explores the sociology of childhood. The course will begin by establishing definitions for the child and the sociology of childhood. Methodological issues surrounding children as research subjects, meaning making, sense of belonging, inequality, and culture in the worlds of childhood will be addressed. There will be a special focus in this course on the existence and displays of agency and interpretive reproduction in children’s lives. Course attributes: C&FS. Prerequisite: SOCI 100 and junior/senior status or instructor approval.

SOCI 432  Doing Sociology: Workshop in Research Methods  4 cr  
Provides experience in designing and carrying out an applied community or institutional research project. Involves practical application of research techniques and includes: a review of the literature, questionnaire construction, interviewing/data gathering, coding and data analysis. Prerequisite: SOCI 100, SOCI 331, and department approval.

SOCI 441  Social Stratification  3 cr  
Explores and analyzes stratification systems, theories of stratification, social mobility, types of inequality, methods of measuring inequality, and the impact upon life style and personality. Course attributes: SOCJ. Prerequisite: SOCI 100 and junior/senior status or instructor approval.

SOCI 495  Advanced Special Topics in Sociology  3 cr  
Provides advanced sociology students with an opportunity to explore advanced topics, current issues, methods, and theories in the field of sociology. Prerequisite: SOCI 100 and junior/senior status or instructor approval.

SOCI 499  Teaching Assistant in Sociology  3 cr  
Supervised academic class presentation(s), assistance with study sessions and tutorials, attendance at all classes, final paper and other duties negotiated with course instructor. Must have completed a minimum of four (4) courses in the discipline, have a 3.0 overall GPA or better, and a B+ or better in the course. This course can be taken for either pass/fail or traditional letter grading. This course requires approval of the department prior to enrollment. Prerequisite: Junior/senior status.

SOCI 500  Independent Study - Sociology  1 to 3 cr  
Open to juniors and seniors who wish to read in a given area or to study a topic in depth under the direction of a sociologist. Requires written reports and frequent conferences with the advisor. Prerequisite: Junior/senior status, department approval.

SOCI 501  Research Assistant  1 to 3 cr  
Students will assist faculty member in conducting original quantitative and/or qualitative research projects. The responsibilities may include collecting archival, ethnographic, interview, or focus group data, working with data sets, or other research activities. This course is repeatable for a maximum of 6 credits. Prerequisite: SOCI 331, junior/senior status, instructor approval.

SOCI 505  ProSeminar  3 cr  
Prepares students for the start of potential graduate studies in the social sciences or a related discipline. The seminar will
focus on and facilitate student exploration of graduate education and training opportunities including such topics as: the graduate school/program research and selection process; crafting curriculum vitae and/or business resumes; constructing a statement of purpose; and editing writing samples for graduate applications. Prerequisite: Instructor approval

SOCI 540 Sociology Internship 3 to 15 cr
Placement in public or private organizations that apply knowledge and approaches from the social sciences. Internships are available in community development, criminal justice, educational programs and institutions, and governmental agencies. Internships are awarded from 3-15 credits per semester, depending on the extent of student involvement. Prerequisite: Junior/senior status, six semester hours of related coursework at the 200-level or above, department approval

SOCIAL WORK (SOWK)

SOWK 241 Introduction to Social Work 3 cr
Studies the history of social welfare in America, major current social welfare programs, the profession of social work, social service settings and the social work methods of casework, group work and community organization. Prerequisite: SOCI 100

SOWK 340 Inequality and Social Policy 3 cr
Examines social welfare policies and programs from the New Deal to the present analyzing their economic, cultural, historic and political roots. Emphasis on selected issues such as poverty and inequality, healthcare, abuse and neglect, daycare and parental leave. Examines social welfare policies as expressions of American values and political processes and compares American programs to those of other industrialized countries. Special attention paid to the experience of social program recipients. Course attributes: C&FS, SOCJ, WMST. Prerequisite: SOCI 100 or any Self & Society course

SOWK 348 Social Work Skills 3 cr
Focuses on fundamental social work skills such as establishing a helping relationship, interviewing, listening, feedback, summarizing, and problem solving. Explores contracting, professional values, termination work, and social worker roles of mediator, advocate, outreach worker, social broker, and activist. Prerequisite: SOCI 100 or PSYC 100

SOWK 355 Community Organizing 3 cr
Explores community organizing as a means of empowering citizens to make successful changes in the social issues impacting their communities. Involves the study of theories of community organizing and social change and participation in projects offering a chance to learn about community organizing through practice. Course attributes: LDRS. Prerequisite: SOCI 100, recommended SOWK 348

SOWK 380 Women and Health 3 cr
Focuses on issues related to women's health status in the U.S. and around the world. Examines topics such as: female sexuality, reproduction and fertility management, eating disorders, victims of sexual abuse, women as healthcare practitioners, the impact of modern medical technology, and the influence of the women's health movement in encouraging self-responsibility. Course attributes: C&FS, WMST. Prerequisite: SOCI 100 or ANTH 130 or ANTH 140

SOWK 395 Special Topics in Social Work 3 cr
A course or seminar for students who have taken a substantial number of social work/social service courses. Such courses or seminars may explore any of a variety of topics concerning casework, group work, community organization, social planning, social policy or other courses which deal with techniques or theory related to social work/social service practice. Prerequisite: SOCI 100 and additional prereqs to be announced

SOWK 405 Poverty and Place 3 cr
Explores the relationship between poverty and location (both physical and social) in U.S. society. Examines multiple poverty contexts within the U.S. (i.e. American Indian reservations, urban communities, small towns), paying close attention to differences and similarities. Analyzes approaches to poverty reduction from the perspective of people living in each context. Prerequisite: Junior/senior status and SOWK 241 or instructor approval
SOWK 442 Social Casework 3 cr
Examines casework practice theory and methodologies as applied in a variety of social service settings. Focuses on the psychosocial framework of study, assessment and treatment of client problems. Explores casework with special populations such as children, teenagers, and depressed and suicidal clients. Prerequisite: SOWK 348

SOWK 443 Casework with Couples and Families 3 cr
Explores clinical practice with family problems. Examines the ways in which environmental, social, economic, psychological and institutional pressures help create and exacerbate family dysfunction, and the integration of this understanding into skilled intervention with families. Course attributes: C&FS, WMST. Prerequisite: SOWK 348

SOWK 452 Social Work with Youth Offenders 3 cr
Examines research and practice related to youth offenders. The causes of youth offending, as well as prevention and treatment, are examined from a variety of perspectives. Current intervention methods will be discussed, and direct exposure to those methods in practice settings will be provided via field trips, speakers, and media presentations. Course attributes: C&FS. Prerequisite: SOCI 100 or PSYC 100

SOWK 475 Family Violence 3 cr
Examines violence within contemporary American families through the lenses of gender, culture, and age. Emphasis is placed on the physical and sexual abuse of women and children. We explore theory, research, and solutions from the fields of social work, sociology, psychology, and feminism. Course attributes: C&FS, WMST. Prerequisite: SOCI 100 or PSYC 100 and junior/senior status, or instructor approval

SOWK 495 Advanced Special Topics in Social Work 3 cr
Provides advanced social work students with an opportunity to explore advanced topics, current issues, methods, and theories in the field of social work. Prerequisite: SOWK 241 and junior/senior status or instructor approval.

SOWK 499 Teaching Assistant in Social Work 3 cr
Supervised academic class presentation(s), assistance with study sessions and tutorials, attendance at all classes, final paper and other duties negotiated with course instructor. Must have completed a minimum of four (4) courses in the discipline, have a 3.0 overall GPA or better, and a B+ or better in the course. This course can be taken for either pass/fail or traditional letter grading. This course requires department approval prior to enrollment. Prerequisite: Junior/senior status

SOWK 500 Independent Study-Social Work 1 to 3 cr
Open to juniors and seniors who wish to read in a given area or to study a topic in depth under the direction of a social worker. Requires written reports and frequent conferences with the advisor. Prerequisite: Junior/senior status, department approval

SOWK 501 Research Assistant 1 to 3 cr
Students will assist faculty member in conducting original quantitative and/or qualitative research projects. The responsibilities may include collecting archival, ethnographic, interview, or focus group data, working with data sets, or other research activities. This course is repeatable for a maximum of 6 credits. Prerequisite: SOCI 331, junior/senior status, instructor approval

SOWK 540 Social Work Internship 3 to 15 cr
Placement in social or human service agencies. Internships are available in counseling, advocacy, outreach, organizing, planning and the administration of social programs. Students gain field experience under supervision from both agency and departmental personnel. Internships are awarded 3-15 credits per semester, depending upon the extent of student involvement. Prerequisite: Junior/senior status, six semester hours of related courses at the 200-level or above, department approval, SOWK 241
SPANISH (SPAN)

SPAN 101        Elementary Spanish I  3  cr
Introduces spoken and written Spanish, emphasizing comprehension and communication. Classroom time devoted primarily to listening, speaking and some reading. Vocabulary presented and illustrated in meaningful contexts. Lab assignments provide practice in writing, as well as additional opportunities to hear and read Spanish. First half of a one-year course; intended for those who have no prior experience with Spanish. Conducted in Spanish. Prerequisite: None

SPAN 102        Elementary Spanish II  3  cr
Reviews first-semester Spanish and continues the comprehension and oral communication begun in Spanish 101. Intended for those who have already experienced a basic Spanish course. Conducted in Spanish. Course attributes: CLA. Prerequisite: SPAN 101 or equivalent

SPAN 201        Intermediate Spanish I  3  cr
Reviews first-year college Spanish (or high-school equivalent) with a view toward building competence and confidence in students who have been exposed to the basics of the language. Exploration of selected themes in modern Hispanic society, as well as intensive exercises in the oral and written language. Readings, discussions and brief essays on topics related to Hispanic culture. Conducted in Spanish. Prerequisite: SPAN 102 or department approval

SPAN 202        Intermediate Spanish II  3  cr
Continues Spanish 201. Additionally, through the reading of varied texts of wide appeal and interest, students become acquainted with the literature and life experiences of Spanish-speaking peoples. Exploring such elements as the literary content, themes, figures of speech and tone of a text, students are assigned written work of a descriptive or interpretive nature based on such textual aspects of the works studied and discussed. Conducted in Spanish. Prerequisite: SPAN 201 or equivalent

SPAN 300        Spanish Conversation  3  cr
Focuses on the practice of spoken language. Students perfect oral communication skills by practicing idioms and conversational courtesies and improve understanding of spoken language. Prerequisite: SPAN 202 or equivalent

SPAN 301        Advanced Spanish Grammar and Composition  3  cr
Reinforces students’ ability to express themselves in Spanish, both verbally and in writing. Develops students’ awareness of complex syntactical structures, and emphasizes skills in composition and advanced reading comprehension. Conducted in Spanish. Prerequisite: SPAN 202 or equivalent

SPAN 310        Hispanic Civilization  3  cr
Provides a general survey of the history of Spain in the broader context of Mediterranean civilization through the colonial period. Looks at the present-day experience of Hispanics in the United States in the light of the past. Readings, discussions, written summaries, oral reports, brief essays and written examinations. Conducted in Spanish. Course attributes: CRCU. Prerequisite: SPAN 202 or equivalent

SPAN 370        Hispanic Literature in Context  3  cr
Discusses the artistic implications of Iberoamerican literature and develops basic techniques of critical reading and textual analysis. Also reviews literary notions and genres. The reading selection is aimed at fostering class discussion, and provides additional insight for the examination and the interpretation of texts. Conducted in Spanish. Course attributes: CRCU. Prerequisite: SPAN 202 or equivalent

SPAN 390        Special Topics in Hispanic Literature and Film  3  cr
Studies a specific aspect or period of Spanish literature and/or film in depth. Designed to provide advanced work in analysis, interpretation and research in selected areas of study. Course topic is identified by subtitle and may include areas such as Spanish and Latin American Cinema, Postmodernism in the Hispanic World and Contemporary Spanish Poetry. This course is conducted in Spanish (unless otherwise noted) and may be repeated when different topics are offered. Course attributes: CRCU. Prerequisite: SPAN 300, SPAN 301
THEATER (THEA)

THEA 110        Introduction to Stagecrafts  3  cr
Provides a foundation in the practice of technical theatre, preparation for work in scenery, lighting, and costumes. Class projects are designed to reinforce specific technical skills discussed and demonstrated in class. Additionally, the required lab time outside of class provides hands-on experience. Prerequisite: None

THEA 120        Introduction to Performance  3  cr
Introduces the fundamentals of stage performance. Improvisation, relaxation, and character exercises build awareness of skills necessary for successful live performance. Presents basic acting vocabulary/theory. Develops confidence performing in front of others. Includes readings, plays in context, viewing of live theatre, and short writing assignments. Fosters more informed observers of performance experience. Course attributes: CCA. Prerequisite: None

THEA 200        Introduction to Theatre  3  cr
Surveys historical development of world theatre emphasizing western dramatic tradition. Introduces a broad range of theatrical literature and theory within its historical context. Includes class discussions and writing assignments, as well as viewing of live theatre, panel discussions, and critical response sessions. Course attributes: CCA. Prerequisite: None

THEA 210        Drawing for Theatre  3  cr
Familiarizes students with the basic materials and techniques of graphic presentation in scenic, costume, and lighting design for the theatre. Students will be introduced to the basic vocabulary of drawing, rendering and drafting techniques used as communication tools for theatre design and production. Focuses on technical drafting skills, perspective, and drawing the figure. Prerequisite: None

THEA 220        Beginning Acting  3  cr
Sets foundation for the integrated voice, movement and acting training sequence. Draws from diverse sources to develop the actor’s instrument and its potential for stage performance. Beginning with non-verbal exploration and movement study, students progress to character exercises with text. Designed to increase body awareness, expand flexibility and control, reinforce acting vocabulary and theory, and promote understanding of the demands of creating dynamic characters for stage performance. Prerequisite: THEA 120

THEA 230        Stagecraft II: Scene Construction  3  cr
Provides the student with the basic knowledge of stage construction. Familiarizes students with the methods, materials, equipment, concepts and processes involved in the construction of scenery for the theatre. The emphasis of this course will be on the physical process that results in the production of scenery through construction techniques. Hands-on experience will be gained by completing lab hours in the scene shop; assisting in the construction and installation of theatre program season. Prerequisite: THEA 110

THEA 240        Stagecraft II: Costume Construction  3  cr
Provides basic knowledge of costume construction. Familiarizes students with the methods, materials, equipment, concepts and processes involved in the construction of costumes for theatre production. Emphasis of this course will be on the physical process that results in the production of costumes through construction techniques. Hands-on experience will be gained by completing lab hours in the costume shop; assisting in the construction and installation of theatre program season. Prerequisite: THEA 110

THEA 250        Fundamentals of Theatre Design  3  cr
Explores the creative process and the principles and tools of design as they apply to theatrical production. Emphasis will be on script analysis, graphic techniques, and research for and of design. Introduces the student to the vocabulary, fundamental elements and principles of design and how they apply to the theatre experience of scenery, costume and lighting design to include discussion, appreciation and evaluation of theatrical design. Prerequisite: None
THEA 260 Intermediate Acting 3 cr
Continues the integrated voice, movement and acting training sequence from Beginning Acting emphasizing character building. Students explore the acting instrument in greater depth. Movement study connects the voice to the body and then progresses to play analysis from the actor’s point of view, followed by more formal text work. The goal of the course is to gain greater flexibility and control over the instrument and expand understanding of the demands of creating dynamic characters for stage performance. Prerequisite: THEA 220

THEA 271 Play Analysis 3 cr
Introduces the basic principles, techniques and challenges of analyzing plays for theatrical production. Focuses on the process of reading and analyzing plays while developing basic vocabulary of dramatic styles. Develops basic knowledge of principles of dramatic structure through readings from a diverse range of theatre texts from the western canon. Goal is to discover what the playwright has dramatized and how best to realize it on stage clearly, imaginatively and powerfully. Prerequisite: THEA 200

THEA 280 Stagecrafts II: (Topic) 3 cr
Builds on the foundational skills learned in Introduction to Stage Crafts. Familiarizes students with methods, materials, equipment, concepts and processes resulting in the creation of some aspect of theatre production. Hands-on experience will be gained by completing lab hours in a production shop; assisting in creation of Theatre Program productions. Rotating topics may include: Stage Electrics, Stage Properties, Introduction to Sound. Student may repeat enrollment for credit, but may not repeat topics. Prerequisite: THEA 110

THEA 290 Stage Makeup 3 cr
Introduces students to basic makeup vocabulary, materials and techniques. Students will work toward a proficiency in the principles and skills of makeup application including basic corrective/straight makeup, old age, and character makeup in order to communicate aspects of a character to an audience certain information. Prerequisite: None

THEA 310 Design for Theatre (Topic) 3 cr
Studies the process of designing for theatre through play analysis, research, color theory, composition, and the examination of design elements and principles for stage. Design concepts are demonstrated through rendering techniques, drafting or modeling to communicate ideas, cultivating a design aesthetic. Rotating topics may include: Costume Design, Scene Design, Lighting Design and Sound Design. Students may repeat enrollment for credit, but may not repeat topics. Prerequisite: THEA 200, THEA 250

THEA 360 Advanced Acting (Topic) 3 cr
Builds on the foundational skills and concepts acquired from the integrated voice, movement and acting sequence. Students will choose further study to inform their individual development as actors. Topics are offered on a rotating basis and focus on a specialized aspect of acting technique while incorporating advanced research and dramatic analysis. Topics include Shakespeare, Musical Theatre, Realism/Naturalism, and Experimental/Alternative. Students may repeat enrollment for credit, but not topics. Prerequisite: THEA 120, THEA 220

THEA 370 Collaboration 3 cr
Develops practical studio in theatrical collaboration designed for both performance and production students. Develops skills in collaboration across artistic disciplines, offering effective strategies for communication as students create and perform short projects. Offers direct, real-world experience in theatrical collaboration and leadership, allowing the individual to test skills, talents and creative ideas in an environment conducive to both individual and collective artistic growth. Prerequisite: THEA 200, THEA 250, THEA 271

THEA 372 Theatre Practicum 1 cr
Provides practical experience on performance and production related activities for Theatre Program productions during semester. Students may repeat this course for credit. Prerequisite: By audition or interview only
THEA 379        Topics in Theatre Production  3  cr  
Studies in depth a specific aspect of theatre production. Designed to provide advanced experience in materials and techniques used in theatre. Topics are offered on a rotating basis and focus on a specialized aspect of production technique. Topics may include: Historical Patterning, Computer-Aided Drafting, Advanced Lighting Technology, Stage Management. Students may repeat enrollment for credit but may not repeat topics. Prerequisite: THEA 110, THEA 230 or THEA 240

THEA 380        Audition Technique  3  cr  
Introduces the specific techniques and skills necessary to audition for the professional stage with confidence and artistic honesty. This course will focus on the development of audition material from a wide range of styles and genres as well as mastery of cold reading techniques, and practical preparation for the professional world and the business of acting. For the student contemplating a professional theatre career. Prerequisite: Junior/senior status, Theatre Concentration, THEA 220

THEA 381        Theatre History I: Beginnings to 17th Century  3  cr  
Traces the evolution of Western theatre in its social/political context from ancient Greece through the Renaissance. Theatre architecture, styles of staging, and works of dramatic literature are studied in relation to the social and intellectual history of each major era. Prerequisite: THEA 200

THEA 383        Theatre History II: 18th Century to Present  3  cr  
Traces the evolution of Western theatre in its social/political context from the 18th century to the Post-Modern Period. Theatre architecture, styles of staging, and works of dramatic literature will be studied in relation to the social and intellectual history of each major era or artist style. Prerequisite: THEA 200

THEA 470        Directing  3  cr  
Explores the fundamentals of direction for the stage, including analysis, composition and staging. Begins with play analysis from a director’s point of view, followed by exploration of stage composition, then progresses to staging and working with actors. The various exercises culminate in the direction of a short play for public performance. The goal is to increase understanding of the many roles and responsibilities required of the theatre director as artist and collaborator. Prerequisite: THEA 120, THEA 200, THEA 271, THEA 250, THEA 370

THEA 479        Topics in Theatre Performance  3  cr  
Studies in depth a specific aspect of theatre performance. Provides advanced work in analysis, interpretation and research. Primarily for majors in their junior or senior year. Includes topics such as: Accents and Dialects for the Stage, Advanced Directing, Clowns and Comedians, Collaborative Theatre Ensemble, Contact Improvisation, Hip Hop Theatre, Improvisation, Mask Performance, Melodrama, Period Dance for Stage, Physical Comedy, Puppetry, Spoken Word, and Stage Combat. Prerequisite: Instructor approval

TRAVEL (TRVL)

TRVL 300        Travel Course To:  3  cr  
Offers students opportunity to take learning beyond the classroom. These courses involve on-campus instruction and meetings combined with travel to another country/region. Each course is designed to acquaint students with the history, geography, culture and society of other counties/regions. The specific travel course will identify the country/region under study, with a syllabus outlining the travel and course requirements. Prerequisite: Instructor approval

WOMEN, GENDER AND SEXUALITY STUDIES (WGSS)

WGSS 201        Introduction to Women Gender and Sexuality Studies  3  cr  
Explores the historical, social, political, economic, and cultural forces that inform sex, gender, and sexuality within the context of feminist movements. Students learn and engage with concepts and theoretical perspectives found in the field of Women, Gender, and Sexuality Studies. Understand the multiple matrices of power that shape the world and our lived
WGSS 202  Feminist Theory  3  cr
Analyzes and evaluates historical and contemporary feminist works tracing the origins of feminist theories within various local and global contexts. Discuss the development and waves of feminist theory via social and political spheres, women of color feminisms, and intersectional and postmodern forms of feminist theory. Prerequisite: None

WGSS 395  Special Topics in Women Gender and Sexuality Studies  3  cr
Examines in depth a specific topic area in women, gender, and sexuality studies. Provides advanced work in women, gender, and sexuality studies literature, theory, and/or research in a topic area. Content identified by subtitle. Prerequisite: WGSS 201

WGSS 500  Independent Study  1 to 3 cr
Open to juniors or seniors who wish to study in depth a particular topic related to women, gender, and sexuality studies by drawing upon the perspectives of at least two different disciplines (or MCLA departments). An affiliated Women, Gender, and Sexuality Studies Minor faculty member must be the sponsor of the project. Prerequisite: Junior/senior status and WGSS Minor

Course Attribute Key:

C&FS = Child and Family Studies Minor
CAP = Core Capstone Experience
CCA = Core Creative Arts
CHH = Core Human Heritage
CLA = Core Language Arts
CMA = Core Quantitative Reasoning
CRCU = Cross-Cultural Social Justice –Cross Cultural Track
CSS = Core Self & Society
CST = Core Science & Technology
CSTL = Core Science & Technology with lab
CWR = Core Critical Reading, Thinking, and Writing
ENVI = Environmental Studies
HONR = Honors Program
LDRS = Leadership Minor
SOCJ = Cross-Cultural Social Justice – Social Justice Track
WGSS = Women, Gender, and Sexuality Studies
Faculty Listing

BIOLOGY DEPARTMENT

PROFESSOR
Ann Billetz: cell biology, microbiology, parasitology
B.S., Walsh College
M.S., Cleveland State University
Ph.D., Cleveland State University
Anne Goodwin: zoology, animal
physiology, marine biology, and human biology
B.A., Albion College
Ph.D., Harvard University
Peter Hoy: athletic training
B.S., Mercyhurst College
M.S., Old Dominion University
Ph.D., Rocky Mountain University
Jerry Smosky: genetics, immunology, and evolution
B.S., Appalachian State Teachers College
M.S., University of South Carolina
Ph.D., University of South Carolina

ASSOCIATE PROFESSOR
Justin Golub: animal behavior, developmental biology, evolution, and biotechniques
B.S., Union College
M.S., Concordia University
Ph.D., Clark University

ASSISTANT PROFESSOR
Eric Doucette: botany and ecology
B.S., University of Maine
Ph.D., University of Maine
George Hamaoui: microbial ecology
B.A., Ohio Wesleyan University
Ph.D., University of Massachusetts
Katelyn Hatfield: exercise physiology, biomechanics, anatomy & physiology
B.S., University of Nevada, Reno
M.S., University of Texas at Austin
Ph.D., University of Texas at Austin
Nicole Porther: community health education, public health, human biology
B.S., Howard University
M.P.H., Florida International University
Ph.D., Florida International University

INSTRUCTOR
Nicole Marmillo: athletic training
B.S., Massachusetts College of Liberal Arts
M.S., University of Nevada Las Vegas

BUSINESS ADMINISTRATION AND ECONOMICS DEPARTMENT

PROFESSOR
Behzad Khajehzadeh (Ben Kahn): economics, management
B.S., University of Teheran
M.A., University of Albany, SUNY
Chali Nondo: economics
A.S., Community College of Allegheny County
B.S., California University of Pennsylvania
M.B.A., California University of Pennsylvania
Ph.D., West Virginia University
Nancy L. Ovitsky: marketing, economics, information technology
B.A., University of Illinois
M.S., University of Illinois
Ph.D., University of Illinois
Richard Yanow: senior seminar, finance, investing
B.S., Wharton School, University of Pennsylvania
M.B.A., Harvard Business School

ASSOCIATE PROFESSOR
James S. Moriarty: accounting, finance
B.S., American International College
M.B.A., American International College
Thomas Whalen: management, marketing, leadership, culture studies
B.S., U.S. Naval Academy
M.S., Troy University
Ph.D., Gonzaga University

ASSISTANT PROFESSOR
Tara J. Barboza: accounting
B.S., University of Phoenix
M.B.A., Massachusetts College of Liberal Arts

CHEMISTRY DEPARTMENT

PROFESSOR
David M. Levine: instrumental methods, quantum chemistry, physical chemistry
B.S., Tufts University
M.S., University of Southern California
Ph.D., Pennsylvania State University
**ASSOCIATE PROFESSOR**

Carolyn Dehner: biochemistry  
B.S., State University of New York, Geneseo  
Ph.D., University of Notre Dame  

Robert Harris: organic chemistry, inorganic chemistry  
B.S., Virginia Polytechnic Institute and State University  
M.S., Virginia Polytechnic Institute and State University  
Ph.D., Boston College  

**COMPUTER SCIENCE DEPARTMENT**

**ASSOCIATE PROFESSOR**

Mark Cohen: professional software development, object oriented design, multi-tiered software development, computer science theory  
B.S., Lafayette College  
M.S., Drexel University  
Ph.D., Pennsylvania State University  

David Eve: hardware, networking, information systems, entrepreneurship  
B.A., College of Wooster  
M.Ed., University of Massachusetts, Amherst  
Ed.D., University of Massachusetts, Amherst  

**ASSISTANT PROFESSOR**

Xin Shen: electrical engineering, digital signal processing, computational imaging  
B.S., Xidian University  
M.S., Xidian University  
M.S., Doshisha University  
M.S., University of Connecticut  
Ph.D., University of Connecticut  

Guodong Wang: performance optimization on high-speed networks; security and communications on smart grid; control, management, and services on SDN and IoTs  
B.S., Henan Polytechnic University  
M.S., University of Chinese Academy of Science  
Ph.D., University of Chinese Academy of Science  

**EDUCATION DEPARTMENT**

**PROFESSOR**

Dale Fink: early childhood education, special education  
A.B., Harvard College  
M.Ed., Antioch University of Open Education  
Ph.D., University of Illinois at Urbana-Champaign  

Ann C. Scott: literacy, multicultural education, language acquisition  
B.A., Smith College  

**ASSOCIATE PROFESSOR**

M.Ed., University of Massachusetts, Amherst  
Ed.D., University of Massachusetts, Amherst  

Nicholas Stroud: student and teacher attitudes toward science; science pedagogy in and out of classrooms  
B.S., University of Wisconsin, Madison  
M.A., Stonybrook University  
Ph.D., Teachers College Columbia University  

**ASSISTANT PROFESSOR**

Margaret Clark: early childhood education, curriculum and theory, early literacy development.  
B.A., Williams College  
M.A., Sonoma State University  
Ph.D., University of California, Santa Cruz  

Clio Stearns: education, childhood studies, curriculum theory, elementary teacher education  
A.B., Bryn Mawr College  
M.S. Ed., Bank Street College of Education  
Ph.D., University of New Hampshire  

**INSTRUCTOR**

Marianne Young  
B.A., University of Rhode Island  
M.A., Vermont College of Norwich University  

**ENGLISH & COMMUNICATIONS DEPARTMENT**

**PROFESSOR**

Michael Birch: television production, mass media, intercultural communications, writing  
B.A., King Alfred's College  
M.A., University of Lancaster  
Ph.D., University of Liverpool  

Paul E. LeSage: journalism, business writing, literature  
B.A., Norwich University  
M.A., Idaho State University  
Ph.D., University of Massachusetts, Amherst  

Mark D. Miller: American literature, poetry, Robert Penn Warren  
B.A., University of Houston  
M.A., University of Houston  
Ph.D., University of Texas  

**ASSOCIATE PROFESSOR**

Amber Engelson: writing studies; global literacies; feminist rhetorics; writing across curriculum  
A.B., Occidental College  
M.A., University of Massachusetts, Amherst  
Ph.D., University of Massachusetts, Amherst  

Zachary Finch: American literature, creative writing,
contemporary poetry and poetics  
B.A., Dartmouth College  
M.F.A., Warren Wilson College  
Ph.D., University of Buffalo  
**Jenna Sciuto:** Global Anglophone Literature and Language  
B.A., Brown University  
M.A., Boston University  
Ph.D., Northeastern University

**ASSISTANT PROFESSOR**  
**Caren Beilin:** creative writing; non-fiction  
B.A., Columbia College Chicago  
M.F.A., University of Montana  
Ph.D., University of Utah  
**Shawn McIntosh:** Digital journalism, social production communities, media studies, strategic communications  
B.S., University of Idaho  
M.S., Columbia University  
Doctoral Candidate, Rutgers University  
**Hannah Noel:** critical ethnic studies, digital humanities, cultural and media studies, American studies  
B.A., Williams College  
M.A., University of Michigan  
Ph.D., University of Michigan  
**Victoria Papa:** 20th-century and contemporary literatures, modernism, gender and sexuality studies, visual culture and new media  
B.A., St. Anselm College  
M.A., University of Albany, SUNY  
Ph.D., Northeastern University

**ENVIRONMENTAL STUDIES DEPARTMENT**

**PROFESSOR**  
**A. Donald Hyers:** earth science  
B.A., Elmhurst College  
M.A., Western Michigan University  
Ph.D., Arizona State University  
**Daniel Shustack:** wildlife biology  
B.S., Pennsylvania State University  
M.S., University of Vermont  
Ph.D., Ohio State University  
**Elena Traister:** stream ecology  
B.A., Williams College  
M.A., Yale University  
Ph.D., University of New Hampshire

**ASSISTANT PROFESSOR**  
**Michael Petrovich:** Theatre, Costume Design and Technologies  
B.A., University of Redlands, Johnston Center for Integrative Studies  
M.F.A., University of Washington  
**Jerome Socolof:** performing arts management and arts policy  
B.M. SUNY Potsdam  
M.A. Ohio State University  
Ph.D. Ohio State University  
**Jeremy Winchester:** theater, scenic, and lighting  
B.F.A., University of Oklahoma  
M.F.A., University of Washington

**FINE AND PERFORMING ARTS DEPARTMENT**

**PROFESSOR**  
**Christine Condaris:** vocal ensembles, ethnomusicology, musicology  
B.A., Wesleyan University  
M.A., New York University  
Ph.D., Wesleyan University  
**Michael Ditthay:** music theory/composition  
B.M., Southern Illinois University  
M.M., University of Missouri  
D.Mus., Northwestern University  
**Lisa Donovan:** arts management, arts education, arts integration, arts based research  
B.A., SUNY Oneonta  
M.S., Boston University  
Ph.D., Lesley University  
**Melanie Mowinski:** drawing, books arts, print making and design  
B.S., Case Western Reserve University  
M.A., Yale University  
M.F.A., University of the Arts, Philadelphia  
**Gregory Scheckler:** visual art, painting and digital photography  
B.A., University of Notre Dame  
B.F.A., Washington University  
M.F.A., Utah State University

**ASSOCIATE PROFESSOR**  
**Diane Scott:** fine arts entrepreneurship, strategic management in arts and non-profit organizations, leadership  
B.A., Wichita State University  
M.B.A. Wichita State University  
**Laura Standlee:** acting, directing, play analysis  
B.A., University of Central Oklahoma  
M.F.A., University of California, Irvine

**ASSISTANT PROFESSOR**  
**Michaela Petrovich:** Theatre, Costume Design and Technologies  
B.A., University of Redlands, Johnston Center for Integrative Studies  
M.F.A., University of Washington  
**Jerome Socolof:** performing arts management and arts policy  
B.M. SUNY Potsdam  
M.A. Ohio State University  
Ph.D. Ohio State University  
**Jeremy Winchester:** theater, scenic, and lighting  
B.F.A., University of Oklahoma  
M.F.A., University of Washington
HISTORY AND POLITICAL SCIENCE DEPARTMENT

PROFESSOR
Anthony Daly: European history, world civilization
B.A., University of Toronto
M.A., Boston College
Ph.D., Boston College
Kailai Huang: Asian history, world civilization
B.A., Hebei University, Baoding, China
M.A., Binghamton University, Beijing, China
Ph.D., Binghamton University

ASSISTANT PROFESSOR
David Cupery: Latin America, Sub-Saharan Africa, international relations, political and economic development, political economy, civil conflict
B.A., Centre College
Masters in International Sciences and Diplomacy, Universidad de Guayaquil, Ecuador
M.A., University of Colorado, Boulder
Ph.D., University of Colorado, Boulder
Amanda Kleintop: U.S. history to 1877; U.S. civil war and reconstruction; slavery and emancipation in the Atlantic world; historical methods
B.A., University of Richmond
M.A., Northwestern University
Ph.D., Northwestern University
Samantha Pettye: American politics; women and politics; state and local politics; research methods
B.A., University of Massachusetts, Dartmouth
M.A., University of Rhode Island
Ph.D., University of North Texas

MATHEMATICS DEPARTMENT

PROFESSOR
Fredricka Bennett: graph theory, history of mathematics, probability theory
B.A., Drew University
M.A., University of Massachusetts, Amherst
Ph.D., University of Massachusetts, Amherst
Christopher L. Thomas: geometric group theory
B.S., University of Massachusetts, Amherst
Ph.D., Tufts University

ASSOCIATE PROFESSOR
Elizabeth Hartung: graph theory, modeling, combinatorics
B.S., Indiana University of Pennsylvania
M.S., Syracuse University
Ph.D., Syracuse University

ASSISTANT PROFESSOR
Erin Kiley: applied mathematics, mathematical modelling, computational electromagnetics
B.S., University of New Hampshire
M.S., Worcester Polytechnic Institute
Ph.D., Worcester Polytechnic Institute

PHILOSOPHY/ MODERN LANGUAGES/INTERDISCIPLINARY STUDIES DEPARTMENT

PROFESSOR
David Braden-Johnson: epistemology and metaphysics, ethics, aesthetics
B.A., Georgetown University
Ph.D., University of Massachusetts, Amherst
Susan Edgerton: curriculum theory, social justice
B.A., Louisiana Tech University
M.S., Louisiana Tech University
Ph.D., Louisiana State University
Paul Nnodim: German philosophy, social, political and legal philosophy, ethics
B. Phil. Pontifical Urbanian University, Rome
Ph.D., Johannes Gutenberg University, Mainz, Germany
Graziana Ramsden: contemporary Hispanic novel and film, gender theory, second language acquisition
M.A., University of Venice
Ph.D., University of California, Santa Barbara
Matthew R. Silliman: social and political philosophy, moral theory, philosophy of education
B.A., Earlham College

FREEL LIBRARY

LIBRARIAN
Pamela Contakos
B.A., Marlboro College
M.L.S., Syracuse University

ASSOCIATE LIBRARIAN
Kate Flower
ASSOCIATE PROFESSOR
Mariana Bolivar Rubin: Spanish, 20th and 21st Centuries
Latin American/Caribbean literature, gender and film theory
B.A., Colorado State University, Fort Collins.
M.A., Colorado State University, Fort Collins
Ph.D., University of Colorado, Boulder

Rita Nnodim: cross-cultural and transnational studies, African and South Asian studies, literature and film
M.A., Johannes Gutenberg University Mainz, Germany
Ph.D., University of Birmingham, England

ASSOCIATE PROFESSOR
Guangzhi Huang: global urban history, Chinese urban cultures, critical race studies
B.A., Guangdong University of Foreign Studies
M.A., St. Louis University
Ph.D., University at Buffalo

ASSISTANT PROFESSOR
Paul Amy
B.S., Union College
M.S., SUNY, Albany
Ph.D., Rensselaer Polytechnic Institute
Kebra Ward: experimental optics
B.S., University of Southern California
M.S., Lehigh University
Ph.D., Lehigh University

PSYCHOLOGY DEPARTMENT

PROFESSOR
Maria Bartini: peer relations in childhood and adolescence, school bullying, gender development
B.S., College of William & Mary
M.S., University of Georgia
Ph.D., University of Georgia

Thomas Byrne: behavior analysis, biological psychology,
drugs and human behavior
B.A., University of Florida
M.A., Western Michigan University
Ph.D., Western Michigan University

ASSOCIATE PROFESSOR
Deborah A. Foss: human sexuality, research methods, social diversity
B.A., University of Massachusetts, Dartmouth
Ph.D., University of Albany, SUNY

ASSISTANT PROFESSOR
Sara Steele: technology and cognition, sex differences in spatial ability
B.S., Kutztown University
M.A., The University of Alabama
Ph.D., University of Alabama

Joshua Uhalt
B.A., California State University, Bakersfield
M.A., California State University, Los Angeles
Ph.D., New Mexico State University
Ruby Vega: Learning and motivation, socially shared regulation of learning in small group formats
B.A., University of Arizona
M.A., University of Arizona
Ph.D., University of Arizona

SOCIOLOGY/ANTHROPOLOGY/ SOCIAL WORK DEPARTMENT

PROFESSOR
Ingrid Castro: children and youth, race, gender, and class, education, cinema studies, qualitative methods
B.A., University of Delaware
M.A., Northeastern University
Ph.D., Northeastern University

Jennifer Zoltanski: social inequality, criminology, genocide, sociology of happiness
B.A., University of Denver
ASSOCIATE PROFESSOR
Kerri Leyda Nicoll: poverty & inequality, social policy, community and civic engagement
B.A., Connecticut College
M.Div., Princeton Theological Seminary
M.S.W., University of Pennsylvania
Ph.D., University of Michigan

ASSISTANT PROFESSOR
Travis Beaver: sociology of gender, men and masculinities, sexualities, social theory
B.A., The University of Texas at Austin
M.A., The University of Texas at Austin
Ph.D., The University of Texas at Austin
Anna Jaysane-Darr: community and global health, anthropology of refugees, gender roles and culture
B.A., New York University
M.A., University of London
Ph.D., Brandeis University
Mohamad Junaid: political anthropology, social movements, visual anthropology, South Asia
B.A., Aligarh Muslim University, Infis
M.A., Jawaharlal Nehru University, India
M.Phil., Jawaharlal Nehru University, India
Ph.D., City University of New York, Graduate Center
